Subject: Objection to planning application
Date: 17 August 2023 22:16:10

Dwar sir

As a resident who will be detrimentally affected by the proposed Sunnica application I wish to register my objection in the strongest terms

We as a nation are financially insecure and tge cost of living is hitting those least able to bear tge burden

We HAVE to aim for self sufficiency in as many aspects of our lives as possible.

It is criminal for any company to propose taking prime arable land, used over centuries to feed the people...

Their justification us unfounded

Their reasoning lies purely behind profiteering with no consideration Their proposal would have a catastrophic impact on the Local and national economy, leading us towards further expensive imports

And thereby aggravating an already volatile economy

SAY NO TO THIS PLANNING APPLICATION FOR THE SAKE IF ALL, AND FUTURE GENERATIONS

Rosalind
