00:00:00.300 --> 00:00:01.100  
Right. Good morning, everyone.

1

00:00:03.200 --> 00:00:03.700  
10:00

2

00:00:04.500 --> 00:00:07.400  
Well, welcome to this hearing which is now open.

3

00:00:08.500 --> 00:00:11.200  
Can I confirm that everybody can hear me clearly?

4

00:00:12.900 --> 00:00:13.600  
Good. Thank you very much.

5

00:00:15.200 --> 00:00:16.800  
I'm getting some feedback from

6

00:00:18.500 --> 00:00:21.200  
close to me as well that's coming from.

7

00:00:23.800 --> 00:00:28.400  
Thank you for your patience. Everyone. The preliminary

8

00:00:26.400 --> 00:00:30.200  
meeting is now

9

00:00:29.200 --> 00:00:30.800  
open again.

10

00:00:32.400 --> 00:00:35.400  
Can I confirm with the technicians that the live streaming

11

00:00:35.400 --> 00:00:38.400  
of the events is commenced if you somebody could signal

12

00:00:38.400 --> 00:00:40.800  
that the live streaming is is working.

13

00:00:42.900 --> 00:00:43.500

There's thank you.

14

00:00:45.400 --> 00:00:48.100

For those people watching the live stream. Should we meet with

15

00:00:48.100 --> 00:00:51.600

any problem during proceedings this morning? We will

16

00:00:51.600 --> 00:00:54.300

have to stop the live stream in order to give us

17

00:00:54.300 --> 00:00:55.600

clear recording files.

18

00:00:56.700 --> 00:00:59.400

If that happens, you'll need to refresh your browser page

19

00:00:59.400 --> 00:01:02.400

to view the restarted stream and I'll

20

00:01:02.400 --> 00:01:04.500

remind you of this again. Should we need to adjourn?

21

00:01:06.300 --> 00:01:09.400

So to begin thank you for attending this preliminary meeting for

22

00:01:09.400 --> 00:01:12.700

the application made by Sonica limited whom we

23

00:01:12.700 --> 00:01:14.700

will refer to as the applicant.

24

00:01:15.400 --> 00:01:19.200

For an order granting development consent for the Sonica solar

25

00:01:18.200 --> 00:01:19.500

farm project.

26

00:01:21.400 --> 00:01:24.600

My name is Graham Keene. I'm a planning inspector and

27

00:01:24.600 --> 00:01:28.200

examining inspect of national infrastructure projects under

28

00:01:27.200 --> 00:01:30.800

solicitor employed by the planning inspectorate.

29

00:01:31.700 --> 00:01:33.700

also specialized in rights of way work

30

00:01:34.400 --> 00:01:37.400

I've been appointed by the Secretary of State for leveling up housing and

31

00:01:37.400 --> 00:01:40.400

communities to be the lead member of the panel to examine

32

00:01:40.400 --> 00:01:43.800

this application. The development proposed is

33

00:01:43.800 --> 00:01:46.700

described as excuse me.

34

00:01:48.400 --> 00:01:51.400

As the construction operation maintenance and

35

00:01:51.400 --> 00:01:54.800

decommissioning of a Generating Station with

36

00:01:54.800 --> 00:01:57.200

a gross electrical output capacity of

37

00:01:57.200 --> 00:02:00.400

over 50 megawatts comprising ground

38

00:02:00.400 --> 00:02:03.500

mounted solar photovoltaic PV

39

00:02:03.500 --> 00:02:06.700

panel arrays a battery energy storage system

40

00:02:06.700 --> 00:02:09.200  
with a growth storage capacity of

41

00:02:09.200 --> 00:02:10.500  
over 50 megawatts.

42

00:02:11.200 --> 00:02:15.100  
Connection to the UK electricity transmission system and

43

00:02:14.100 --> 00:02:17.500  
other Associated and ancillary development.

44

00:02:19.600 --> 00:02:22.700  
I'll now ask the other members of the panel to introduce themselves.

45

00:02:24.600 --> 00:02:25.700  
Thank you, Mr. Keane.

46

00:02:32.800 --> 00:02:35.200  
Right, we better do that now.

47

00:02:36.500 --> 00:02:39.200  
Okay, I'm I'm afraid we'll have

48

00:02:39.200 --> 00:02:42.300  
to pause again because the live streaming I'm told isn't isn't  
something

49

00:02:42.300 --> 00:02:45.700  
running yet. So hopefully that sorted fairly

50

00:02:45.700 --> 00:02:48.300  
quickly. So we will we will pause

51

00:02:48.300 --> 00:02:52.000  
again for a few minutes to see whether that can

52

00:02:51.000 --> 00:02:52.900  
materialize.

53

00:02:54.100 --> 00:02:56.500

Going to do in the bean time. Sorry.

54

00:02:58.200 --> 00:03:01.000

What I'm going to do in the meantime is ask the other

55

00:03:01.400 --> 00:03:04.500

members of the panel to introduce themselves to the audience here

56

00:03:04.500 --> 00:03:07.400

this morning, and I'll repeat the process once we are

57

00:03:07.400 --> 00:03:10.100

live streaming. So and then after

58

00:03:10.100 --> 00:03:13.400

that we'll we will take a formal adjournment

59

00:03:13.400 --> 00:03:17.100

to sort this out. So going to introduce yourself.

60

00:03:16.100 --> 00:03:18.800

Thank you, Mr. Keane.

61

00:03:19.300 --> 00:03:20.000

Good morning, everyone.

62

00:03:21.500 --> 00:03:24.400

I'm guy Rigby. I'm a chartered civil engineer

63

00:03:24.400 --> 00:03:27.900

and a member of a pool of qualified persons

64

00:03:27.900 --> 00:03:30.900

eligible to serve as any summoning

65

00:03:30.900 --> 00:03:31.300

inspector.

66

00:03:32.300 --> 00:03:35.100

I'm appointed to the panel and employed by

67

00:03:35.100 --> 00:03:37.600

the planning inspector on a fixed term contract.

68

00:03:38.500 --> 00:03:38.700

Thank you.

69

00:03:39.700 --> 00:03:42.800

Thank you and good morning everyone. I'm Karen Taylor.

70

00:03:42.800 --> 00:03:45.700

I'm a chartered Town planner and a chartered member

71

00:03:45.700 --> 00:03:48.600

of the landscape Institute like Mr. Rigby.

72

00:03:48.600 --> 00:03:51.600

I'm a member of a pool of qualified persons eligible

73

00:03:51.600 --> 00:03:54.600

to serve as an examining inspector. Now. I'm

74

00:03:54.600 --> 00:03:57.900

also appointed to the panel and employed by the planning inspectorate

75

00:03:57.900 --> 00:04:00.000

on a fixed term contract.

76

00:04:02.200 --> 00:04:05.400

Thank you very much together. We constitute the examining Authority for

77

00:04:05.400 --> 00:04:08.500

this application and will be reporting to the Secretary of

78

00:04:08.500 --> 00:04:11.400

State for business energy and Industrial strategy with the

79

00:04:11.400 --> 00:04:14.200

recommendation as to whether the development consent order should be made.

80

00:04:14.200 --> 00:04:17.100  
So unless I

81

00:04:17.100 --> 00:04:19.000  
guess a signal that the live streaming is now.

82

00:04:19.700 --> 00:04:22.400  
Up and working which I don't think it

83

00:04:22.400 --> 00:04:23.100  
is great.

84

00:04:24.500 --> 00:04:28.700  
No, right. Well, we'll have to take another shorter

85

00:04:27.700 --> 00:04:30.800  
German time afraid. So will a

86

00:04:30.800 --> 00:04:33.500  
June now, it's 10 past 12 and we will

87

00:04:33.500 --> 00:04:36.800  
adjourn to our two sorry 12 minutes.

88

00:04:39.700 --> 00:04:42.300  
And 12 minutes past 10. We'll Aden

89

00:04:42.300 --> 00:04:46.300  
until half past 10 or unless we're

90

00:04:46.300 --> 00:04:49.300  
able to get live streaming before then. Thank you.

91

00:04:50.100 --> 00:04:54.500  
Excellent. Thank you for your patients everyone. It's 10:30 in

92

00:04:53.500 --> 00:04:57.500  
the preliminary meeting is reconvened.

93

00:04:58.700 --> 00:04:58.900  
now

94

00:04:59.900 --> 00:05:02.800  
for the benefits of those who have joined us through

95

00:05:02.800 --> 00:05:04.300  
live streaming.

96

00:05:05.100 --> 00:05:06.300  
I will.

97

00:05:07.500 --> 00:05:10.600  
welcome you to this preliminary meeting and

98

00:05:12.500 --> 00:05:13.400  
go through the

99

00:05:14.900 --> 00:05:18.500  
Description of the development this is

100

00:05:18.500 --> 00:05:19.700  
the subject of this application.

101

00:05:20.500 --> 00:05:24.200  
The construction operation maintenance and decommissioning of

102

00:05:23.200 --> 00:05:26.400  
the Generating Station with the gross electrical

103

00:05:26.400 --> 00:05:29.900  
output capacity of over 50 megawatts comprising ground

104

00:05:29.900 --> 00:05:33.000  
mounted solar photovolta PV

105

00:05:32.500 --> 00:05:35.600  
panel arrays a battery energy storage

106

00:05:35.600 --> 00:05:38.500  
system with the growth storage capacity of over 50

107  
00:05:38.500 --> 00:05:41.800  
megawatts connection to the UK electricity transmission

108  
00:05:41.800 --> 00:05:44.900  
system and other Associated ancillary

109  
00:05:44.900 --> 00:05:45.200  
development.

110  
00:05:46.800 --> 00:05:49.400  
My name is Graham Keen. I'm a planning inspector and

111  
00:05:49.400 --> 00:05:52.000  
an examining inspector for National infrastructure projects.

112  
00:05:52.700 --> 00:05:56.000  
Under solicitor employed by planning inspectorate. I

113  
00:05:55.200 --> 00:05:58.600  
also specialize in rights of way work. I've been

114  
00:05:58.600 --> 00:06:01.800  
appointed by the Secretary of State for leveling up housing and  
communities

115  
00:06:01.800 --> 00:06:04.700  
to be the lead member of this panel to examine this application.

116  
00:06:05.600 --> 00:06:08.900  
And I'll now ask the other members the panel to introduce themselves

117  
00:06:08.900 --> 00:06:11.000  
the benefit of live streaming audience.

118  
00:06:12.500 --> 00:06:13.600  
Thank you, Mr. Keane.

119  
00:06:14.200 --> 00:06:14.900

Good morning, everyone.

120

00:06:16.200 --> 00:06:19.700

I'm guy Rigby. I'm a charter civil engineer and

121

00:06:19.700 --> 00:06:23.400

a member of a pool of qualified persons eligible to

122

00:06:23.400 --> 00:06:25.000

serve as an examining inspector.

123

00:06:26.100 --> 00:06:30.200

I'm appointed to this panel unemployed by the planning inspectorates  
on

124

00:06:29.200 --> 00:06:31.100

the fixed term contract.

125

00:06:37.500 --> 00:06:41.100

Term planner and the chartered member of the landscape Institute  
like

126

00:06:40.100 --> 00:06:43.100

Mr. Rigby. I'm a member of a pool of

127

00:06:43.100 --> 00:06:46.700

qualified persons eligible to serve as an examining inspector

128

00:06:46.700 --> 00:06:49.500

and I am also appointed to this panel and

129

00:06:49.500 --> 00:06:52.200

employed by the planning inspectorate on a fixed

130

00:06:52.200 --> 00:06:53.000

term contract.

131

00:06:54.500 --> 00:06:57.500

Thank you. So together. We constitute the examining Authority

132

00:06:57.500 --> 00:07:00.300

for this application will be reporting to

133

00:07:00.300 --> 00:07:03.900

the Secretary of State for business energy and Industrial strategy

134

00:07:03.900 --> 00:07:06.000

with a recommendation as to whether

135

00:07:06.300 --> 00:07:08.300

the development consent order should be made.

136

00:07:09.400 --> 00:07:12.700

The case managers for this project are to my

137

00:07:12.700 --> 00:07:16.400

right Meshell Gregory and Michelle

138

00:07:15.400 --> 00:07:18.800

Gregory is to my right and Louise haraway

139

00:07:18.800 --> 00:07:20.800

is where is Louise?

140

00:07:21.900 --> 00:07:25.000

This is right. Oh,

141

00:07:24.200 --> 00:07:25.400

there you are.

142

00:07:26.200 --> 00:07:29.300

Right, okay to to the end of

143

00:07:29.300 --> 00:07:30.500

the room to my left.

144

00:07:32.200 --> 00:07:35.700

They're supported here today by the case team located at

145

00:07:35.700 --> 00:07:38.800

the back. And Mr. Jake Stevens

146

00:07:38.800 --> 00:07:40.800  
is providing support remotely.

147

00:07:41.900 --> 00:07:44.800  
These are the members of the case team whom you're

148

00:07:44.800 --> 00:07:47.100  
likely to come into contact with during the course of

149

00:07:47.100 --> 00:07:48.000  
the examination.

150

00:07:48.900 --> 00:07:51.600  
If you have any questions or queries about the examination

151

00:07:51.600 --> 00:07:54.100  
process or the technology, we are

152

00:07:54.100 --> 00:07:57.300  
using for Blended or virtual events. They should be the

153

00:07:57.300 --> 00:07:58.200  
first point of contact.

154

00:07:59.200 --> 00:08:02.300  
Their contact details can be found at the top of any letters you

155

00:08:02.300 --> 00:08:02.900  
have received.

156

00:08:03.900 --> 00:08:07.000  
or on the project page of the national infrastructure website

157

00:08:08.100 --> 00:08:11.700  
Please do not hesitate to contact a member of the case team if

158

00:08:11.700 --> 00:08:14.400  
you need any help at today's events or with

159

00:08:14.400 --> 00:08:15.100

technology.

160

00:08:16.900 --> 00:08:19.400

So this is a blended event comprising an

161

00:08:19.400 --> 00:08:22.500

in-person meeting as well as being held on the Microsoft

162

00:08:22.500 --> 00:08:25.500

teams platform. It's being live

163

00:08:25.500 --> 00:08:28.700

streamed and recorded for those people observing all participating

164

00:08:28.700 --> 00:08:29.500

through teams.

165

00:08:30.700 --> 00:08:33.800

Therefore to minimize background noise. Can you

166

00:08:33.800 --> 00:08:37.100

please make sure that you stay muted unless

167

00:08:36.100 --> 00:08:38.000

you are speaking.

168

00:08:39.200 --> 00:08:42.500

If you are participating virtually and wish to

169

00:08:42.500 --> 00:08:44.800

speak at the relevant point in the proceedings.

170

00:08:45.700 --> 00:08:48.300

Please use the Microsoft teams hands up

171

00:08:48.300 --> 00:08:48.800

function.

172

00:08:50.600 --> 00:08:53.000

There may be a delay before we see it.

173

00:08:54.100 --> 00:08:57.700

So, please wait to be invited to speak or ask

174

00:08:57.700 --> 00:08:59.700

to speak at the appropriate time.

175

00:09:00.600 --> 00:09:03.500

Alternatively, please turn on your camera

176

00:09:03.500 --> 00:09:06.000

so that we can see that you wish to speak.

177

00:09:08.200 --> 00:09:11.500

I should also remind people that the chat function

178

00:09:11.500 --> 00:09:14.500

on Microsoft teams will not work. So please

179

00:09:14.500 --> 00:09:17.700

don't try to use this to ask any questions or post

180

00:09:17.700 --> 00:09:18.600

any comments.

181

00:09:19.700 --> 00:09:22.500

If you don't manage to ask your question or raise your

182

00:09:22.500 --> 00:09:25.700

point at the relevant parts of the meeting, there will

183

00:09:25.700 --> 00:09:28.200

be an opportunity for you to do so under the

184

00:09:28.200 --> 00:09:30.800

last item on the agenda any other matters?

185

00:09:33.200 --> 00:09:36.700

Now because the digital recording is that we make are retained

186

00:09:36.700 --> 00:09:39.100

and published. They form a public

187

00:09:39.100 --> 00:09:43.300

record that can contain your personal information and

188

00:09:42.300 --> 00:09:45.700

which the general data protection regulation

189

00:09:45.700 --> 00:09:46.300

applies.

190

00:09:48.100 --> 00:09:52.000

The practice of the planning inspector it is to retain and publish recordings

191

00:09:51.300 --> 00:09:54.400

for five years from the Secretary of

192

00:09:54.400 --> 00:09:55.200

State's decision.

193

00:09:56.300 --> 00:09:59.400

So if you take part in today's proceedings, you

194

00:09:59.400 --> 00:10:03.700

should understand that you will be livestreamed and recorded

195

00:10:03.700 --> 00:10:06.400

and the digital recording will be published.

196

00:10:07.900 --> 00:10:10.100

And therefore if you do not want your image to

197

00:10:10.100 --> 00:10:12.500

be recorded. You should switch off your camera.

198

00:10:15.200 --> 00:10:18.400

You feel that personal information is necessary. We would

199

00:10:18.400 --> 00:10:21.300

ask you to please provide this in a written

200

00:10:21.300 --> 00:10:24.900

document that we can redact before publication.

201

00:10:26.300 --> 00:10:29.600

There's only one have any questions on that specific matter.

202

00:10:32.600 --> 00:10:32.900

Thank you.

203

00:10:34.200 --> 00:10:37.400

So I'll go through some preliminary matters

204

00:10:37.400 --> 00:10:40.400

and housekeeping matters. If anyone needs the hearing

205

00:10:40.400 --> 00:10:43.400

Loop facilities, I'm told that they are available. Please

206

00:10:43.400 --> 00:10:46.400

see one of the technicians at the back of

207

00:10:46.400 --> 00:10:46.600

the room.

208

00:10:48.300 --> 00:10:51.200

there are no fire alarm drills or tests today, so

209

00:10:53.600 --> 00:10:55.100

I'm goes off. It'll be the real thing.

210

00:10:56.100 --> 00:10:59.700

And the event of alarm, please exit the building

211

00:10:59.700 --> 00:11:02.900

through the main entrance and congregate in

212

00:11:02.900 --> 00:11:03.700

the car Park area.

213

00:11:06.200 --> 00:11:09.600

Toilets are located by the reception point in

214

00:11:09.600 --> 00:11:10.000

the hotel.

215

00:11:11.300 --> 00:11:14.400

We'll take a short break probably around

216

00:11:14.400 --> 00:11:17.700

11:30 if it appears that we need to continue much

217

00:11:17.700 --> 00:11:18.900

beyond that time.

218

00:11:20.300 --> 00:11:24.100

And for those sitting in the seats behind

219

00:11:23.100 --> 00:11:26.200

the table here if you

220

00:11:26.200 --> 00:11:29.900

do wish to speak there will be a roving microphone. So please

221

00:11:29.900 --> 00:11:33.700

wait until one of the officers

222

00:11:32.700 --> 00:11:35.900

one by colleagues provides that

223

00:11:35.900 --> 00:11:36.200

to you.

224

00:11:39.800 --> 00:11:43.100

It's important for recording and review purposes that

225

00:11:42.100 --> 00:11:45.200

before you speak. And each

226

00:11:45.200 --> 00:11:48.100

time. You speak please make sure you state your

227

00:11:48.100 --> 00:11:49.900  
name and whom you represent.

228

00:11:52.200 --> 00:11:55.300  
So moving on your all here today because you're

229

00:11:55.300 --> 00:11:58.500  
one of the following categories you will be either the

230

00:11:58.500 --> 00:12:03.000  
applicant or representatives represent the

231

00:12:02.300 --> 00:12:05.500  
local authorities or neighboring authorities

232

00:12:05.500 --> 00:12:09.000  
bodies that are statutory parties or

233

00:12:08.600 --> 00:12:11.700  
you may have sent in a relevant representation and

234

00:12:11.700 --> 00:12:14.100  
therefore have become an interested party.

235

00:12:14.900 --> 00:12:17.300  
You may be an individual or a body affected by

236

00:12:17.300 --> 00:12:21.200  
the application for compulsory acquisition or temporary

237

00:12:20.200 --> 00:12:24.000  
possession powers or a

238

00:12:23.300 --> 00:12:25.500  
combination of all these categories.

239

00:12:26.200 --> 00:12:29.400  
The may also be people here who aren't covered by any of

240

00:12:29.400 --> 00:12:32.200  
those descriptions. Welcome to you.

241  
00:12:34.200 --> 00:12:37.800  
Before I note the appearances and those who wish to speak. I need

242  
00:12:37.800 --> 00:12:40.700  
to draw your attention to a change in the

243  
00:12:40.700 --> 00:12:42.800  
running order of the agenda.

244  
00:12:44.300 --> 00:12:44.500  
So

245  
00:12:46.300 --> 00:12:48.300  
I think you may have the agenda.

246  
00:12:49.300 --> 00:12:52.200  
with you which form one of the annexes to

247  
00:12:52.200 --> 00:12:52.300  
the

248  
00:12:53.200 --> 00:12:57.200  
accounts to the inspectorates rule

249  
00:12:56.200 --> 00:13:00.000  
6 letter June

250  
00:13:00.700 --> 00:13:01.900  
2022

251  
00:13:03.700 --> 00:13:06.300  
The applicant and interested parties have been

252  
00:13:06.300 --> 00:13:09.600  
notified by the examining authorities

253  
00:13:09.600 --> 00:13:13.300  
letter of the 22nd of July of how

254

00:13:12.300 --> 00:13:15.700

it procedural decision to postpone.

255

00:13:15.700 --> 00:13:19.000

The here hearings scheduled for later this week in

256

00:13:18.500 --> 00:13:21.200

light of the letters from the applicant of

257

00:13:21.200 --> 00:13:24.300

the 21st of July notifying us of

258

00:13:24.300 --> 00:13:27.700

their intention to delay submitting the change

259

00:13:27.700 --> 00:13:28.300

request.

260

00:13:30.400 --> 00:13:33.900

We will bring forward those matters to which were

261

00:13:33.900 --> 00:13:36.500

previously would have formed

262

00:13:36.500 --> 00:13:39.500

a subject of item five and we

263

00:13:39.500 --> 00:13:42.600

will bring those matters forward so that

264

00:13:42.600 --> 00:13:45.600

that will now be item three on the

265

00:13:45.600 --> 00:13:46.200

agenda.

266

00:13:47.900 --> 00:13:50.500

So the meeting will follow the

267

00:13:50.500 --> 00:13:51.200  
agenda.

268  
00:13:52.300 --> 00:13:55.200  
Generally as set out in our letter of the

269  
00:13:55.200 --> 00:13:56.100  
28th of June.

270  
00:13:57.600 --> 00:14:00.300  
Subject to that change in

271  
00:14:00.300 --> 00:14:00.900  
the running order.

272  
00:14:02.600 --> 00:14:06.700  
And the so just

273  
00:14:05.700 --> 00:14:08.400  
to recap the

274  
00:14:08.400 --> 00:14:11.900  
changes in the running order will be that after item two where

275  
00:14:11.900 --> 00:14:15.100  
I will go through remarks about the examination process.

276  
00:14:16.200 --> 00:14:19.400  
We will take what was item 5 now item

277  
00:14:19.400 --> 00:14:22.100  
three IE the update from the

278  
00:14:22.100 --> 00:14:26.000  
applicant on the status of the change request and consultation.

279  
00:14:27.700 --> 00:14:31.300  
And the other changes that after item

280  
00:14:30.300 --> 00:14:33.500  
three on your agenda

281

00:14:33.500 --> 00:14:35.100  
will become item 5.

282

00:14:36.300 --> 00:14:39.100  
That is the initial assessment of principal issues.

283

00:14:40.200 --> 00:14:43.400  
That item will follow on after the item on

284

00:14:43.400 --> 00:14:45.900  
the draft examination timetable.

285

00:14:47.100 --> 00:14:50.300  
So just to recap so everybody is clear.

286

00:14:51.700 --> 00:14:55.200  
The revised gender running order will be item one,

287

00:14:55.200 --> 00:14:57.500  
which is introductions, which we're on now.

288

00:14:59.200 --> 00:15:02.900  
item 2 the examining authorities remarks about the examination

289

00:15:02.900 --> 00:15:03.500  
process

290

00:15:05.100 --> 00:15:08.400  
item three will be the update from the applicant on

291

00:15:08.400 --> 00:15:12.400  
the status of the change request and consultation are

292

00:15:11.400 --> 00:15:14.700  
set out in in their various correspondents, which

293

00:15:14.700 --> 00:15:17.500  
will come to and item for

294

00:15:17.500 --> 00:15:19.400  
Mr. Rigby will

295  
00:15:20.300 --> 00:15:23.800  
deal with more General matters of the examination timetable

296  
00:15:23.800 --> 00:15:26.400  
and site inspections.

297  
00:15:27.700 --> 00:15:31.000  
Item 5 Mrs. Taylor

298  
00:15:30.600 --> 00:15:33.600  
will deal with the initial assessment of principal

299  
00:15:33.600 --> 00:15:34.000  
issues.

300  
00:15:35.300 --> 00:15:37.900  
and item 6 any other matters

301  
00:15:40.100 --> 00:15:42.600  
So is everybody clear on the changes to the running order?

302  
00:15:43.600 --> 00:15:44.100  
Thank you.

303  
00:15:45.200 --> 00:15:45.300  
so

304  
00:15:46.900 --> 00:15:49.700  
I'll briefly explain the purpose of this preliminary meeting.

305  
00:15:50.600 --> 00:15:54.400  
We're here to focus on the way in which we intend to examine

306  
00:15:53.400 --> 00:15:55.300  
this application.

307  
00:15:56.400 --> 00:15:59.500  
We'll be discussing only the procedural aspects

308

00:15:59.500 --> 00:16:01.600  
of the examination today.

309

00:16:05.200 --> 00:16:09.400  
We are not in the emphasize. We are not taking any evidence that

310

00:16:09.400 --> 00:16:12.600  
this meeting we won't be discussing the merits

311

00:16:12.600 --> 00:16:15.700  
or the concerns that you may have regarding this application.

312

00:16:16.900 --> 00:16:19.500  
And we'd like to emphasize that we

313

00:16:19.500 --> 00:16:22.600  
have taken no decisions yet about the

314

00:16:22.600 --> 00:16:24.200  
merits of the application.

315

00:16:25.500 --> 00:16:28.500  
Concerns or merits of the application will only

316

00:16:28.500 --> 00:16:31.500  
be considered once the examination has started.

317

00:16:34.300 --> 00:16:37.300  
Notes will be taken at the meeting and they will be placed on

318

00:16:37.300 --> 00:16:40.700  
the project pages of the national infrastructure website

319

00:16:40.700 --> 00:16:43.200  
and deposited at the locations

320

00:16:43.200 --> 00:16:46.300  
listed in Annex G of the rule six

321

00:16:46.300 --> 00:16:50.100  
letter as soon as practicable after close of

322  
00:16:49.100 --> 00:16:51.000  
today's proceedings.

323  
00:16:52.700 --> 00:16:55.500  
So again, I emphasize please it

324  
00:16:55.500 --> 00:16:58.400  
will be extremely beneficial to us. If each time

325  
00:16:58.400 --> 00:17:01.400  
you speak you could state your name and if

326  
00:17:01.400 --> 00:17:04.200  
you're representing someone whom it is you you represent.

327  
00:17:06.200 --> 00:17:10.000  
Please also bear in mind that the only official record of today's  
communication

328  
00:17:09.300 --> 00:17:12.900  
of today. Only official

329  
00:17:12.900 --> 00:17:15.400  
record of today proceedings is

330  
00:17:15.400 --> 00:17:18.300  
the digital recording tweets blogs similar

331  
00:17:18.300 --> 00:17:21.300  
Communications writing out of the meeting will not be accepted

332  
00:17:21.300 --> 00:17:24.500  
as evidence in the examination of the application.

333  
00:17:26.900 --> 00:17:29.400  
So I've been provided by the case

334  
00:17:29.400 --> 00:17:32.400

team with a list of those who've expressed a

335

00:17:32.400 --> 00:17:36.100  
wish to be heard today and they

336

00:17:35.100 --> 00:17:37.900  
are people who represent.

337

Red Lodge Parish Council and Wallington

353

00:18:32.300 --> 00:18:36.900

Parish Council. I beg

354

00:18:36.900 --> 00:18:39.700

your pardon Wellington apologize. Okay,

355

00:18:39.700 --> 00:18:42.500

Wellington, it was a bit like that with haysboro and

356

00:18:42.500 --> 00:18:45.300

happy. Okay. So

357

00:18:45.300 --> 00:18:49.200

worlington Wellington Parish Council and

358

00:18:48.200 --> 00:18:51.100

then a number

359

00:18:51.100 --> 00:18:54.200

of interested parties who we will

360

00:18:54.200 --> 00:18:58.000

come to in due course including the new

361

00:18:57.200 --> 00:19:00.800

market Horseman's group and the say

362

00:19:00.800 --> 00:19:02.600

no to Seneca Action Group.

363

00:19:04.300 --> 00:19:07.300

And then I think there may

364

00:19:07.300 --> 00:19:10.800

be a non-interested party who may who was

365

00:19:10.800 --> 00:19:13.900

actually expressed a wish to to speak.

366

00:19:13.900 --> 00:19:17.100

So anyway, I'll go through to

367

00:19:16.100 --> 00:19:20.300

take the appearances now and I'll

368

00:19:19.300 --> 00:19:24.800

start with the applicant

369

00:19:22.800 --> 00:19:25.200

if you

370

00:19:25.200 --> 00:19:28.800

can introduce yourself and your people who

371

00:19:28.800 --> 00:19:30.700

are representing you.

372

00:19:31.600 --> 00:19:34.700

Good morning. Good morning, sir. My name is Richard Griffis.

373

00:19:34.700 --> 00:19:37.800

And I'm a solicitor at Pinson Mason's LLP.

374

00:19:37.800 --> 00:19:40.700

The solicitors acting on behalf of the

375

00:19:40.700 --> 00:19:42.300  
applicant Sonic Unlimited.

376

00:19:43.500 --> 00:19:46.700  
I'm joined here today by my colleagues Tom

377

00:19:46.700 --> 00:19:49.700  
Edwards and Jonathan Leary who are also solicitors at

378

00:19:49.700 --> 00:19:50.800  
intermasons.

379

00:19:52.600 --> 00:19:55.900  
Luke Murray director of the applicant Sonica

380

00:19:55.900 --> 00:19:56.200  
Limited

381

00:19:58.600 --> 00:20:02.100  
Nigel Chalmers who's a technical director at AECOM

382

00:20:01.100 --> 00:20:04.500  
the applicants environmental Consultants

383

00:20:06.800 --> 00:20:08.300  
and Scott Parker from

384

00:20:09.400 --> 00:20:12.900  
SEC new gates UK the applicants consultation and

385

00:20:12.900 --> 00:20:14.200  
Communications advisors

386

00:20:15.700 --> 00:20:17.200  
Thank you very much. Thank you, sir.

387

00:20:18.500 --> 00:20:22.900  
So now I will turn to the local authorities

388

00:20:22.900 --> 00:20:23.500

and

389

00:20:25.500 --> 00:20:29.400

I think Suffolk County Council are joining

390

00:20:28.400 --> 00:20:31.400

us virtually. Is that

391

00:20:31.400 --> 00:20:31.500

right?

392

00:20:32.600 --> 00:20:35.000

Thank you, sir. Yes. My name is

393

00:20:35.600 --> 00:20:39.200

Michael Michael Bedford Queens Council. I'm

394

00:20:38.200 --> 00:20:42.600

instructed by the legal services

395

00:20:42.600 --> 00:20:45.600

of Suffolk County Council. I am

396

00:20:45.600 --> 00:20:48.300

also joined remotely today

397

00:20:48.300 --> 00:20:51.500

by Mr. Isaac nun. Who is

398

00:20:51.500 --> 00:20:55.200

the senior planning officer nsips with

399

00:20:54.200 --> 00:20:56.500

the County Council?

400

00:20:58.100 --> 00:21:01.300

Thank you very much, Mr. Bedford. Will it

401

00:21:01.300 --> 00:21:04.000

be yourself who is speaking mainly or yes?

402

00:21:04.700 --> 00:21:07.600

It will be me and unless obviously there's some particular

403

00:21:07.600 --> 00:21:10.200

practical or logistical issue that Mr. Nunn knows rather

404

00:21:10.200 --> 00:21:11.100

more about than I do.

405

00:21:12.600 --> 00:21:13.800

Sure. Thank you.

406

00:21:15.900 --> 00:21:18.400

So that's Suffolk County

407

00:21:18.400 --> 00:21:21.600

Council. So I come to Cambridge County Council.

408

00:21:22.700 --> 00:21:25.400

Yes, sir. Good morning. I hope

409

00:21:25.400 --> 00:21:28.100

you can hear me. Okay, my name is Ashley Mohamed of

410

00:21:28.100 --> 00:21:29.400

cow cell. Yes.

411

00:21:30.400 --> 00:21:33.300

I am stuck on a train. I'm afraid in between

412

00:21:33.300 --> 00:21:36.200

Hitchin and London King's cross since seven

413

00:21:36.200 --> 00:21:39.500

o'clock this morning, but at least I've got enough connection

414

00:21:39.500 --> 00:21:42.400

to introduce myself this morning and I'm

415

00:21:42.400 --> 00:21:46.100

acting on behalf of both East Cambridge

416

00:21:45.100 --> 00:21:48.800

District Council and Cambridge

417

00:21:48.800 --> 00:21:51.500

County Council alongside. My learner friend

418

00:21:51.500 --> 00:21:54.900

Mr. Richard kimlin Queen's Council who's not appearing today

419

00:21:54.900 --> 00:21:57.100

in order to

420

00:21:57.100 --> 00:22:00.100

assist you in terms of my doing difficulties in the

421

00:22:00.100 --> 00:22:03.700

room. You will have Mr. David carford who

422

00:22:03.700 --> 00:22:06.900

is from Cambridge accounting Council and

423

00:22:06.900 --> 00:22:09.600

it's the Andrew Phillips from the

424

00:22:09.600 --> 00:22:12.200

district council and they will

425

00:22:12.200 --> 00:22:15.400

be there present with you and I will

426

00:22:15.400 --> 00:22:18.800

be present remotely insofar as I can and if

427

00:22:18.800 --> 00:22:22.300

I make it in person, I'm not

428

00:22:22.300 --> 00:22:22.600

hopeful.

429

00:22:24.200 --> 00:22:27.400

Well, thank you very much Mr. Mohammed, and

430

00:22:27.400 --> 00:22:30.100

I hope that you're able to

431

00:22:30.100 --> 00:22:31.100

join us.

432

00:22:32.800 --> 00:22:37.300

More effectively during

433

00:22:35.300 --> 00:22:38.200

the course of the

434

00:22:38.200 --> 00:22:41.000

proceedings in the meantime. Could I just

435

00:22:41.200 --> 00:22:44.800

ask Mr. Carford to identify yourself

436

00:22:44.800 --> 00:22:47.600

discover good morning to you. So you

437

00:22:47.600 --> 00:22:50.500

are with the county.

438

00:22:51.600 --> 00:22:53.000

Council, is that right?

439

00:22:53.600 --> 00:22:54.500

Yes you

440

00:22:56.300 --> 00:23:00.000

Thank you, sir. I will meet myself and listen intently from

441

00:22:59.600 --> 00:23:00.700

here on.

442

00:23:01.200 --> 00:23:04.000

Righty home and then Mr.

443

00:23:05.100 --> 00:23:09.000

Phillips, isn't it Andrew Phillips from any Cambridge

444

00:23:08.500 --> 00:23:11.900

Electric Council District Council, right morning, Mr.

445

00:23:11.900 --> 00:23:12.400

Phillips morning.

446

00:23:20.500 --> 00:23:23.700

Okay, so moving on then we

447

00:23:23.700 --> 00:23:26.800

have West Suffolk County

448

00:23:26.800 --> 00:23:27.700

Council.

449

00:23:30.300 --> 00:23:33.400

Sorry West Suffolk Council. I suffer Council. That's

450

00:23:33.400 --> 00:23:36.200

right and good morning. I'm Claire riches. I'm

451

00:23:36.200 --> 00:23:39.000

planning's list of West Suffolk Council, and I'm enjoyed by.

452

00:23:39.900 --> 00:23:42.600

Joined by Julie Barrow who is principal planning

453

00:23:42.600 --> 00:23:44.900

officer at West Suffolk Council?

454

00:23:47.200 --> 00:23:47.500

Thank you.

455

00:23:51.400 --> 00:23:53.600

So miss Richards and

456

00:23:54.700 --> 00:23:55.500

Julie Barrow

457

00:24:04.100 --> 00:24:07.400

so then I think

458

00:24:09.400 --> 00:24:09.700

we'll

459

00:24:10.700 --> 00:24:13.300

don't think there are any other statutory parties who

460

00:24:13.300 --> 00:24:16.200

are attending this morning.

461

00:24:17.700 --> 00:24:20.800

will move to the parish council's

462

00:24:21.600 --> 00:24:22.500

so

463

00:24:23.700 --> 00:24:26.400

Chippenham Parish Council, good morning.

464

00:24:26.400 --> 00:24:27.200

Good morning.

465

00:24:28.200 --> 00:24:31.100

Could you introduce yourself? Yes, I'm Fiona Maxwell. I'm chair of

466

00:24:31.100 --> 00:24:32.200

Chipman Parish Council.

467

00:24:36.300 --> 00:24:39.500

I'd say Miss Maxwell Mrs. Mrs. Mrs.

468

00:24:39.500 --> 00:24:39.900

Maxwell.

469

00:24:42.800 --> 00:24:46.000

And your chairwoman with Parish Council? Yes very much

470

00:24:45.200 --> 00:24:48.400

now, I

471

00:24:48.400 --> 00:24:51.200

think it's Fordham Parish Council here

472

00:24:51.200 --> 00:24:53.600

before you move on Nick Wright. Who's

473

00:24:53.900 --> 00:24:56.300

Next to me is also representative Parish Council.

474

00:24:56.900 --> 00:24:57.100

right

475

00:24:57.800 --> 00:24:58.400

He's mister.

476

00:25:02.600 --> 00:25:02.800

Sorry.

477

00:25:03.600 --> 00:25:05.600

It's good to know.

478

00:25:07.400 --> 00:25:10.200

Okay, that's Chippenham Paris Council.

479

00:25:10.200 --> 00:25:12.600

Thank you for Fordham Campus Council.

480

00:25:13.500 --> 00:25:15.500

No, nobody from Fordham.

481

00:25:17.400 --> 00:25:20.000

See, okay snail well Parish Council.

482

00:25:21.600 --> 00:25:23.800

Nobody from snow will hear this morning.

483

00:25:27.900 --> 00:25:29.400

Next one I have his Red Lodge.

484

00:25:31.100 --> 00:25:31.800

Good morning, sir.

485

00:25:33.500 --> 00:25:36.500

I'm Richard Saul representing Red Lodge

486

00:25:36.500 --> 00:25:40.400

Parish Council and chairperson. Let's

487

00:25:39.400 --> 00:25:41.400

keep it in the neutral.

488

00:25:44.900 --> 00:25:45.100

see

489

00:25:46.500 --> 00:25:48.000

Thank you. So.

490

00:25:50.300 --> 00:25:53.600

And then Wellington Parish Council.

491

00:25:54.700 --> 00:25:59.300

And Mike I'm Mrs.

492

00:25:58.300 --> 00:26:02.800

Paula McKenzie as Mac and

493

00:26:01.800 --> 00:26:04.400

I'm Wellington Parish Council.

494

00:26:04.400 --> 00:26:06.100

I'm a spokesperson for them.

495

00:26:08.500 --> 00:26:08.800

Thank you.

496

00:26:11.900 --> 00:26:15.100

Now are there any other Parish councils

497

00:26:14.100 --> 00:26:17.300  
attending this morning who wished to

498

00:26:17.300 --> 00:26:17.700  
be heard?

499

00:26:21.200 --> 00:26:21.200  
All right.

500

00:26:23.600 --> 00:26:24.800  
So hands up at the back.

501

00:26:25.800 --> 00:26:27.600  
Just bear with me I'll come to you.

502

00:26:36.400 --> 00:26:36.700  
right

503

00:26:38.200 --> 00:26:41.400  
My name is Richard Radcliffe. I'm chair of ice and

504

00:26:41.400 --> 00:26:45.300  
Parish Council. Sorry Mr. Radcliffe Radcliffe. All

505

00:26:44.300 --> 00:26:47.400  
right d CLI. Double f

506

00:26:47.400 --> 00:26:50.100  
e yes. I'll be grateful if

507

00:26:50.100 --> 00:26:52.900  
I could sorry which Paris Council license?

508

00:26:55.700 --> 00:26:58.000  
Is l e h a m. Yes.

509

00:27:02.900 --> 00:27:06.100  
Now I can hear you. Okay. Sorry. I'm

510

00:27:05.100 --> 00:27:08.500

yes. You wanted to speak in due course

511

00:27:08.500 --> 00:27:11.400

to any particular item just around the

512

00:27:11.400 --> 00:27:14.200

procedures the I'll probably

513

00:27:14.200 --> 00:27:17.400

follow on from what my colleagues and other Parish houses, right?  
Okay.

514

00:27:17.400 --> 00:27:18.700

Very good. Thank you.

515

00:27:23.200 --> 00:27:23.600

Okay.

516

00:27:25.900 --> 00:27:28.600

so I'll come to the

517

00:27:30.600 --> 00:27:32.700

interested parties now

518

00:27:34.400 --> 00:27:36.600

I think we have.

519

00:27:38.400 --> 00:27:41.300

Mr. Steel Ark morning

520

00:27:41.300 --> 00:27:44.800

Mr. Steel tonight to introduce yourself. So thank

521

00:27:44.800 --> 00:27:47.400

you very much. My name is John steel s t w

522

00:27:47.400 --> 00:27:47.800

e l

523

00:27:48.700 --> 00:27:51.900  
q c creams Council and I

524  
00:27:51.900 --> 00:27:52.100  
represent.

525  
00:27:53.400 --> 00:27:56.200  
Independently of each other the new market Horseman's group

526  
00:27:56.200 --> 00:27:59.400  
as well as say no say no to Sonica

527  
00:27:59.400 --> 00:28:00.700  
Action Group Limited.

528  
00:28:01.600 --> 00:28:04.600  
They are independent of each other but both support each

529  
00:28:04.600 --> 00:28:06.200  
other in this matter.

530  
00:28:07.200 --> 00:28:11.500  
I also peer on my right hand side with my learning

531  
00:28:10.500 --> 00:28:13.300  
friend. Who is my junior on this

532  
00:28:13.300 --> 00:28:16.300  
case Mr. Daniel. Causelko Keo z

533  
00:28:16.300 --> 00:28:19.700  
e l k o and to his

534  
00:28:19.700 --> 00:28:21.700  
right is Mr. John Murray.

535  
00:28:22.500 --> 00:28:26.100  
of the new market Horseman's group that's ended

536  
00:28:25.100 --> 00:28:26.700  
up our ay

537

00:28:27.700 --> 00:28:30.900

and on my left is Catherine Judkins.

538

00:28:31.800 --> 00:28:34.400

Who is the chairman of the

539

00:28:34.400 --> 00:28:37.500

we call it snts or the Action Group? Whichever

540

00:28:37.500 --> 00:28:40.100

you prefer sir throughout the head of these proceedings. It's quite

541

00:28:40.100 --> 00:28:43.400

a mouthful to say that every single time. So whatever you

542

00:28:43.400 --> 00:28:46.400

prefer us to call ourselves as it were and your

543

00:28:46.400 --> 00:28:49.700

hearing good. Well, thank you very much and welcome

544

00:28:49.700 --> 00:28:52.000

to you. All I was actually

545

00:28:53.400 --> 00:28:56.500

trying to think about the best ways of doing

546

00:28:56.500 --> 00:28:59.600

this. If I say snts, I'm

547

00:28:59.600 --> 00:29:04.000

bound to get the letters mixed up. I could

548

00:29:03.300 --> 00:29:08.000

say the action group or the group or it's

549

00:29:06.500 --> 00:29:09.200

really matter for you

550

00:29:09.200 --> 00:29:12.200  
how we'll try that sir and see which how we go the action

551  
00:29:12.200 --> 00:29:15.300  
group or the group. Okay, and they group there

552  
00:29:15.300 --> 00:29:18.500  
are two groups as trouble. So if we say the Action Group look

553  
00:29:18.500 --> 00:29:21.900  
awesome group or the Horseman's great. Yes. That sounds

554  
00:29:21.900 --> 00:29:24.900  
fine. I think thank you very much. Okay, good. Well,

555  
00:29:24.900 --> 00:29:25.400  
thank you for that.

556  
00:29:26.900 --> 00:29:29.000  
so then

557  
00:29:31.700 --> 00:29:32.700  
any other

558  
00:29:34.600 --> 00:29:36.000  
interested parties

559  
00:29:37.900 --> 00:29:39.100  
Here who wish to speak?

560  
00:29:41.700 --> 00:29:44.700  
Yes, sir. My name

561  
00:29:44.700 --> 00:29:47.500  
is Edmond Fordham. I did

562  
00:29:47.500 --> 00:29:50.500  
register I hope and intention to

563  
00:29:50.500 --> 00:29:51.500  
speak this morning.

564

00:29:56.500 --> 00:29:56.900

Yes.

565

00:29:58.400 --> 00:30:01.800

Right, so you've registered at this morning? Yeah.

566

00:30:01.800 --> 00:30:03.700

Okay. I think we have you.

567

00:30:04.400 --> 00:30:07.800

Dr. Edmond Fordham, that's right. Okay. I'm a

568

00:30:08.700 --> 00:30:12.300

Jewish me to introduce myself and not

569

00:30:11.300 --> 00:30:14.200

necessary in any more detail

570

00:30:14.200 --> 00:30:17.700

at this stage, but feel free to do so at a

571

00:30:17.700 --> 00:30:18.900

later stage. Thank you.

572

00:30:20.800 --> 00:30:24.800

Is there any particular item you are here for the question

573

00:30:24.800 --> 00:30:26.800

of battery safety?

574

00:30:29.200 --> 00:30:30.000

okay, I'm

575

00:30:31.600 --> 00:30:34.000

I'll just reiterate. You know, what I

576

00:30:34.300 --> 00:30:38.500

said before about we're not here to discuss the substantive merits

577

00:30:38.500 --> 00:30:42.000  
or otherwise of the application, but but the procedure

578  
00:30:41.600 --> 00:30:44.100  
aspect, so just if you bear

579  
00:30:44.100 --> 00:30:45.800  
that mind everyone, thank you.

580  
00:30:48.300 --> 00:30:49.200  
now

581  
00:30:52.500 --> 00:30:53.200  
so anybody

582  
00:30:55.700 --> 00:30:57.800  
Is there anybody online who?

583  
00:30:58.900 --> 00:31:01.000  
Is an interesting party who wishes to?

584  
00:31:02.400 --> 00:31:02.600  
speak

585  
00:31:04.200 --> 00:31:06.700  
I'm not seeing any yellow hands, so.

586  
00:31:07.900 --> 00:31:10.500  
I've seen one are Mr. Bowa. There you

587  
00:31:10.500 --> 00:31:10.500  
are.

588  
00:31:12.800 --> 00:31:15.400  
Yeah, just about good morning, sir.

589  
00:31:15.400 --> 00:31:18.300  
My name is Jonathan Bauer b o w e r

590  
00:31:18.300 --> 00:31:21.500  
and I'm a solicitor with Womble Bond Dickinson

591

00:31:21.500 --> 00:31:25.200

and we were in just being instructed on

592

00:31:24.200 --> 00:31:28.100

behalf of drug development Solutions limited

593

00:31:27.100 --> 00:31:30.500

which perhaps we can abbreviate to

594

00:31:30.500 --> 00:31:33.900

DDS and they have recently acquired

595

00:31:33.900 --> 00:31:36.600

an interest at the LGC campus.

596

00:31:36.600 --> 00:31:39.400

So last week we made an

597

00:31:39.400 --> 00:31:42.400

application to be registered as an interested party

598

00:31:42.400 --> 00:31:45.600

and in due course hope to

599

00:31:45.600 --> 00:31:48.400

submit representations as an effective person

600

00:31:48.400 --> 00:31:51.800

as a result of the proposals to compulsory act

601

00:31:51.800 --> 00:31:54.500

choir rights on land within which

602

00:31:54.500 --> 00:31:55.200

they have an interest.

603

00:31:57.100 --> 00:32:00.200

And in terms of any specific matters on

604

00:32:00.200 --> 00:32:03.600  
the agenda, it will very much depend obviously on

605  
00:32:03.600 --> 00:32:06.900  
What flows from perhaps the the

606  
00:32:06.900 --> 00:32:09.500  
outline of sort of the next agenda item

607  
00:32:09.500 --> 00:32:12.300  
in terms of the updates on that the

608  
00:32:12.300 --> 00:32:15.300  
project but I may have calls to raise my hand and

609  
00:32:15.300 --> 00:32:18.400  
seek to speak to some of the items which follow

610  
00:32:18.400 --> 00:32:21.100  
and I just also add my client to a watching

611  
00:32:21.100 --> 00:32:25.000  
remotely via the live stream.

612  
00:32:27.200 --> 00:32:31.700  
Right. Okay. Thank you very much Mr. Bauer. We we

613  
00:32:31.700 --> 00:32:34.400  
have actually received some correspondence from you

614  
00:32:34.400 --> 00:32:38.200  
about that and we're giving

615  
00:32:38.200 --> 00:32:41.800  
that consideration and we will issue a

616  
00:32:41.800 --> 00:32:44.500  
procedural decision on that. I imagine

617  
00:32:44.500 --> 00:32:45.700  
fairly fairly swiftly.

618

00:32:46.400 --> 00:32:49.600

And could I just remind everybody who is online?

619

00:32:52.100 --> 00:32:52.600

a to

620

00:32:53.600 --> 00:32:57.500

well, once they've spoken to remove the

621

00:32:57.500 --> 00:33:00.600

remove the Legacy yellow hand as

622

00:33:00.600 --> 00:33:00.800

it were.

623

00:33:01.600 --> 00:33:04.300

Which makes it easier to spot

624

00:33:04.300 --> 00:33:07.000

when somebody wishes to speak again or speak for the

625

00:33:07.200 --> 00:33:07.400

first time?

626

00:33:08.900 --> 00:33:09.000

Thank you.

627

00:33:11.800 --> 00:33:15.400

So I think that's everyone then

628

00:33:15.400 --> 00:33:16.800

in which case.

629

00:33:18.700 --> 00:33:19.300

I will.

630

00:33:21.700 --> 00:33:22.300

Move on.

631

00:33:24.500 --> 00:33:24.600  
to

632  
00:33:26.800 --> 00:33:29.600  
yeah there any other comments anyone wishes

633  
00:33:29.600 --> 00:33:31.300  
to make under item on the introductions?

634  
00:33:32.200 --> 00:33:36.300  
If not, I will move on to item 2, which

635  
00:33:35.300 --> 00:33:38.200  
is the examining authorities remarks about

636  
00:33:38.200 --> 00:33:39.500  
the examination process.

637  
00:33:40.600 --> 00:33:44.400  
So in order to streamline the running of these events

638  
00:33:44.400 --> 00:33:47.500  
Annex B of the real six letter

639  
00:33:47.500 --> 00:33:50.200  
of the 28th of June provides an introduction to

640  
00:33:50.200 --> 00:33:54.400  
the preliminary meeting and the examination process. It's explains

641  
00:33:54.400 --> 00:33:57.400  
how it will be conducted and how you can participate

642  
00:33:58.500 --> 00:34:01.200  
I'm assuming that everybody has read this and therefore. I

643  
00:34:01.200 --> 00:34:04.300  
don't propose to spend time reading it out now.

644  
00:34:05.500 --> 00:34:08.400  
It is important to the examining Authority. However that

645

00:34:08.400 --> 00:34:11.300

you are all clear in your understanding of

646

00:34:11.300 --> 00:34:14.800

the process and therefore if there's anything that you're unclear

647

00:34:14.800 --> 00:34:17.500

about on which you need Clarity then

648

00:34:17.500 --> 00:34:19.100

please do ask us.

649

00:34:20.700 --> 00:34:24.300

One of the advantages of holding a preliminary meeting

650

00:34:24.300 --> 00:34:27.300

and hearing since physical events is that

651

00:34:27.300 --> 00:34:30.800

the applicants and parties who have attended may

652

00:34:30.800 --> 00:34:34.200

take the opportunity to talk face-to-face which

653

00:34:33.200 --> 00:34:36.400

may be useful to discuss matters, which may

654

00:34:36.400 --> 00:34:39.200

have been outstanding some time and being in the

655

00:34:39.200 --> 00:34:42.500

same room can be a catalyst to

656

00:34:42.500 --> 00:34:43.100

action.

657

00:34:45.100 --> 00:34:48.600

For those who are attending the event virtually the same opportunities won't

658

00:34:48.600 --> 00:34:51.300

occur nevertheless. We would ask the applicant to

659

00:34:51.300 --> 00:34:54.600

engage in dialogue both with the parties attending

660

00:34:54.600 --> 00:34:57.600

to date events. And with others attending virtually

661

00:34:57.600 --> 00:35:00.700

to make progress

662

00:35:00.700 --> 00:35:05.200

on matters in in dispute, which

663

00:35:04.200 --> 00:35:07.300

is particularly important in relation

664

00:35:07.300 --> 00:35:10.800

to matters of compulsory acquisition and temporary

665

00:35:10.800 --> 00:35:11.400

possession.

666

00:35:14.100 --> 00:35:18.000

The examining Authority will continue to review the most appropriate formats

667

00:35:17.200 --> 00:35:20.600

for future events, which may be Blended or

668

00:35:20.600 --> 00:35:23.700

virtual, but we welcome your comments

669

00:35:23.700 --> 00:35:24.300

on how

670

00:35:25.500 --> 00:35:27.400

Such events should be conducted.

671

00:35:28.700 --> 00:35:31.800  
now I'll just run through some procedural matters

672  
00:35:31.800 --> 00:35:33.400  
to do with the general running of

673  
00:35:34.200 --> 00:35:35.500  
these examinations

674  
00:35:36.500 --> 00:35:39.500  
the examining Authority the panel we will

675  
00:35:39.500 --> 00:35:41.900  
make use of statements of common ground.

676  
00:35:43.100 --> 00:35:47.000  
And you can find the details for each of these for which

677  
00:35:46.200 --> 00:35:49.200  
we have requested a statement of

678  
00:35:49.200 --> 00:35:53.000  
Common Ground be entered into in Annex F

679  
00:35:52.500 --> 00:35:55.700  
Freddie to the rule 6

680  
00:35:55.700 --> 00:35:56.100  
letter.

681  
00:35:59.100 --> 00:36:02.300  
then for those who not familiar with the process the aim of a  
statement

682  
00:36:02.300 --> 00:36:05.500  
of common ground is to well, it's twofold really

683  
00:36:07.700 --> 00:36:11.100  
firstly to agree factual information to identify

684  
00:36:10.100 --> 00:36:14.100

where there is agreement and the

685

00:36:13.100 --> 00:36:16.900

secondly and just as importantly in

686

00:36:16.900 --> 00:36:19.500

our view where the differences lie

687

00:36:19.500 --> 00:36:22.500

between the parties so that we the

688

00:36:22.500 --> 00:36:25.600

panel know from as early as

689

00:36:25.600 --> 00:36:28.400

stage as it's practicable where the

690

00:36:28.400 --> 00:36:30.400

difference is lie between the parties.

691

00:36:32.600 --> 00:36:37.500

Statements of Common Ground should focus on saving

692

00:36:35.500 --> 00:36:38.500

time if possible by

693

00:36:38.500 --> 00:36:41.700

identifying matters, which are not in dispute therefore

694

00:36:41.700 --> 00:36:44.600

and need not be the subject to further Evidence.

695

00:36:45.500 --> 00:36:48.900

And as I say they can also usefully State

696

00:36:48.900 --> 00:36:51.400

and and should state where and why

697

00:36:51.400 --> 00:36:54.500

there may be disagreement about the interpretation and relevance

698

00:36:54.500 --> 00:36:55.200

of the information.

699

00:36:56.600 --> 00:36:59.400

The reasons for the differences and the implications of

700

00:36:59.400 --> 00:37:02.800

those differences can then be expanded upon in

701

00:37:02.800 --> 00:37:05.300

the evidence and we can get to grips with

702

00:37:05.300 --> 00:37:08.500

it with the essential issues that are in dispute.

703

00:37:12.500 --> 00:37:15.100

We've listed in an XF a number of

704

00:37:15.100 --> 00:37:18.200

interested parties with whom we would expect the applicant to

705

00:37:18.200 --> 00:37:19.600

provide a statement of common ground.

706

00:37:20.400 --> 00:37:23.400

As well as the relevant local authorities under the statutory

707

00:37:23.400 --> 00:37:24.200

consulties.

708

00:37:26.100 --> 00:37:30.200

So defects statutory Undertakers and Bland owners and occupiers and

709

00:37:29.200 --> 00:37:32.500

we've set out the range of topics that

710

00:37:32.500 --> 00:37:36.600

we would expect to see included in those statements in that

711

00:37:36.600 --> 00:37:39.400

table appears in an excess.

712

00:37:40.400 --> 00:37:41.800

Excuse me. It's not.

713

00:37:42.800 --> 00:37:46.400

A it's not intended to be a comprehensive

714

00:37:45.400 --> 00:37:48.600

and exclusive table.

715

00:37:48.600 --> 00:37:51.800

And so I would

716

00:37:51.800 --> 00:37:54.800

welcome any comments that parties may

717

00:37:54.800 --> 00:37:57.500

have to make on those

718

00:37:57.500 --> 00:38:00.400

matters in due course or

719

00:38:00.400 --> 00:38:03.600

or just now if anybody

720

00:38:03.600 --> 00:38:06.200

has any comments, they want to make on the statements of

721

00:38:06.200 --> 00:38:06.700

common ground.

722

00:38:08.100 --> 00:38:11.100

It's a it's an iterative process and there will be

723

00:38:11.100 --> 00:38:15.400

stages during the examination when the panel will call for updates

724

00:38:14.400 --> 00:38:17.800

in statements of common ground and

725

00:38:17.800 --> 00:38:21.100

there is also a document which is known

726

00:38:20.100 --> 00:38:24.200

as the statement of commonality or

727

00:38:23.200 --> 00:38:26.200

I think it's called the stained of

728

00:38:26.200 --> 00:38:29.500

commonality of state and

729

00:38:29.500 --> 00:38:32.200

ground so that there will be set out in one

730

00:38:32.200 --> 00:38:35.300

document the state of play for each of

731

00:38:35.300 --> 00:38:38.200

the statements of common ground which makes it

732

00:38:38.200 --> 00:38:41.400

easier to see where we are on any particular

733

00:38:41.400 --> 00:38:42.400

issue.

734

00:38:45.200 --> 00:38:48.600

So unless anybody has any specific comments or

735

00:38:48.600 --> 00:38:51.400

questions about the statements of common ground at this

736

00:38:51.400 --> 00:38:53.900

stage? Yes, I will. Yes.

737

00:38:54.900 --> 00:38:55.700

somebody at the back

738

00:38:58.500 --> 00:38:59.000

that

739

00:39:04.500 --> 00:39:08.100

so I'm Richard Radcliffe chair. Excuse me,

740

00:39:08.100 --> 00:39:11.600

Richard Radcliff terrifies in Paris Council. Yes, right

741

00:39:11.600 --> 00:39:14.300

my comment relates to

742

00:39:14.300 --> 00:39:15.300

statements of common ground.

743

00:39:16.200 --> 00:39:19.000

and they've listed you list the

744

00:39:20.600 --> 00:39:23.300

parties to those statements in nxf

745

00:39:23.800 --> 00:39:26.300

And I know that Iceland but have Parish

746

00:39:26.300 --> 00:39:29.600

Council is excluded from that yet. The

747

00:39:29.600 --> 00:39:32.200

other Parish Council surrounding us are included.

748

00:39:33.200 --> 00:39:33.900

I assume this is a

749

00:39:35.800 --> 00:39:38.700

Administrative oversight, but if it's not could we be included please?

750

00:39:42.600 --> 00:39:45.700

Yeah, okay. Well that may

751

00:39:45.700 --> 00:39:48.600

very well be a narrow Mr.

752

00:39:48.600 --> 00:39:51.200

Radcliffe. So I will take

753

00:39:51.200 --> 00:39:54.200

note. We will take note of of that request to

754

00:39:54.200 --> 00:39:58.600

be included. I don't know if Mr. Griffiths

755

00:39:57.600 --> 00:40:01.600

has any comments

756

00:40:00.600 --> 00:40:03.500

to make on that in terms of the request

757

00:40:03.500 --> 00:40:07.300

to be included in the statements of common ground with the applicant. Thank

758

00:40:06.300 --> 00:40:09.800

you, sir. No, we don't have a problem

759

00:40:09.800 --> 00:40:12.300

with that and we were going to include Iselin our list

760

00:40:12.300 --> 00:40:15.100

of Parish councils. So it would be helpful for me

761

00:40:15.100 --> 00:40:18.500

to go down your list to confirm where the status

762

00:40:18.500 --> 00:40:21.800

of those statements of Common Ground. I Don't Stray into

763

00:40:21.800 --> 00:40:24.400

examination matters, but whether as

764

00:40:24.400 --> 00:40:27.300

you did already raise the stone to Common Ground and his procedure decision whether

765

00:40:27.300 --> 00:40:30.500

I can confirm status and

766

00:40:30.500 --> 00:40:33.400

so parties here when they

767

00:40:33.400 --> 00:40:36.200

might expect the draft that'll be

768

00:40:36.200 --> 00:40:39.700

helpful. It will when I can get the annex up.

769

00:40:39.700 --> 00:40:40.000

Yes.

770

00:40:44.300 --> 00:40:47.500

Yeah, so it starts off Natural England and suffered Wildlife

771

00:40:47.500 --> 00:40:48.000

Trust.

772

00:40:48.700 --> 00:40:52.900

Yes, so naturally England and Suffolk Wildlife

773

00:40:52.900 --> 00:40:55.500

trust. The draft sacg was

774

00:40:55.500 --> 00:40:59.000

issued to them both on the 25th of July and where

775

00:40:58.800 --> 00:41:01.200

obviously progressed will be progressing during the course

776

00:41:01.200 --> 00:41:01.300

of

777

00:41:02.500 --> 00:41:05.700

July August that draft to submit

778

00:41:05.700 --> 00:41:08.200  
examined the first draft of that to

779  
00:41:08.200 --> 00:41:08.300  
you

780  
00:41:09.500 --> 00:41:10.400  
relevant deadline

781  
00:41:11.100 --> 00:41:14.400  
The environment agency the draft socg was issued earlier

782  
00:41:14.400 --> 00:41:14.900  
this month.

783  
00:41:15.900 --> 00:41:18.400  
Following on from various meetings that the applicant have

784  
00:41:18.400 --> 00:41:19.400  
held with the environment agency.

785  
00:41:22.200 --> 00:41:25.000  
National highways the draft was sent to them

786  
00:41:25.200 --> 00:41:26.100  
yet on the 25th of July.

787  
00:41:30.400 --> 00:41:33.200  
Yeah, the east of England

788  
00:41:33.200 --> 00:41:36.500  
Ambulance Service. There was a meeting between them and the  
applicant this

789  
00:41:36.500 --> 00:41:39.600  
coming Thursday, which would be the 28th of

790  
00:41:39.600 --> 00:41:39.800  
July.

791  
00:41:43.300 --> 00:41:47.800

regarding the host planning authorities the

792

00:41:50.600 --> 00:41:53.300

Draft socg was issued on the

793

00:41:53.300 --> 00:41:56.600

25th of July to them and we look forward to progressing that with

794

00:41:56.600 --> 00:42:00.000

them coming weeks. So 20 seconds

795

00:41:59.600 --> 00:42:02.100

25th. So I 25th of July. Yeah.

796

00:42:03.400 --> 00:42:06.700

That's West Suffolk West Suffolk East District Cambridge

797

00:42:06.700 --> 00:42:07.700

Suffolk County Council.

798

00:42:09.500 --> 00:42:10.000

Cambridge County Council

799

00:42:11.900 --> 00:42:12.500

Yeah, thank you.

800

00:42:14.300 --> 00:42:17.800

Stalk England, the draft was sent to them earlier this

801

00:42:17.800 --> 00:42:18.100

month.

802

00:42:19.600 --> 00:42:22.400

Progress holding on from various conversations we've

803

00:42:22.400 --> 00:42:23.400

held with historic, England.

804

00:42:26.400 --> 00:42:28.400

Sorry, which number is this on the I?

805

00:42:29.300 --> 00:42:33.100

Letter I age F6 of your nxf. Okay?

806

00:42:32.100 --> 00:42:35.200

Yep. So sorry. What about

807

00:42:35.200 --> 00:42:38.100

historic England the job position earlier this

808

00:42:38.100 --> 00:42:41.400

month following on prepares meetings. The applicants have held with them and will

809

00:42:41.400 --> 00:42:44.200

look to progress that worried if

810

00:42:44.200 --> 00:42:44.900

their comments on that draft.

811

00:42:48.600 --> 00:42:50.500

item J National Grid

812

00:42:51.600 --> 00:42:54.500

we're as you'll be aware. We're in discussions with National Grid over

813

00:42:54.500 --> 00:42:58.000

various protective petitions. There may not need to be stem to

814

00:42:58.300 --> 00:43:01.200

Common Ground as the we're looking to

815

00:43:01.200 --> 00:43:06.000

each agreement with them over both protective Provisions, which was Secure protect

816

00:43:04.100 --> 00:43:07.600

their assets should we

817

00:43:07.600 --> 00:43:10.300

get consent during construction and as well

818

00:43:10.300 --> 00:43:13.800

as a side agreement, so we're focusing on reaching agreement

819

00:43:13.800 --> 00:43:16.500

on those two items which then we'll

820

00:43:16.500 --> 00:43:19.600

hopefully lead to draw their objection. If there

821

00:43:19.600 --> 00:43:22.600

needs to be a standard Common Ground will obviously produce one,

822

00:43:22.600 --> 00:43:25.600

but at the moment to our focus is on protective provisions and the

823

00:43:25.600 --> 00:43:28.500

side agreement with right and just

824

00:43:29.600 --> 00:43:32.300

Just a gentle reminder to what I was

825

00:43:32.300 --> 00:43:35.500

saying before about the utility of statements of common ground.

826

00:43:36.300 --> 00:43:39.700

In that as well as providing a position

827

00:43:39.700 --> 00:43:42.600

statement where we are in terms of what has been

828

00:43:42.600 --> 00:43:46.200

agreed. It's useful to the panel

829

00:43:45.200 --> 00:43:48.300

to have second part of

830

00:43:48.300 --> 00:43:50.400

that statement which deals with

831

00:43:51.300 --> 00:43:54.700  
identifying matters that aren't agreed

832  
00:43:55.400 --> 00:43:58.000  
I think it's done that so and during depending on

833  
00:43:58.400 --> 00:44:02.500  
each deadline where we've got to with protective petitions. We will  
produce overly

834  
00:44:01.500 --> 00:44:04.200  
joint statement with National Grid is to

835  
00:44:04.200 --> 00:44:08.200  
where we are in terms of those discussions and the

836  
00:44:07.200 --> 00:44:10.300  
any outstanding issues

837  
00:44:10.300 --> 00:44:14.200  
with them which will mainly relate to the satisfactory

838  
00:44:13.200 --> 00:44:16.000  
nature of technical positions for their assets.

839  
00:44:16.800 --> 00:44:19.000  
If I fully understand that point and we'll make

840  
00:44:19.000 --> 00:44:19.000  
sure.

841  
00:44:20.100 --> 00:44:24.800  
Any areas remaining are updated to UT's deadline item

842  
00:44:23.800 --> 00:44:26.300  
K. Say no to

843  
00:44:26.300 --> 00:44:30.100  
Sonica. We're aiming to issue a draft for their

844  
00:44:29.100 --> 00:44:31.800

review during the course of this week.

845

00:44:34.700 --> 00:44:37.700

the same for the ministry of defense and National Air

846

00:44:37.700 --> 00:44:38.500

Traffic services

847

00:44:42.700 --> 00:44:46.000

Yeah, and also the same for items

848

00:44:45.300 --> 00:44:48.400

n to W on your list which

849

00:44:48.400 --> 00:44:51.900

are the various parts Parish councils again, a

850

00:44:51.900 --> 00:44:54.600

Mr. Smith for their review a

851

00:44:54.600 --> 00:44:56.000

draft statement of common ground.

852

00:44:56.900 --> 00:44:58.000

During the course of this week.

853

00:45:01.400 --> 00:45:04.300

Draft aim to be submitted this week to them this evening this

854

00:45:04.300 --> 00:45:06.100

week for them to continue discussion.

855

00:45:10.600 --> 00:45:15.700

Yes, thank you. Thank you. Okay good.

856

00:45:14.700 --> 00:45:18.000

So the local

857

00:45:17.200 --> 00:45:20.700

authorities have any particular points on statements of

858

00:45:20.700 --> 00:45:21.600  
common ground at the stage?

859

00:45:22.700 --> 00:45:25.500  
Okay, anybody else have any

860

00:45:25.500 --> 00:45:28.600  
comments on the statement of Common Ground? Yes, sir.

861

00:45:35.700 --> 00:45:38.700  
Thank you, Nick. Akram reached Parish

862

00:45:38.700 --> 00:45:42.100  
Council. Sorry Nick acclim aklum. I

863

00:45:41.100 --> 00:45:44.500  
said a c k l a m l a

864

00:45:44.500 --> 00:45:46.400  
m. Yeah from which Paris Council reach.

865

00:45:47.500 --> 00:45:50.400  
our EA CH reach r e

866

00:45:50.400 --> 00:45:51.300  
a c h

867

00:45:52.100 --> 00:45:55.800  
like my colleague from Iceland. We haven't received a

868

00:45:55.800 --> 00:45:56.700  
statement of common ground.

869

00:45:59.100 --> 00:46:03.100  
Again, I'm not sure whether that is down to an oversight

870

00:46:02.100 --> 00:46:06.600  
or whether it reflects some of the confusion in

871

00:46:06.600 --> 00:46:09.600

the procedures at the moment in that

872

00:46:09.600 --> 00:46:12.900

if some of the options that are the applicant has on

873

00:46:12.900 --> 00:46:15.300

the table at the moment are rejected then we

874

00:46:15.300 --> 00:46:19.700

don't have a statement of Common Ground too offer. Okay. Well,

875

00:46:19.700 --> 00:46:22.700

thank you for that. Mister. What I

876

00:46:22.700 --> 00:46:25.700

would say is I'd repeat that that list

877

00:46:25.700 --> 00:46:28.200

in in the annexes. He's not intended to

878

00:46:28.200 --> 00:46:31.200

be a comprehensive list and I would

879

00:46:31.200 --> 00:46:34.700

encourage you to engage with the applicant and

880

00:46:34.700 --> 00:46:37.400

see whether between you

881

00:46:37.400 --> 00:46:40.800

it's it's necessary in

882

00:46:40.800 --> 00:46:43.200

desirable to to enter into a statement

883

00:46:43.200 --> 00:46:43.900

of common ground.

884

00:46:44.600 --> 00:46:48.100

And then you can make your representations to us

885

00:46:47.100 --> 00:46:50.500  
to the panel following the outcome of

886

00:46:50.500 --> 00:46:52.400  
that engagement.

887

00:46:53.800 --> 00:46:54.200  
Thank you very much.

888

00:46:57.100 --> 00:47:00.600  
Okay, so if there are no other issues on

889

00:47:00.600 --> 00:47:05.400  
statements of Common Ground, I'll move to local impact

890

00:47:04.400 --> 00:47:09.700  
reports. So I apologize

891

00:47:09.700 --> 00:47:12.800  
Michael Bedford Suffolk County benefits. Sorry.

892

00:47:12.800 --> 00:47:15.100  
I know it's my fault. I need to

893

00:47:15.100 --> 00:47:18.200  
keep an eye on the on the other hands as it was.

894

00:47:18.200 --> 00:47:21.100  
Well, I think the problem is probably at my end the yellow

895

00:47:21.100 --> 00:47:22.800  
hand function didn't seem to be working.

896

00:47:23.700 --> 00:47:26.400  
So just so it told

897

00:47:26.400 --> 00:47:30.300  
me to refresh it, but I tried that a number of times and it didn't  
work.

898

00:47:29.300 --> 00:47:32.200

So I I resorted to putting myself

899

00:47:32.200 --> 00:47:35.300

on screen which obviously you didn't quite notice. So I

900

00:47:35.300 --> 00:47:39.900

then I'm afraid interrupted you which I apologize for but briefly

901

00:47:38.900 --> 00:47:41.100

on the statement of

902

00:47:41.100 --> 00:47:45.000

common ground with the County Council and I

903

00:47:44.600 --> 00:47:47.700

think two points just to know one good

904

00:47:47.700 --> 00:47:51.000

one less good the point that's good.

905

00:47:50.400 --> 00:47:54.100

We have received

906

00:47:53.100 --> 00:47:56.400

a statement of Common Ground from the

907

00:47:56.400 --> 00:47:59.300

applicant and that has taken on

908

00:47:59.300 --> 00:48:02.900

board one of the points that we had mentioned in

909

00:48:02.900 --> 00:48:03.100

our

910

00:48:04.100 --> 00:48:07.300

Procedural submissions to you, which was that? We

911

00:48:07.300 --> 00:48:11.300

thought the statement of common ground or to include landscape and

912

00:48:11.300 --> 00:48:14.600

visual matters and the draft that we have received does

913

00:48:14.600 --> 00:48:17.500

do so, so that's as we see it

914

00:48:17.500 --> 00:48:21.000

helpful in moving that matter forward the less

915

00:48:20.200 --> 00:48:23.700

good points were simply that we didn't

916

00:48:23.700 --> 00:48:26.500

think it terribly satisfactory that we

917

00:48:26.500 --> 00:48:30.500

didn't receive this document until 1840.

918

00:48:31.200 --> 00:48:34.400

Yesterday the day before the preliminary meeting

919

00:48:34.400 --> 00:48:38.700

and after normal working hours. So

920

00:48:37.700 --> 00:48:40.400

we would certainly encourage

921

00:48:40.400 --> 00:48:43.700

the applicant to try to share information

922

00:48:43.700 --> 00:48:46.700

at earlier stages rather than

923

00:48:46.700 --> 00:48:49.500

very much at the last minute just before a

924

00:48:49.500 --> 00:48:52.500

preliminary meeting. So that's why I won't

925

00:48:52.500 --> 00:48:53.600  
say about statements of common ground.

926  
00:48:54.400 --> 00:48:57.500  
And thank you, Mr. Bedford, and that point is made and

927  
00:48:59.500 --> 00:49:02.400  
with that we will then.

928  
00:49:03.700 --> 00:49:06.700  
think move on to local impact

929  
00:49:06.700 --> 00:49:07.400  
reports

930  
00:49:09.400 --> 00:49:12.500  
and what I wanted to say about local impact reports, is

931  
00:49:12.500 --> 00:49:16.400  
that the final timetable for the examination will container

932  
00:49:15.400 --> 00:49:18.400  
request for local impact reports from

933  
00:49:18.400 --> 00:49:20.300  
the relevant local authorities.

934  
00:49:21.200 --> 00:49:23.300  
And so I just like to give an opportunity to

935  
00:49:25.500 --> 00:49:28.800  
If the applicant wants to make any comments on on this

936  
00:49:28.800 --> 00:49:31.500  
at this stage, if not,

937  
00:49:31.500 --> 00:49:34.200  
I'll go straight to the local of

938  
00:49:34.200 --> 00:49:38.000  
authorities and they'll come back to the applicant but only

939

00:49:37.300 --> 00:49:40.700

matters Rising but what I was interested in knowing

940

00:49:40.700 --> 00:49:45.300

actually is whether I

941

00:49:44.300 --> 00:49:47.300

think my understanding at one stage

942

00:49:47.300 --> 00:49:50.700

was that local impact reports might be prepared. Jointly

943

00:49:50.700 --> 00:49:52.700

I one or more authorities.

944

00:49:54.700 --> 00:49:56.400

Anybody like to speak tonight?

945

00:49:57.200 --> 00:50:00.700

Sir Michael Bedford Suffolk County Council. Yes

946

00:50:00.700 --> 00:50:03.700

Mister. So yes, if we leave aside

947

00:50:03.700 --> 00:50:06.100

the timetable for local impact reports for the

948

00:50:06.100 --> 00:50:09.200

reasons. Obviously that you've hinted at

949

00:50:09.200 --> 00:50:12.800

will come back to that no doubt in due course, but certainly

950

00:50:12.800 --> 00:50:15.500

the current intention is so far

951

00:50:15.500 --> 00:50:18.400

as practicable for the authorities to

952

00:50:18.400 --> 00:50:21.700  
combine together and produce a

953  
00:50:21.700 --> 00:50:25.400  
Consolidated local impact report, but

954  
00:50:24.400 --> 00:50:28.400  
there may be individual chapters

955  
00:50:27.400 --> 00:50:31.300  
or topics as it were where the authorities either

956  
00:50:31.300 --> 00:50:34.300  
have different interests or different views. And so

957  
00:50:34.300 --> 00:50:38.300  
they obviously there they would present separate information

958  
00:50:37.300 --> 00:50:40.200  
to you. But so far

959  
00:50:40.200 --> 00:50:44.300  
as possible the idea is to work towards a

960  
00:50:44.300 --> 00:50:48.700  
joint approach because obviously that may help you more than

961  
00:50:47.700 --> 00:50:50.000  
separate documents.

962  
00:50:51.200 --> 00:50:55.700  
Yes, thank you, Mr. Bedford. That does sound as if

963  
00:50:55.700 --> 00:50:59.500  
it might be a sensible Way Forward now. Can

964  
00:50:59.500 --> 00:51:01.000  
I just clarify therefore that?

965  
00:51:01.700 --> 00:51:01.900  
the

966

00:51:04.300 --> 00:51:08.100

The Proposal would be to have a an overarching

967

00:51:07.100 --> 00:51:11.800

nir as it were among the

968

00:51:10.800 --> 00:51:13.500

two County councils and the

969

00:51:13.500 --> 00:51:15.400

two district councils. Is that right?

970

00:51:16.300 --> 00:51:19.600

So that that's I think the current planning but

971

00:51:19.600 --> 00:51:22.600

as you know, it's it's an embryonic document at

972

00:51:22.600 --> 00:51:25.800

the moment and therefore as the as it

973

00:51:25.800 --> 00:51:28.300

were as it structure evolves. We may

974

00:51:28.300 --> 00:51:31.100

have to rethink it when we've actually seen what it looks

975

00:51:31.100 --> 00:51:34.400

like as it gets closer to a point that we would have something to submit

976

00:51:34.400 --> 00:51:34.800

to you.

977

00:51:35.800 --> 00:51:37.300

Yeah, okay. Well.

978

00:51:38.700 --> 00:51:41.300

I think it might be fair to say

979

00:51:41.300 --> 00:51:45.500

that that sounds a reasonable way forward. So we'll

980

00:51:45.500 --> 00:51:48.500

look forward to progress being made on that Mr. Griffiths anything.

981

00:51:48.500 --> 00:51:51.700

You want to answer that Nate. I thank the authorities I

982

00:51:51.700 --> 00:51:55.100

think that's a very sensible approach I think will make the examination

983

00:51:54.100 --> 00:51:56.600

to be a as possible.

984

00:51:57.500 --> 00:51:57.700

Thank you.

985

00:51:58.700 --> 00:52:01.900

Right and does that somebody it's it's

986

00:52:01.900 --> 00:52:04.000

actually Mohammed here. And again, I don't

987

00:52:04.200 --> 00:52:07.500

know you can see my hand. I'm afraid and just it's

988

00:52:07.500 --> 00:52:09.700

alright if I may just say a couple of things.

989

00:52:10.600 --> 00:52:11.400

Yes, of course.

990

00:52:12.400 --> 00:52:15.500

Just to add to what my learner friend

991

00:52:15.500 --> 00:52:18.900

Mr. Bedford was just saying the also on

992

00:52:18.900 --> 00:52:21.700

the same top Common Ground only received one yesterday, but

993

00:52:21.700 --> 00:52:24.600

we're very much open-minded to trying

994

00:52:24.600 --> 00:52:27.400

to agree as much as people because so that's that

995

00:52:27.400 --> 00:52:28.000

that is an ongoing.

996

00:52:29.600 --> 00:52:33.600

Action point on our part in terms of the Liars.

997

00:52:32.600 --> 00:52:35.200

We are we have been working on

998

00:52:35.200 --> 00:52:38.400

ours both in terms of the district

999

00:52:38.400 --> 00:52:41.800

and the County Council that I'm acting on behalf for quite

1000

00:52:41.800 --> 00:52:45.200

some time. But of course as you know with all

1001

00:52:45.200 --> 00:52:48.400

the changes that are taking place in my learner friends Bedford

1002

00:52:48.400 --> 00:52:51.200

referred to as embryonic document, I think it's best

1003

00:52:51.200 --> 00:52:54.100

to say for our side. It's an evolving document. We don't know where it's going to

1004

00:52:54.100 --> 00:52:58.000

head. And so the the main

1005

00:52:57.200 --> 00:53:00.400

message from our side is we will definitely work with

1006

00:53:00.400 --> 00:53:01.800

the county to try and see where

1007

00:53:02.600 --> 00:53:05.800

We can work on a document that is common

1008

00:53:05.800 --> 00:53:08.800

and insofar as the district is concerned

1009

00:53:08.800 --> 00:53:11.200

obviously interests don't always align in the

1010

00:53:11.200 --> 00:53:15.100

common document may not always be the appropriate Way Forward, but we

1011

00:53:15.100 --> 00:53:18.400

will continue to work on that when we get to the section where you discuss

1012

00:53:18.400 --> 00:53:21.300

the timetable that's going

1013

00:53:21.300 --> 00:53:24.200

to be quite important for a reason. I will explain that stage.

1014

00:53:25.900 --> 00:53:28.300

Right understood. Thank you, Mr. Muhammad.

1015

00:53:31.400 --> 00:53:33.100

Right any of the comments on?

1016

00:53:35.200 --> 00:53:36.700

the local impact reports

1017

00:53:37.400 --> 00:53:41.600

If not, then I will move on to additional submissions.

1018

00:53:41.600 --> 00:53:45.400

I'll just mention following the acceptance of the application.  
They've

1019

00:53:44.400 --> 00:53:49.000

been a number of additional submissions made most

1020

00:53:47.400 --> 00:53:50.100

if not, all of which I

1021

00:53:50.100 --> 00:53:54.100

think the panel has accepted the applicant

1022

00:53:53.100 --> 00:53:56.900

has submitted additional documents examining Authority

1023

00:53:56.900 --> 00:53:59.300

accepted these that have been published on the

1024

00:53:59.300 --> 00:54:03.400

project website can be accessed through the examination library

1025

00:54:02.400 --> 00:54:05.900

with the reference a

1026

00:54:05.900 --> 00:54:07.100

s for sugar.

1027

00:54:09.500 --> 00:54:12.400

and there is a number of further additional submissions from

1028

00:54:12.400 --> 00:54:15.300

interested parties, which have also been

1029

00:54:15.300 --> 00:54:18.200

accepted since the rule six letter was published on

1030

00:54:18.200 --> 00:54:22.100

the 28th of June and they also have examination

1031

00:54:21.100 --> 00:54:24.400

Library references as

1032

00:54:25.900 --> 00:54:28.100

given the number of additional documents. I don't

1033

00:54:28.100 --> 00:54:33.100

intend to describe them at this point. Does anybody

1034

00:54:32.100 --> 00:54:35.500

have any questions regarding the exceptions of

1035

00:54:35.500 --> 00:54:37.400

any of these documents?

1036

00:54:40.300 --> 00:54:43.500

Okay, so I'll move on then to

1037

00:54:43.500 --> 00:54:46.300

procedural decisions taken by

1038

00:54:46.300 --> 00:54:47.400

the examining Authority.

1039

00:54:48.600 --> 00:54:51.300

In Annex F to the rule 6

1040

00:54:51.300 --> 00:54:54.600

letter, you'll see that we've made a number of procedural decisions

1041

00:54:54.600 --> 00:54:57.800

about the management of the examination and

1042

00:54:57.800 --> 00:55:00.400

these are in addition to the decision to

1043

00:55:00.400 --> 00:55:02.700

postpone the hearings tomorrow and Thursday.

1044

00:55:03.500 --> 00:55:06.900

And when the final timetable this issued issue specific

1045

00:55:06.900 --> 00:55:09.700

hearings and open floor hearings will be rearranged.

1046

00:55:10.800 --> 00:55:13.600

And what this means is that the

1047

00:55:13.600 --> 00:55:16.800

draft timetable set out in NXT to

1048

00:55:16.800 --> 00:55:19.900

the rule six letter. We'll need to be revised and we'll

1049

00:55:19.900 --> 00:55:22.400

deal with General time taping matters later in

1050

00:55:22.400 --> 00:55:25.200

the agenda under item four.

1051

00:55:26.700 --> 00:55:29.900

So as Annex B

1052

00:55:29.900 --> 00:55:33.000

sets out questions discussions and

1053

00:55:32.800 --> 00:55:35.100

representations about the merits and

1054

00:55:35.100 --> 00:55:38.300

advantages or disadvantages of the proposed development

1055

00:55:38.300 --> 00:55:40.600

are for the examination itself.

1056

00:55:41.500 --> 00:55:44.300

Which will begin the day after

1057

00:55:44.300 --> 00:55:47.700

the close of the preliminary meeting that remains

1058

00:55:47.700 --> 00:55:50.300

the case, but if the preliminary meeting has

1059

00:55:50.300 --> 00:55:54.100

to be adjourned later today, the examining

1060

00:55:53.100 --> 00:55:56.700

Authority will consider what procedural decisions

1061

00:55:56.700 --> 00:55:59.400

are appropriate after it is

1062

00:55:59.400 --> 00:56:03.200

taken count of submissions that the interested parties

1063

00:56:02.200 --> 00:56:05.500

may wish

1064

00:56:05.500 --> 00:56:08.600

to make about the timing of the change request.

1065

00:56:09.400 --> 00:56:12.900

He mentored timetable put forward by the applicant and

1066

00:56:12.900 --> 00:56:16.600

the start of the examination about which

1067

00:56:16.600 --> 00:56:19.000

I'll just invite the applicant to speak very shortly.

1068

00:56:20.100 --> 00:56:24.000

so just before I do that, I'll just

1069

00:56:23.800 --> 00:56:27.400

ask whether there are any issues

1070

00:56:26.400 --> 00:56:30.400

or questions about the general

1071

00:56:29.400 --> 00:56:32.900

procedures and as set

1072

00:56:32.900 --> 00:56:35.200  
out in nxb about the

1073

00:56:35.200 --> 00:56:37.800  
way in which these examinations are run the way in which

1074

00:56:38.400 --> 00:56:40.900  
the panel intends to examine the application.

1075

00:56:44.400 --> 00:56:46.300  
So, okay. Thank you for that.

1076

00:56:47.500 --> 00:56:50.900  
And now move on then to item three.

1077

00:56:52.700 --> 00:56:53.900  
Excuse me.

1078

00:56:58.700 --> 00:57:01.700  
The applicant has given notice of

1079

00:57:01.700 --> 00:57:04.900  
its intention to submit a change request that

1080

00:57:04.900 --> 00:57:07.900  
is a formal submission of

1081

00:57:07.900 --> 00:57:10.700  
changes to

1082

00:57:10.700 --> 00:57:13.600  
the application as was originally

1083

00:57:13.600 --> 00:57:14.200  
submitted.

1084

00:57:16.400 --> 00:57:19.700  
Some of the currently notified intended changes

1085

00:57:19.700 --> 00:57:22.900  
have been subject to a non statutory consultation

1086

00:57:22.900 --> 00:57:23.500  
exercise.

1087

00:57:25.600 --> 00:57:28.200  
And and I'll just invite the applicant to

1088

00:57:28.200 --> 00:57:31.800  
describe the proposed changes and where we are with a submission

1089

00:57:31.800 --> 00:57:35.800  
of the formal change request the examining

1090

00:57:34.800 --> 00:57:37.500  
Authority as you may know published

1091

00:57:37.500 --> 00:57:40.500  
on its website last Friday the two letters from

1092

00:57:40.500 --> 00:57:42.600  
the applicant of the 21st of July.

1093

00:57:44.100 --> 00:57:47.800  
I appreciate some of

1094

00:57:47.800 --> 00:57:51.000  
you may not have had an opportunity to to read through

1095

00:57:50.100 --> 00:57:53.600  
all those or consider fully the implications

1096

00:57:53.600 --> 00:57:56.900  
of the contents and

1097

00:57:56.900 --> 00:57:59.200  
so with that in

1098

00:57:59.200 --> 00:58:01.900  
mindful to know.

1099

00:58:03.100 --> 00:58:07.000

From the applicant what further work is considered to be necessary in

1100

00:58:06.300 --> 00:58:10.100

order to put those proposed changes actually in

1101

00:58:09.100 --> 00:58:13.000

place so that they can be formally submitted.

1102

00:58:13.800 --> 00:58:17.000

with whom it needs to engage for those

1103

00:58:16.600 --> 00:58:19.600

purposes and when

1104

00:58:20.500 --> 00:58:23.000

so I think I'll just

1105

00:58:27.900 --> 00:58:28.500

thank you, sir.

1106

00:58:29.700 --> 00:58:32.500

Helpful for those present here

1107

00:58:32.500 --> 00:58:35.800

and virtual life. I just run through the pose

1108

00:58:35.800 --> 00:58:37.500

change application, even though I might repeating.

1109

00:58:38.300 --> 00:58:41.400

Commentary that we have put in correspondence to

1110

00:58:41.400 --> 00:58:43.800

the examining Authority. That might help.

1111

00:58:45.300 --> 00:58:48.900

To just do that. So as you'll be aware the application

1112

00:58:48.900 --> 00:58:53.500

since application was submitted the applicant received

1113

00:58:52.500 --> 00:58:55.200

through the relevant representation from

1114

00:58:55.200 --> 00:58:58.900

National Grid electricity transmission details regarding

1115

00:58:58.900 --> 00:59:01.600

option one at the Burwell National

1116

00:59:01.600 --> 00:59:05.000

Grid substation that's applicants option one regarding extension

1117

00:59:04.100 --> 00:59:07.400

to that substation. That was as

1118

00:59:07.400 --> 00:59:10.200

was despite detailed work that we had done

1119

00:59:10.200 --> 00:59:14.000

with the applicator done with National Grid that's relevant

1120

00:59:13.500 --> 00:59:16.300

came as a disappointment to

1121

00:59:16.300 --> 00:59:19.400

the applicant. However, since that

1122

00:59:19.400 --> 00:59:22.700

we've worked collaboratively with National Grid, and we

1123

00:59:22.700 --> 00:59:25.600

received we visited sorry Bears Technical

1124

00:59:25.600 --> 00:59:28.200

Solutions available to connect the scheme to

1125

00:59:28.200 --> 00:59:29.700

the substation.

1126

00:59:30.800 --> 00:59:33.800

And we've reviewed those Technical Solutions, even though we have another

1127

00:59:33.800 --> 00:59:36.400

option to in the scheme because as you

1128

00:59:36.400 --> 00:59:39.900

will be aware from the application option to as currently

1129

00:59:39.900 --> 00:59:42.800

does require compulsory accession

1130

00:59:42.800 --> 00:59:44.600

of that site.

1131

00:59:45.700 --> 00:59:48.500

So the applicant's looking to minimize its compulsory

1132

00:59:48.500 --> 00:59:52.500

acquisition and the environmental impacts Revisited its

1133

00:59:51.500 --> 00:59:55.600

Technical Solutions. And this is produced as

1134

00:59:54.600 --> 00:59:57.100

we put in corresponds to you what we

1135

00:59:57.100 --> 00:59:59.300

are calling option three.

1136

01:00:00.300 --> 01:00:03.300

And this relates to the cabling solution to

1137

01:00:03.300 --> 01:00:06.900

receive to go from the solar PV sites

1138

01:00:06.900 --> 01:00:09.200

to the substation as I want to make it

1139

01:00:09.200 --> 01:00:12.200

clear. I think there might be some confusion and this is

1140

01:00:12.200 --> 01:00:15.700

all set out in the grid connection statements document reference

1141

01:00:15.700 --> 01:00:19.400

a p python 265 that

1142

01:00:18.400 --> 01:00:21.500

the applicant has a

1143

01:00:21.500 --> 01:00:23.500

grid connection offer with National Grid.

1144

01:00:24.300 --> 01:00:27.700

That offer remains in existence for a 500

1145

01:00:27.700 --> 01:00:30.800

megawatt import and 500 megawatts export

1146

01:00:30.800 --> 01:00:34.000

connection to facilitate the scheme and

1147

01:00:33.400 --> 01:00:36.300

that remains in place and that's all set

1148

01:00:36.300 --> 01:00:37.700

out in the grid connection statement.

1149

01:00:38.700 --> 01:00:41.600

So what is option three so option

1150

01:00:41.600 --> 01:00:44.200

three involves effectively transforming the

1151

01:00:44.200 --> 01:00:48.000

33 KV electricity that's received from the solar

1152

01:00:47.300 --> 01:00:50.300

stations within the solar PV

1153

01:00:50.300 --> 01:00:53.700  
sites directly to a 400 KV

1154

01:00:53.700 --> 01:00:56.600  
at the site and then exporting the electricity

1155

01:00:56.600 --> 01:01:00.200  
at 400 KV to the Burwell National Grid substation,

1156

01:00:59.200 --> 01:01:02.900  
that would affectively remove the effectively

1157

01:01:02.900 --> 01:01:05.400  
removes option one from the

1158

01:01:05.400 --> 01:01:08.400  
application. It might also remove option

1159

01:01:08.400 --> 01:01:12.200  
two from the application. However, whilst

1160

01:01:11.200 --> 01:01:14.300  
National Grid we discussed this option National

1161

01:01:14.300 --> 01:01:18.100  
Grid, we have to go for more through a formal modification process

1162

01:01:17.100 --> 01:01:20.700  
with our grid connection offer that

1163

01:01:20.700 --> 01:01:23.300  
takes a period of time. We're in that process at

1164

01:01:23.300 --> 01:01:27.000  
the moment. So the application the pose changes

1165

01:01:26.400 --> 01:01:30.800  
application we intend to submit words not

1166

01:01:29.800 --> 01:01:32.100  
to remove option two at this

1167  
01:01:32.100 --> 01:01:35.900  
point that will come later in the examination once more

1168  
01:01:35.900 --> 01:01:37.100  
application has been

1169  
01:01:38.600 --> 01:01:42.000  
and hopefully accepted by National Grid that change

1170  
01:01:41.200 --> 01:01:45.100  
was it would be another change would simply be removal

1171  
01:01:44.100 --> 01:01:47.400  
of option two straightforward is

1172  
01:01:47.400 --> 01:01:47.500  
that

1173  
01:01:48.700 --> 01:01:51.100  
So what is the current proposed change application? So there

1174  
01:01:51.100 --> 01:01:52.600  
are three changes?

1175  
01:01:54.300 --> 01:01:57.200  
Engine one which is the removal of option one, which is

1176  
01:01:57.200 --> 01:02:00.600  
work number five a from the dco and the

1177  
01:02:00.600 --> 01:02:03.500  
compulsory acquisition of Freehold

1178  
01:02:03.500 --> 01:02:06.600  
land the land would stay within the order land but

1179  
01:02:06.600 --> 01:02:09.300  
you'll be a reduction in powers that we're

1180  
01:02:09.300 --> 01:02:12.300  
seeking for compulsory accession as clearly cabling would still

1181  
01:02:12.300 --> 01:02:16.400  
be required to reach the National Grid substation. So

1182  
01:02:15.400 --> 01:02:18.500  
option one is to reduction effectively both

1183  
01:02:18.500 --> 01:02:20.700  
built development and compulsory acquisition powers.

1184  
01:02:22.300 --> 01:02:25.700  
Change 2 is the introduction of option 3, which

1185  
01:02:25.700 --> 01:02:28.300  
is effectively changing the cabling from its

1186  
01:02:28.300 --> 01:02:31.300  
current 132 KV voltage in the application to

1187  
01:02:31.300 --> 01:02:34.100  
400 KV. Now this would reduce the number

1188  
01:02:34.100 --> 01:02:37.500  
of cables from four to a single set in a trench

1189  
01:02:37.500 --> 01:02:40.900  
and that change all falls within the

1190  
01:02:40.900 --> 01:02:43.700  
current parameters of the cable Corridor

1191  
01:02:43.700 --> 01:02:46.100  
as submitted and as assessed in the environmental

1192  
01:02:46.100 --> 01:02:49.300  
statement, so there will be no changes to the

1193

01:02:49.300 --> 01:02:52.300  
order land or the order limits as a

1194  
01:02:52.300 --> 01:02:53.800  
result of that change.

1195  
01:02:55.100 --> 01:02:58.100  
And then the Third change is as a consequence of

1196  
01:02:58.100 --> 01:03:01.300  
having 400 KV cable. We also need to convert the

1197  
01:03:01.300 --> 01:03:04.100  
electricity to 400 KV at the same side as

1198  
01:03:04.100 --> 01:03:07.300  
previously mentioned and causing either Transformers that

1199  
01:03:07.300 --> 01:03:11.800  
are that we've applied for in the application at Sonic

1200  
01:03:10.800 --> 01:03:13.900  
East a silica East

1201  
01:03:13.900 --> 01:03:16.100  
B. And Sonica West day would need to

1202  
01:03:16.100 --> 01:03:17.900  
change from being a 33.

1203  
01:03:19.100 --> 01:03:22.800  
132 KV Transformer to a33 KB

1204  
01:03:22.800 --> 01:03:25.700  
to 400 KV Transformer that

1205  
01:03:25.700 --> 01:03:28.600  
effectively involves the reconfiguration of the internal elements

1206  
01:03:28.600 --> 01:03:31.300  
of the substation at those

1207

01:03:31.300 --> 01:03:35.300

three locations. And again, they would all be within the parameters as

1208

01:03:34.300 --> 01:03:37.600

applied for in the application. So

1209

01:03:37.600 --> 01:03:40.500

no change the order land and no change

1210

01:03:40.500 --> 01:03:41.800

to the order limits.

1211

01:03:44.500 --> 01:03:47.300

Those main changes have all as

1212

01:03:47.300 --> 01:03:50.300

you alluded to serve all be consulted on as we set

1213

01:03:50.300 --> 01:03:53.600

out that as we said to examining thoughts that we would do between the

1214

01:03:53.600 --> 01:03:56.400

sixth of June and the 6th of July 2022.

1215

01:03:57.600 --> 01:04:00.700

The environmental assessment of those changes has been

1216

01:04:00.700 --> 01:04:03.500

carried out and the applicants

1217

01:04:03.500 --> 01:04:06.700

submission that will be making in the proposed change application that

1218

01:04:06.700 --> 01:04:09.600

that assessment concludes those changes are

1219

01:04:09.600 --> 01:04:10.800

non-material.

1220

01:04:13.100 --> 01:04:17.900

During that process of looking at the assessing the changes we looked

1221

01:04:16.900 --> 01:04:20.900

at the movements of

1222

01:04:20.900 --> 01:04:23.800

the slightly larger crane that we needed to

1223

01:04:23.800 --> 01:04:27.000

deliver the one the 33 KV 400

1224

01:04:26.300 --> 01:04:31.100

KV Transformer to the site

1225

01:04:29.100 --> 01:04:33.500

and that those

1226

01:04:32.500 --> 01:04:35.200

results only came out to

1227

01:04:35.200 --> 01:04:38.400

us last week and that showed that all

1228

01:04:38.400 --> 01:04:41.700

bar one of the Junctions the larger crane fell

1229

01:04:41.700 --> 01:04:44.700

within the highway and it was

1230

01:04:44.700 --> 01:04:47.100

those it fell within the parameters that

1231

01:04:47.100 --> 01:04:47.700

we discussed.

1232

01:04:49.400 --> 01:04:52.500

But at one location, which is Milton Hall Road at the

1233

01:04:52.500 --> 01:04:55.600  
junction labeled as -37 on

1234

01:04:55.600 --> 01:04:59.400  
the access and rights of way plans that

1235

01:04:58.400 --> 01:05:02.100  
larger crane would whilst it

1236

01:05:02.100 --> 01:05:05.600  
would stay on the highway. So the wheels the crane would stay on  
the highway as

1237

01:05:05.600 --> 01:05:08.300  
it turned the junction the bed of the crane would

1238

01:05:08.300 --> 01:05:12.700  
slightly oversail the land outside

1239

01:05:12.700 --> 01:05:13.400  
the highway

1240

01:05:14.400 --> 01:05:17.100  
And it's that over sailing. So it's literally over sailing the

1241

01:05:17.100 --> 01:05:20.200  
crane of that one of that small passive land

1242

01:05:20.200 --> 01:05:23.500  
that's unregistered that has resulted in

1243

01:05:23.500 --> 01:05:26.600  
us writing to you to say that the change application will

1244

01:05:26.600 --> 01:05:29.400  
be delayed. We did discuss

1245

01:05:29.400 --> 01:05:32.300  
whether to submit the application as is and

1246

01:05:32.300 --> 01:05:34.900

highlight this extra change that we need to happen.

1247

01:05:36.200 --> 01:05:39.500

But we considered that you would rather and interested parties would

1248

01:05:39.500 --> 01:05:42.200

rather have all the consequences of

1249

01:05:42.200 --> 01:05:44.700

all the change the changes we're making in one application.

1250

01:05:45.600 --> 01:05:49.200

So that's the decision we made and the consultation of

1251

01:05:48.200 --> 01:05:51.400

that oversailing of

1252

01:05:51.400 --> 01:05:55.600

that private land. The letters have gone out yesterday a

1253

01:05:54.600 --> 01:05:58.000

couple of last couple of days. The consultation

1254

01:05:57.200 --> 01:06:00.800

will run from the tomorrow, which is the 27th of

1255

01:06:00.800 --> 01:06:04.400

July through to the 24th of August. We're Consulting

1256

01:06:03.400 --> 01:06:06.600

the highway authorities the parish

1257

01:06:06.600 --> 01:06:09.800

councils and the those with

1258

01:06:09.800 --> 01:06:11.700

an interest in that piece of unregistered land.

1259

01:06:12.400 --> 01:06:15.100

And about the oversale of that of the

1260

01:06:15.100 --> 01:06:18.500

crane with the intention being that we would then submit

1261

01:06:18.500 --> 01:06:22.200

the change application incorporating that oversair

1262

01:06:21.200 --> 01:06:24.300

which would include a small

1263

01:06:24.300 --> 01:06:27.600

extension to your delimits not compulsory accessing. We won't

1264

01:06:27.600 --> 01:06:30.900

we don't need to acquire that land. It's simply to Temporary possess

1265

01:06:30.900 --> 01:06:33.400

it so the trade can oversell when literally talk

1266

01:06:33.400 --> 01:06:36.500

about two movements here as they crane comes in

1267

01:06:36.500 --> 01:06:39.500

and enter parts from the site. We would

1268

01:06:39.500 --> 01:06:42.600

intention then is after that consultation have regards the

1269

01:06:42.600 --> 01:06:43.500

responses we've received

1270

01:06:44.300 --> 01:06:46.900

And then submit the change application at the end of August.

1271

01:06:48.200 --> 01:06:52.700

30th of first of August, that's our intention. So

1272

01:06:51.700 --> 01:06:54.800

hope that's explains where we are with

1273

01:06:54.800 --> 01:06:57.600  
the with the change and it's

1274

01:06:57.600 --> 01:07:00.000  
the fact that we are going through consultation now.

1275

01:07:01.200 --> 01:07:04.400  
Over that every sailing which has resulted in us not being able to submit the

1276

01:07:04.400 --> 01:07:07.200  
application until the end of the month until the

1277

01:07:07.200 --> 01:07:07.600  
end of August.

1278

01:07:09.100 --> 01:07:11.100  
Thank you very much. Thank you very much.

1279

01:07:13.300 --> 01:07:13.600  
And

1280

01:07:15.000 --> 01:07:16.300  
just

1281

01:07:18.200 --> 01:07:20.800  
couple of issues arising from that

1282

01:07:22.400 --> 01:07:25.700  
before I invite comments from the parties

1283

01:07:25.700 --> 01:07:26.500  
the other parties.

1284

01:07:27.700 --> 01:07:31.100  
The materials the

1285

01:07:30.100 --> 01:07:34.300  
first firstly the materials that were published

1286

01:07:33.300 --> 01:07:36.100  
in support of the consultation.

1287

01:07:37.100 --> 01:07:40.200  
Held by the applicant between the 6th of June.

1288

01:07:40.200 --> 01:07:42.300  
I think it was in the sixth of July.

1289

01:07:43.400 --> 01:07:46.500  
I don't think they've been sent to

1290

01:07:46.500 --> 01:07:48.500  
us have though to send to the panel.

1291

01:07:51.400 --> 01:07:54.500  
And so the that's not doesn't that those

1292

01:07:54.500 --> 01:07:57.400  
the consultation material we haven't sent

1293

01:07:57.400 --> 01:08:01.000  
to the panel. No, that's not our formal request for the change. No,  
of

1294

01:08:00.200 --> 01:08:03.900  
course not that that is a perfectly summarizing

1295

01:08:03.900 --> 01:08:06.300  
the what purpose of consultation we

1296

01:08:06.300 --> 01:08:09.300  
kind of course send that to you. The proposed changes

1297

01:08:09.300 --> 01:08:12.700  
at document itself that I can go through what the treatment the  
report

1298

01:08:12.700 --> 01:08:15.300  
will do if that's helpful is obviously more details and

1299

01:08:15.300 --> 01:08:18.700

covers the environmental assessment of the

1300

01:08:18.700 --> 01:08:21.200

changes, but I kind of arrange that

1301

01:08:21.200 --> 01:08:24.100

consultation booklet to be sent to the panel if that's

1302

01:08:24.100 --> 01:08:24.200

helpful.

1303

01:08:26.300 --> 01:08:29.400

Well, we will wait to

1304

01:08:29.400 --> 01:08:32.200

see what what is submitted. Thank you. I just wanted to

1305

01:08:32.200 --> 01:08:35.600

to be absolutely sure that we have not

1306

01:08:35.600 --> 01:08:38.700

checked but I don't think we we have received anything

1307

01:08:38.700 --> 01:08:41.400

independently. We haven't we haven't issued the conversation  
booklet.

1308

01:08:41.400 --> 01:08:44.100

We have to haven't formally made these mission to you know, of  
course

1309

01:08:44.100 --> 01:08:47.000

not that obviously is due to

1310

01:08:47.200 --> 01:08:51.200

the change in circumstances from the book

1311

01:08:50.200 --> 01:08:54.400

notified of last week. So I understand that

1312  
01:08:53.400 --> 01:08:56.300  
I understand that's the

1313  
01:08:56.300 --> 01:08:56.500  
case.

1314  
01:08:58.600 --> 01:09:02.500  
The the second issue

1315  
01:09:01.500 --> 01:09:05.100  
is the option two.

1316  
01:09:06.600 --> 01:09:10.800  
Which you've described now, that's the as

1317  
01:09:09.800 --> 01:09:12.400  
between option one and option two

1318  
01:09:12.400 --> 01:09:15.400  
option two is the sort of the larger area of land

1319  
01:09:15.400 --> 01:09:18.700  
in the vicinity of the Burwell substation, isn't

1320  
01:09:18.700 --> 01:09:21.500  
it? Which as I

1321  
01:09:21.500 --> 01:09:24.700  
understand it you intend once

1322  
01:09:24.700 --> 01:09:27.600  
the modification agreement is entered into

1323  
01:09:27.600 --> 01:09:31.400  
with National Grid to effectively withdraw.

1324  
01:09:32.400 --> 01:09:36.600  
Oh if I summarize that correctly, that's

1325  
01:09:35.600 --> 01:09:38.100

the that's the position. Okay.

1326

01:09:42.700 --> 01:09:45.400

It's entirely for the applicant to decide

1327

01:09:45.400 --> 01:09:48.300

on what basis it Wishes the application to

1328

01:09:48.300 --> 01:09:48.800

go forward.

1329

01:09:51.000 --> 01:09:51.200

so

1330

01:09:53.600 --> 01:09:57.200

the option two if it

1331

01:09:56.200 --> 01:10:00.300

is still an option will I

1332

01:10:00.300 --> 01:10:01.300

understand it involve?

1333

01:10:02.400 --> 01:10:04.700

the exercise of compulsory acquisition powers

1334

01:10:06.700 --> 01:10:10.200

To the extent that the exercise

1335

01:10:09.200 --> 01:10:13.000

of compulsory acquisition Powers is

1336

01:10:12.500 --> 01:10:15.500

subject to approval by the Secretary

1337

01:10:15.500 --> 01:10:15.900

of State.

1338

01:10:17.300 --> 01:10:23.400

that of course is slightly independent exercise which will

1339

01:10:23.400 --> 01:10:25.900

include considerations of

1340

01:10:26.900 --> 01:10:27.600

whether there are

1341

01:10:28.500 --> 01:10:32.100

reasonable alternatives to the acquisition

1342

01:10:31.100 --> 01:10:32.900

of that land

1343

01:10:34.400 --> 01:10:37.300

and then of

1344

01:10:37.300 --> 01:10:40.800

course your proposing an option 3, which

1345

01:10:40.800 --> 01:10:45.800

you've just described which will

1346

01:10:44.800 --> 01:10:46.500

form part of the

1347

01:10:47.600 --> 01:10:50.300

change request so that

1348

01:10:50.300 --> 01:10:53.400

has a number of hurdles to go through in the sense

1349

01:10:53.400 --> 01:10:56.300

that the panel will

1350

01:10:57.400 --> 01:11:00.600

when it becomes seized of that change request will

1351

01:11:00.600 --> 01:11:01.400

have to assess.

1352

01:11:03.600 --> 01:11:06.800

A it's materiality in terms

1353

01:11:06.800 --> 01:11:10.500

of whether it's in material change to the application and

1354

01:11:09.500 --> 01:11:11.800

be whether to accept it.

1355

01:11:14.100 --> 01:11:17.100

Having also accepted it if it accepts it.

1356

01:11:17.800 --> 01:11:20.200

It would therefore fall to be

1357

01:11:20.200 --> 01:11:21.300

assessed.

1358

01:11:22.200 --> 01:11:25.800

With all the other options in terms

1359

01:11:25.800 --> 01:11:28.700

of its environmental benefits

1360

01:11:28.700 --> 01:11:29.700

and this benefits.

1361

01:11:32.300 --> 01:11:32.700

and therefore

1362

01:11:34.800 --> 01:11:35.200

if

1363

01:11:36.700 --> 01:11:37.000

the

1364

01:11:38.200 --> 01:11:38.600

panel

1365

01:11:39.900 --> 01:11:42.500

ends up and I've no idea because

1366

01:11:42.500 --> 01:11:45.500

we're not looking at the evidence as such but

1367

01:11:45.500 --> 01:11:45.900

if

1368

01:11:47.100 --> 01:11:51.400

it happens that there are perceived to be environmental issues

1369

01:11:50.400 --> 01:11:54.100

with option three.

1370

01:11:55.500 --> 01:11:57.300

I just wonder.

1371

01:12:00.300 --> 01:12:02.400

Whether you have taken into account.

1372

01:12:04.200 --> 01:12:07.500

the sustainability of option two

1373

01:12:10.900 --> 01:12:12.100

as part of the mix

1374

01:12:13.400 --> 01:12:17.100

Now that's just something that occurs to to

1375

01:12:16.100 --> 01:12:17.700

the panel.

1376

01:12:18.600 --> 01:12:22.000

And I because because it

1377

01:12:21.100 --> 01:12:23.900

occurs to us. I think it's right to

1378

01:12:24.900 --> 01:12:28.600

to to mention that possible

1379

01:12:27.600 --> 01:12:30.600

chain of events that might

1380

01:12:30.600 --> 01:12:34.500  
occur in terms of what hurdles

1381

01:12:33.500 --> 01:12:37.200  
have to be gone through in assessing

1382

01:12:36.200 --> 01:12:39.800  
the this

1383

01:12:39.800 --> 01:12:43.000  
new Option of three if it's accepted if

1384

01:12:42.200 --> 01:12:46.000  
it's a material or non-material change and

1385

01:12:45.500 --> 01:12:49.400  
whether it has acceptable or

1386

01:12:49.400 --> 01:12:51.600  
unacceptable environmental impacts

1387

01:12:52.700 --> 01:12:54.800  
So I just leave that out there.

1388

01:12:55.800 --> 01:12:58.300  
And people may wish to comment or not. It's tightly up

1389

01:12:58.300 --> 01:12:58.700  
to them.

1390

01:12:59.500 --> 01:13:02.200  
Thanks, very helpful. I mean as I

1391

01:13:02.200 --> 01:13:05.300  
said the application pose changed application once it's

1392

01:13:05.300 --> 01:13:08.400  
mitted and should you accept it would remove option one, but keep

1393

01:13:08.400 --> 01:13:12.600

option two and three in the application. Well, that's

1394

01:13:12.600 --> 01:13:13.200

interesting. That's

1395

01:13:14.900 --> 01:13:17.200

a key option two and three in the application

1396

01:13:18.300 --> 01:13:22.100

So option so sorry apologies. If I haven't been clear. So

1397

01:13:21.100 --> 01:13:24.700

the chain proposed change application will apply

1398

01:13:24.700 --> 01:13:27.500

to a move option one from the scheme.

1399

01:13:27.500 --> 01:13:30.400

Yes, that is a decision that we've made

1400

01:13:30.400 --> 01:13:34.100

clear over the last few months. Yes, the proposed

1401

01:13:33.100 --> 01:13:37.000

change application would apply to introduce

1402

01:13:36.900 --> 01:13:40.900

option three, which is effectively changing

1403

01:13:39.900 --> 01:13:42.500

the cabling from 132 to

1404

01:13:42.500 --> 01:13:45.300

400 and converting electricity from one

1405

01:13:45.300 --> 01:13:48.400

from 33 to 400 at site rather than

1406

01:13:48.400 --> 01:13:49.800

at the Burwell substation.

1407

01:13:50.500 --> 01:13:53.400

So should you accept the changes application?

1408

01:13:54.500 --> 01:13:57.000

Option one would be withdrew would be removed from

1409

01:13:57.200 --> 01:14:00.200

the application. But remaining in the application would be options

1410

01:14:00.200 --> 01:14:03.700

to and three I will thank you for that clarification. Yes,

1411

01:14:03.700 --> 01:14:06.300

sorry and then as we're currently going

1412

01:14:06.300 --> 01:14:09.800

through a modern modification application with National Grid to

1413

01:14:09.800 --> 01:14:12.300

accommodate option three, we discussed option three with them.

1414

01:14:12.300 --> 01:14:16.500

They are content with the technical solution.

1415

01:14:18.300 --> 01:14:21.500

But we have to formally amend the agreements we have with National Grid.

1416

01:14:23.300 --> 01:14:26.100

They are that's going to the process the moment. They have a set time period in which

1417

01:14:26.100 --> 01:14:29.700

to agree as you might know with modification applications.

1418

01:14:31.200 --> 01:14:34.500

Should they accept that modification application then that

1419

01:14:34.500 --> 01:14:37.900

will be some time. I understand around octoberish time.

1420

01:14:38.900 --> 01:14:41.800

Then at that point the applicant would make a decision whether

1421

01:14:41.800 --> 01:14:44.500

to withdraw option two from the

1422

01:14:44.500 --> 01:14:45.900

application. That would see it very simple.

1423

01:14:46.900 --> 01:14:49.400

Proposed change which would be to take out

1424

01:14:49.400 --> 01:14:52.500

option two and we would do that. Obviously by that

1425

01:14:52.500 --> 01:14:55.500

point you would have made a decision or whether to accept the proposed change

1426

01:14:55.500 --> 01:14:58.600

application. We just severely have

1427

01:14:58.600 --> 01:15:01.600

come to a conclusion which conclusion could

1428

01:15:01.600 --> 01:15:04.900

only become to in terms of the recommendation, but you

1429

01:15:04.900 --> 01:15:07.400

would have accepted you would either accepted to rejected the praise change

1430

01:15:07.400 --> 01:15:07.900

application.

1431

01:15:08.700 --> 01:15:11.600

Attitude to Executive either accepted it

1432

01:15:11.600 --> 01:15:14.100

or yes or not and you've already made a decision on whether

1433

01:15:14.100 --> 01:15:17.300

it was non-material or material. Yes. Yes. So those two

1434

01:15:17.300 --> 01:15:20.300

things hurdles would have happened the application would therefore

1435

01:15:20.300 --> 01:15:21.300

be in examination?

1436

01:15:22.200 --> 01:15:25.900

And the applicant would then make decision having received National

1437

01:15:25.900 --> 01:15:28.300

Grids decision on the mod app, whether to

1438

01:15:28.300 --> 01:15:31.400

remove option two. Well exactly. Yes. I mean that that's gonna

1439

01:15:31.400 --> 01:15:34.500

be the secrets of my point. Really. Yes, and it

1440

01:15:34.500 --> 01:15:37.500

is for the applicant to decide what to do. Yes relation to option

1441

01:15:37.500 --> 01:15:40.400

too. Yes for having fully regard to the compulsory acquisition

1442

01:15:40.400 --> 01:15:43.700

tests and there being an alternative which at

1443

01:15:43.700 --> 01:15:44.700

that point would be option three.

1444

01:15:45.900 --> 01:15:49.500

I hope that's helpful. Yeah, that helps me

1445

01:15:48.500 --> 01:15:51.300

as you want to leave it.

1446

01:15:51.300 --> 01:15:54.900

That's one. No that helps us. Thank you now.

1447

01:15:57.100 --> 01:16:00.500

So I one last thing it might be helpful again is to be so it being

1448

01:16:00.500 --> 01:16:03.200

there is if I'm summarize what the port

1449

01:16:03.200 --> 01:16:06.300

will contain when it is submitted at the end of August so that everyone

1450

01:16:06.300 --> 01:16:09.200

is where so the report to check

1451

01:16:09.200 --> 01:16:12.700

post change application reports will include the findings of the environmental appraisal.

1452

01:16:12.700 --> 01:16:15.900

The applicant has carried out in respect of the changes

1453

01:16:15.900 --> 01:16:16.500

I've summarized

1454

01:16:17.700 --> 01:16:20.600

And each base change has been reviewed and

1455

01:16:20.600 --> 01:16:23.500

assessed to identify what if any likely shifting

1456

01:16:23.500 --> 01:16:26.400

effects would arise which then comes to a conclusion

1457

01:16:26.400 --> 01:16:29.500

as to whether it's material or non-material and

1458

01:16:29.500 --> 01:16:32.300

of course that's you will be the examining authorities findings.

1459

01:16:33.300 --> 01:16:36.400

Then they'll be a sensitive engagement setting out who

1460

01:16:36.400 --> 01:16:40.200

the applicant has engaged with over the consultation that

1461

01:16:39.200 --> 01:16:42.300

took place between the sixth of June and 6th of

1462

01:16:42.300 --> 01:16:42.300

July.

1463

01:16:43.700 --> 01:16:46.200

2022 and the 27th of July in the

1464

01:16:46.200 --> 01:16:48.100

24th, August 2022

1465

01:16:49.200 --> 01:16:53.300

And there'll be a schedule of consequential amendments identified together

1466

01:16:52.300 --> 01:16:55.700

with track changes of the documents that we

1467

01:16:55.700 --> 01:17:00.000

need to be changed. Should you accept the application that would

1468

01:16:59.300 --> 01:17:02.300

obviously have to be updated in light of

1469

01:17:02.300 --> 01:17:06.300

the change should it be accepted? So for example, the book of reference would

1470

01:17:05.300 --> 01:17:08.000

need to be updated the dco would be

1471

01:17:08.500 --> 01:17:12.200

updated to remove example work 5A work plans

1472

01:17:11.200 --> 01:17:14.300  
land plans Etc. They would all

1473

01:17:14.300 --> 01:17:17.000  
be identified in the

1474

01:17:17.400 --> 01:17:20.700  
change request and track change documents submitted. So

1475

01:17:20.700 --> 01:17:23.500  
that should you accept it we can then submit to those advice  
documents

1476

01:17:23.500 --> 01:17:24.200  
into the examination.

1477

01:17:25.700 --> 01:17:28.100  
Thank you, Mr. Thank you just to

1478

01:17:30.100 --> 01:17:32.900  
just I wanted to other points before I throw it open.

1479

01:17:35.800 --> 01:17:38.100  
I I suspect the answer is

1480

01:17:38.100 --> 01:17:41.300  
yes, but tell me if it isn't. Is there

1481

01:17:41.300 --> 01:17:41.500  
anything?

1482

01:17:43.400 --> 01:17:47.400  
Tall in your letters of 21st of

1483

01:17:47.400 --> 01:17:47.500  
July.

1484

01:17:48.600 --> 01:17:51.400  
A part from the over sailing interest

1485

01:17:51.400 --> 01:17:54.400  
that you've identified that you say needs

1486  
01:17:54.400 --> 01:17:58.700  
to be the subject of temporary possession Powers. Is there

1487  
01:17:58.700 --> 01:18:01.600  
anything at all in the way

1488  
01:18:01.600 --> 01:18:04.400  
in which you set out those intended changes in that letter

1489  
01:18:04.400 --> 01:18:06.600  
that differs?

1490  
01:18:07.800 --> 01:18:10.800  
Substantively from what you've

1491  
01:18:10.800 --> 01:18:13.300  
set up previously and particularly. I'm thinking

1492  
01:18:13.300 --> 01:18:16.200  
of the table of proposed changes that you

1493  
01:18:16.200 --> 01:18:19.500  
set out in your letter that the

1494  
01:18:19.500 --> 01:18:22.900  
and as nonex to your letter of the 29th of

1495  
01:18:22.900 --> 01:18:23.200  
April.

1496  
01:18:24.300 --> 01:18:28.600  
You the applicant submitted

1497  
01:18:27.600 --> 01:18:30.300  
a notice of

1498  
01:18:30.300 --> 01:18:33.300  
intention to put these changes in and they produce a table

1499

01:18:33.300 --> 01:18:36.700

with those proposed changes. Now. What I'm

1500

01:18:36.700 --> 01:18:39.800

trying to do is to compare what was

1501

01:18:39.800 --> 01:18:42.400

set out there with what you've set out

1502

01:18:42.400 --> 01:18:45.900

in the letter of the 21st of July and what

1503

01:18:45.900 --> 01:18:48.200

you've described the contents of the

1504

01:18:48.200 --> 01:18:51.600

letter of 21st of July and I'd like

1505

01:18:51.600 --> 01:18:54.300

to know if there is apart from the over sailing

1506

01:18:54.300 --> 01:18:57.400

interest if there's anything that differs.

1507

01:18:58.700 --> 01:19:03.000

I haven't got the table in front of me searched apart from

1508

01:19:02.400 --> 01:19:05.500

the overseer link issue, which

1509

01:19:05.500 --> 01:19:08.600

obviously results in a slight increase to the order limits,

1510

01:19:08.600 --> 01:19:10.100

so that would be different.

1511

01:19:11.300 --> 01:19:14.000

But apart from that no would be

1512

01:19:14.300 --> 01:19:17.200  
my inclination without going through

1513  
01:19:17.200 --> 01:19:20.300  
the table. Now. The only thing that's

1514  
01:19:20.300 --> 01:19:23.200  
changed into that letter is the identification of this

1515  
01:19:23.200 --> 01:19:26.600  
one Junction as a result of the crane

1516  
01:19:26.600 --> 01:19:31.000  
slight bed of the crane baby saline non-highway land.

1517  
01:19:30.900 --> 01:19:33.900  
That's the only difference. So I

1518  
01:19:33.900 --> 01:19:36.400  
think in terms of that table it would only be in relation

1519  
01:19:36.400 --> 01:19:40.200  
to that most recent identification. Yes.

1520  
01:19:39.200 --> 01:19:43.900  
All right, I'm grateful for that. Obviously. It

1521  
01:19:43.900 --> 01:19:44.500  
sounds like you

1522  
01:19:45.200 --> 01:19:46.500  
perhaps would like time to just

1523  
01:19:47.300 --> 01:19:50.500  
Reflect and make sure that's the case. We will double check that  
table

1524  
01:19:50.500 --> 01:19:53.300  
isn't confident that yes, but it's the changes that

1525  
01:19:53.300 --> 01:19:56.800

we identified early in April remain, and

1526

01:19:56.800 --> 01:19:59.300

they haven't resulted in anything different. The only

1527

01:19:59.300 --> 01:20:02.300

point is the overselling that we've informed you of

1528

01:20:02.300 --> 01:20:05.400

as soon as we became aware of it, so that would involve a say

1529

01:20:05.400 --> 01:20:08.600

the order limits would change apart from

1530

01:20:08.600 --> 01:20:11.500

that. I think everything else should be the same. We can't

1531

01:20:11.500 --> 01:20:12.500

double check that. Thank you.

1532

01:20:14.700 --> 01:20:17.900

I just have two more points and the first

1533

01:20:17.900 --> 01:20:18.800

is

1534

01:20:19.900 --> 01:20:22.600

The the justification that you

1535

01:20:22.600 --> 01:20:26.000

give for the composter acquisition regulations not

1536

01:20:25.000 --> 01:20:26.300

applying.

1537

01:20:28.500 --> 01:20:31.300

It's a fairly detailed Exposition. I'm just

1538

01:20:31.300 --> 01:20:34.500

I don't want to go into it. It's not appropriate to

1539

01:20:34.500 --> 01:20:37.300

go into it at this stage. I'm I'm just wondering from

1540

01:20:37.300 --> 01:20:40.400

your point of view you've taken

1541

01:20:40.400 --> 01:20:43.600

care of over describing that is easy in

1542

01:20:43.600 --> 01:20:46.900

your view likely to be a controversial issue and

1543

01:20:46.900 --> 01:20:49.300

no sir. We thought we're trying

1544

01:20:49.300 --> 01:20:53.400

to be helpful to examining authority to inform you that the order

1545

01:20:53.400 --> 01:20:56.400

limits would be increasing but we wouldn't be seeking compulsory acquisition

1546

01:20:56.400 --> 01:20:59.600

over that increase rather. It'll be temporary possession.

1547

01:20:59.600 --> 01:21:02.400

Of course, we would be looking to reach a license with

1548

01:21:02.400 --> 01:21:05.800

the landowner for the over sailing

1549

01:21:05.800 --> 01:21:08.200

and would hope you're not need 10 people possession,

1550

01:21:08.200 --> 01:21:11.300

but when the change application goes in that going to be in agreed,

1551

01:21:11.300 --> 01:21:14.400

so it was simply to highlight our position to you

1552

01:21:14.400 --> 01:21:18.000  
in advance application that the ca

1553

01:21:17.700 --> 01:21:20.700  
composer acquisition regulations would not

1554

01:21:20.700 --> 01:21:24.000  
be triggered for the reasons that we set house. I hope

1555

01:21:23.100 --> 01:21:26.200  
that was helpful. We thought we'd

1556

01:21:26.200 --> 01:21:27.700  
get our reasoning early to you.

1557

01:21:28.800 --> 01:21:30.100  
Thank you. Just bear with me.

1558

01:21:38.300 --> 01:21:38.500  
Well, yes.

1559

01:21:41.300 --> 01:21:45.100  
I'm so

1560

01:21:44.100 --> 01:21:47.700  
I'm just a supplementary really in

1561

01:21:47.700 --> 01:21:51.300  
terms of you talking about the the infrastructure

1562

01:21:50.300 --> 01:21:54.300  
that's needed at the onsite substations

1563

01:21:53.300 --> 01:21:57.100  
in terms of the larger Transformer,

1564

01:21:56.100 --> 01:21:57.600  
basically.

1565

01:22:00.900 --> 01:22:04.100  
Do we take it that there will be a a

1566  
01:22:03.100 --> 01:22:07.300  
change in the physical appearance.

1567  
01:22:08.200 --> 01:22:11.600  
Of the infrastructure. Let's start

1568  
01:22:11.600 --> 01:22:11.900  
with that.

1569  
01:22:25.200 --> 01:22:29.200  
Sorry, give me that's close.

1570  
01:22:31.600 --> 01:22:31.800  
and

1571  
01:22:32.700 --> 01:22:35.300  
it's been funny how they expect us to

1572  
01:22:35.300 --> 01:22:37.800  
be. Yeah, super easy really because

1573  
01:22:39.900 --> 01:22:42.300  
you takes all

1574  
01:22:42.300 --> 01:22:42.600  
sorts.

1575  
01:22:50.900 --> 01:22:53.300  
So I just clarifying A few

1576  
01:22:53.300 --> 01:22:57.500  
things. Sorry for that. So the the infrastructure

1577  
01:22:56.500 --> 01:22:59.000  
at site accommodate the larger

1578  
01:22:59.100 --> 01:23:02.200  
Transformer. I think I mentioned this earlier would be

1579

01:23:02.200 --> 01:23:05.600  
within the parameters the bulk

1580  
01:23:05.600 --> 01:23:08.600  
parameters that have been assessed in the environmental statement.

1581  
01:23:08.600 --> 01:23:11.200  
So in terms of the conclusions in the pros change and

1582  
01:23:11.200 --> 01:23:14.900  
what we and how we set it out is that whilst the Transformer it's

1583  
01:23:14.900 --> 01:23:17.300  
like larger the parameters and the bulk of

1584  
01:23:17.300 --> 01:23:20.900  
that substation that you raised in the environment does not change  
so

1585  
01:23:20.900 --> 01:23:22.800  
that respect the answer is nothing.

1586  
01:23:23.900 --> 01:23:26.500  
Okay. Well, I must be careful and the panel

1587  
01:23:26.500 --> 01:23:30.000  
must be careful not to go over into examination heat

1588  
01:23:29.700 --> 01:23:32.200  
of those issues, but I wanted

1589  
01:23:32.200 --> 01:23:35.700  
to get a picture of what the intended

1590  
01:23:35.700 --> 01:23:38.600  
change indeed could could involve

1591  
01:23:38.600 --> 01:23:41.600  
so I think we'll leave that there and

1592  
01:23:41.600 --> 01:23:46.500

we're wait to see what what materializes last

1593

01:23:45.500 --> 01:23:49.300

question from me. What what

1594

01:23:49.300 --> 01:23:52.500

degree of confidence should the panel have that the change

1595

01:23:52.500 --> 01:23:55.400

request will be submitted by the 30th of

1596

01:23:55.400 --> 01:23:56.500

August and why?

1597

01:23:57.700 --> 01:24:00.900

So as I've outlined so the we're carrying

1598

01:24:00.900 --> 01:24:03.400

out the consultation now regarding the over sailing that

1599

01:24:03.400 --> 01:24:07.900

will conclude on the third on the 24th of

1600

01:24:07.900 --> 01:24:08.300

August.

1601

01:24:09.200 --> 01:24:12.500

The application document itself

1602

01:24:12.500 --> 01:24:15.400

regarding all the other changes that have already been consulted  
has

1603

01:24:15.400 --> 01:24:18.800

been compiled and is being

1604

01:24:18.800 --> 01:24:21.900

finished as we speak. The only outstanding

1605

01:24:21.900 --> 01:24:24.300

point is the results of the consultation of the

1606

01:24:24.300 --> 01:24:27.200

over sailing. We obviously need to have regard to

1607

01:24:27.200 --> 01:24:30.200

the comments that we may receive from the bodies. I

1608

01:24:30.200 --> 01:24:31.000

highlighted earlier.

1609

01:24:31.900 --> 01:24:34.500

And obviously we wish to engage as early

1610

01:24:34.500 --> 01:24:37.400

as possible during the consultation rather than waiting to the last day.

1611

01:24:38.400 --> 01:24:41.400

So our view is that having regard to

1612

01:24:41.400 --> 01:24:44.500

those comments we can have we can do that write that up

1613

01:24:44.500 --> 01:24:47.900

and submit to the application by the end of August. So

1614

01:24:47.900 --> 01:24:50.800

I would say a high degree of confidence that

1615

01:24:50.800 --> 01:24:54.100

he'll be submitted by the end of the month for that

1616

01:24:53.100 --> 01:24:54.400

reason.

1617

01:24:57.500 --> 01:25:01.000

Thank you. Thank you. So.

1618

01:25:03.600 --> 01:25:04.000

I think

1619

01:25:07.800 --> 01:25:08.900

so just bear with me but

1620

01:25:21.800 --> 01:25:24.900

yes, there's a

1621

01:25:24.900 --> 01:25:26.000

point of clarification here.

1622

01:25:28.300 --> 01:25:32.100

About the schedule of Engagement Mr. Griffiths

1623

01:25:31.100 --> 01:25:34.500

as to whether the schedule of Engagement will include

1624

01:25:34.500 --> 01:25:37.500

all consultation responses received by

1625

01:25:37.500 --> 01:25:38.300

the applicant.

1626

01:25:40.100 --> 01:25:43.600

So it will be a summary of the consultation responses.

1627

01:25:43.600 --> 01:25:46.300

We received during that non-stat period and how we've had

1628

01:25:46.300 --> 01:25:46.800

regard to it.

1629

01:25:50.300 --> 01:25:50.600

Thank you.

1630

01:25:54.700 --> 01:25:54.900

Okay.

1631

01:26:01.400 --> 01:26:03.400

Right. Well, I think

1632

01:26:05.100 --> 01:26:08.600

I'm quite bad at taking breaks and

1633

01:26:08.600 --> 01:26:11.000

it's it's 10 to 12.

1634

01:26:11.500 --> 01:26:14.300

I'd like to actually invite people

1635

01:26:14.300 --> 01:26:16.800

to respond to the applicants.

1636

01:26:17.800 --> 01:26:20.700

Statement now would you

1637

01:26:20.700 --> 01:26:21.700

like to carry on doing that?

1638

01:26:22.800 --> 01:26:25.500

For a few minutes half an

1639

01:26:25.500 --> 01:26:28.200

hour I say and then we'll then we

1640

01:26:28.200 --> 01:26:31.200

don't take a break or would people like to take a

1641

01:26:31.200 --> 01:26:31.600

break now.

1642

01:26:33.700 --> 01:26:34.400

We'd like to carry on.

1643

01:26:35.800 --> 01:26:36.700

Take a break now.

1644

01:26:37.500 --> 01:26:39.300

All right. Okay. Well, it's

1645

01:26:40.800 --> 01:26:43.500

10 to 12. What time

1646

01:26:43.500 --> 01:26:48.000  
should we break too good half an

1647

01:26:47.800 --> 01:26:50.900  
hour 10 minutes.

1648

01:26:51.900 --> 01:26:55.500  
15 minutes. All right. Well, we'll adjourn

1649

01:26:54.500 --> 01:26:57.600  
until 10 past 12. Thank you

1650

01:26:57.600 --> 01:26:57.800  
very much.
