FULL TRANSCRIPT (with timecode)

00:00:05:06 - 00:00:22:16

But thank you very much, everyone. This hearing is now resumed. I'd like to thank everyone for their contributions today That's really helped move things forward from the agenda. So thank you for that. I'll now hand over to my colleague Mr. McArthur, to run through the hearing actions arising.

00:00:24:20 - 00:00:51:05

Thank you. So I will run through the list of action points we have. Um. 16 action points. I'll read them all out now. First one is for the applicant and should clarify that unless otherwise stated, the deadlines for all of these are deadlines. Three. The applicant first of all to provide an update on little girl species impacts following confirmation of Natural England's position at deadline three.

00:00:53:16 - 00:01:03:00

The next point is for natural England to provide additional guidance related to which species and colonies should be included within assessments of impact related to

00:01:04:17 - 00:01:19:12

and whether population assessment, analysis and and and what data is required for the relevant colonies. That action is for natural England and the deadline is as soon as possible.

00:01:21:03 - 00:01:47:15

The next action is for the applicant and natural England to conclude an agreed approach for the assessment of impacts from and to and to include a timetable for progress on this matter before the end of the examination. It's an action for both the applicant and natural England. The next point is for the applicant to confirm whether measures such as bird boxes and chick shelters are currently in place on the foreign islands and to further confirm what other measures are in place.

00:01:49:19 - 00:01:57:23

The next point is for the applicant to provide additional clarifying information to support the inclusion of the Kittiwake Tower as a compensatory measure.

00:02:00:27 - 00:02:10:24

Next point number six is for the applicant to submit additional and additional notes to support its approach with regard to effectiveness of proposed compensation measures for all species.

00:02:13:14 - 00:02:21:02

Action. Point number seven is for the applicant to provide further information related to piling and noise impacts on marine mammals within the Triple MP.

00:02:24:09 - 00:02:32:18

Action. Point number eight is for the MOE to clarify and confirm whether further or additional underwater modeling will be required during the examination.

00:02:35:22 - 00:02:40:28

Action Point nine is for the applicant to submit its marine mammal technical Note.

00:02:44:04 - 00:03:01:20

Action. Point number ten is for the MMO to review application documents app app 193, which is the applicant's justification for why and were scoped out. And for the MMO to submit their comments.

00:03:03:24 - 00:03:11:16

Action. Point number 11 is for the applicants to submit its ORC bycatch reduction feasibility statement.

00:03:15:03 - 00:03:18:03

Action. Point number 12 is for the applicant.

00:03:20:01 - 00:03:33:27

To submit final versions and updates to the all technical documents and changes to the list of certified documents to be. And for these to be submitted. Preferably at deadline five, but before deadline six.

00:03:37:04 - 00:03:46:08

The next point action point 13 for the applicant to incorporate a schedule of certified documents within the draft DCO.

00:03:50:03 - 00:04:11:18

1.14 for the applicant to submit a list of documents for which they believe four months is the appropriate consultation period with the MMO and action point 15 is for the MMO to justify its position regarding consultation periods and provide a list of documents where they would require six months consultation. Um, and I have.

00:04:14:17 - 00:04:28:23

A list of documents here which which should be referred to one as the MP, then the Site Integrity Plan. Ornithology plans the in-principle monitoring plan and operation and maintenance plans.

00:04:32:23 - 00:04:43:21

And then the final action point is a general action for natural England and the RSPB to view the recordings of this hearing and to respond to any items covered during its course as they deem necessary.

00:04:49:20 - 00:05:15:00

So as Mr. Hyde clarified at the outset of this hearing, a number of items recorded here as action points may now be raised as written questions. May I remind everyone that post hearing notes, documents and answers prepared in response to these post hearing actions or written questions should be provided at the next deadline in our timetable, which is deadline three. Does anybody have any questions or any remarks relating to what they've just heard?

00:05:18:07 - 00:05:21:17

That looks like that's a no. So I will hand you back to Mr. High.

00:05:26:12 - 00:05:46:01

Thank you very much and thank you again for all contributions. Um, unless there are any questions from the floor. I will proceed to close issue specific hearing five. The time now is 2:53 p.m. and I close issue specific hearing five. Thank you very much for your participation.
