

THE SHERINGHAM SHOAL AND DUDGEON EXTENSIONS OFFSHORE WIND FARM DCO

PROTECTIVE PROVISIONS – SCHEDULE 14 PART [●]: FOR THE PROTECTION OF PERENCO NORTH SEA LIMITED

Application

1. For the protection of Licensee the following provisions have effect, unless otherwise agreed in writing between the undertaker and Licensee.

Interpretation

2. In this Part of this Schedule—

“facilities” means the 48/17c Waveney installation.

“facilities proximity area” means an obstacle-free area comprising a cylinder with a horizontal radius of three nautical miles (3.00nm) extending from the centre of the existing Waveney installation located within the Licence and extending vertically from mean sea level;

“Licence” means United Kingdom Petroleum Production Licence P.456 Block 48/17c;

“Licensee” means the licensee from time to time of the Licence, who at the date hereof is Perenco;

“line of sight” the line of sight communications link from the existing Waveney installation located within the Licence to/from any other installation and/or to/from any onshore control room together with any associated infrastructure, equipment, software, systems, circuits, channels and licenses;

“Perenco” means Perenco North Sea Limited (company number SC293676) registered at C/O Dwf Llp, 2 Semple Street, Edinburgh, Scotland, EH3 8BL;

“pipeline” means the 8-inch (8”) diameter gas pipeline with pipeline reference number PL-2555 connecting the Durango well to the Waveney installation located within the Licence, together with any associated umbilicals, plant and equipment serving that pipeline;

“pipeline proximity area” means the area five hundred (500) meters either side and directly above the pipeline; and

“specified works” means any works comprised within the authorised development, including temporary surface infrastructure, which are:

- a) within the pipeline proximity area;
- b) relate to any part of the authorised development; and
- c) which would or may in any way adversely affect the pipeline or Licensee’s access to the pipeline,

but excluding works for the construction of wind turbine generators or offshore substation installations.

Works affecting the pipeline, facilities and line of sight

3. The undertaker must not construct, or carry out any works in respect of, any wind turbine generators or offshore substation installations within the pipeline proximity area or within the facilities proximity area or to adversely affect the line of sight.

4. No specified works are to be commenced until the undertaker and the Licensee have entered into a pipeline proximity agreement substantially in the form published by Offshore Energies UK (October 2015 edition).

Cooperation

5. The undertaker and the Licensee must each act in good faith and use reasonable endeavours to cooperate with, and provide assistance to, each other as may be required to give effect to the provisions of this Schedule.
