Subject: Sunnica
Date: 10 September 2023 21:41:38

Sunnica has repeatedly refused to provide information regarding key elements of their proposed development. Deciding not to respond to the examining authority on questions regarding battery safety is indicative of the level of planning that has gone into this project. Consultations with the public have been wholly insufficient and sunnica has been unwilling or unable to answer even the most basic queries.

This project should not be approved as the applicant has not shown themselves a competent partner to effectively implement a project of this scope without creating unnecessarily adverse impact upon the communities affected by the project.
