26<sup>th</sup> January 2024

Dear Sir,

**The Proposed Sunnica Sola Farm EN010106**

I write regarding your letter of December 14<sup>th</sup> and the subsequent reply from Sunnica and Natural England.

**Sunnica** don't seem to have any intention of mitigating their plans any further. Clearly stating that they feel that the landscape and visual impact arrangement put forward are adequate. I disagree and feel that more could and should be undertaken.

This also goes for the glint and glare assessment. They have taken it for granted that anti-reflective coating shall already be on the panels, there is no guarantee that this is so. I feel that must be a requirement and insisted upon.

**Natural England**

We have always been led to believe that the Stone Curlews are important and protected birds. Surveys are regularly undertaken, and their nests monitored.

Yet Natural England seems to be dragging their feet with their assessment and sees no urgency to do so.

Yours Sincerely,

Mrs E M Garget
