The Examination Timetable including the public examination meeting on 28th July and the written representation deadline of August 30th do not take into account the ability of community to respond or participate:

School holiday periods, childcare required to attend, family holidays etc

Local democratic processes - Parish Councils do not meet in August, local authority committee schedules are fixed around summer recesses.

This feels like another attempt by Sunnica to reduce consultation and I regret appears the the Examining Authority are favouring the developer, keen to keep this application moving, while yet again prejudicing community engagement.

: the first open meeting is the first week of school holidays prejudices the community
