Subject: Soil Quality Assessment
Date: 05 September 2023 22:10:05

Dear Secretary of State,

I do not recognise the Applicant's assessment of the soil quality in the proposal area as low quality, and feel the methodology for the soil assessment has been inaccurate and wrong.

As a partner in a local veterinary practice, I am familiar with the countryside and many of the local landowners. The land produces excellent and heavy crops of wheat, barley, sugar beet, potatoes and onions, even on unirrigated land. Local stud farms produce excellent, world renowned thoroughbreds. I cannot help but feel some very selective soil samples have been analysed by the applicant's agronomists.

Yours faithfully,

Liam MacGillivray
