00:00:00.800 --> 00:00:03.500

To everybody if you can

1

00:00:03.500 --> 00:00:04.800

resume your seats, please.

2

00:00:07.600 --> 00:00:10.200

So just past five to four

3

00:00:10.200 --> 00:00:11.700

hearings resumed.

4

00:00:14.900 --> 00:00:15.200

can

5

00:00:16.800 --> 00:00:17.900

That door opened.

6

00:00:22.500 --> 00:00:23.300

Okay, and

7

00:00:24.500 --> 00:00:27.300

it's Jennifer Jennifer

8

00:00:27.300 --> 00:00:30.900

Garnett. It's Jennifer Garner here. Hello, Miss

9

00:00:30.900 --> 00:00:33.300

garnet and Johnson just come

10

00:00:33.300 --> 00:00:34.800

forward and find a microphone.

11

00:00:41.400 --> 00:00:44.900

No, well, that's just what I was going to say to you

12

00:00:44.900 --> 00:00:47.300

because I understand that

13

00:00:47.300 --> 00:00:52.600

you've been wanting to make a representation and I'm

14

00:00:50.600 --> 00:00:53.200

sorry if we

15

00:00:53.200 --> 00:00:58.600

didn't come to you immediately. I'm not

16

00:00:58.600 --> 00:01:01.200

quite sure because I think you you're not an interested

17

00:01:01.200 --> 00:01:03.400

party as such are you?

18

00:01:08.300 --> 00:01:08.800

Yes.

19

00:01:25.800 --> 00:01:26.000

Yes.

20

00:01:28.200 --> 00:01:28.900

All right. Well

21

00:01:30.300 --> 00:01:33.400

I understand your position. I I

22

00:01:33.400 --> 00:01:36.200

think because you weren't an interested

23

00:01:36.200 --> 00:01:40.100

party you perhaps advised

24

00:01:39.100 --> 00:01:42.500

it might be possible to make contact

25

00:01:42.500 --> 00:01:45.500

with either say no to sonaker or

26

00:01:45.500 --> 00:01:48.200

a parish. Is it fracking and Parish

27

00:01:48.200 --> 00:01:48.800

Council that you're

28

00:01:52.200 --> 00:01:52.600

Mm-hmm.

29

00:01:57.800 --> 00:01:58.100

right

30

00:02:25.300 --> 00:02:26.300

Yes, okay.

31

00:02:28.300 --> 00:02:28.700

well, I

32

00:02:30.200 --> 00:02:33.500

I appreciate the opposition the Scarlet

33

00:02:33.500 --> 00:02:37.000

if there is a way of receiving your representations

34

00:02:36.400 --> 00:02:39.100

into the examination, then I'm

35

00:02:39.100 --> 00:02:42.800

sure we'll be done if that may not be possible. And if

36

00:02:42.800 --> 00:02:45.400

if you have another word with the case

37

00:02:45.400 --> 00:02:48.900

officer, then it seems to me the best thing might be to to

38

00:02:48.900 --> 00:02:52.000

to work through either say

39

00:02:51.300 --> 00:02:54.300

no to send occur or the parish council,

40

00:02:54.300 --> 00:02:57.500

but I'll have to leave that with you to decide which by

41

00:02:57.500 --> 00:03:00.200

let's pay for forward. All right. Thank you.

42

00:03:03.600 --> 00:03:04.800

So don't put it yesterday.

43

00:03:10.600 --> 00:03:13.400

But that's an entirely a matter

44

00:03:13.400 --> 00:03:15.800

between you and and risk on it.

45

00:03:17.700 --> 00:03:20.100

No, we do. We don't we as

46

00:03:20.100 --> 00:03:23.400

a panel. We've not received any information

47

00:03:23.400 --> 00:03:26.500

from this Garnet

48

00:03:26.500 --> 00:03:28.000

yet. So we can't take it into account.

49

00:03:29.600 --> 00:03:29.700

So

50

00:03:32.200 --> 00:03:36.700

I know you've submitted it to the case officer, but

51

00:03:35.700 --> 00:03:38.300

I think it's been rejected on

52

00:03:38.300 --> 00:03:41.800

the basis that you're not an interested party. What what

53

00:03:41.800 --> 00:03:44.800

I'm trying to say is that if if

54

00:03:44.800 --> 00:03:47.500

there are points to be made and which

55

00:03:47.500 --> 00:03:50.500

I'm sure you feel that there are it may

56

00:03:50.500 --> 00:03:53.500

be worth making them through somebody who is an

57

00:03:53.500 --> 00:03:56.600

interested party. I mean Mr. Kozelco's here representing the

58

00:03:56.600 --> 00:03:59.900

say notice Seneca group and there

59

00:03:59.900 --> 00:04:02.200

may be other avenues for all I know but as far

60

00:04:02.200 --> 00:04:05.800

as so as far as sharing the information concerned,

61

00:04:05.800 --> 00:04:08.400

that's something you'll have to pursue with Miss Saunders.

62

00:04:08.400 --> 00:04:09.600

That's all right.

63

00:04:10.400 --> 00:04:11.100

pretty much

64

00:04:11.800 --> 00:04:13.900

All right. Thank you. So.

65

00:04:16.500 --> 00:04:19.800

I've got to mention the fact

66

00:04:19.800 --> 00:04:21.300

that we received today.

67

00:04:22.500 --> 00:04:24.600
some additional submissions from

68

00:04:26.000 --> 00:04:26.400
Mr.

69

00:04:28.400 --> 00:04:32.400
From Mr. Warren from it's RF

70

00:04:31.400 --> 00:04:35.400
Turner and son and which

71

00:04:34.400 --> 00:04:37.900
will be

72

00:04:39.100 --> 00:04:42.700
Accepted as additional submissions and/or post hearing submissions.

73

00:04:42.700 --> 00:04:46.100
I think they were intending to be present this afternoon

74

00:04:46.100 --> 00:04:47.800
weather it weren't they were

75

00:04:49.700 --> 00:04:52.100
So those will appear in due course and no doubt.

76

00:04:52.100 --> 00:04:54.300
They're being opportunity to respond to that.

77

00:04:57.200 --> 00:05:01.500
And also, I don't know Mr. Rigby if you there's also

78

00:05:01.500 --> 00:05:04.400
the correspondence from H put

79

00:05:08.700 --> 00:05:09.300
yes, we

80

00:05:11.400 --> 00:05:15.500

see the letter yesterday from hport explaining that

81

00:05:15.500 --> 00:05:18.300

they were not going to

82

00:05:18.300 --> 00:05:20.300

attend today because they felt that.

83

00:05:21.700 --> 00:05:24.200

Position was that there was no need for them to attend

84

00:05:24.200 --> 00:05:27.500

on accounts of progress.

85

00:05:28.300 --> 00:05:30.600

in negotiations with the applicant

86

00:05:31.600 --> 00:05:34.800

So as the applicant is here. I thought it would

87

00:05:34.800 --> 00:05:37.200

be useful just for you to clarify.

88

00:05:38.500 --> 00:05:41.400

Where we're up to with age puts

89

00:05:41.400 --> 00:05:44.800

and the as the owner and

90

00:05:44.800 --> 00:05:47.500

also the people who are actually operating on

91

00:05:47.500 --> 00:05:48.100

that site.

92

00:05:49.600 --> 00:05:52.600

Which is LinkedIn with the change, whereby.

93

00:05:53.900 --> 00:05:55.200

access retail has been

94

00:05:56.000 --> 00:05:56.400

removed

95

00:05:57.900 --> 00:05:59.400

would that be possible for you to do that?

96

00:06:01.200 --> 00:06:04.200

Yes a rich Journey for the applicant are very happy to do

97

00:06:04.200 --> 00:06:07.800

that. So I think the letter

98

00:06:07.800 --> 00:06:10.800

that you've received dated 13th, February 2023 from

99

00:06:10.800 --> 00:06:13.200

Mr. Trager at

100

00:06:15.200 --> 00:06:17.400

bclp as solicitorsville

101

00:06:18.400 --> 00:06:24.300

H puts as we've come to know them is an

102

00:06:22.300 --> 00:06:25.800

accurate reflection of

103

00:06:25.800 --> 00:06:26.800

where we are.

104

00:06:27.800 --> 00:06:30.100

at the moment that is to say

105

00:06:30.100 --> 00:06:30.400

that

106

00:06:31.300 --> 00:06:33.700

there is an agreed form of protective provisions.

107

00:06:36.300 --> 00:06:40.100

Which ensure that the necessary controls

108

00:06:39.100 --> 00:06:41.900

are or will be in place?

109

00:06:42.700 --> 00:06:46.100

So that the works that Sonica would

110

00:06:46.100 --> 00:06:49.300

carry out which are cable. Now only playing the cable

111

00:06:49.300 --> 00:06:52.600

through their land. There's

112

00:06:52.600 --> 00:06:56.100

a there's an area where there's an HDD under the

113

00:06:56.100 --> 00:06:59.800

river the corner of their land but

114

00:06:59.800 --> 00:07:02.100

those cable Lane Works will be carried out in a way

115

00:07:02.100 --> 00:07:05.300

that H put satisfied will not interfere with

116

00:07:05.300 --> 00:07:09.900

the activities going on at the campus such as

117

00:07:09.900 --> 00:07:11.300

cause any concern about those.

118

00:07:12.200 --> 00:07:15.300

So that's a productive position

119

00:07:15.300 --> 00:07:19.100

on the dco. In the meantime. There

120

00:07:18.100 --> 00:07:22.000

is an ongoing negotiation to conclude

121

00:07:21.500 --> 00:07:25.000
a full option agreement.

122

00:07:24.100 --> 00:07:27.500
Meaning that the

123

00:07:30.200 --> 00:07:31.100
Undertaker would

124

00:07:31.900 --> 00:07:35.500
Exercise powers under the under an agreement to

125

00:07:34.500 --> 00:07:38.700
lay the cable and enter the

126

00:07:38.700 --> 00:07:41.300
land to do the work and keep the cable in

127

00:07:41.300 --> 00:07:44.200
place rather than relying on the compulsory powers and the

128

00:07:44.200 --> 00:07:45.000
order.

129

00:07:46.500 --> 00:07:49.900
That's an advanced and advanced stage.

130

00:07:52.900 --> 00:07:54.700
H puts position which

131

00:07:56.400 --> 00:08:01.200
is understandable in the circumstances is

132

00:07:59.200 --> 00:08:02.700
that they are not

133

00:08:02.700 --> 00:08:03.800
formally were drawing their objection.

134

00:08:04.600 --> 00:08:05.000

because

135

00:08:06.800 --> 00:08:08.600

they haven't yet agreed those commercial terms.

136

00:08:09.400 --> 00:08:12.800

But because the protective Provisions are satisfactory to

137

00:08:12.800 --> 00:08:15.300

them, they're not proposing to appear.

138

00:08:16.300 --> 00:08:19.600

At the examination to pursue their objection. So it's

139

00:08:19.600 --> 00:08:22.500

a moment. It's essentially goes back to being a holding objection

140

00:08:22.500 --> 00:08:26.400

rather than making the point substantively for

141

00:08:25.400 --> 00:08:28.300

you today. So I think

142

00:08:28.300 --> 00:08:31.300

it overall it's a it's a good news story. It's not quite

143

00:08:31.300 --> 00:08:35.200

over the line in terms of final detail, but they're satisfied.

144

00:08:34.200 --> 00:08:37.200

I don't know if you want

145

00:08:37.200 --> 00:08:41.000

me to say anything more so about the the substance that the we

146

00:08:40.200 --> 00:08:43.500

accept that the Fordham Campus is

147

00:08:43.500 --> 00:08:48.300

a sensitive location. The

148

00:08:46.300 --> 00:08:50.000

there's the

149

00:08:49.100 --> 00:08:53.400

the operations carried

150

00:08:52.400 --> 00:08:56.800

on there of a sensitive nature potentially vulnerable

151

00:08:56.800 --> 00:08:59.900

to noise and vibration impacts

152

00:08:59.900 --> 00:09:02.600

in principle. We need

153

00:09:02.600 --> 00:09:05.700

to approach the area with care.

154

00:09:05.700 --> 00:09:09.400

We recognize that we have

155

00:09:09.400 --> 00:09:12.600

talked to agree certain accommodations in

156

00:09:12.600 --> 00:09:15.700

that regard which includes not using their access.

157

00:09:16.300 --> 00:09:20.600

Using alternative land and carrying out

158

00:09:20.600 --> 00:09:22.900

the works under the terms of these protective provisions.

159

00:09:25.300 --> 00:09:28.300

And I think overall there's there's a position of agreement between

160

00:09:28.300 --> 00:09:31.100

the parties. That means that we can go ahead

161

00:09:31.100 --> 00:09:35.200

with this part of the order their content with that without material

162

00:09:34.200 --> 00:09:37.200
impacting their operation. And I think

163

00:09:37.200 --> 00:09:40.600
and I assume that any objection from

164

00:09:40.600 --> 00:09:43.100
the tenants which I think

165

00:09:43.100 --> 00:09:46.000
Mr. Bowers company are going to be withdrawn.

166

00:09:47.100 --> 00:09:50.300
once once well in light of the protective Provisions,

167

00:09:50.300 --> 00:09:51.100
I think they're just waiting for

168

00:09:51.900 --> 00:09:54.400
that came to their fees. But otherwise, we think

169

00:09:54.400 --> 00:09:57.500
we are understanding is those objections will be withdrawn.

170

00:09:57.500 --> 00:10:00.400
Yes. So it's the the people using as

171

00:10:00.400 --> 00:10:03.400
Artist as well as the people owning it and so therefore

172

00:10:03.400 --> 00:10:05.600
from right the objection that

173

00:10:06.700 --> 00:10:08.300
remains is precautionary.

174

00:10:09.100 --> 00:10:12.500
That's how we understand and I think that's what it's not trying to

deal yet. It's

175

00:10:12.500 --> 00:10:15.900

not quite done deal. But the percent Provisions provide the answer

176

00:10:15.900 --> 00:10:20.500

to the concern of substance, which was Will seneca's

177

00:10:18.500 --> 00:10:22.100

activities interrupt

178

00:10:21.100 --> 00:10:25.500

the operation of the

179

00:10:24.500 --> 00:10:27.000

scientific Laboratories. And so on

180

00:10:27.400 --> 00:10:30.900

at the campus the protect provisions

181

00:10:30.900 --> 00:10:33.300

mean that H put in

182

00:10:33.300 --> 00:10:34.400

its tenant to satisfied that

183

00:10:35.100 --> 00:10:40.500

It will not interfere with the operation of the campus and we're

184

00:10:38.500 --> 00:10:41.200

now just dealing with

185

00:10:41.200 --> 00:10:44.400

the the sort of conclusion of

186

00:10:44.400 --> 00:10:46.600

that in a contract between the two parties.

187

00:10:48.200 --> 00:10:48.500

Thank you.

188

00:10:50.200 --> 00:10:53.500

I think that concludes item three then

189

00:10:53.500 --> 00:10:56.200

we've heard from all the affected persons and

190

00:10:56.200 --> 00:11:00.600

had responses and we've got to items

191

00:10:59.600 --> 00:11:02.400

of Correspondence which we will

192

00:11:02.400 --> 00:11:05.600

Publishers posting submissions.

193

00:11:08.500 --> 00:11:08.900

So

194

00:11:10.900 --> 00:11:11.900

item for is here.

195

00:11:13.100 --> 00:11:17.500

For affected persons to make individuals submissions on

196

00:11:16.500 --> 00:11:19.400

the matters in that

197

00:11:19.400 --> 00:11:22.100

agenda item related to Human Rights and the public

198

00:11:22.100 --> 00:11:23.900

sector equality Duty.

199

00:11:25.500 --> 00:11:28.500

So, is there any affected person who wishes

200

00:11:28.500 --> 00:11:29.600

to make a submission?

201

00:11:30.500 --> 00:11:31.300

on that basis

202

00:11:37.600 --> 00:11:38.900

I'm not seeing any.

203

00:11:40.900 --> 00:11:41.600

Hands up.

204

00:11:43.500 --> 00:11:45.300

and in that case you

205

00:11:49.900 --> 00:11:52.400

No, sorry those that's my fault.

206

00:11:53.800 --> 00:11:56.500

Okay in that case, is there anything?

207

00:11:57.700 --> 00:12:00.500

The applicant wishes to add to what's already

208

00:12:00.500 --> 00:12:01.300

been submitted.

209

00:12:02.400 --> 00:12:03.600

or talked about

210

00:12:04.700 --> 00:12:07.200

in this examination in that respect.

211

00:12:24.400 --> 00:12:28.100

For these purposes.

212

00:12:27.100 --> 00:12:30.400

No, sir. I think we've put

213

00:12:30.400 --> 00:12:33.400

in writing our position on human rights, obviously in the statement

214

00:12:33.400 --> 00:12:36.900

to reasons and then there's the deadline one

215

00:12:36.900 --> 00:12:41.000

we found the equality impact assessment. Sorry

216

00:12:39.800 --> 00:12:42.700

deadline three deadline. That's

217

00:12:42.700 --> 00:12:45.400

right. Yes, we receive that. So there's yes

218

00:12:45.400 --> 00:12:49.000

those two documents provide our assessment as

219

00:12:48.300 --> 00:12:49.600

to why

220

00:12:51.600 --> 00:12:54.600

How those Mass have been taking into account and why you can be satisfied the

221

00:12:54.600 --> 00:12:54.900

relevant?

222

00:12:55.500 --> 00:12:58.100

Statutory conditions and met so I don't

223

00:12:58.100 --> 00:12:59.600

want to go through that detail. Nope.

224

00:13:00.300 --> 00:13:01.800

Fine. Thank you very much.

225

00:13:04.500 --> 00:13:07.400

Is there anything else more panel police want to

226

00:13:07.400 --> 00:13:10.600

raise not on that agenda

227

00:13:10.600 --> 00:13:11.300

item? Thank you.

228

00:13:12.800 --> 00:13:13.700
in which case

229
00:13:16.600 --> 00:13:17.500
we are at the

230
00:13:21.400 --> 00:13:24.600
recap procedural decisions review of actions and

231
00:13:24.600 --> 00:13:26.400
next steps item five.

232
00:13:27.600 --> 00:13:28.000
Okay.

233
00:13:29.200 --> 00:13:32.700
So thank you very much, Mr. Rigby. And thank

234
00:13:32.700 --> 00:13:35.400
you everyone for your contributions and

235
00:13:38.700 --> 00:13:41.300
The the item that I've noted as an

236
00:13:41.300 --> 00:13:45.700
action point is the applicant will

237
00:13:45.700 --> 00:13:48.700
include in its post hearing

238
00:13:48.700 --> 00:13:49.500
submissions.

239
00:13:50.400 --> 00:13:55.000
By deadline 7 that is the necessary

240
00:13:53.000 --> 00:13:55.600
information.

241
00:13:56.900 --> 00:13:59.800
on the what is

242

00:13:59.800 --> 00:14:00.200
known about

243

00:14:01.200 --> 00:14:03.300
and about the relevant solve the soam.

244

00:14:06.100 --> 00:14:07.000
and solar

245

00:14:07.500 --> 00:14:10.200
initiative and at the

246

00:14:10.200 --> 00:14:11.900
same time deal with the points made.

247

00:14:12.600 --> 00:14:14.000
And I think it was Mr.

248

00:14:15.400 --> 00:14:19.300
Reeve wasn't it? Yes made by

249

00:14:19.300 --> 00:14:23.100
Mr. Reeve about the section 172

250

00:14:22.100 --> 00:14:23.500
notice.

251

00:14:29.900 --> 00:14:32.900
So is that all right, Mr. Turning back? And yes, I

252

00:14:32.900 --> 00:14:35.500
think it's the it's the chronology. Yes. You're

253

00:14:35.500 --> 00:14:38.400
going to provide a timeline for for the various

254

00:14:38.400 --> 00:14:39.300
notices and

255

00:14:40.400 --> 00:14:43.000
their effect and so forth

256
00:14:44.100 --> 00:14:46.900
just to help us understand what went on.

257
00:14:52.400 --> 00:14:55.600
And if there's an outstanding, yeah, and if there's no standing

258
00:14:55.600 --> 00:14:58.400
order that hasn't been determined by the Secretary

259
00:14:58.400 --> 00:15:01.000
of State. I'd look quite like to know about as well.

260
00:15:07.500 --> 00:15:11.100
Yeah, okay. Well, yeah, okay. Just

261
00:15:10.100 --> 00:15:13.500
just the final reminder to all

262
00:15:13.500 --> 00:15:16.900
parties to put your submissions in

263
00:15:16.900 --> 00:15:19.200
writing by deadline seven that's supposed

264
00:15:19.200 --> 00:15:20.000
to submissions.

265
00:15:20.800 --> 00:15:23.200
affected persons and the applicant so

266
00:15:24.200 --> 00:15:28.000
Thanks very much everyone for your contributions.

267
00:15:32.300 --> 00:15:32.600
right

268
00:15:34.600 --> 00:15:35.500
Probably about to go there.

269

00:15:36.400 --> 00:15:39.800

The plans from this morning. Sorry. Okay. So

270

00:15:39.800 --> 00:15:42.300

I've been listening to the proceedings this

271

00:15:42.300 --> 00:15:45.200

afternoon and it's increasingly born in on me that I

272

00:15:45.200 --> 00:15:48.300

think it would be useful for us to have

273

00:15:49.100 --> 00:15:52.300

in well, it was going to say in some shape or form, but

274

00:15:52.300 --> 00:15:56.200

I'm going to say quite precisely an overlay

275

00:15:55.200 --> 00:15:59.500

of particular the

276

00:15:59.500 --> 00:16:01.500

land plans which

277

00:16:02.500 --> 00:16:04.600

shows the relationship of the

278

00:16:05.600 --> 00:16:06.300

plot numbers

279

00:16:07.400 --> 00:16:07.900

with

280

00:16:08.900 --> 00:16:11.400

now, this is an Andor with the

281

00:16:11.400 --> 00:16:12.700

parameter plans.

282

00:16:13.400 --> 00:16:18.400

And all the cable Corridor plans, let's let's

283

00:16:18.400 --> 00:16:21.800

deal with it one by one the parameter

284

00:16:21.800 --> 00:16:25.900

plans. You're going to update anyway and ditto

285

00:16:24.900 --> 00:16:27.900

with the cable Corridor

286

00:16:27.900 --> 00:16:28.400

plans.

287

00:16:30.900 --> 00:16:32.100

and so

288

00:16:34.300 --> 00:16:36.600

I don't suppose there's any joy in getting

289

00:16:38.800 --> 00:16:42.300

your colleague online or so not online.

290

00:16:41.300 --> 00:16:45.800

I think but we've asked

291

00:16:45.800 --> 00:16:46.400

the relevant people.

292

00:16:47.500 --> 00:16:48.700

it

293

00:16:50.100 --> 00:16:53.300

might be worth so you completing your request to check it fits with

294

00:16:53.300 --> 00:16:56.200

what we understand. But from what we discussed this morning.

295

00:16:56.200 --> 00:16:59.500

We'll do that for deadline seven. Yes, but if

296

00:16:59.500 --> 00:17:03.000

you're going to expand the request now, I might hold back from promising

297

00:17:02.700 --> 00:17:05.200

deadline seven, but if it's if it's the

298

00:17:05.200 --> 00:17:08.700

same thing which is to update parameter plans update cable

299

00:17:08.700 --> 00:17:11.200

Corridor plans to reflect scheme changes.

300

00:17:11.200 --> 00:17:14.600

Yes, and then to provide that overlay which will

301

00:17:14.600 --> 00:17:19.300

help you correspond the land plans with and

302

00:17:18.300 --> 00:17:21.300

and their plot numbers with the

303

00:17:21.300 --> 00:17:24.400

scheme parameters and the development Parcels. Yeah, we

304

00:17:24.400 --> 00:17:28.300

can also do for deadline seven. I think that will be useful in

305

00:17:27.300 --> 00:17:31.200

in fact, if you could do that by seven

306

00:17:30.200 --> 00:17:35.100

that will be extremely news the only

307

00:17:34.100 --> 00:17:35.400

sort of

308

00:17:36.300 --> 00:17:39.200

Thing in the back of my mind is is being able to

309

00:17:39.200 --> 00:17:42.000

understand the relationship of the cable corridors.

310

00:17:43.900 --> 00:17:44.700

vis-a-vis

311

00:17:45.800 --> 00:17:48.500

Plot numbers on that you see if you're doing

312

00:17:48.500 --> 00:17:50.900

the overlay in relation to the parameter plans.

313

00:17:53.900 --> 00:17:54.700

will that

314

00:17:56.900 --> 00:17:59.700

will that be possible in relation to the to

315

00:17:59.700 --> 00:18:01.000

the cable corridor?

316

00:18:01.600 --> 00:18:03.100

Updated plans as well.

317

00:18:11.300 --> 00:18:12.900

I think so. I think it's the same.

318

00:18:14.600 --> 00:18:18.000

you're seeing the same things that the slight difficulty

319

00:18:17.200 --> 00:18:18.800

of course, is that the

320

00:18:22.800 --> 00:18:24.800

Obviously with the central point being that.

321

00:18:26.100 --> 00:18:30.100

the width of the land to be this identified

322

00:18:29.100 --> 00:18:32.500

in the in the cable Corridor is as we

323

00:18:32.500 --> 00:18:35.500

say wider than the ultimate easement so I

324

00:18:35.500 --> 00:18:36.600

don't think you're going to

325

00:18:37.700 --> 00:18:42.400

Gain, a huge amount by seeing that in overlay, but

326

00:18:40.400 --> 00:18:44.400

you will

327

00:18:44.400 --> 00:18:48.400

be able to see where how that interacts with the solar farm

328

00:18:48.400 --> 00:18:51.500

parcels and I think that will provide a

329

00:18:51.500 --> 00:18:55.200

bit more information for you as to

330

00:18:55.200 --> 00:18:56.200

how that works in practice.

331

00:18:59.800 --> 00:19:01.500

I'm just looking at on the on the cable.

332

00:19:05.100 --> 00:19:08.900

The cable plans. You don't really

333

00:19:08.900 --> 00:19:11.200

see very much because you see

334

00:19:11.200 --> 00:19:14.800

a proposed route and then you see a maximum corridor.

335

00:19:15.700 --> 00:19:18.100

You do but I'm not sure whether you see

336

00:19:18.100 --> 00:19:21.300

them on the parameter plans on the parameter plans. I

337

00:19:21.300 --> 00:19:23.500

think it's just shown as the corridor. Yes.

338

00:19:27.500 --> 00:19:30.800

So if there were an overlay that demonstrated where

339

00:19:30.800 --> 00:19:31.800

the cable corridor

340

00:19:32.500 --> 00:19:35.700

split the difficulties that for present purposes

341

00:19:35.700 --> 00:19:39.000

the the maximum cable Corridor the

342

00:19:38.600 --> 00:19:39.900

width which we

343

00:19:41.400 --> 00:19:42.100

once take Powers over

344

00:19:43.400 --> 00:19:46.000

Is the whole of the width of each plot?

345

00:19:46.700 --> 00:19:48.000

in the cable corridor

346

00:19:48.700 --> 00:19:51.000

because we don't yet know where there will be

347

00:19:51.000 --> 00:19:51.100

in.

348

00:19:52.400 --> 00:19:55.600

The left hand side of the right hand side and any particular as we

349

00:19:55.600 --> 00:19:58.400

pass through any particular parcel of land. Mmm. So

350

00:19:58.400 --> 00:20:01.500

I might instinct is that the

351

00:20:01.500 --> 00:20:03.800

thing that will be more useful.

352

00:20:05.400 --> 00:20:07.300

would to you would be to use the

353

00:20:09.100 --> 00:20:10.300

parameter plan

354

00:20:12.500 --> 00:20:15.200

information the shape file

355

00:20:15.200 --> 00:20:19.100

from the parameter plans and put that onto the

356

00:20:18.100 --> 00:20:20.900

land plans and you'll then see.

357

00:20:22.300 --> 00:20:25.200

The illustration of which Parcels you're looking at for each

358

00:20:25.200 --> 00:20:28.100

which development Parcels you're

359

00:20:28.100 --> 00:20:31.300

looking at for each parcel of land. The cable Corridor will

360

00:20:31.300 --> 00:20:34.400

just be shown as a effectively a red line with the

361

00:20:34.400 --> 00:20:37.100

plots in it because on the cable corridor plan,

362

00:20:37.100 --> 00:20:40.200

you simply have a indicative alignment but the whole of the

363

00:20:40.200 --> 00:20:43.600

area that's that's bounded red on the land plan is shown

364

00:20:43.600 --> 00:20:45.400

as maximum extent of root.

365

00:20:48.300 --> 00:20:52.500

That sounds sentiment I think's turning and let's go

366

00:20:51.500 --> 00:20:53.000

with that.

367

00:20:54.200 --> 00:20:55.900

Where meeting on Thursday?

368

00:20:57.700 --> 00:21:00.500

And we're starting ish4.

369

00:21:02.900 --> 00:21:06.300

For the time being can we say because this

370

00:21:06.300 --> 00:21:09.700

will enable you your colleagues to get going

371

00:21:09.700 --> 00:21:12.700

on it I guess is to

372

00:21:12.700 --> 00:21:15.200

update the parameter plans update the current cable

373

00:21:15.200 --> 00:21:15.800

corridor.

374

00:21:16.300 --> 00:21:19.600

Common says yes separate plans and

375

00:21:19.600 --> 00:21:22.200

then to set about set about the

376

00:21:22.200 --> 00:21:24.900

overlay as we've discussed. Yes and

377

00:21:26.200 --> 00:21:29.300

You know if there's any if that if we've had any more thoughts about

378

00:21:29.300 --> 00:21:32.500

that will communicate them to you on Thursday

379

00:21:32.500 --> 00:21:33.400

and about that.

380

00:21:37.600 --> 00:21:40.100

Right. Is there anything else then?

381

00:21:41.700 --> 00:21:42.500

Now good.

382

00:21:44.200 --> 00:21:47.000

Everybody got there walking boots for tomorrow those who are coming.

383

00:21:48.400 --> 00:21:48.700

Yes.

384

00:21:54.400 --> 00:21:58.200

All right. Okay, good. All

385

00:21:57.200 --> 00:21:58.500

right, and

386

00:21:59.800 --> 00:22:02.500

We all done then. Thank you very much for your contributions.

387

00:22:02.500 --> 00:22:05.700

This cahuring is closed at

388

00:22:05.700 --> 00:22:08.000

nearly 20 past four. Thank you.
