

1: I feel that Sunnica are playing the ExA to their own advantage. Clearly they have still not completed the application requirement's and so keep asking for the application to be deferred. Here we are with deadlines come and gone and still we are no further along knowing the full details of the alterations prosed to the application.

2: FOOD SECURITY is becoming a major part of this countries needs, but this proposal will take this PRIME AGGRECULTAL LAND out of production. It has been claimed that the land is of a low grade. But how can this be when a farm within the prosed area has recently been awarded a PREDIGIOUS AWARD FOR BEST POTATOE CROP in the country.

FOOD SECURITY IS EQUALLY IMPORTENT AS ENERGY TO THE COUNTRY
