

Worlington Parish Council Response to Alan Smith submission.
Unique no: 20030919

WPC are writing this statement in support of Worlington resident Alan Smith who's submission was published on the 17th January 2023.

Alan's submission is a well produced document highlighting safety issues in regards to BESS and refers to the Liverpool BESS Fire of 2022. WPC wont pick out parts of this document as we believe it needs to be read in its entirety.

WPC, do not want the BESS units so close to residential areas. Statistically, the more units you have of something the more likelihood there will be a fault and with such volatile units we feel the safety of our residents has not been a priory within this application.

Worlington Parish Council.
