Sunnica Energy Farm

2.2 Works Plans

Regulation Reference:	Regulation 5(2)(j)
Planning Inspectorate Scheme Reference	EN010106
Application Document Reference	EN010106/APP/2.2
Author	Sunnica Energy Farm Project Team

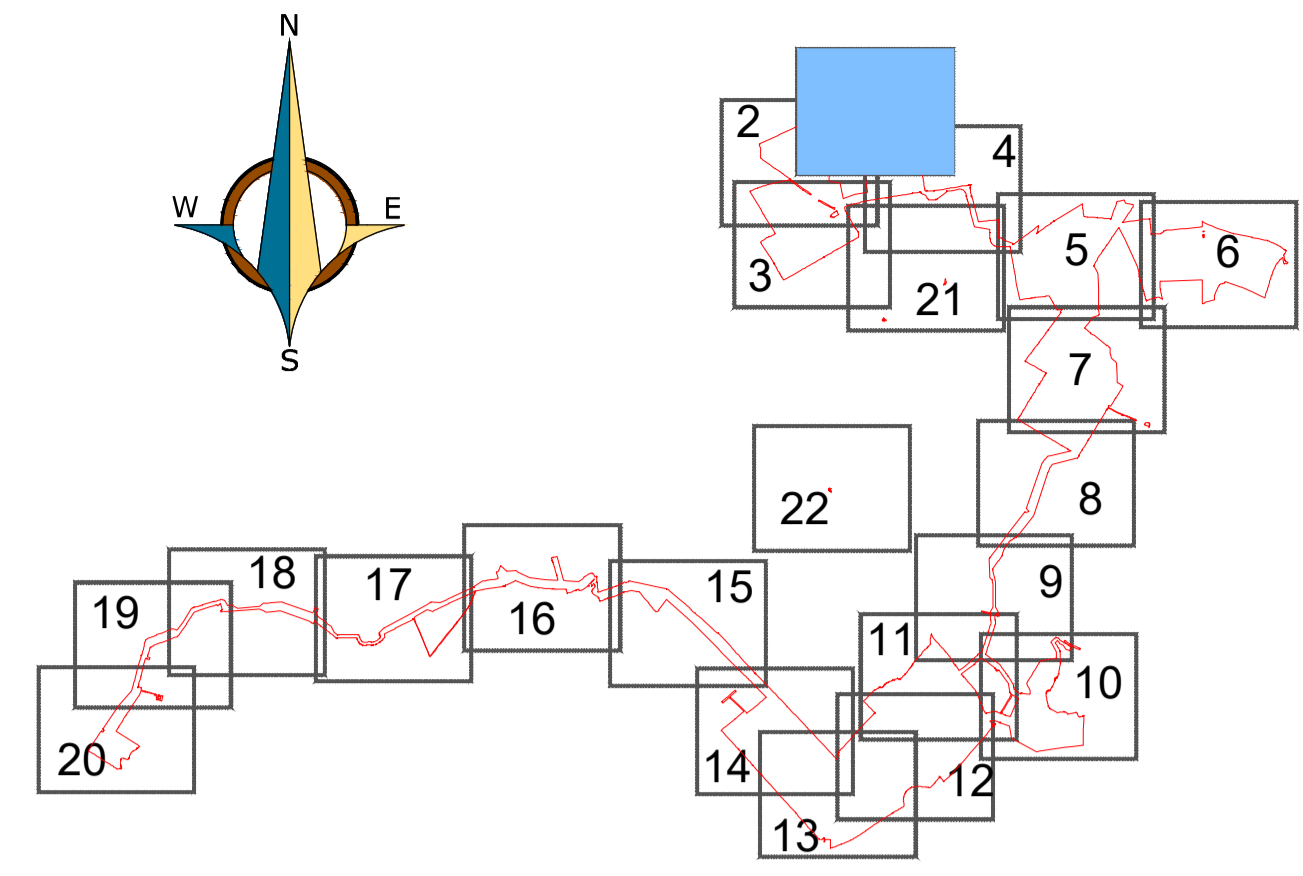

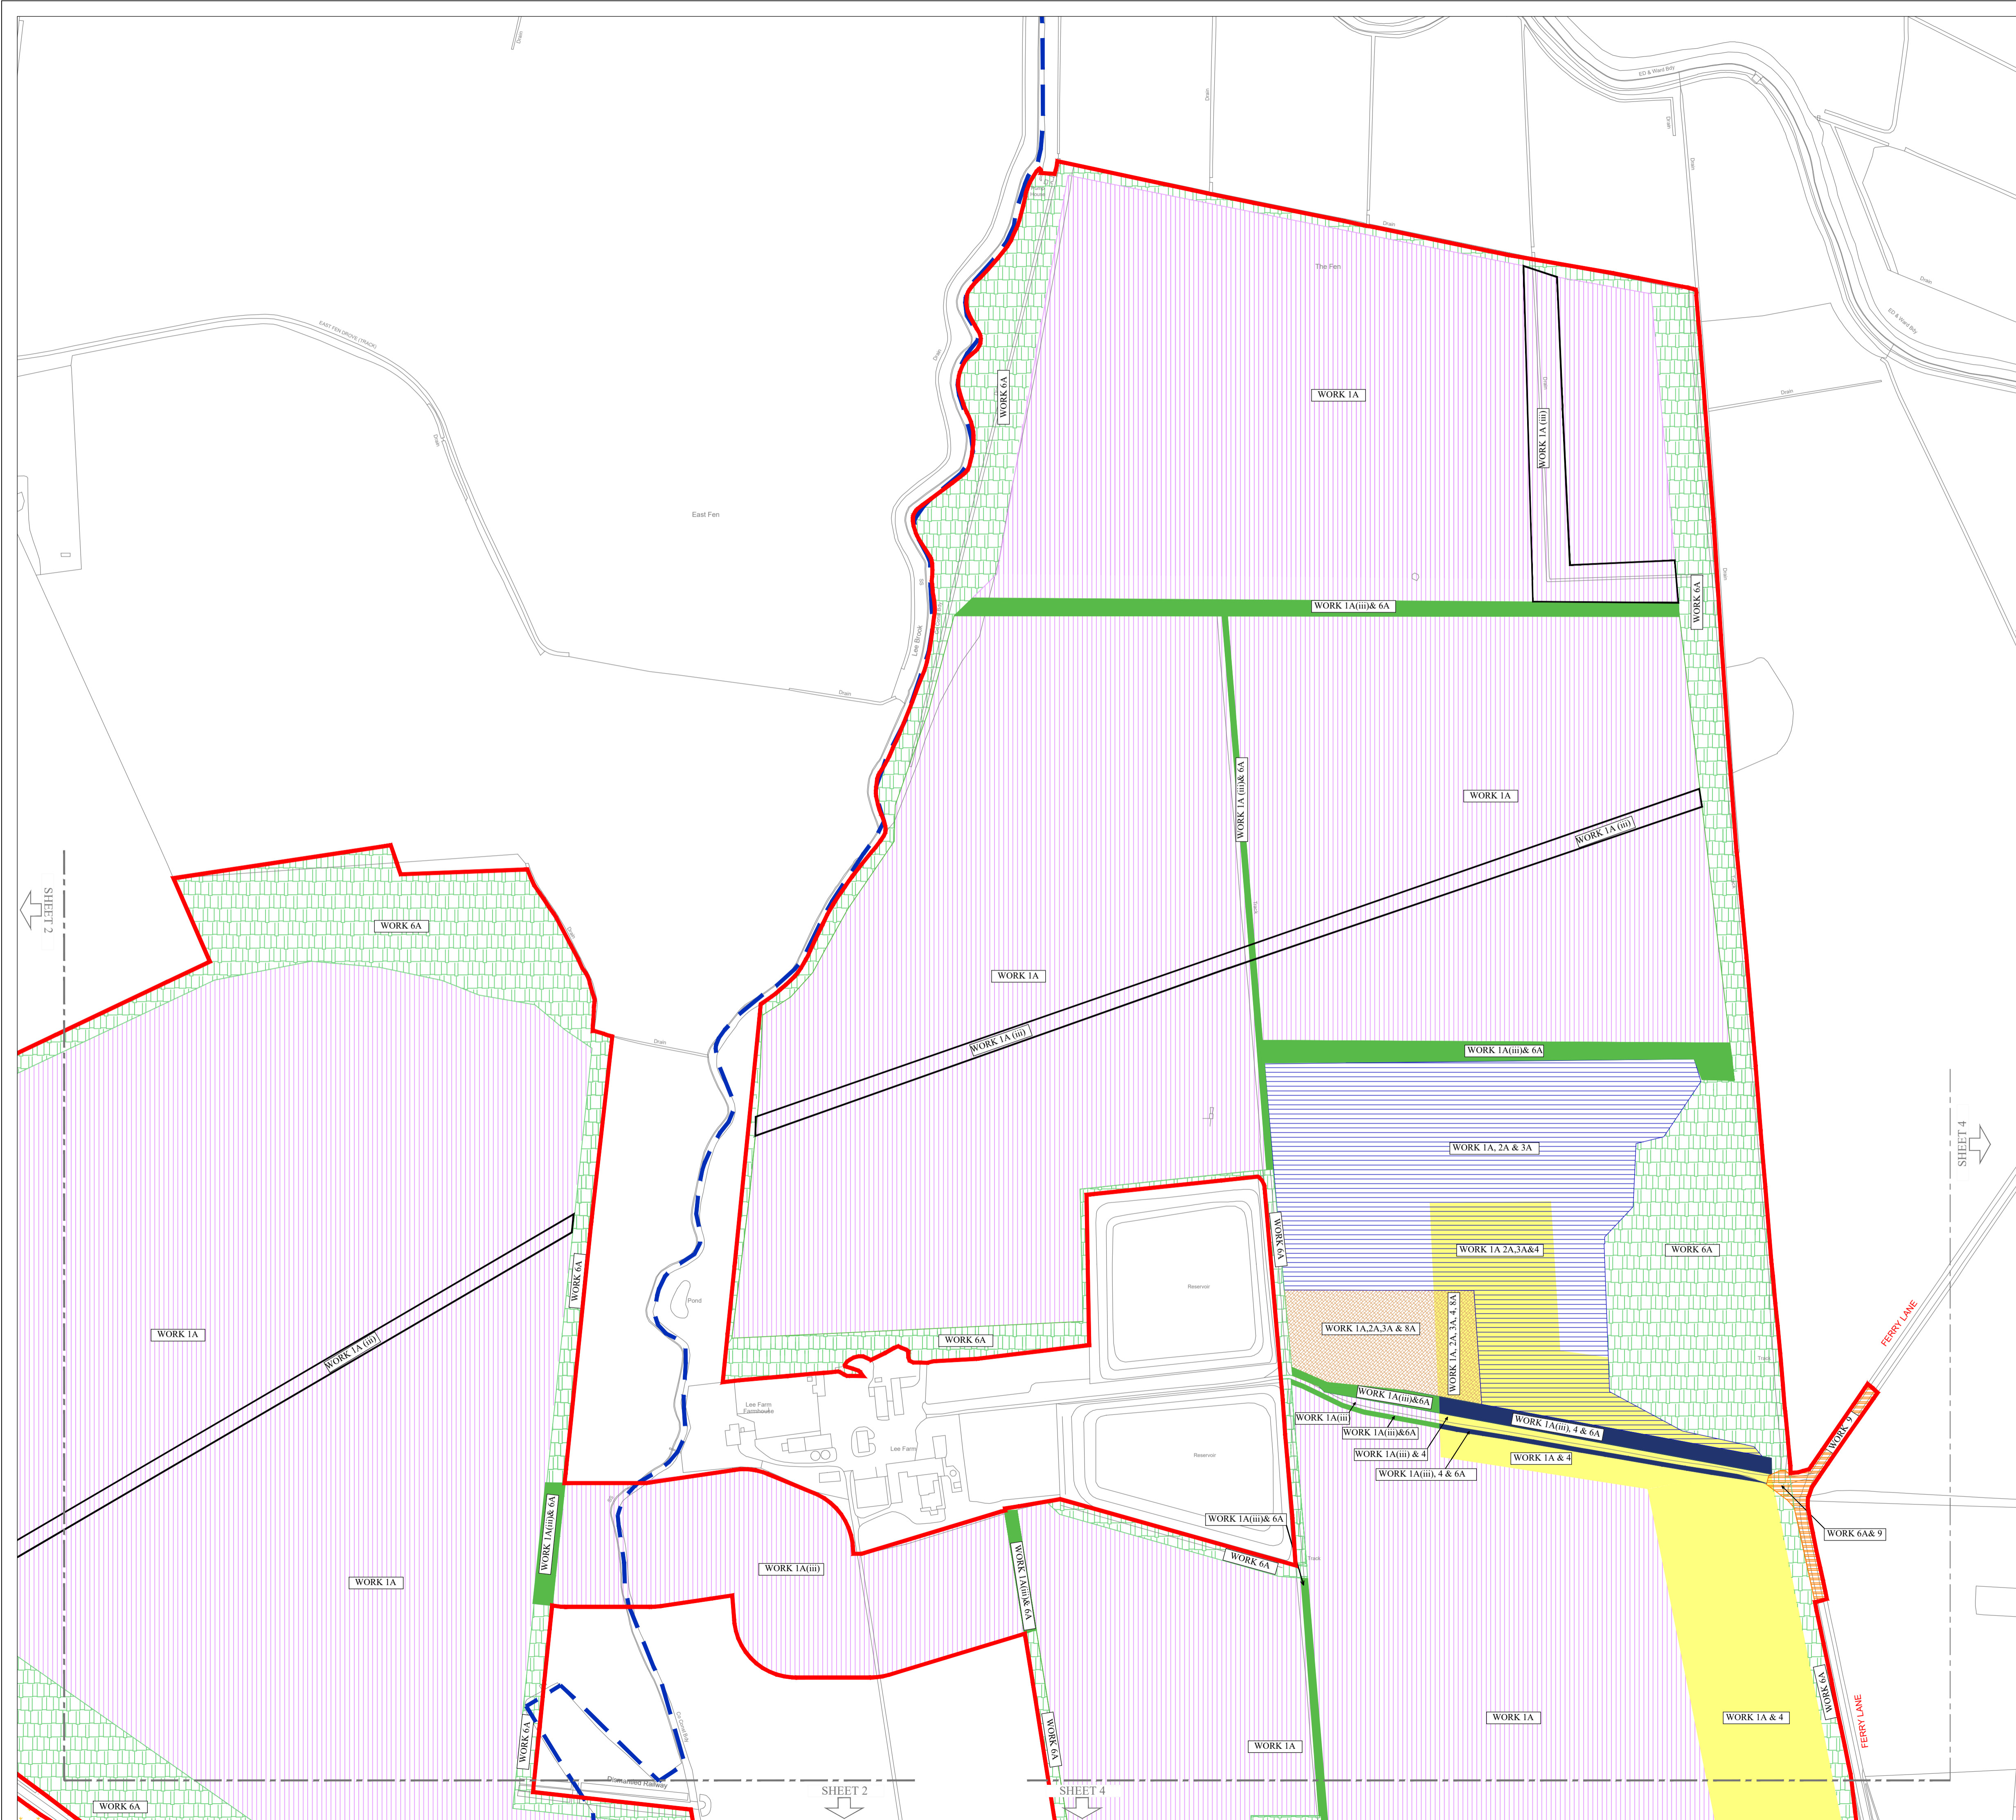

Version	Date	Status of Version
Rev 00	18 November 2021	Application Version
Rev 01	21 January 2021	Update in response to Section 51 advice
Rev 02	30 August 2022	Change Application
Rev 03	11 November 2022	Submitted at Deadline 2
Rev 04	30 January 2023	Submitted at Deadline 6
Rev 05	03 March 2023	Submitted at Deadline 7

NOTES:

1. These Work Plans show the limits of deviation for the numbered works comprised in the authorised development, which are described in Schedule 1 (Authorised Development) to the draft Development Consent Order. The Works Plans should be read in conjunction with the draft Development Consent Order and the other plans and documents to be certified by it, in particular the Design Principles and the Outline Landscape and Ecological Management Plan.
2. Work Nos. 2 (battery storage) and 3 (on-site substations) are not shown individually in the key but are shown in combination with Work No. 1 and in combination with each other. Within the combined limits of deviation for Work Nos. 1, 2 and 3 the Applicant seeks authorisation for any combination of those Work Nos.
3. Schedule 1 divides Work Nos. 1, 2, 3, 5, 6, 7 and 8 into sub-works (e.g. Work Nos. 1A, 1B, 1C, 1D). The marking convention used to delineate the limits of deviation for the numbered works does not distinguish between the lettered sub-works; instead the lettered sub-works are indicated with a label.
4. Work Nos. 2 (battery storage) and 3 (on-site substations) are not shown individually in the key but are shown in combination with Work No. 1 (and in some instances Work Nos. 7 and 8) and in combination with each other. Within the combined limits of deviation for these works the Applicant seeks authorisation for any combination of those Work Nos. shown within that limit of deviation.
5. The limits of deviation for Work No. 7 (temporary construction laydown area) are shown in combination with other numbered works. This signifies that the Applicant seeks authorisation to construct the other Work Nos. indicated within that combined limit of deviation once the temporary construction laydown area comprised in Work No.7 is no longer required.
6. Work Nos. 1, 2, 3, 4 and 5 include the underground infrastructure described in Schedule 1. Where the label to a limit of deviation denotes a sub-work with a roman numeral (e.g. Work No. 1A(ii)) this demonstrates that the Applicant seeks authorisation within that limit of deviation only for the sub-work denoted by that roman numeral per the description of the authorised development in Schedule 1 to the DCO, together with its related ancillary works, and any of the other Work Nos. appearing on that label. This enables, for example, underground cables comprised in Work No. 1 (e.g. Work No. 1A(ii)) to be placed within a limit of deviation for other Work Nos. (e.g. Work No. 6A (landscaping)).

- NOTES:**
1. These Work Plans show the limits of deviation for the numbered works comprised in the authorised development, which are described in Schedule 1 (Authorised Development) to the draft Development Consent Order. The Works Plans should be read in conjunction with the draft Development Consent Order and the other plans and documents to which it refers, in particular the Environmental Statement, the Outline Land Use and Ecological Management Plan.
 2. Work Nos. 2 (battery storage) and 3 (onsite substations) are not shown individually in the key but are shown in combination with Work No. 1 and in combination with each other. Within the combined limits of deviation for Work Nos. 1 and 2, the Applicant seeks authorisation for any combination of those Work Nos.
 3. Schedule 1 divides Work Nos. 1, 2, 3, 5, 6, 7 and 8 into sub-works (e.g. Work Nos. 1A, 1B, 1C, 1D). The marking convention used to delineate the limits of deviation for the numbered works does not distinguish between the lettered sub-works; instead the lettered sub-works are indicated with a label.
 4. Work Nos. 4 (battery storage) and 5 (substations) are not shown individually in the key but are shown in combination with Work No. 1 (and in some instances Works 7 and 8) and in combination with each other. Within the combined limits of deviation for these works the Applicant seeks authorisation for any combination of those Work Nos. shown within that limit of deviation.
 5. The limits of deviation for Work No. 6 (temporary construction laydown area) are shown in combination with other numbered works. This signifies that the Applicant seeks authorisation to construct the other Work Nos. indicated within that combined limit of deviation once the temporary construction laydown area comprised in Work No. 7 is no longer required.
 6. Work Nos. 1, 2, 3, 4 and 5 include the underground infrastructure described in Schedule 1. Where the label to a limit of deviation denotes a sub-work with a roman numeral (e.g. Work No. 1A(iii)) this demonstrates that the Applicant seeks authorisation within that limit of deviation only for the sub-work denoted by that roman numeral per the provisions of the Planning (Listed Buildings and Conservation Areas) Act 1967 (the "Listed Buildings Act") and of the other Work Nos. appearing on that label. This enables, for example, underground cables comprised in Work No. 1 (e.g. Work No. 1A(iii)) to be placed within a limit of deviation for other Work Nos. (e.g. Work No. 6A (landscaping)).

NOTES

1. These Work Plans show limits of deviation for the numbered works comprised in the authorised development, which are described in Schedule 1 (Authorised Development) to the draft Development Consent Order. The Work Plans should be read in conjunction with the draft Development Consent Order and the other plans and documents to be certified by it, in particular the Design Principles and the Outline Landscaping and Ecological Management Plan.
2. Work Nos. 2 (battery storage) and 3 (on-site substations) are not shown individually in the key but are shown in combination with Work No. 1 (temporary construction laydown area) and are comprised in the limits of deviation for Work Nos. 1, 2 and 3 the Applicant seeks authorisation for any combination of those Work Nos.
3. Schedule 1 divides Work Nos. 1, 2, 3, 5, 6, 7 and 8 into sub-works (e.g. Work Nos. 1A, 1B, 1C, 1D). The marking convention used to delineate the limits of deviation for the numbered works does not distinguish between the lettered sub-works and the numbered works.
4. Work Nos. 2 (battery storage) and 3 (on-site substations) are not shown individually in the key but are shown in combination with Work No. 1 (and in some instances Work Nos. 7 and 8) and in combination with each other. Within the combined limits of deviation for these works the Applicant seeks authorisation for any combination of those Work Nos. shown within that limit of deviation.
5. Work Nos. 2 (battery storage) and 3 (on-site substations) are shown in combination with Work No. 1 (temporary construction laydown area) are shown in combination with other numbered works. This signifies that the Applicant seeks authorisation to construct the other Work Nos. indicated within that combined limit of deviation once the temporary construction laydown area comprised in Work No. 1 is no longer required.
6. Work Nos. 2, 3, 4 and 5 include the underground infrastructure described in Schedule 1. Where the label to a limit of deviation denotes a sub-work with a roman numeral (e.g. Work No. 1A(III)) this demonstrates that the Applicant seeks authorisation within that limit of deviation only for the sub-work denoted by that roman numeral per the description of the authorised development in Schedule 1 to the DCO, together with its related ancillary works, and any of the other Work Nos. appearing on that label. This enables, for example, underground cables comprised in Work No. 1 (e.g. Work No. 1A(III)) to be placed within a limit of deviation for other Work Nos. (e.g. Work No. 6A (Landscaping)).

DRAW BY:	Sergio Serna	PS RENEWABLES: 5 Buildings Estate Masterplan, Details SL6 6GL	DATE: 02/11/2022
DESIGN BY:	Nacho Perez - Laura Picazo		SCALE: 1:2,500
CHECK BY:	David Ortiz		Δ1.

- NOTES:
- These Work Plans show the limits of deviation for the numbered works comprised in the authorised development, which are described in Schedule 1 (Authorised Development) to the draft Development Consent Order. The Works Plans should be read in conjunction with the draft Development Consent Order and the other plans and documents to be certified by it, in particular the Design Principles and the Outline Landscape and Ecological Management Plan.
 - Work Nos. 2 (battery storage) and 3 (onsite substations) are not shown individually in the key but are shown in combination with Work No. 1 and in combination with each other. Within the combined limits of deviation for Work Nos. 1, 2 and 3 the Applicant seeks authorisation for any combination of those Work Nos.
 - Schedule 1 divides Work Nos. 1, 2, 3, 5, 6, 7 and 8 into sub-works (e.g. Work Nos. 1A, 1B, 1C, 1D). The marking convention used to delineate the limits of deviation for the numbered works does not distinguish between the lettered sub works; instead the lettered sub-works are indicated with a label.
 - Work Nos. 2 (battery storage) and 3 (onsite substations) are not shown individually in the key but are shown in combination with Work No. 1 (and in some instances Work Nos. 7 and 8) and in combination with each other. Within the combined limits of deviation for these works the Applicant seeks authorisation for any combination of those Work Nos. shown within that limit of deviation.
 - The limits of deviation for Work No. 7 (temporary construction laydown area) are shown in combination with other numbered works. This signifies that the Applicant seeks authorisation to construct the other Work Nos. indicated within that combined limit of deviation once the temporary construction laydown area comprised in Work No.7 is no longer required.
 - Work Nos. 1, 2, 3, 4 and 5 include the underground infrastructure described in Schedule 1. Where the label to a limit of deviation denotes a sub-work with a roman numeral (e.g. Work No. 1A(ii)) this demonstrates that the Applicant seeks authorisation within that limit of deviation only for the sub-work denoted by that roman numeral per the description of the authorised development in Schedule 1 to the DCO, together with its related ancillary works, and any of the other Work Nos. appearing on that label. This enables, for example, underground cables comprised in Work No. 1 (e.g. Work No. 1A(ii)) to be placed within a limit of deviation for other Work Nos. (e.g. Work No. 6A (landscaping)).

LAYOUT:	Infrastructure Planning (Applications: Prescribed Forms and Procedure) Rules 2009 Regulation 5(2)(j) Works Plans – SHEET 20 OF 22 Document Reference 2.2.			
DRAW BY:	Sergio Scara	PS RENEWABLES:	DATE:	02/11/2022
DESIGN BY:	Nacho Perez - Laura Picazo	5 Sluetsong Estate Martineau, Benigno	SCALE:	1:2,500
CHECK BY:	David Ortiz	SLU 604	SIZE:	A1

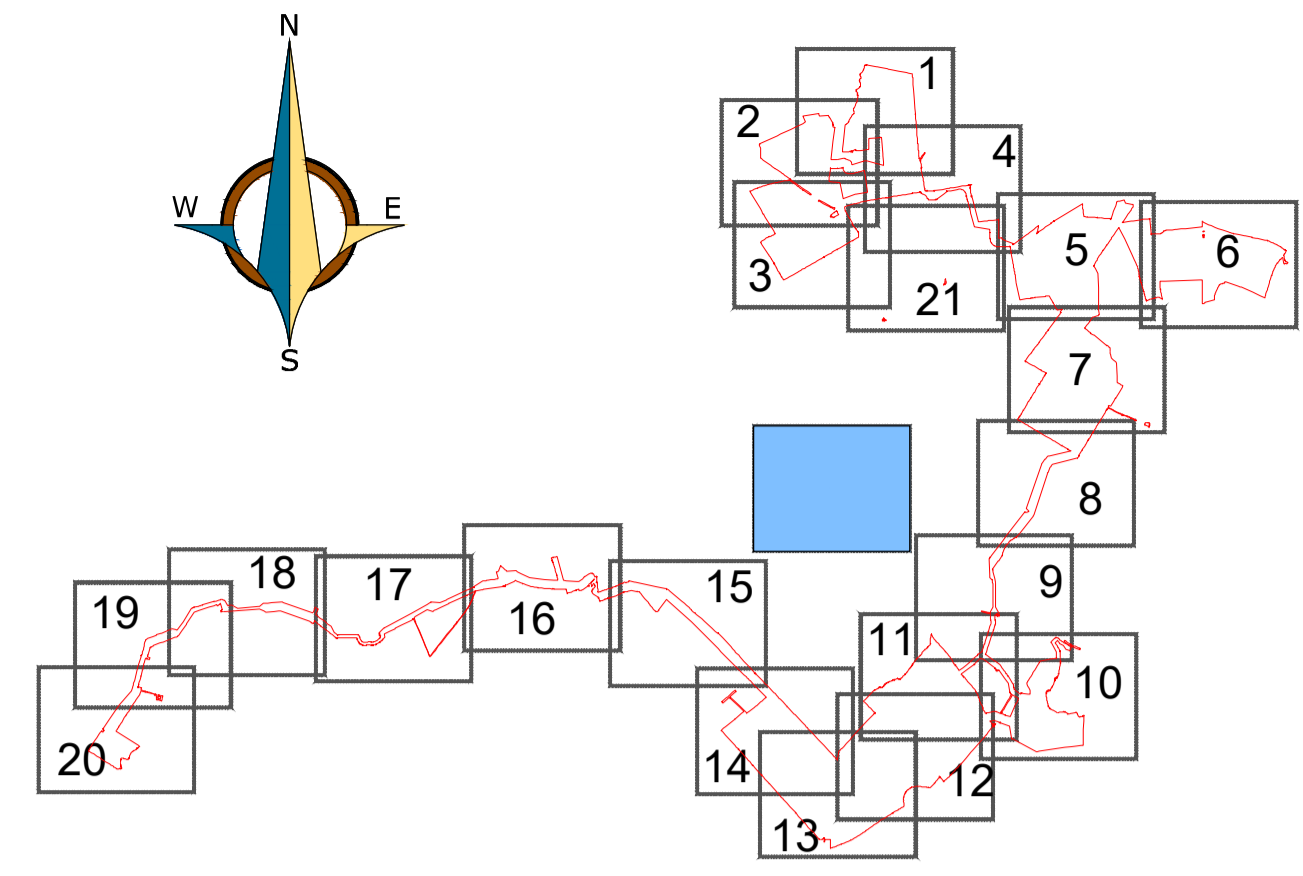

- NOTES:
1. These Work Plans show the limits of deviation for the numbered works comprised in the authorised development, which are described in Schedule 1 (Authorised Development) to the draft Development Consent Order. The Works Plans should be read in conjunction with the draft Development Consent Order and the other plans and documents to be certified by it; in particular the Design Principles and the Outline Landscape and Ecological Management Plan.
 2. Work Nos. 2 (battery storage) and 3 (onsite substations) are not shown individually in the key but are shown in combination with Work No. 1 and in combination with each other. Within the combined limits of deviation for Work Nos. 1, 2 and 3 the Applicant seeks authorisation for any combination of those Work Nos.
 3. Schedule 1 divides Work Nos. 1, 2, 3, 5, 6, 7 and 8 into sub-works (e.g. Work Nos. 1A, 1B, 1C, 1D). The marking convention used to delineate the limits of deviation for the numbered works does not distinguish between the lettered sub works; instead the lettered sub-works are indicated with a label.
 4. Work Nos. 2 (battery storage) and 3 (onsite substations) are not shown individually in the key but are shown in combination with Work No. 1 (and in some instances Work Nos. 7 and 8) and in combination with each other. Within the combined limits of deviation for these works the Applicant seeks authorisation for any combination of those Work Nos. shown within that limit of deviation.
 5. The limits of deviation for Work No. 7 (temporary construction laydown area) are shown in combination with other numbered works. This signifies that the Applicant seeks authorisation to construct the other Work Nos. indicated within that combined limit of deviation once the temporary construction laydown area comprised in Work No.7 is no longer required.
 6. Work Nos. 1, 2, 3, 4 and 5 include the underground infrastructure described in Schedule 1. Where the label to a limit of deviation denotes a sub-work with a roman numeral (e.g. Work No. 1A(iii)) this demonstrates that the Applicant seeks authorisation within that limit of deviation only for the sub-work denoted by that roman numeral per the description of the authorised development in Schedule 1 to the DCO, together with its related ancillary works, and any of the other Work Nos. appearing on that label. This enables, for example, underground cables comprised in Work No. 1 (e.g. Work No. 1A(ii)) to be placed within a limit of deviation for other Work Nos. (e.g. Work No. 6A (landscaping)).

- ORDER LIMITS
- - - LOCAL AUTHORITY BOUNDARY

LIMITS OF DEVIATION

- Work No. 9
Work No. 1A(iii) & Work No. 4
