Dear Case Team

Please see below a note from my neighbours, Peter and Jenny flat, who do not have an email account.

Their URN is: 20030506

Many thanks,

Catherine

As we have said before we object to this scheme.

It is so huge. It will look awful – especially along Beck Road and Sheldrick's Road in Isleham. It will affect so many villages and we feel there are other sites that are better suited. This scheme has not been well designed at all.

We have farmed all our lives and we worry about the loss of good growing land that we need for our food. We farmed the land that runs alongside Sheldrick's Road, opposite E05. We knew the previous owners who farmed the land at E05. We know this is excellent soil. It is high quality farmland. We used to grow potatoes, corn, sugar beet and other crops up there. It is not at all poor quality, as Sunnica have said.
