24th March 2023

Application by Sunnica Ltd for an order granting development consent for the Sunnica Energy Farm Project. Your ref EN010106.

Unique reference – SUNN-AFP153

We have read the submission prepared by A G Wright & Son for deadline 10.

We would like to put on record we agree with the issues raised in their submission.

We have previously stated throughout the examination process Sunnica's soil report is not a reflection of the land we farm neighbouring the proposed Sunnica site.

We suggest Natural England's predictive map is a better representation of the land we farm than the report submitted by Sunnica to support their application.

We have also uploaded the AG Wright Deadline 10 submission for convenience.
