You don't often get email from [REDACTED]

Its already unanimously been stated that no to Sunnica is the only option. The project has to be stopped completely and all farmland we have now left has to remain in the production of food or left to its own condition for our quality of life and health. Our district is already suffering from colossal over development and it would be drastically irresponsible to allow the Sunnica proposal in any form at all. This has carried on too long already.

Kind regards
