

Submission ID: 10619

Dear Planning Inspectorates

Date: 12.7.2022

Your Ref: EN010106

My Unique Reference: 20030556

I am a Freckenham resident and interested party.

I feel it would be unfair to allow The Preliminary Meeting to START before Mid September 2022. Me and many others will not be able to scrutinised Sunnica's final scheme design and allow the time to submit Written Representation before your proposed date of 30th August 2022.

Two suggested locations for the ExA to visit, both are public roads:-

1. FRECKENHAM, The Pound JUNCTION on B1102 Road The Street / Elms Road / Mildenhall Road, part narrow road without footpath. Is a busy hazardous section of road. Sunnica's scheme proposes large vehicles, and transportation of wide and high loads to use this junction.
2. FOUR CROSS BRIDGE (close to Four Ways Farm), junction serving West Row Road Freckenham, Isleham Road Worlington, Beck Road Isleham, Freckenham Road West Row. From all four directions the roads and apex are narrow, with Beck Road Isleham and Isleham Road Worlington incline approaches requiring extreme caution. Sunnica's scheme proposes large vehicles and the transportation of wide and high loads to use this junction.

Thank you.

Peter Knowles
