Dear Sir

As you will know from our previous representations and my address to you in Newmarket I am one of the Ward Councillors for Isleham and Fordham Villages, comprising Isleham Fordham Chippenham Snailwell and Kennett. I am deeply concerned that the assessment of the soil greases by Sunnica are incorrect. The soil is much better than they and their experts say it is. You can imagine my disappointment to discover that Natural England have made no effort to investigate the discrepancy and support the position taken by SNTS and others in their submissions. It is simply beyond belief that only 37 hectares out of the 981 hectares are really BMV. Please do the right thing and demand a proper investigation is carried out by a completely Independent assessor

Regards Councillor Julia Huffer
