Dear Case Team,

please see below my comments on the latest responses. Please can you pass on to the SoS

Many thanks Justin

- my objections to the scheme still stand based upon my previous submissions
- I dont agree that Natural England can take a view on Stone Curlew linkage/no linkage without providing evidence. I'm aware of the submissions of the Say No To Sunnica group on ecology issues and particularly on Stone Curlew and I am in full agreement with these
- The landscape impact of this scheme is huge. It is badly designed. It has not been landscape-led and cannot be allowed to create a blueprint for other poor quality developments. I agree with the points made by Michellle Bolger expert landscape consultant as submitted through the Say No To Sunnica Group.
