Dear Sirs

Sunnica Development Consent Order Application Timetable
Your Ref: EN010106
Unique ID: 20031342

I am responding to the letter dated 28th June concerning the arrangements for the Preliminary Meeting and Proposed Examination Timetable.

I would like to attend the meeting in person.

Having considered the proposed examination timetable I think that the deadline for Written Representations (WR) is too short a timeframe especially as this comes right in the middle of the holiday season. As a consequence, the date of 30th August should be put back by at least one month to the end of September 2022 for the following reasons.

I am aware that there are professional advisers assisting key local bodies involved and of the difficulties this tight timetable will cause them. This will hinder fair and proper representation.

Furthermore, the Applicant's DCO Application has not been finalised. It is only fair that one should be provided the time to consider this in detail when it is submitted so one can adequately deal with the material alterations .

As consequence of the above, the other timelines scheduled for 17th August and 30th August should also be extended in line with the end of September deadline. They are listed below:

17th August

1. Comments on Relevant Representations (RR)
2. Summaries of RR's exceeding 1,500 words

30th August

1. Initial Statements of Common Ground
2. Statement of Commonality
3. Responses to ExA's written questions
4. Responses to comments on RR's

[REDACTED]

5. Comments on Applicants draft itinerary
6. Comments on additional submissions

Open Floor Hearings

I would also like to register for the Open Floor Hearing.

Please confirm receipt of this email.

Yours faithfully

Peter Maxwell
