2.2 Works Plans

APFP Regulation 5(2)(j)

Planning Act 2008

Infrastructure Planning (Applications: Prescribed Forms and  
Procedure) Regulations 2009

Planning Act 2008

**The Infrastructure Planning  
(Applications: Prescribed Forms and  
Procedure) Regulations 2009**

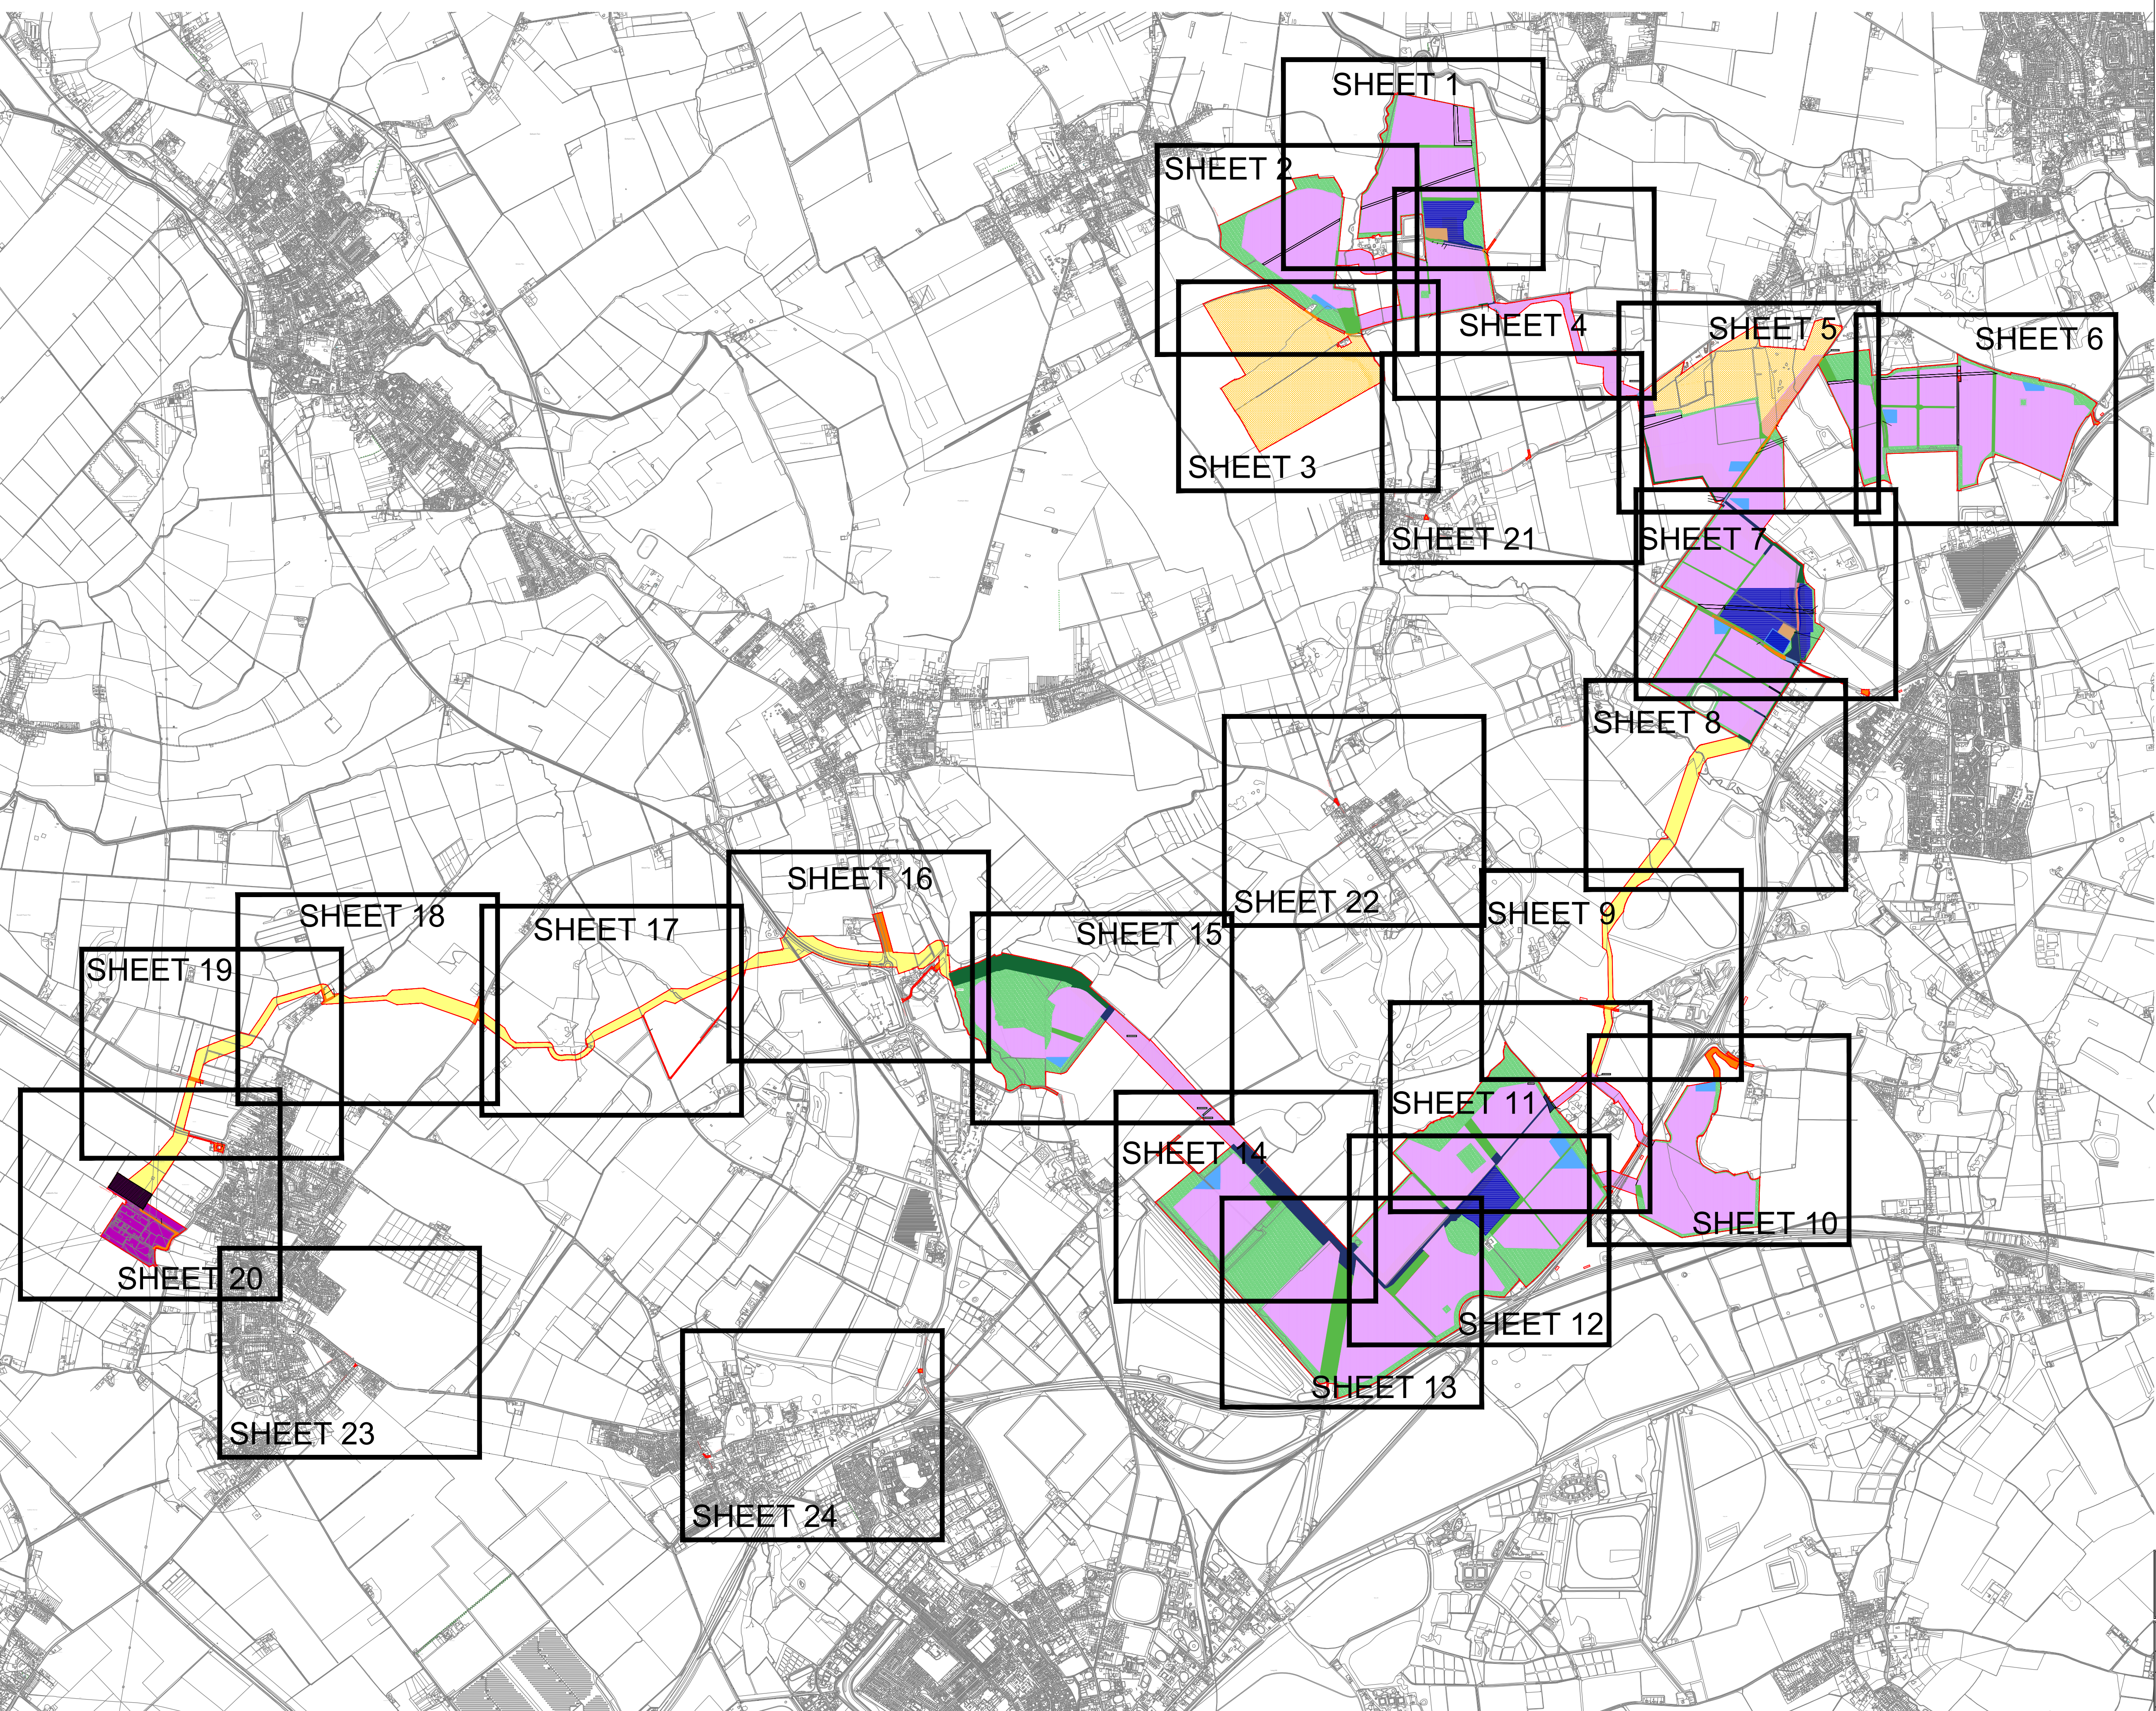

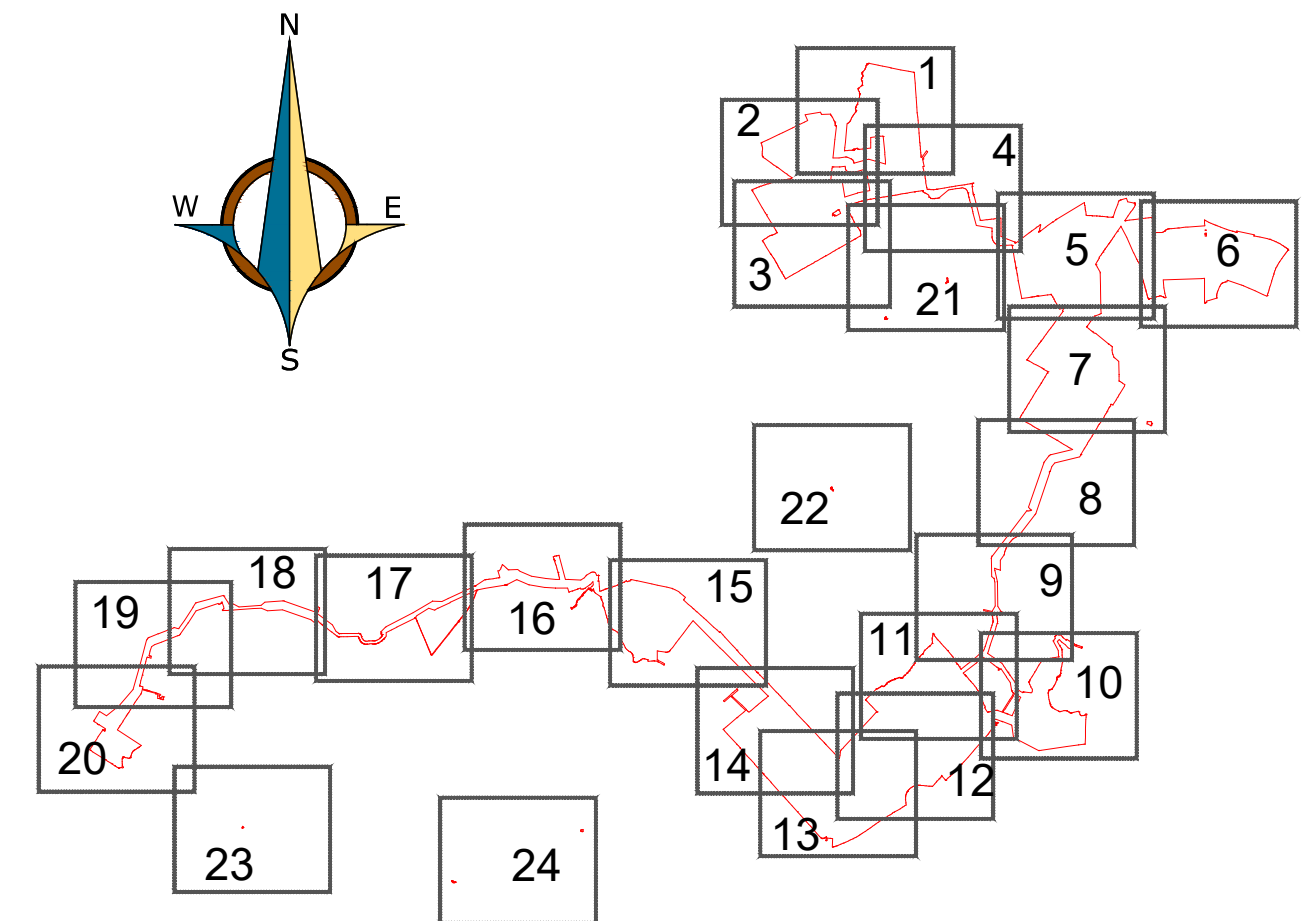

## **Sunnica Energy Farm**

### **2.2 Works Plans**

<b>Regulation Reference:</b>	Regulation 5(2)(j)
<b>Planning Inspectorate Scheme Reference</b>	EN010106
<b>Application Document Reference</b>	EN010106/APP/2.2
<b>Author</b>	Sunnica Energy Farm Project Team

<b>Version</b>	<b>Date</b>	<b>Status of Version</b>
Rev 00	18 November 2021	Application Version
Rev 01	21 January 2022	Update in response to Section 51 advice
Rev 02	30 August 2022	Change Application

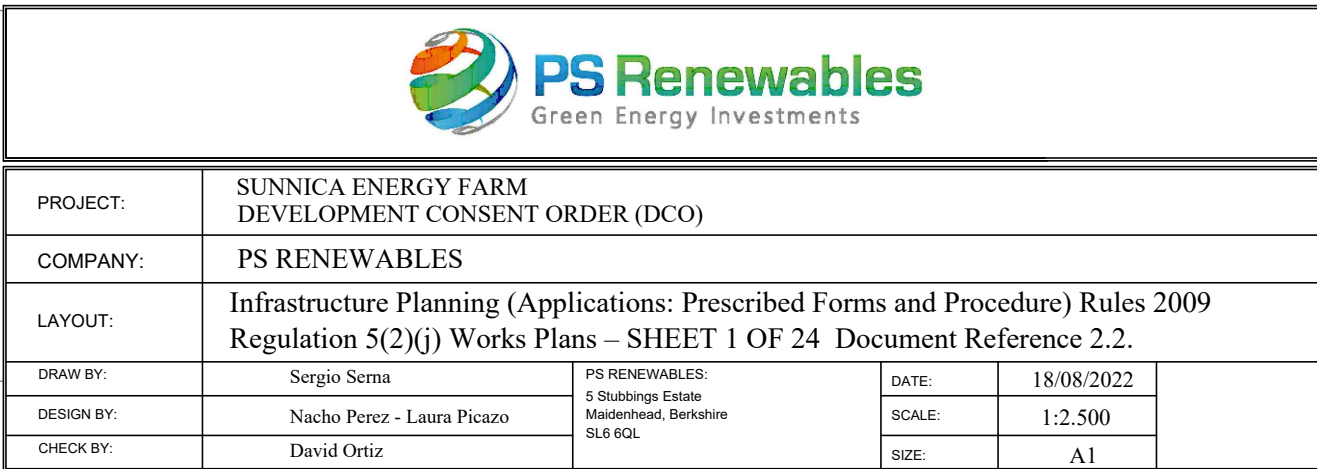

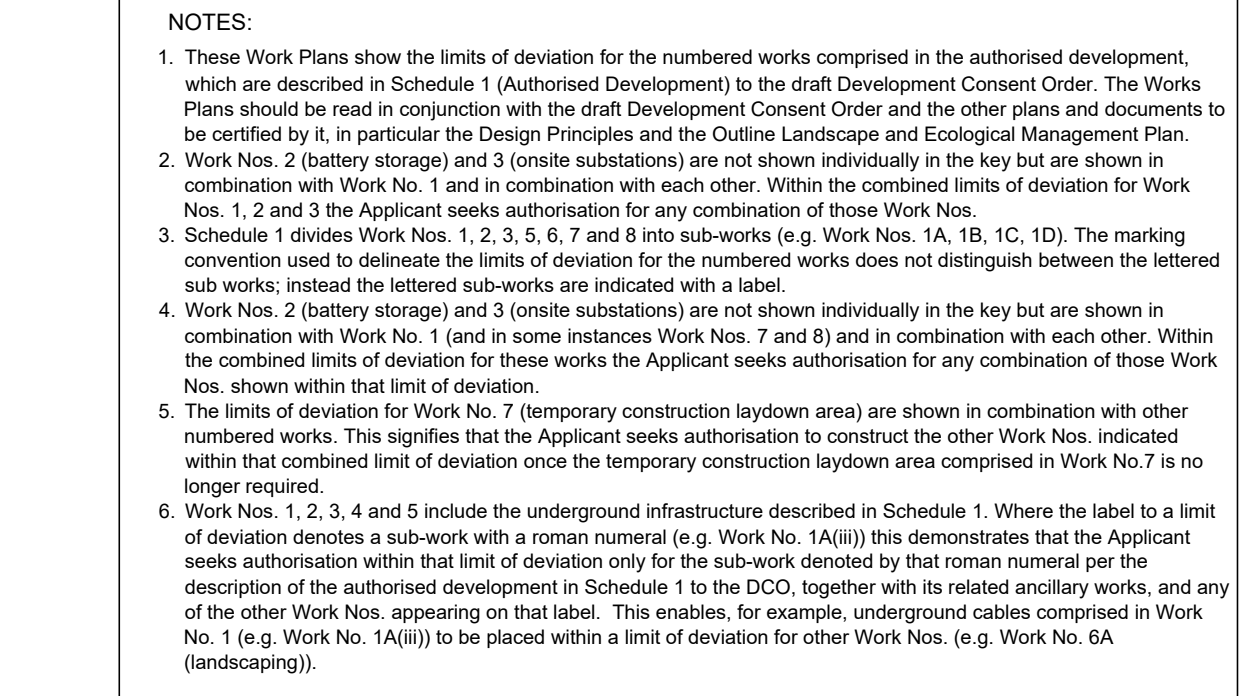

NOTES:

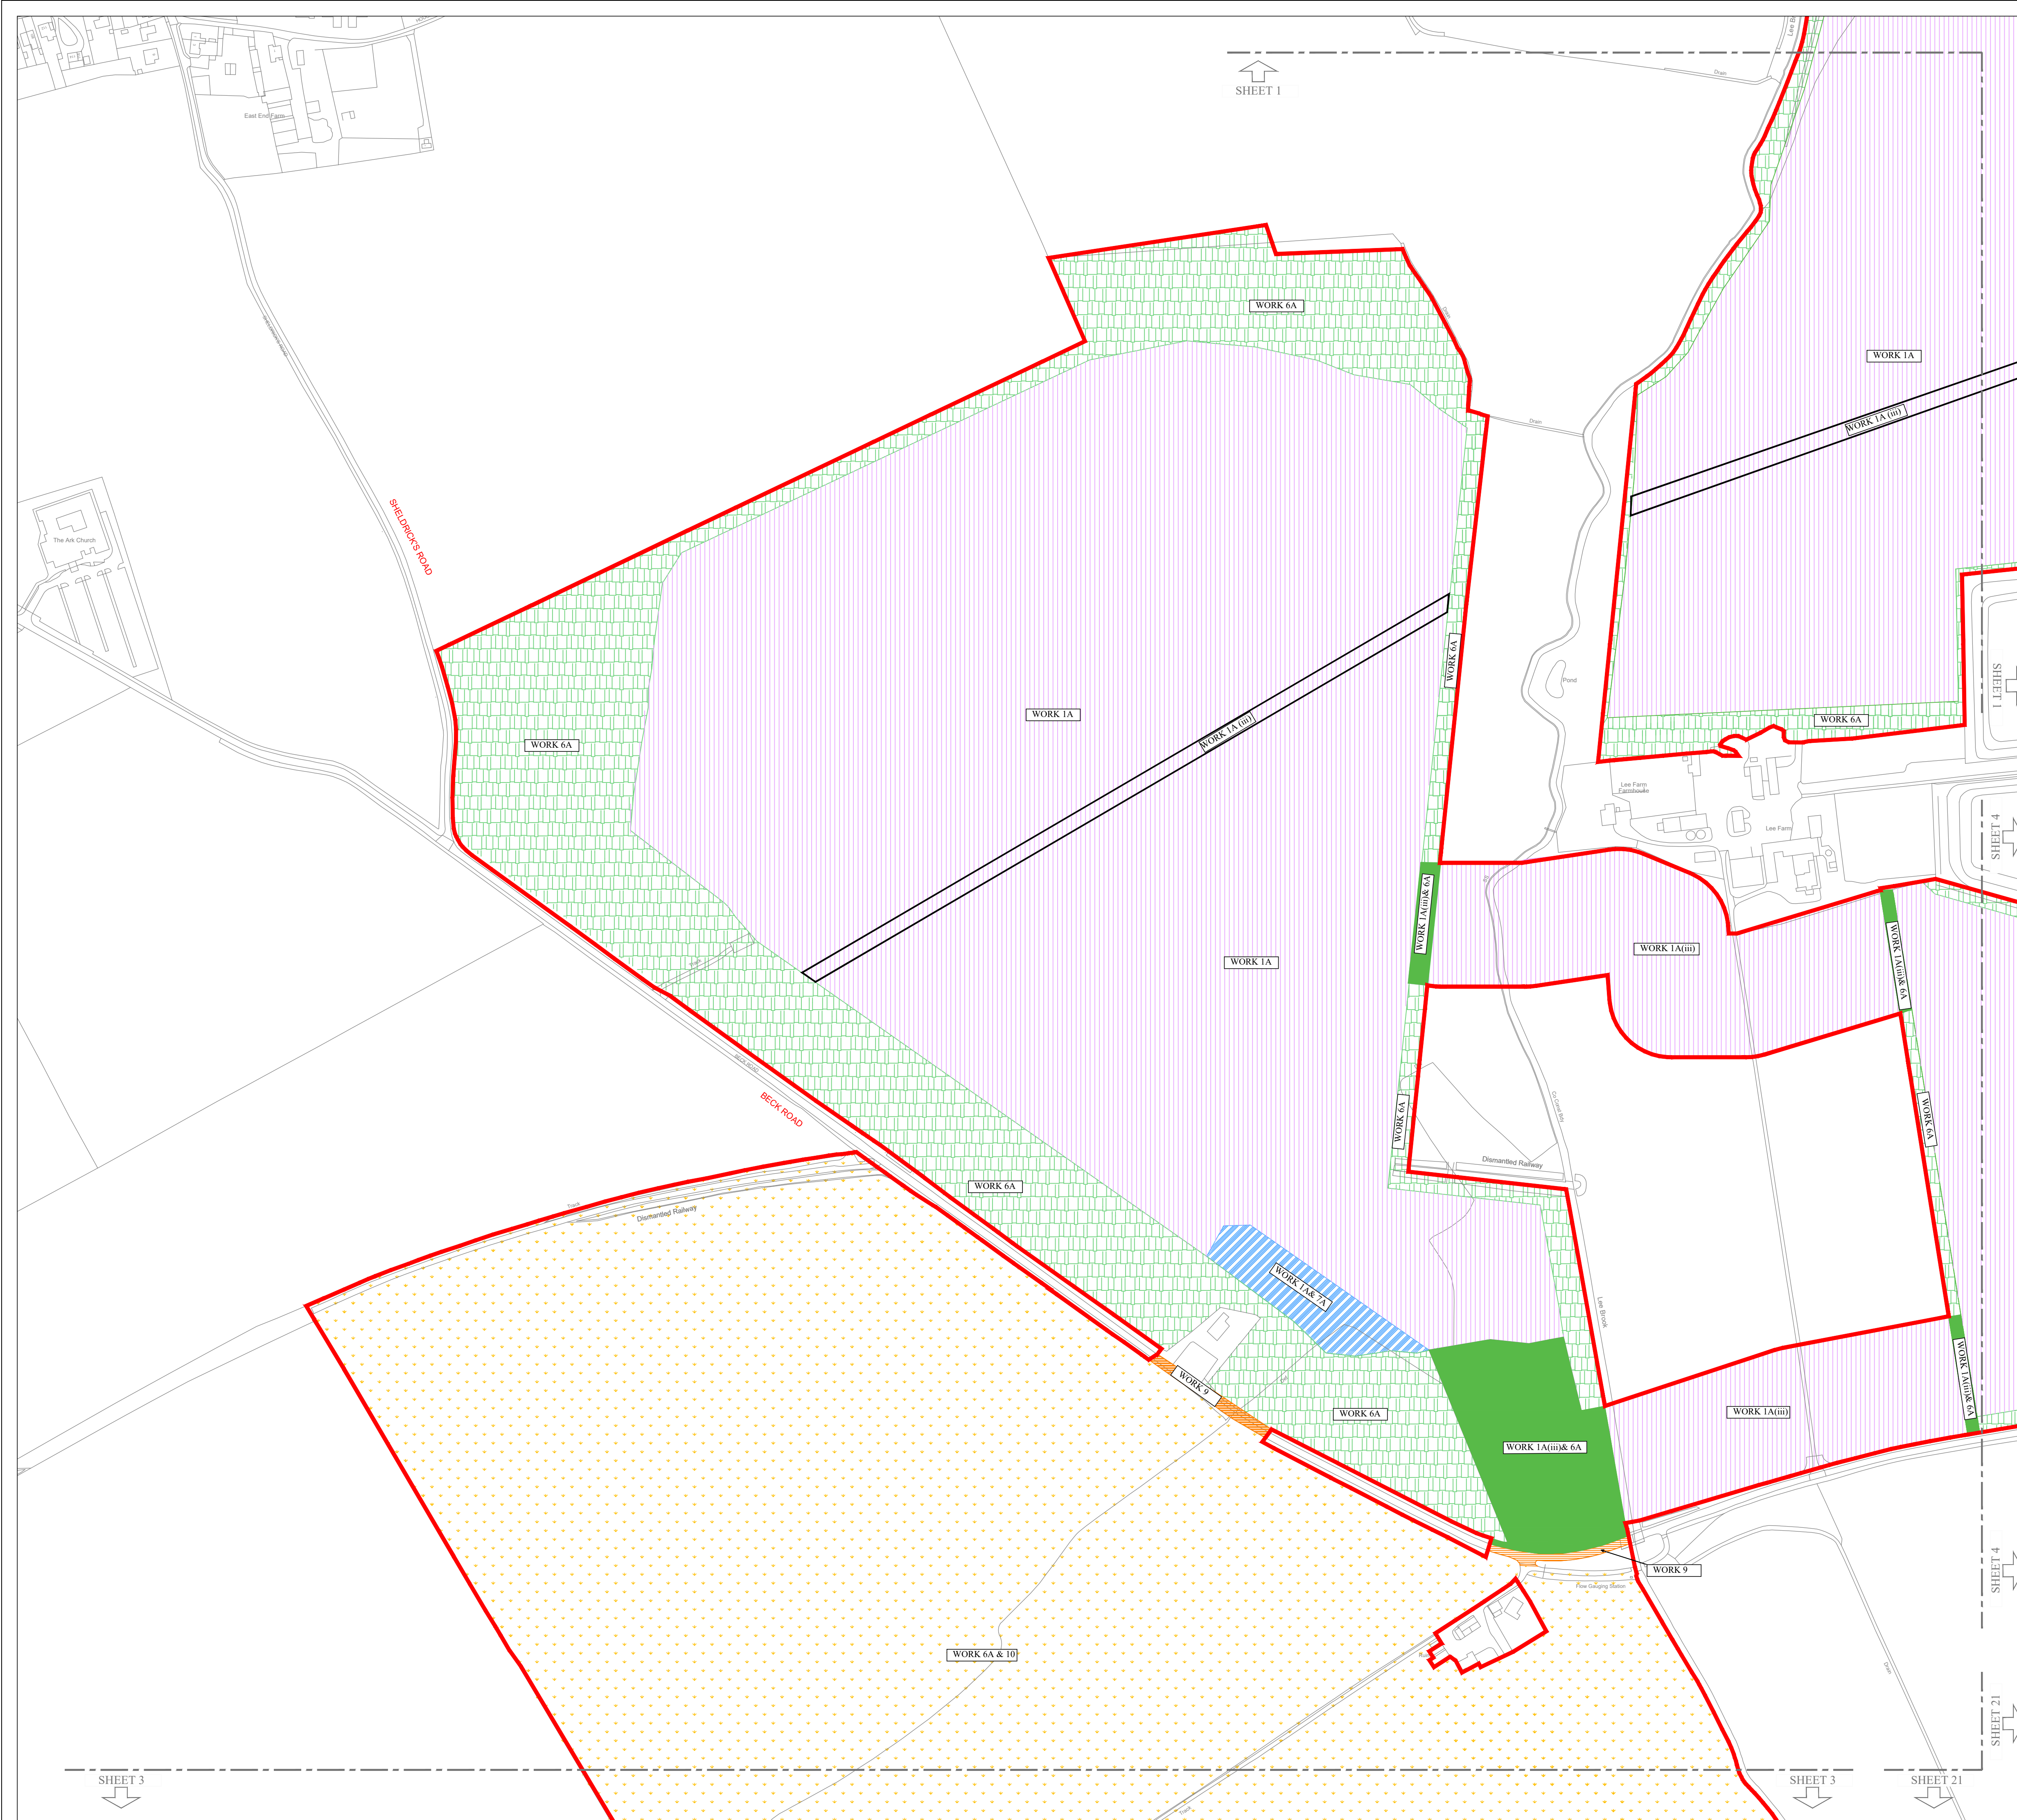

1. These Work Plans show the limits of deviation for the numbered works comprised in the authorised development, which are described in Schedule 1 (Authorised Development) to the draft Development Consent Order. The Work Plans should be read in conjunction with the draft Development Consent Order and the other plans and documents to be certified by it, in particular the Design Principles and the Outline Landscape and Ecological Management Plan.
2. Work Nos. 2 (battery storage) and 3 (on-site substations) are not shown individually in the key but are shown in combination with Work No. 1 and in combination with each other. Within the combined limits of deviation for Work Nos. 1, 2 and 3 the Applicant seeks authorisation for any combination of those Work Nos.
3. Schedule 1 divides Work Nos. 1, 2, 3, 5, 6, 7 and 8 into sub-works (e.g. Work Nos. 1A, 1B, 1C, 1D). The marking convention used to delineate the limits of deviation for the numbered works does not distinguish between the lettered sub-works; instead the lettered sub-works are indicated with a label.
4. Work Nos. 2 (battery storage) and 3 (on-site substations) are not shown individually in the key but are shown in combination with Work No. 1 (and in some instances Work Nos. 7 and 8) and in combination with each other. Within the combined limits of deviation for these works the Applicant seeks authorisation for any combination of those Work Nos. shown within that limit of deviation.
5. The limits of deviation for Work No. 7 (temporary construction laydown area) are shown in combination with other numbered works. This signifies that the Applicant seeks authorisation to construct the other Work Nos. indicated within that combined limit of deviation once the temporary construction laydown area comprised in Work No.7 is no longer required.
6. Work Nos. 1, 2, 3, 4 and 5 include the underground infrastructure described in Schedule 1. Where the label to a limit of deviation denotes a sub-work with a roman numeral (e.g. Work No. 1A(ii)) this demonstrates that the Applicant seeks authorisation within that limit of deviation only for the sub-work denoted by that roman numeral per the description of the authorised development in Schedule 1 to the DCO, together with its related ancillary works, and any of the other Work Nos. appearing on that label. This enables, for example, underground cables comprised in Work No. 1 (e.g. Work No. 1A(ii)) to be placed within a limit of deviation for other Work Nos. (e.g. Work No. 6A (landscaping)).

- ## NOTES:
- These Works Plans show the limits of deviation for the numbered works comprised in the authorised development, which are described in Schedule 1 (Authorised Development) to the draft Development Consent Order. The Works Plans should be read in conjunction with the draft Development Consent Order and the other plans and documents to be certified by it, in particular the Design Principles and the Outline Landscape and Ecological Management Plan.
1. The battery storage substation and the substation for the DCDC are shown in combination with Work No. 1, and in combination with each other. Within the combined limits of deviation for Work Nos. 1, 2 and 3 the Applicant seeks authorisation for any combination of those Work Nos.
2. Schedule 1 divides Work Nos. 1, 2, 3, 5, 6, 7 and 8 into sub-works (e.g. Work Nos. 1A, 1B, 1C, 1D). The marking of the limits of deviation for the sub-works for the numbered works does not distinguish between the lettered sub-works; instead the lettered sub-works are indicated with a label.
3. Work Nos. 2 (battery storage) and 3 (on-site substations) are not shown individually in the key but are shown in combination with Work No. 1, (and in some instances Work Nos. 7 and 8) and in combination with each other. Within the limits of deviation for Work No. 1 the Applicant seeks authorisation for any combination of those Work Nos. shown within that limit of deviation.
4. The limits of deviation for Work No. 7 (temporary construction laydown area) are shown in combination with other numbered works. This signifies that the Applicant seeks authorisation to construct the other Work Nos. indicated within that combined limit of deviation once the temporary construction laydown area comprised in Work No. 7 is no longer required.
5. Work Nos. 1, 2, 3, 4 and 5 include the underground infrastructure described in Schedule 1, Where the label to a limit of deviation denotes a limit of deviation for a roman numeral, [A] indicates that the Applicant seeks authorisation within that limit of deviation only for the sub-work denoted by that roman numeral per the description of the authorised development in Schedule 1 to the DCO, together with its related ancillary works, and any of the other Work Nos. appearing on that label. This enables, for example, underground cables comprised in Work No. 1, Work No. 1(A)(ii) to be placed within a limit of deviation for other Work Nos. (e.g. Work No. 6A (landscaping)).

|  | Work No. 1C, Work No. 2C, Work No. 3C & Work No. 4 |

- NOTES:
- These Work Plans show the limits of deviation for the numbered works comprised in the authorised development, which are described in Schedule 1 (Authorised Development) to the draft Development Consent Order. The Works Plans should be read in conjunction with the draft Development Consent Order and the other plans and documents to be certified by it, in particular the Design Principles and the Outline Landscape and Ecological Management Plan.
  - Work Nos. 2 (battery storage) and 3 (onsite substations) are not shown individually in the key but are shown in combination with Work No. 1 and in combination with each other. Within the combined limits of deviation for Work Nos. 1, 2 and 3 the Applicant seeks authorisation for any combination of those Work Nos.
  - Schedule 1 divides Work Nos. 1, 2, 3, 5, 6, 7 and 8 into sub-works (e.g. Work Nos. 1A, 1B, 1C, 1D). The marking convention used to delineate the limits of deviation for the numbered works does not distinguish between the lettered sub works; instead the lettered sub-works are indicated with a label.
  - Work Nos. 2 (battery storage) and 3 (onsite substations) are not shown individually in the key but are shown in combination with Work No. 1 (and in some instances Work Nos. 7 and 8) and in combination with each other. Within the combined limits of deviation for these works the Applicant seeks authorisation for any combination of those Work Nos. shown within that limit of deviation.
  - The limits of deviation for Work No. 7 (temporary construction laydown area) are shown in combination with other numbered works. This signifies that the Applicant seeks authorisation to construct the other Work Nos. indicated within that combined limit of deviation once the temporary construction laydown area comprised in Work No.7 is no longer required.
  - Work Nos. 1, 2, 3, 4 and 5 include the underground infrastructure described in Schedule 1. Where the label to a limit of deviation denotes a sub-work with a roman numeral (e.g. Work No. 1A(iii)) this demonstrates that the Applicant seeks authorisation within that limit of deviation only for the sub-work denoted by that roman numeral per the description of the authorised development in Schedule 1 to the DCO, together with its related ancillary works, and any of the other Work Nos. appearing on that label. This enables, for example, underground cables comprised in Work No. 1 (e.g. Work No. 1A(ii)) to be placed within a limit of deviation for other Work Nos. (e.g. Work No. 6A (landscaping)).

NOTES:

1. These Work Plans show the limits of deviation for the numbered works comprised in the authorised development, which are described in Schedule 1 (Authorised Development) to the draft Development Consent Order. The Works Plans should be read in conjunction with the draft Development Consent Order and the other plans and documents to be certified by it, in particular the Design Principles and the Outline Landscape and Ecological Management Plan.
2. Work Plans for battery storage substations and on-site substations are shown in the Work Plans and may be shown in combination with Work No. 1 and in combination with each other. Within the combined limits of deviation for Work Nos. 1, 2 and 3 the Applicant seeks authorisation for any combination of those Work Nos.
3. Schedule 1 divides Work Nos. 1, 2, 3, 5, 6, 7 and 8 into sub-works (e.g. Work Nos. 1A, 1B, 1C, 1D). The marking convention is used to delineate the limits of deviation for the numbered works that do not fall within the combined limits of deviation for Work Nos. 1 and 2 (battery storage) and 3 (on-site substations) are not shown individually in the key but are shown in combination with Work No. 1 (and in some instances Work Nos. 7 and 8) and in combination with each other. Within the combined limits of deviation for these works the Applicant seeks authorisation for any combination of those Work Nos.
4. Work Nos. 1 and 2 are shown within the limits of deviation for Work No. 1.
5. The limits of deviation for Work No. 7 (temporary construction laydown area) are shown in combination with other numbered works. This signifies that the Applicant seeks authorisation to construct the other Work Nos. indicated within that combined limit of deviation once the temporary construction laydown area comprised in Work No. 7 is no longer required.
6. Work Nos. 1, 2, 3, 4 and 5 include the underground infrastructure described in Schedule 1. Where the label to a limit of deviation denotes a sub-work with a roman numeral (e.g. Work No. 1A(III)) this demonstrates that the Applicant seeks authorisation within that limit of deviation only for the sub-work denoted by that roman numeral per the description of the authorised development in Schedule 1. The sub-works, together with the related temporary works, and any of the Work Nos. 1A(III) are shown on that label. This enables, for example, underground cables to be shown in Work No. 1 (e.g. Work No. 1A(III)) to be placed within a limit of deviation for other Work Nos. (e.g. Work No. 6A (landscaping)).

DRAW BY:	Sergio Scema	PS RENEWABLES: S Substampa Estate	DATE: 18/08/2022
DESIGN BY:	Nacho Perez - Laura Picazo	Marking: Benigno SLG SOL	SCALE: 1:2,500
CHECK BY:	David Ortiz		SIZE: A1

- NOTES:
- These Work Plans show the limits of deviation for the numbered works comprised in the authorised development, which are described in Schedule 1 (Authorised Development) to the draft Development Consent Order. The Works Plans should be read in conjunction with the draft Development Consent Order and the other plans and documents to be certified by it, in particular the Design Principles and the Outline Landscape and Ecological Management Plan.
  - Work Nos. 2 (battery storage) and 3 (onsite substations) are not shown individually in the key but are shown in combination with Work No. 1 and in combination with each other. Within the combined limits of deviation for Work Nos. 1, 2 and 3 the Applicant seeks authorisation for any combination of those Work Nos.
  - Schedule 1 divides Work Nos. 1, 2, 3, 5, 6, 7 and 8 into sub-works (e.g. Work Nos. 1A, 1B, 1C, 1D). The marking convention used to delineate the limits of deviation for the numbered works does not distinguish between the lettered sub works; instead the lettered sub-works are indicated with a label.
  - Work Nos. 2 (battery storage) and 3 (onsite substations) are not shown individually in the key but are shown in combination with Work No. 1 (and in some instances Work Nos. 7 and 8) and in combination with each other. Within the combined limits of deviation for these works the Applicant seeks authorisation for any combination of those Work Nos. shown within that limit of deviation.
  - The limits of deviation for Work No. 7 (temporary construction laydown area) are shown in combination with other numbered works. This signifies that the Applicant seeks authorisation to construct the other Work Nos. indicated within that combined limit of deviation once the temporary construction laydown area comprised in Work No.7 is no longer required.
  - Work Nos. 1, 2, 3, 4 and 5 include the underground infrastructure described in Schedule 1. Where the label to a limit of deviation denotes a sub-work with a roman numeral (e.g. Work No. 1A(ii)) this demonstrates that the Applicant seeks authorisation within that limit of deviation only for the sub-work denoted by that roman numeral per the description of the authorised development in Schedule 1 to the DCO, together with its related ancillary works, and any of the other Work Nos. appearing on that label. This enables, for example, underground cables comprised in Work No. 1 (e.g. Work No. 1A(ii)) to be placed within a limit of deviation for other Work Nos. (e.g. Work No. 6A (landscaping)).
