Banbridge  
BT32 4AX

10 September 2021

Dear Sir/Madam

**Planning Ref LA08/2021/0586/F**

**HSENI Ref: CN202105-0007**

**Lands 170m west of 42 Ballydown Rd, Banbridge BT32 4JB**

HSENI, in a previous response, advised that the applicant should provide information on the type and mass of dangerous substance stored or produced during normal operation or associated with a fire/explosion.

The document provided by the applicant (dated 12/04/2021) provides the concentration of dangerous substances but not the mass as requested or a means to calculate them. Therefore it cannot be used to determine if the COMAH Regulations are applicable or Hazardous Substance Consent is required.

Yours faithfully

**Notifications Team, HSENI**
