Dear Inspectorate,

**Sunnica Sola farm EN010106**

Having worked much of the land for many years as a self-employed contractor. I feel that it is not of the poor-quality land that Sunnica has stated.

The land produces a good quality root-crop and cereal, which my employer was very happy with. Agriculture land that we as a country cannot afford to lose.

Sunnica's soil reports differ greatly to those reports of the neighbouring farms. I feel that a second independent soil report should be carried out to give a clearer picture of the site.

I have read A G Wright's letter that has been submitted and state that I agree with the points that are made with reference to Natural England. I feel this needs further investigation.

Your sincerely

Ian Garget
