---

Dear Sirs, I would like to ask / speak re SUNNICA's proposed planning application. I am understood to believe that SUNNICA will NOT be installing solar panels within 500 mtrs of 'residential' property. With regards to SUNNICA East site B fields, E19,E20,E21 and E22 these proposed fields are sandwiched between my residence [REDACTED] and 'The Travelers' site [REDACTED]. If SUNNICA are not going to place panels within 500 mtrs ther would be just a few meters in the middle available. Have SUNNICA withdrawn these panels or do they still propose to install ? Both myself and The Travelers object to these panels being installed within 500 mtrs from our dwelling and wish to object officially to the proposal.

Kind regards, John James [REDACTED]
