Glossary of Acronyms

BoR	Book of Reference
DCO	Development Consent Order
DEP	Dudgeon Offshore Wind Farm Extension Project
HDD	Horizontal directional drilling
HVAC	High-Voltage Alternating Current
km	Kilometre
MW	Megawatts
NSIP	Nationally Significant Infrastructure Project
PA 2008	Planning Act 2008
SEP	Sheringham Offshore Wind Farm Extension Project
SoS	Secretary of State

Glossary of Terms

APFP Regulations	The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009
Dudgeon Offshore Wind Farm Extension site	The Dudgeon Offshore Wind Farm Extension offshore lease area.
Dudgeon Offshore Wind Farm Extension Project (DEP)	The Dudgeon Offshore Wind Farm Extension site as well as all onshore and offshore infrastructure.
Infield cables	Cables which link the wind turbine generators to the offshore substation platform(s).
Interlink cables	<p>Cables linking two separate project areas. This can be cables linking:</p> <p>DEP South and DEP North</p> <p>DEP South and SEP</p> <p>DEP North and SEP</p> <p>1 is relevant if DEP is constructed alone or first in a phased development.</p> <p>2 and 3 are relevant in an integrated construction.</p>
Integrated Grid Option	Transmission infrastructure which serves both extension projects.
Jointing bays	Underground structures constructed at regular intervals along the onshore cable route to join sections of cable and facilitate installation of the cables into the buried ducts.
Landfall	The point at the coastline at which the offshore export cables are brought onshore and connected to the onshore export cables.
Offshore export cables	The cables which would bring electricity from the offshore substation platform(s) to the landfall. 220 – 230kV.
Offshore substation platform	A fixed structure located within the wind farm area, containing electrical equipment to aggregate the power from the wind turbine generators and convert it into a more suitable form for export to shore.
Onshore cable corridor	The area between the landfall and the onshore substation sites, within which the onshore cable

	circuits will be installed along with other temporary works for construction.
Onshore export cables	The cables which would bring electricity from the landfall to the onshore substation. 220 – 230kV.
Onshore Substation	Compound containing electrical equipment to enable connection to the National Grid.
Order Land	The land and rights over land for which compulsory powers of acquisition are sought in the DCO as set out in the Book of Reference.
Order Limits	The area subject to the application for development consent, including all permanent and temporary works for SEP and DEP.
Separated Grid Option	Transmission infrastructure which allows each project to transmit electricity entirely separately.
Sheringham Shoal Offshore Wind Farm Extension site	Sheringham Shoal Offshore Wind Farm Extension lease area.
Sheringham Shoal Offshore Wind Farm Extension Project (SEP)	The Sheringham Shoal Offshore Wind Farm Extension site as well as all onshore and offshore infrastructure.
The Applicant	Equinor New Energy Limited.
Transition joint bay	Connects offshore and onshore export cables at the landfall. The transition joint bay will be located above mean high water.

BOOK OF REFERENCE

1 Introduction

This Book of Reference (BoR) relates to the powers of compulsory acquisition sought in the draft development consent order (DCO) application by Equinor New Energy Limited (the Applicant), on behalf of Scira Extension Limited and Dudgeon Extension Limited, to the Secretary of State (SoS) under the Planning Act 2008 (the PA 2008) for powers to construct and operate two offshore wind farms, known as Sheringham Shoal Offshore Wind Farm Extension Project (SEP) and Dudgeon Offshore Wind Farm Extension Project (DEP), both located off the coast of Norfolk.

SEP is the proposed extension to the operational Sheringham Shoal Offshore Wind Farm and will comprise up to 23 wind turbine generators, together with the associated onshore and offshore infrastructure. The offshore cable corridor from SEP to landfall will be approximately 40km in length and the onshore cable corridor will be approximately 60km in length.

DEP is the proposed extension to the operational Dudgeon Wind Farm and will comprise up to 30 wind turbine generators, together with the associated onshore and offshore infrastructure. The offshore export cable corridor for the project will be approximately 62km in length and the onshore cable corridor will be approximately 60km in length.

Development consent is required to the extent that development is or forms part of a Nationally Significant Infrastructure Project (NSIP) pursuant to sections 14(1)(a) and 15(3) of the PA 2008. As SEP and DEP will each have an overall capacity greater than 100 megawatts (MW), they are NSIPs for the purposes of the PA 2008. It is for this reason that SEP and DEP fall within the remit of the Secretary of State (SoS).

In order to develop SEP and DEP a series of land rights and interests in land will be required, on a permanent and temporary basis. In the event it has not been possible to acquire the land rights and interests by agreement, it will be necessary to compulsorily acquire land these for the purposes of developing SEP and DEP and as such, the **draft DCO** (document reference 3.1) includes powers to compulsorily acquire land.

This BoR should be read alongside the following Application documents:

draft DCO (document reference 3.1)

Explanatory Memorandum (document reference 3.2)

Land Plans (document reference 2.3, 2.4 and 2.5)

Special Category Land Plan (document reference 2.5)

Crown Land Plan (document reference 2.4)

Statement of Reasons (document reference 4.3)

2 Purpose of Document

Section 122 of the PA 2008 allows development consent orders to be granted with rights to compulsorily acquire land included within them. The **draft DCO** (document reference 3.1) seeks powers to acquire land (on a permanent or temporary basis) and to acquire new and existing rights over land, as well as powers to override existing easements and other rights and for the extinguishment of private rights in land which is compulsorily acquired. The purpose of these powers is to enable the construction, operation, maintenance and decommissioning of SEP and DEP.

The purpose of this BoR is to describe all of the land, and identify all of the interests, subject to compulsory acquisition pursuant to the **draft DCO** (document reference 3.1). This BoR has been prepared in accordance with the requirements of Regulation 5(2)(d) and Regulation 7 of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (APFP Regulations).

The land described in this BoR, which is to be subject to powers of compulsory acquisition and/or temporary possession, is required to deliver the authorised development, as described in detail in Part 1 of Schedule 1 of the **draft DCO** (document reference 3.1) and shown on the **Works Plans** (document references 2.6 and 2.7).

Every parcel of land that is affected is identified on a plot by plot basis and a unique number has been ascribed to each plot. The plots are shown on the **Land Plans** (document reference 2.3), the **Crown Land Plan** (document reference 2.4) and the **Special Category Land Plan** (document reference 2.5), which are submitted with the Application.

A number of the plots identified in Part 1 of the BoR will be subject to freehold acquisition pursuant to Article 18 (Compulsory acquisition of land) of the **draft DCO** (document reference 3.1). These plots are shown coloured pink on the **Land Plans** (document reference 2.3).

A number of plots identified in Part 1 of the BoR will be subject to the acquisition of permanent rights (including restrictive covenants) pursuant to Article 20 (Compulsory acquisition of rights) and Schedule 7 (Land in which only new rights etc. may be acquired) of the **draft DCO** (document reference 3.1). These plots are shown coloured blue on the **Land Plans** (document reference 2.3).

The land shown coloured blue and pink on the **Land Plans** (document reference 2.3) will also be subject to powers of temporary possession for the purpose of carrying out the authorised development (by virtue of Article 26 (Temporary use of land for carrying out the authorised project)).

Plots that are subject to powers of temporary possession only, such as for the purpose of access to and/or use as a temporary construction compound, are also listed in Schedule 9 (Land of which temporary possession may be taken) of the **draft DCO** (document reference 3.1) and are shown coloured yellow on the **Land Plans** (document reference 2.3).

By virtue of Article 27 (Temporary use of land for maintaining the authorised project) of the **draft DCO** (document reference 3.1), any land within the Order limits which is reasonably required for the purpose of maintaining the authorised development may be entered and/or temporarily possessed.

2.1 Structure of Document

This BoR is comprised of five Parts, in accordance with Regulation 7(1) of the APFP Regulations, as follows:

Part 1 contains the names and addresses of those who own, lease, occupy or have another interest in the land that will be affected by the compulsory acquisition powers contained in the **draft DCO** (document reference 3.1);

Part 2 contains the names and addresses of those whose land, while not directly affected by the authorised development, may be entitled to claim compensation for loss resulting from the implementation of the **draft DCO** (document reference 3.1) and use of the authorised development;

Part 3 contains the names and addresses of those entitled to enjoy easements or other private rights which it is proposed may be extinguished, suspended or interfered with in connection with the authorised development, pursuant to the **draft DCO** (document reference 3.1);

Part 4 identifies plots in which there is a Crown interest that will be affected by the authorised development and the powers contained in the **draft DCO** (document reference 3.1) (please note that these plots will not be subject to powers of compulsory acquisition); and

Part 5 identifies plots which constitute “special category land” for the purposes of Section 132 of the PA 2008 that will be affected by the authorised development and the powers contained in the **draft DCO** (document reference 3.1).

The BoR provides the area in square metres of all land subject to compulsory acquisition powers pursuant to the **draft DCO** (document reference 3.1). Each measurement is rounded up to the nearest whole square metre.

3 Project Description

SEP and DEP will each have a maximum export capacity greater than 100 megawatts (MW), with expected maximum export capacity to be approximately 786MW in total. The SEP and DEP wind farm sites are 15.8 kilometres (km) and 26.5km from the coast for SEP and DEP respectively at their closest point.

SEP and DEP will be connected to shore by offshore export cables installed to the landfall at Weybourne, on the north Norfolk coast. From there, the onshore export cables travel approximately 60km inland to a new high voltage alternating current (HVAC) onshore substation near to the existing Norwich Main substation. The onshore substation will be constructed to accommodate the connection of both SEP and DEP to the transmission grid.

The key offshore components comprise:

Wind turbines;
 Offshore substation platform/s (OSP);
 Foundation structures for wind turbines and OSP/s;
 Infield cables;
 Interlink cables; and
 Export cables from the wind farm sites to the landfall.

The key onshore components comprise:

Landfall and associated transition joint bay/s;
 Onshore export cables installed underground from the landfall to the onshore substation and associated joint bays and link boxes;
 Onshore substation and onward 400 kilovolt (kV) connection to the existing Norwich Main substation;
 Trenchless crossing zones (e.g. Horizontal Directional Drilling (HDD));
 Construction and operational accesses; and
 Temporary construction compounds.

The Applicant is seeking to coordinate the development of SEP and DEP as far as possible. The preferred option is a development scenario with an integrated transmission system, providing transmission infrastructure which serves both of the wind farms, where both projects are built concurrently. However, given the different commercial ownerships of each Project, alternative development scenarios such as a separated grid option (i.e. transmission infrastructure which allows each Project to transmit electricity entirely separately) will allow SEP and DEP to be constructed in a phased approach, if necessary. Therefore, the DCO application seeks to consent a range of development scenarios in the same overall corridors to allow for separate development if required, and to accommodate either sequential or concurrent build of the two projects.

4 Categories of new rights

Article 20 (Compulsory acquisition of rights) and Schedule 7 (Land in which only new rights etc. may be acquired) of the **draft DCO** (document reference 3.1) authorise the compulsory acquisition of new rights over land.

The descriptions of the new rights sought by the Applicant set out in **Table 1** below shall apply to the column headed “extent, description and situation of the land” in Part 1 of this BoR. For this purpose the letter in column 1 of **Table 1** is used to indicate the new rights sought over each relevant plot of land. The details are described in column 2 of **Table 1**. The new rights are sought for the purposes of construction, operation, maintenance and decommissioning of SEP and DEP.

In **Table 1** the terms used shall have the meaning given to those terms within the **draft DCO** (document 3.1) unless stated below:

“adjoining land” means such other parts of the land within the Order limits as may be required for the authorised development;

“cables” means collectively underground electricity cables together with telemetry and fibre optic lines, structures, ducting, earthing measures, thermal protection, jointing bays and other apparatus, protection measures, cable marker posts, chambers and manholes, manhole covers and other equipment which is ancillary to the purposes of transmitting electricity along such electricity cables;
 “Land” means the relevant plot shown on the **Land Plans** (document reference 2.3) and described in this BoR;

Table 1 – Categories of new rights and restrictive covenants

Category	Description of rights and restrictive covenants
A	Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised development to: <ul style="list-style-type: none"> adjust, alter, remove, replace, and create tunnels under sea defences including walls and groynes; effect access to offshore apparatus and carry out works for the purposes of construction, installation, operation, maintenance and decommissioning of the parts of the authorised development that communicate between the onshore and offshore elements of the authorised development; and lay down, install, retain, adjust, alter, construct, operate, erect, use, maintain, repair, renew, upgrade, inspect, remove and replace the electricity cables and ducts (including the removal of materials including spoil) in, under, over and/or on the Land, including by way of pull-through within the cable ducts and jointing bays, and in doing so, to use or resort to trenchless installation techniques including (but not limited to) directional drilling beneath sea defences and existing infrastructure.

A restrictive covenant over the Land for the benefit of the remainder of the Order land to:

prevent anything to be done in or upon the Land or any part thereof for the purpose of the erection of any buildings or construction erection or works of any kind (including the foundations or footings thereto);

prevent anything to be done by way of hard surfacing of the Land with concrete of any kind or with any other material or surface whatsoever without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed surfacing would not cause damage to relevant part of the authorised development nor make it materially more difficult or expensive to maintain the authorised development);

prevent anything to be done by way of mole draining or excavation of any kind in the Land nor any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever without the consent in writing of the undertaker save as are reasonably required for agricultural activities (being ploughing to no deeper than 0.7m for the purposes of arable farming) or are required to be carried out by National Grid in order to exercise their statutory functions or rights in relation to their apparatus (if any) within the Land;

prevent anything being done which may interfere with free flow and passage of electricity or telecommunications through the cables or support for the authorised development; and

prevent carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised development.

<p>B</p>	<p>Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised development to:</p> <ul style="list-style-type: none"> a) lay down, install, retain, adjust, alter, construct, operate, erect, use, maintain, repair, renew, upgrade, inspect, remove and replace the electricity cables and ducts (including the removal of materials including spoil) in, under, over and/or on the Land, including by way of pull-through within the cable ducts and jointing bays, and in doing so, to use or resort to trenchless installation techniques including (but not limited to) directional drilling beneath sea defences, watercourses, highways (including public rights of way) and railways, woodlands, solar energy generation facilities, existing infrastructure; b) enter, be on, and break open and break up the surface of the Land and remain with or without plant, vehicles, vessels, machinery, apparatus and equipment which is ancillary to the purposes of transmitting electricity along the cables, or use of the cables, cable ducts and jointing works; c) benefit from continuous vertical and lateral support for the authorised development; d) pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials for the purposes of laying down, installing, adjusting, altering, constructing, using, maintaining, repairing, renewing, upgrading, inspecting, removing and replacing the authorised development; e) construct, lay down, use and remove temporary access roads including any necessary hard standing and other surface materials including (but not limited to) matting, aggregate, trackway, stone, tarmacadam, terram, temporary bridging, culverting or diversion of water courses and drains during any period during which construction, maintenance, repair, renewal or decommissioning of the authorised development is being carried out; f) place and use plant, machinery, structures and temporary structures within the Land, and to erect temporary signage and provide measures for the benefit of public and personnel safety; g) alter, fell, lop, cut, coppice, uproot and replant trees or hedges or other vegetation which now or hereafter may be present on the Land for the purpose of enabling the right to pass and re-pass to adjoining land; h) erect and remove temporary fencing, gates, walls, barriers or other means of enclosure; i) take access to the Land and to use it to effect access to and egress from adjacent land, without or without vehicles and
-----------------	---

	<p>equipment, for the purposes of exercising any right vested in the undertaker, maintaining, replacing or altering for environmental or ecological mitigation or enhancement works, or for the purposes of undertaking surveying or monitoring activities required for the purposes of the authorised development;</p> <p>j) construct and install the cables in, on or under the Land and thereafter use the Land for all necessary purposes for the commissioning, construction, repair, testing and maintenance of the cables;</p> <p>k) place and use plant, machinery, structures and temporary structures within the Land for the purposes of the installation, construction, maintenance, repairing, renewing, upgrading, inspecting, removal and replacing of the cables, cable ducts and jointing works and to erect temporary signage and provide measures for the benefit of public and personnel safety;</p> <p>l) erect fencing, gates, walls, barriers or other means of enclosure, and create secure working areas and compounds including trenchless installation technique compounds and working areas;</p> <p>m) effect access to and from the highway;</p> <p>n) make such investigations in or on the Land as required;</p> <p>o) alter, fell, lop or cut, coppice, uproot and replant trees or hedges or other vegetation which now or hereafter may be standing on the Land or other land which would if not felled, lopped, cut or removed would obstruct or interfere with the operation of the cables;</p> <p>p) remove and discharge water from the Land, and to install, retain, use, maintain, inspect, alter, remove, refurbish, reconstruct, replace, protect and improve sewers, drains, pipes, ducts, mains, conduits, flues and to drain into and manage waterflows in any drains, watercourses and culverts, install, use, inspect, maintain, adjust, alter, renew, repair, test or cleanse drainage schemes on the Land or reinstate the any existing drainage scheme on the Land;</p> <p>q) install, alter, re-lay, maintain, protect, adjust, use or remove pipes, cables or conduits or apparatus including but not limited to electricity poles, electricity pylons, electricity masts, overhead electricity lines, telecommunications cables and any ancillary equipment and apparatus, public and private drains, watercourses, sewers, ponds or culverts and service media (including the pipes, cables or conduits or apparatus of statutory undertakers and providing connections to the authorised development);</p> <p>r) remove fences hedges or other barriers within the Land during any period during which construction, maintenance, upgrading, improvement, repair, removal or renewal is being</p>
--	---

	<p>carried out (subject to erection of any temporary stock-proof fencing as is reasonably required and the re-instatement or suitable replacement of the fences or structures following the exercise of the rights);</p> <p>s) enter upon the Land to create temporary secure areas and to remove, store and stockpile materials (including excavated material) within the Land;</p> <p>t) create boreholes and trial excavation pits for the purposes of intrusively surveying the land and monitoring the use of any trenchless installation technique, to keep in place and monitor the same through construction, maintenance repair, replacement or decommissioning and to reinstate the Land;</p> <p>u) excavate materials below ground level, including soils, and to store and re-use or dispose of the same, and in so excavating to undertake any works, including works of protection or removal of archaeological remains as may be required by any written scheme of investigation approved under this Order;</p> <p>v) carry out environmental mitigation, remediation and enhancement works;</p> <p>w) install, execute, implement, retain, repair, improve, renew, remove, relocate and plant trees, woodland, shrubs, hedgerows, seedlings and other ecological measures together with the right to maintain, inspect and replant such trees, shrubs, landscaping for the period of aftercare and maintenance of such planting (as set out in the landscape and ecological management plan approved under this Order);</p> <p>x) install, execute, implement, retain, repair, improve, renew, relocate, maintain and carry out mitigation, maintenance, remediation works for environmental or ecological mitigation or enhancement works, including the creation of hibernacula, introduction of artificial badger setts and installation of bat boxes, temporary works and the installation of temporary barriers for the protection of fauna;</p> <p>y) (in an emergency only when the cables are temporarily unusable) to lay down, install, use, maintain and inspect underground cables, telephone signalling and fibre-optic cables and ancillary equipment, associated works and other conducting media together with conduits or pipes for containing the same in and under the Land;</p> <p>z) install, construct, use and remove temporary welfare facilities during any periods of construction, maintenance, repair, replacement, renewal, upgrade and removal of the cables, cable ducts and jointing works;</p> <p>aa) place temporarily and use plant, machinery and structures on the land in connection with the lighting of the land and the authorised development;</p>
--	--

- bb) place equipment on the land, including portakabins and welfare equipment;
- cc) create car parking sites, site offices, site areas for temporary security and welfare facilities;
- dd) create fuel storage and bunded facilities for the storage of materials ancillary to the implementation of the authorised development;
- ee) lay down, install, adjust, alter, construct, create, use, maintain, repair, renew, upgrade, inspect, remove and replace transition joint bays;
- ff) to adjust, alter, remove, replace, and create tunnels under sea defences including walls and groynes;
- gg) effect access to offshore apparatus and carry out works for the purposes of construction, installation, operation, maintenance and decommissioning of the parts of the authorised development that communicate between the onshore and offshore elements of the authorised development; and
- hh) install, retain, and connect apparatus to connect onshore transmission apparatus to offshore transmission apparatus.

A restrictive covenant over the Land for the benefit of the remainder of the Order land to:

prevent anything to be done in or upon the Land or any part thereof for the purpose of the erection of any buildings or construction erection or works of any kind (including the foundations or footings thereto);

prevent anything to be done by way of hard surfacing of the Land with concrete of any kind or with any other material or surface whatsoever without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed surfacing would not cause damage to relevant part of the authorised development nor make it materially more difficult or expensive to maintain the authorised development);

prevent anything to be done by way of mole draining or excavation of any kind in the Land nor any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever without the consent in writing of the undertaker save as are reasonably required for agricultural activities (being ploughing to no deeper than 0.7m for the purposes of arable farming) or are required to be carried out by National Grid in order to exercise their statutory functions or rights in relation to their apparatus (if any) within the Land;

prevent the planting or growing within the Land of any trees, shrubs or underwood without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed provided that the proposed trees, shrubs or underwood would not cause damage to the relevant part of the authorised development nor make it materially

more difficult or expensive to access the relevant part of the authorised development);

prevent anything being done which may interfere with free flow and passage of electricity or telecommunications through the cables or support for the authorised development;

prevent carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised development;

prevent any activity which would in the reasonable opinion of the undertaker result in the disturbance of ecological mitigation areas, areas of habitat creation and areas of reinstatement where planting requires time to re-establish, including any ploughing or grazing without the prior written consent of the undertaker;

prevent any activity which would in the reasonable opinion of the undertaker result in the disturbance of ecological mitigation areas or areas of habitat creation or areas of reinstatement where planting requires time to re-establish including any ploughing or grazing without the prior written consent of the undertaker;

prevent the uprooting, removal, destruction or damaging of any plant, bush, shrub, sapling or tree planted on the Land by the undertaker during the period within which the undertaker is responsible for the aftercare and maintenance of planting (as set out in the landscape and ecological management plan approved under this Order); and

control or restrict access and use where such control or restriction is necessary for ecological or environmental mitigation or enhancement works to establish, including preventing access by the public on foot during any period where planting required under this Order is establishing (set out in the landscape and ecological management plan approved under this Order).

<p>C</p>	<p>Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised development to:</p> <p>pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials to access adjoining land for the purposes of the Works, the inspection, use, testing, maintenance, renewal, upgrading, replacement and removal of the cables, cable ducts and jointing works and connection into any adjacent cables and associated works and make such investigations in or on the Land which is ancillary for the purposes of exercise of the rights;</p> <p>construct, use, maintain and improve a permanent means of access including visibility splays, and retain, maintain, straighten, widen, repair, alter, upgrade and use existing access routes for the purposes of accessing the Land, adjoining land and highway;</p> <p>place and use plant, machinery, structures and temporary structures within the Land, and to erect temporary signage and provide measures for the benefit of public and personnel safety; and</p> <p>alter, fell, lop, cut, coppice, uproot and replant trees or hedges or other vegetation which now or hereafter may be present on the Land for the purpose of enabling the right to pass and re-pass to adjoining land.</p> <p>A restrictive covenant over the Land for the benefit of the remainder of the Order land to:</p> <p>prevent anything to be done in or upon the Land or any part thereof for the purpose of the erection of any buildings or construction erection or works of any kind (including the foundations or footings thereto);</p> <p>prevent anything to be done by way of mole draining or excavation of any kind in the Land nor any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever without the consent in writing of the undertaker save as are reasonably required for agricultural activities (being ploughing to no deeper than 0.7m for the purposes of arable farming) or are required to be carried out by National Grid in order to exercise their statutory functions or rights in relation to their apparatus (if any) within the Land;</p> <p>prevent the planting or growing within the Land of any trees, shrubs or underwood without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed provided that the proposed trees, shrubs or underwood would not cause damage to the relevant part of the authorised development nor make it materially more difficult or expensive to access the relevant part of the authorised development); and</p> <p>to prevent carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised development.</p>
-----------------	---

<p>D</p>	<p>Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised development to:</p> <p>lay down, install, retain, adjust, alter, construct, operate, erect, use, maintain, repair, renew, upgrade, inspect, remove and replace the electricity cables and ducts (including the removal of materials including spoil) in, under, over and/or on the Land, including by way of pull-through within the cable ducts and jointing bays, and in doing so, to use or resort to trenchless installation techniques including (but not limited to) directional drilling beneath sea defences, watercourses, highways (including public rights of way) and railways, woodlands, solar energy generation facilities, existing infrastructure;</p> <p>enter, be on, and break open and break up the surface of the Land and remain with or without plant, vehicles, vessels, machinery, apparatus and equipment which is ancillary to the purposes of transmitting electricity along the cables, or use of the cables, cable ducts and jointing works;</p> <p>benefit from continuous vertical and lateral support for the authorised development;</p> <p>pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials for the purposes of laying down, installing, adjusting, altering, constructing, using, maintaining, repairing, renewing, upgrading, inspecting, removing and replacing the authorised development;</p> <p>construct, lay down, use and remove temporary access roads including any necessary hard standing and other surface materials including (but not limited to) matting, aggregate, trackway, stone, tarmacadam, terram, temporary bridging, culverting or diversion of water courses and drains during any period during which construction, maintenance, repair, renewal or decommissioning of the authorised development is being carried out;</p> <p>retain, maintain and use temporary supporting or protective structures and erect temporary supporting or protective structures (including the bridging over or protection of the apparatus of the statutory undertakers) for the purposes of access to adjoining land;</p> <p>place and use plant, machinery, structures and temporary structures within the Land, and to erect temporary signage and provide measures for the benefit of public and personnel safety;</p> <p>alter, fell, lop, cut, coppice, uproot and replant trees or hedges or other vegetation which now or hereafter may be present on the Land for the purpose of enabling the right to pass and re-pass to adjoining land;</p> <p>erect and remove temporary fencing, gates, walls, barriers or other means of enclosure;</p> <p>lay out and maintain temporary paths and bridleways for public use as temporary diversions for public rights of way which are interfered with during any period in which construction, maintenance, repair or renewal decommissioning is being carried out;</p>
-----------------	--

take access to the Land and to use it to effect access to and egress from adjacent land, without or without vehicles and equipment, for the purposes of exercising any right vested in the undertaker, maintaining, replacing or altering for environmental or ecological mitigation or enhancement works, or for the purposes of undertaking surveying or monitoring activities required for the purposes of the authorised development;

construct and install the cables in, on or under the Land and thereafter use the Land for all necessary purposes for the commissioning, construction, repair, testing and maintenance of the cables;

place and use plant, machinery, structures and temporary structures within the Land for the purposes of the installation, construction, maintenance, repairing, renewing, upgrading, inspecting, removal and replacing of the cables, cable ducts and jointing works and to erect temporary signage and provide measures for the benefit of public and personnel safety;

erect fencing, gates, walls, barriers or other means of enclosure, and create secure working areas and compounds including trenchless installation technique compounds and working areas;

effect access to and from the highway;

make such investigations in or on the Land as required;

alter, fell, lop or cut, coppice, uproot and replant trees or hedges or other vegetation which now or hereafter may be standing on the Land or other land which would if not felled, lopped, cut or removed would obstruct or interfere with the operation of the cables;

remove and discharge water from the Land, and to install, retain, use, maintain, inspect, alter, remove, refurbish, reconstruct, replace, protect and improve sewers, drains, pipes, ducts, mains, conduits, flues and to drain into and manage waterflows in any drains, watercourses and culverts, install, use, inspect, maintain, adjust, alter, renew, repair, test or cleanse drainage schemes on the Land or reinstate the any existing drainage scheme on the Land;

install, alter, re-lay, maintain, protect, adjust, use or remove pipes, cables or conduits or apparatus including but not limited to electricity poles, electricity pylons, electricity masts, overhead electricity lines, telecommunications cables and any ancillary equipment and apparatus, public and private drains, watercourses, sewers, ponds or culverts and service media (including the pipes, cables or conduits or apparatus of statutory undertakers and providing connections to the authorised development);

remove fences hedges or other barriers within the Land during any period during which construction, maintenance, upgrading, improvement, repair, removal or renewal is being carried out (subject to erection of any temporary stock-proof fencing as is reasonably required and the re-instatement or suitable replacement of the fences or structures following the exercise of the rights);

enter upon the Land to create temporary secure areas and to remove, store and stockpile materials (including excavated material) within the Land;

create boreholes and trial excavation pits for the purposes of intrusively surveying the land and monitoring the use of any trenchless installation technique, to keep in place and monitor the same through construction, maintenance repair, replacement or decommissioning and to reinstate the Land;

excavate materials below ground level, including soils, and to store and re-use or dispose of the same, and in so excavating to undertake any works, including works of protection or removal of archaeological remains as may be required by any written scheme of investigation approved under this Order;

carry out environmental mitigation, remediation and enhancement works;

install, execute, implement, retain, repair, improve, renew, remove, relocate and plant trees, woodland, shrubs, hedgerows, seedlings and other ecological measures together with the right to maintain, inspect and replant such trees, shrubs, landscaping for the period of aftercare and maintenance of such planting (as set out in the landscape and ecological management plan approved under this Order);

install, execute, implement, retain, repair, improve, renew, relocate, maintain and carry out mitigation, maintenance, remediation works for environmental or ecological mitigation or enhancement works, including the creation of hibernacula, introduction of artificial badger setts and installation of bat boxes, temporary works and the installation of temporary barriers for the protection of fauna;

(in an emergency only when the cables are temporarily unusable) to lay down, install, use, maintain and inspect underground cables, telephone signalling and fibre-optic cables and ancillary equipment, associated works and other conducting media together with conduits or pipes for containing the same in and under the Land;

install, construct, use and remove temporary welfare facilities during any periods of construction, maintenance, repair, replacement, renewal, upgrade and removal of the cables, cable ducts and jointing works;

place temporarily and use plant, machinery and structures on the land in connection with the lighting of the land and the authorised development;

place equipment on the land, including portakabins and welfare equipment;

create car parking sites, site offices, site areas for temporary security and welfare facilities; and

create fuel storage and bunded facilities for the storage of materials ancillary to the implementation of the authorised development.

A restrictive covenant over the Land for the benefit of the remainder of the Order land to:

prevent anything to be done in or upon the Land or any part thereof for the purpose of the erection of any buildings or construction erection or works of any kind (including the foundations or footings thereto);

prevent anything to be done by way of hard surfacing of the Land with concrete of any kind or with any other material or surface whatsoever without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed surfacing would not cause damage to relevant part of the authorised development nor make it materially more difficult or expensive to maintain the authorised development);

prevent anything to be done by way of mole draining or excavation of any kind in the Land nor any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever without the consent in writing of the undertaker save as are reasonably required for agricultural activities (being ploughing to no deeper than 0.7m for the purposes of arable farming);

prevent the planting or growing within the Land of any trees, shrubs or underwood without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed provided that the proposed trees, shrubs or underwood would not cause damage to the relevant part of the authorised development nor make it materially more difficult or expensive to access the relevant part of the authorised development);

prevent anything being done which may interfere with free flow and passage of electricity or telecommunications through the cables or support for the authorised development;

prevent carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised development;

prevent any activity which would in the reasonable opinion of the undertaker result in the disturbance of ecological mitigation areas, areas of habitat creation and areas of reinstatement where planting requires time to re-establish, including any ploughing or grazing without the prior written consent of the undertaker;

prevent the uprooting, removal, destruction or damaging of any plant, bush, shrub, sapling or tree planted on the Land by the undertaker during the period within which the undertaker is reasonable for the aftercare and maintenance of such planting (as set out in the landscape and ecological management plan approved under this Order); and

control or restrict access and use where such control or restriction is necessary for ecological or environmental mitigation or enhancement works to establish, including preventing access by the public on foot during any period where planting required under this Order is establishing (set out in the landscape and ecological management plan approved under this Order).

--	--

<p>E</p>	<p>Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised development to:</p> <p>lay down, install, retain, adjust, alter, construct, operate, erect, use, maintain, repair, renew, upgrade, inspect, remove and replace the electricity cables and ducts (including the removal of materials including spoil) in, under, over and/or on the Land, including by way of pull-through within the cable ducts and jointing bays;</p> <p>enter, be on, and break open and break up the surface of the Land and remain with or without plant, vehicles, machinery, apparatus and equipment which is ancillary to the purposes of transmitting electricity along the cables or use of the cables, cable ducts and jointing works;</p> <p>benefit from continuous vertical and lateral support for the authorised development;</p> <p>pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials for the purposes of laying down, installing, adjusting, altering, constructing, using, maintaining, repairing, renewing, upgrading, inspecting, removing and replacing the authorised development;</p> <p>construct, lay down, use and remove temporary access roads including any necessary hard standing and other surface materials including (but not limited to) matting, aggregate, trackway, stone, tarmacadam, terram, temporary bridging, culverting or diversion of water courses and drains during any period during which construction, maintenance, repair, renewal or decommissioning of the authorised development is being carried out;</p> <p>place and use plant, machinery, structures and temporary structures within the Land, and to erect temporary signage and provide measures for the benefit of public and personnel safety;</p> <p>alter, fell, lop, cut, coppice , uproot or replant trees or hedges or other vegetation which now or hereafter may be present on the Land for the purpose of enabling the right to pass and re-pass to adjoining land;</p> <p>remove and discharge water from the Land and to install, retain, use, maintain, inspect, alter, remove, refurbish, reconstruct, replace, protect and improve sewers, drains, pipes, ducts, mains, conduits, flues and to drain into and manage waterflows in any drains, watercourses and culverts, to lay down, install, adjust, alter, construct, create, use, maintain, repair, renew, upgrade, inspect, remove and replace a drainage scheme on the Land;</p> <p>install, alter, re-lay, maintain, protect, adjust or remove pipes, cables or conduits or apparatus including but not limited to electricity poles, electricity pylons, electricity masts, overhead electricity lines, telecommunications cables and any ancillary equipment and apparatus public and private drains, watercourses, sewers, ponds or culverts, service media (including the pipes, cables or conduits or apparatus of statutory undertakers);</p>
----------	---

National Grid substation connection works to lay down, install, retain, adjust, alter, construct, operate, erect, use, maintain, repair, renew, upgrade, inspect, remove and replace the electricity cables and ducts (including the removal of materials including spoil) in, under, over and/or on the Land, including by way of pull-through within the cable ducts and jointing bays, together with such telemetry and fibre-optic lines, structures, ducting, jointing bays and other apparatus, protection measures, cable marker posts, chambers and manholes, manhole covers and other equipment which is ancillary to the purposes of transmitting electricity along such cables to the National Grid substation;

pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials to access adjoining land for the purposes of the Works, the inspection, use, testing, maintenance, renewal, upgrading, replacement and removal of the cables, cable ducts and jointing works and connection into any adjacent cables and associated works and make such investigations in or on the Land which is ancillary for the purposes of exercise of the rights;

construct, use, maintain and improve a permanent means of access including visibility splays, and retain, maintain, straighten, widen, repair, alter, upgrade and use existing access routes for the purposes of accessing the Land, adjoining land and highway; and

install, execute, implement, retain, repair, improve, renew, remove, relocate and plant trees, woodland, shrubs, hedgerows, seedlings and other ecological measures together with the right to maintain, inspect and replant such trees, shrubs, landscaping for the period of aftercare and maintenance of such planting (as set out in the landscape and ecological management plan approved under this Order).

A restrictive covenant over the Land for the benefit of the remainder of the Order land to:

- prevent anything to be done in or upon the Land or any part thereof for the purpose of the erection of any buildings or construction erection or works of any kind (including the foundations or footings thereto);
- prevent anything to be done by way of hard surfacing of the Land with concrete of any kind or with any other material or surface whatsoever without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed surfacing would not cause damage to relevant part of the authorised development nor make it materially more difficult or expensive to maintain the authorised development);
- prevent anything to be done by way of mole draining or excavation of any kind in the Land nor any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever without the consent in writing of the undertaker save as are reasonably required for agricultural activities (being ploughing to no deeper than 0.7m for the purposes of arable farming) or are required to be carried

out by National Grid in order to exercise their statutory functions or rights in relation to their apparatus (if any) within the Land;

prevent the planting or growing within the Land of any trees, shrubs or underwood without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed provided that the proposed trees, shrubs or underwood would not cause damage to the relevant part of the authorised development nor make it materially more difficult or expensive to access the relevant part of the authorised development);

prevent anything being done which may interfere with free flow and passage of electricity or telecommunications through the cables or support for the authorised development;

prevent carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised development;

prevent any activity which would in the reasonable opinion of the undertaker result in the disturbance of ecological mitigation areas, areas of habitat creation and areas of reinstatement where planting requires time to re-establish, including any ploughing or grazing without the prior written consent of the undertaker; and

prevent the uprooting, removal, destruction or damaging of any plant, bush, shrub, sapling or tree planted on the Land by the undertaker during the period within which the undertaker is reasonable for the aftercare and maintenance of such planting (as set out in the landscape and ecological management plan approved under this Order).

<p>F</p>	<p>Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised development to:</p> <p>lay down, install, retain, adjust, alter, construct, operate, erect, use, maintain, repair, renew, upgrade, inspect, remove and replace the electricity cables and ducts (including the removal of materials including spoil) in, under, over and/or on the Land, including by way of pull-through within the cable ducts and jointing bays;</p> <p>enter, be on, and break open and break up the surface of the Land and remain with or without plant, vehicles, machinery, apparatus and equipment which is ancillary to the purposes of transmitting electricity along the cables or use of the cables, cable ducts and jointing works;</p> <p>benefit from continuous vertical and lateral support for the authorised development;</p> <p>pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials for the purposes of laying down, installing, adjusting, altering, constructing, using, maintaining, repairing, renewing, upgrading, inspecting, removing and replacing the authorised development;</p> <p>construct, lay down, use and remove temporary access roads including any necessary hard standing and other surface materials including (but not limited to) matting, aggregate, trackway, stone, tarmacadam, terram, temporary bridging, culverting or diversion of water courses and drains during any period during which construction, maintenance, repair, renewal or decommissioning of the authorised development is being carried out;</p> <p>place and use plant, machinery, structures and temporary structures within the Land, and to erect temporary signage and provide measures for the benefit of public and personnel safety;</p> <p>alter, fell, lop, cut, coppice , uproot or replant trees or hedges or other vegetation which now or hereafter may be present on the Land for the purpose of enabling the right to pass and re-pass to adjoining land;</p> <p>remove and discharge water from the Land and to install, retain, use, maintain, inspect, alter, remove, refurbish, reconstruct, replace, protect and improve sewers, drains, pipes, ducts, mains, conduits, flues and to drain into and manage waterflows in any drains, watercourses and culverts, to lay down, install, adjust, alter, construct, create, use, maintain, repair, renew, upgrade, inspect, remove and replace a drainage scheme on the Land;</p> <p>install, alter, re-lay, maintain, protect, adjust or remove pipes, cables or conduits or apparatus including but not limited to electricity poles, electricity pylons, electricity masts, overhead electricity lines, telecommunications cables and any ancillary equipment and apparatus public and private drains, watercourses, sewers, ponds or culverts, service media (including the pipes, cables or conduits or apparatus of statutory undertakers);</p>
-----------------	---

National Grid substation connection works to lay down, install, retain, adjust, alter, construct, operate, erect, use, maintain, repair, renew, upgrade, inspect, remove and replace the electricity cables and ducts (including the removal of materials including spoil) in, under, over and/or on the Land, including by way of pull-through within the cable ducts and jointing bays, together with such telemetry and fibre-optic lines, structures, ducting, jointing bays and other apparatus, protection measures, cable marker posts, chambers and manholes, manhole covers and other equipment which is ancillary to the purposes of transmitting electricity along such cables to the National Grid substation;

pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials to access adjoining land for the purposes of the Works, the inspection, use, testing, maintenance, renewal, upgrading, replacement and removal of the cables, cable ducts and jointing works and connection into any adjacent cables and associated works and make such investigations in or on the Land which is ancillary for the purposes of exercise of the rights; and construct, use, maintain and improve a permanent means of access including visibility splays, and retain, maintain, straighten, widen, repair, alter, upgrade and use existing access routes for the purposes of accessing the Land, adjoining land and highway.

A restrictive covenant over the Land for the benefit of the remainder of the Order land to:

prevent anything to be done in or upon the Land or any part thereof for the purpose of the erection of any buildings or construction erection or works of any kind (including the foundations or footings thereto);

prevent anything to be done by way of hard surfacing of the Land with concrete of any kind or with any other material or surface whatsoever without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed surfacing would not cause damage to relevant part of the authorised development nor make it materially more difficult or expensive to maintain the authorised development);

prevent anything to be done by way of mole draining or excavation of any kind in the Land nor any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever without the consent in writing of the undertaker save as are reasonably required for agricultural activities (being ploughing to no deeper than 0.7m for the purposes of arable farming) or are required to be carried out by National Grid in order to exercise their statutory functions or rights in relation to their apparatus (if any) within the Land;

prevent the planting or growing within the Land of any trees, shrubs or underwood without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed provided that the proposed trees, shrubs or underwood would not cause damage to the

	<p>relevant part of the authorised development nor make it materially more difficult or expensive to access the relevant part of the authorised development);</p> <p>prevent anything being done which may interfere with free flow and passage of electricity or telecommunications through the cables or support for the authorised development; and</p> <p>prevent carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised development.</p>
--	---

<p>G</p>	<p>Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised development to:</p> <p>pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials to access adjoining land for the purposes of the Works, the inspection, use, testing, maintenance, renewal, upgrading, replacement and removal of the cables, cable ducts and jointing works and connection into any adjacent cables and associated works and make such investigations in or on the Land which is ancillary for the purposes of exercise of the rights;</p> <p>construct, use, maintain and improve a permanent means of access including visibility splays, and retain, maintain, straighten, widen, repair, alter, upgrade and use existing access routes for the purposes of accessing the Land, adjoining land and highway;</p> <p>place and use plant, machinery, structures and temporary structures within the Land, and to erect temporary signage and provide measures for the benefit of public and personnel safety;</p> <p>alter, fell, lop, cut, coppice, uproot and replant trees or hedges or other vegetation which now or hereafter may be present on the Land for the purpose of enabling the right to pass and re-pass to adjoining land;</p> <p>and</p> <p>repair, improve, renew, remove, relocate and plant trees, woodland, shrubs, hedgerows, seeding and other ecological measures together with the right to maintain, inspect and replant such trees, shrubs and landscaping.</p> <p>A restrictive covenant over the Land for the benefit of the remainder of the Order land to:</p> <p>prevent anything to be done in or upon the Land or any part thereof for the purpose of the erection of any buildings or construction erection or works of any kind (including the foundations or footings thereto);</p> <p>prevent anything to be done by way of mole draining or excavation of any kind in the Land nor any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever without the consent in writing of the undertaker save as are reasonably required for agricultural activities (being ploughing to no deeper than 0.7m for the purposes of arable farming) or are required to be carried out by National Grid in order to exercise their statutory functions or rights in relation to their apparatus (if any) within the Land;</p> <p>prevent the planting or growing within the Land of any trees, shrubs or underwood without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed provided that the proposed trees, shrubs or underwood would not cause damage to the relevant part of the authorised development nor make it materially more difficult or expensive to access the relevant part of the authorised development); and</p>
-----------------	---

	<p>prevent carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised development.</p>
--	--

<p>H</p>	<p>Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised development to:</p> <p>remove and discharge water from the Land and to install, retain, use, maintain, inspect, alter, remove, refurbish, reconstruct, replace, protect and improve sewers, drains, pipes, ducts, mains, conduits, flues and to drain into and manage waterflows in any drains, watercourses and culverts, to lay down, install, adjust, alter, construct, create, use, maintain, repair, renew, upgrade, inspect, remove and replace a drainage scheme on the Land (the “drainage works”);</p> <p>inspect, use mechanical excavation (including directional drilling and/or digging), reinstate, remove, move or alter such part or parts of any drainage system on the Land for the purposes of the drainage works (including connecting the drainage works to any land drain as at the date of the drainage works);</p> <p>enter, be on, and break up the surface of the Land and remain with or without plant, vehicles, machinery, apparatus and equipment which is ancillary to the purposes of the drainage works;</p> <p>enter upon the Land to create temporary secure areas and to remove, store and stockpile materials (including excavated material) within the Land;</p> <p>create boreholes and trail excavation pits for the purposes of intrusively surveying the land and monitoring the use of any trenchless installation technique, to keep in place and monitor the same through construction, maintenance repair, replacement or decommissioning and to reinstate the Land;</p> <p>excavate materials below ground level, including soils, and to store and re-use or dispose of the same, and in so excavating, to undertake any works, including works of protection or removal of archaeological remains as may be required by any written scheme of investigation approved under this Order;</p> <p>pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials for the purposes of the drainage works;</p> <p>take access to the Land and to use it to effect access to and egress from adjacent land, without or without vehicles and equipment, for the purposes of exercising any right vested in the undertaker, maintaining, replacing or altering for environmental or ecological mitigation or enhancement works, or for the purposes of undertaking surveying or monitoring activities required for the purposes of the authorised development;</p> <p>place and use plant, machinery, structures and temporary structures within the Land, and to erect temporary signage and provide measures for the benefit of public and personnel safety for the purposes of the drainage works;</p> <p>erect fencing, gates, walls, barriers or other means of enclosure, and create secure works areas or compounds including temporary</p>
----------	--

trenchless installation technique compounds and working areas for the purposes of the drainage works;
 construct, lay down, use and remove temporary access roads including any necessary hard standing and other surface materials including (but not limited to) matting, aggregate, trackway, stone, tarmacadam, terram, temporary bridging, culverting or diversion of water courses and drains during any period during which construction, maintenance, repair or renewal of any drainage work is being carried out;
 effect access to and from the highway;
 make such investigations in or on the Land as required for the purposes of the drainage works;
 use or resort to trenchless installation techniques including (but not limited to) directional drilling in connection with the drainage works;
 alter, fell, lop or cut, coppice, uproot and replant trees or hedges or other vegetation which now or hereafter may be standing on the Land or other land which would if not felled, lopped, cut or removed obstruct or interfere with the drainage works; and
 install, alter, re-lay, maintain, protect, adjust or remove pipes, cables or conduits or apparatus including but not limited to electricity poles, electricity pylons, electricity masts, overhead electricity lines, telecommunications cables and any ancillary equipment and apparatus public and private drains, watercourses, sewers, ponds or culverts, service media (including the pipes, cables or conduits or apparatus of statutory undertakers).

A restrictive covenant over the Land for the benefit of the remainder of the Order land to:

prevent anything to be done in or upon the Land or any part thereof for the purpose of the erection of any buildings or construction erection or works of any kind (including the foundations or footings thereto);
 prevent anything to be done by way of hard surfacing of the Land with concrete of any kind or with any other material or surface whatsoever without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed surfacing would not cause damage to relevant part of the authorised development nor make it materially more difficult or expensive to maintain the authorised development);
 prevent anything to be done by way of mole draining or excavation of any kind in the Land nor any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever without the consent in writing of the undertaker save as are reasonably required for agricultural activities (being ploughing to no deeper than 0.7m for the purposes of arable farming) or are required to be carried out by National Grid in order to exercise their statutory functions or rights in relation to their apparatus (if any) within the Land;

prevent the planting or growing within the Land of any trees, shrubs or underwood without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed provided that the proposed trees, shrubs or underwood would not cause damage to the relevant part of the authorised development nor make it materially more difficult or expensive to access the relevant part of the authorised development);

prevent anything being done which may interfere with free flow and passage of electricity or telecommunications through the cables or support for the authorised development; and

prevent carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised development.

Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised development to:

- (a) install, execute, implement, retain, repair, improve, renew, remove, relocate and plant trees, woodland, shrubs, hedgerows, seedlings and other ecological measures together with the right to maintain, inspect and replant such trees, shrubs, landscaping for the period of aftercare and maintenance of such planting (as set out in the landscape and ecological management plan approved under this Order);
- (b) install, execute, implement, retain, repair, improve, renew, relocate, maintain and carry out mitigation, maintenance, remediation works for environmental or ecological mitigation or enhancement works, including the creation of hibernacula and installation of bat boxes, temporary works and the installation of temporary barriers for the protection of fauna;
- (c) carry out environmental mitigation, remediation and enhancement works;
- (d) erect fencing, gates or other boundary features; and
- (e) take access to the Land and to use it to effect access to or egress from adjacent land, without or without vehicles and equipment, for the purposes of exercising any right vested in the undertaker, maintaining, replacing or altering for environmental or ecological mitigation or enhancement works, or for the purposes of undertaking surveying or monitoring activities required for the purposes of the authorised development.

A restrictive covenant over the Land for the benefit of the remainder of the Order land to:

prevent any activity which would in the reasonable opinion of the undertaker result in the disturbance of ecological mitigation areas or areas of habitat creation or areas of reinstatement where planting requires time to re-establish including any ploughing or grazing without the prior written consent of the undertaker;

prevent the uprooting, removal, destruction or damaging of any plant, bush, shrub, sapling or tree planted on the Land by the undertaker during the period within which the undertaker is responsible for the aftercare and maintenance of planting (as set out in the landscape and ecological management plan approved under this Order); and

control or restrict access and use where such control or restriction is necessary for ecological or environmental mitigation or enhancement works to establish, including preventing access by the public on foot during any period where planting required under this Order is

	establishing (set out in the landscape and ecological management plan approved under this Order).
