| SEP     | Sheringham Offshore Wind Farm Extension Project |
| SoS     | Secretary of State                              |

# **Glossary of Terms**

| APFP Regulations                                      | The Infrastructure Planning (Applications:<br>Prescribed Forms and Procedure) Regulations 2009  |
|---|---|
| Dudgeon Offshore Wind Farm<br>Extension site          | The Dudgeon Offshore Wind Farm Extension consisting of the DEP wind farm site, interlink cable corridors and offshore export cable corridor (up to mean high water springs).  |
| Dudgeon Offshore Wind Farm<br>Extension Project (DEP) | The Dudgeon Offshore Wind Farm Extension<br>onshore and offshore sites including all onshore and<br>offshore infrastructure.  |
| DEP North array area                                  | The wind farm site area of the DEP offshore site<br>located to the north of the existing Dudgeon<br>Offshore Wind Farm  |
| DEP South array area                                  | The wind farm site area of the DEP offshore site<br>located to the south of the existing Dudgeon<br>Offshore Wind Farm  |
| DEP wind farm site                                    | The offshore area of DEP within which wind<br>turbines, infield cables and offshore substation<br>platform/s will be located and the adjacent Offshore<br>Temporary Works Area. This is also the collective<br>term for the DEP North and South array areas.  |
| Grid option   | Mechanism by which SEP and DEP will connect to<br>the existing electricity network. This may either be<br>an integrated grid option providing transmission<br>infrastructure which serves both of the wind farms,<br>or a separated grid option, which allows SEP and<br>DEP to transmit electricity entirely separately. |
| Infield cables  | Cables which link the wind turbine generators to the offshore substation platform(s).   |
| Interlink cables                                      | Cables linking two separate project areas. This can be cables linking:  |
|   | <ol> <li>DEP South array area and DEP North array area</li> <li>DEP South array area and SEP</li> </ol>   |
|   | <ul><li>2) DEP South array area and SEP</li><li>3) DEP North array area and SEP</li></ul>   |
|   | 1 is relevant if DEP is constructed in isolation or first<br>in a phased development.   |
|   | 2 and 3 are relevant where both SEP and DEP are built.  |

| Integrated Grid Option                | Transmission infrastructure which serves both extension projects.   |
|---------------------------------------|---|
| Jointing bays                         | Underground structures constructed at regular<br>intervals along the onshore cable route to join<br>sections of cable and facilitate installation of the<br>cables into the buried ducts.   |
| Landfall                              | The point at the coastline at which the offshore<br>export cables are brought onshore, connecting to<br>the onshore cables at the transition joint bay above<br>mean high water.  |
| Offshore cable corridors              | This is the area which will contain the offshore export cables or interlink cables, including the adjacent Offshore Temporary Works Area.   |
| Offshore export cable corridor        | This is the area which will contain the offshore<br>export cables between offshore substation<br>platform/s and landfall, including the adjacent<br>Offshore Temporary Works Area.  |
| Offshore export cables                | The cables which would bring electricity from the offshore substation platform(s) to the landfall. 220 – 230kV.   |
| Offshore substation platform<br>(OSP) | A fixed structure located within the wind farm site/s,<br>containing electrical equipment to aggregate the<br>power from the wind turbine generators and convert<br>it into a more suitable form for export to shore.   |
| Offshore Temporary Works Area         | An Offshore Temporary Works Area within the offshore Order Limits in which vessels are permitted to carry out activities during construction, operation and decommissioning encompassing a 200m buffer around the wind farm sites and a 750m buffer around the offshore cable corridors. No permanent infrastructure would be installed within the Offshore Temporary Works Area. |
| Onshore cable corridor                | The area between the landfall and the onshore<br>substation sites, within which the onshore cable<br>circuits will be installed along with other temporary<br>works for construction.   |
| Onshore export cables                 | The cables which would bring electricity from the landfall to the onshore substation. 220 – 230kV.  |
| Onshore Substation                    | Compound containing electrical equipment to enable connection to the National Grid.   |
| Order Land                            | The land and rights over land for which compulsory powers of acquisition are sought in the DCO as set out in the Book of Reference.   |

| The area subject to the application for development consent, including all permanent and temporary works for SEP and DEP.  |
|--|
| Transmission infrastructure which allows each project to transmit electricity entirely separately.   |
| The Sheringham Shoal Offshore Wind Farm<br>Extension onshore and offshore sites including all<br>onshore and offshore infrastructure.  |
| Sheringham Shoal Offshore Wind Farm Extension<br>consisting of the SEP wind farm site and offshore<br>export cable corridor (up to mean high water<br>springs).  |
| The Sheringham Shoal Wind Farm Extension<br>onshore area consisting of the SEP onshore<br>substation site, onshore cable corridor, construction<br>compounds, temporary working areas and onshore<br>landfall area.  |
| The offshore area of SEP within which wind turbines, infield cables and offshore substation platform/s will be located and the adjacent Offshore Temporary Works Area.   |
| Area where potential impacts from the project could<br>occur, as defined for each individual Environmental<br>Impact Assessment (EIA) topic.   |
| Equinor New Energy Limited. As the owners of SEP<br>and DEP, Scira Extension Limited (SEL) and<br>Dudgeon Extension Limited (DEL) are the named<br>undertakers that have the benefit of the<br>Development Consent Order. References in this<br>document to obligations on, or commitments by, 'the<br>Applicant' are given on behalf of SEL and DEL as<br>the undertakers of SEP and DEP. |
| Connects offshore and onshore export cables at the landfall. The transition joint bay will be located above mean high water.   |
|  |

#### 1 Introduction

- This Book of Reference (BoR) relates to the powers of compulsory acquisition sought in the draft development consent order (DCO) application by Equinor New Energy Limited (the Applicant), on behalf of Scira Extension Limited and Dudgeon Extension Limited, to the Secretary of State (SoS) under the Planning Act 2008 (the PA 2008) for powers to construct and operate two offshore wind farms, known as Sheringham Shoal Offshore Wind Farm Extension Project (SEP) and Dudgeon Offshore Wind Farm Extension Project (DEP), both located off the coast of Norfolk.
- 2. SEP is the proposed extension to the operational Sheringham Shoal Offshore Wind Farm and will comprise up to 23 wind turbine generators, together with the associated onshore and offshore infrastructure. The offshore cable corridor from SEP to landfall will be approximately 40km in length and the onshore cable corridor will be approximately 60km in length.
- 3. DEP is the proposed extension to the operational Dudgeon Wind Farm and will comprise up to 30 wind turbine generators, together with the associated onshore and offshore infrastructure. The offshore export cable corridor for the project will be approximately 62km in length and the onshore cable corridor will be approximately 60km in length.
- 4. Development consent is required to the extent that development is or forms part of a Nationally Significant Infrastructure Project (NSIP) pursuant to sections 14(1)(a) and 15(3) of the PA 2008. As SEP and DEP will each have an overall capacity greater than 100 megawatts (MW), they are NSIPs for the purposes of the PA 2008. It is for this reason that SEP and DEP fall within the remit of the Secretary of State (SoS).
- 5. In order to develop SEP and DEP a series of land rights and interests in land will be required, on a permanent and temporary basis. In the event it has not been possible to acquire the land rights and interests by agreement, it will be necessary to compulsorily acquire land these for the purposes of developing SEP and DEP and as such, the **draft DCO** (document reference 3.1) includes powers to compulsorily acquire land.
- 6. This BoR should be read alongside the following Application documents:
  - **draft DCO** (document reference 3.1)
  - **Explanatory Memorandum** (document reference 3.2)
  - Land Plans (document reference 2.3, 2.4 and 2.5)
  - **Special Category Land Plan** (document reference 2.5)
  - Crown Land Plan (document reference 2.4)
  - Works Plans (Onshore) (document reference 2.6)
  - **Statement of Reasons** (document reference 4.3)

#### 2 Purpose of Document

- 7. Section 122 of the PA 2008 allows development consent orders to be granted with rights to compulsorily acquire land included within them. The **draft DCO** (document reference 3.1) seeks powers to acquire land (on a permanent or temporary basis) and to acquire new and existing rights over land, as well as powers to override existing easements and other rights and for the extinguishment of private rights in land which is compulsorily acquired. The purpose of these powers is to enable the construction, operation, maintenance and decommissioning of SEP and DEP.
- 8. The purpose of this BoR is to describe all of the land, and identify all of the interests, subject to compulsory acquisition pursuant to the draft DCO (document reference 3.1). This BoR has been prepared in accordance with the requirements of Regulation 5(2)(d) and Regulation 7 of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (APFP Regulations).
- 9. The land described in this BoR, which is to be subject to powers of compulsory acquisition and/or temporary possession, is required to deliver the authorised development, as described in detail in Part 1 of Schedule 1 of the **draft DCO** (document reference 3.1) and shown on the **Works Plans** (document references 2.6 and 2.7).
- 10. Every parcel of land that is affected is identified on a plot by plot basis and a unique number has been ascribed to each plot. The plots are shown on the Land Plans (document reference 2.3), the Crown Land Plan (document reference 2.4) and the Special Category Land Plan (document reference 2.5), which are submitted with the Application.
- 11. A number of the plots identified in Part 1 of the BoR will be subject to freehold acquisition pursuant to Article 18 (Compulsory acquisition of land) of the **draft DCO** (document reference 3.1). These plots are shown coloured pink on the **Land Plans** (document reference 2.3).
- 12. A number of plots identified in Part 1 of the BoR will be subject to the acquisition of permanent rights (including restrictive covenants) pursuant to Article 20 (Compulsory acquisition of rights) and Schedule 7 (Land in which only new rights etc. may be acquired) of the draft DCO (document reference 3.1). These plots are shown coloured blue on the Land Plans (document reference 2.3).
- 13. The land shown coloured blue and pink on the Land Plans (document reference 2.3) will also be subject to powers of temporary possession for the purpose of carrying out the authorised development (by virtue of Article 26 (Temporary use of land for carrying out the authorised project)).
- 14. Plots that are subject to powers of temporary possession only, such as for the purpose of access to and/or use as a temporary construction compound, are also listed in Schedule 9 (Land of which temporary possession may be taken) of the draft DCO (document reference 3.1) and are shown coloured yellow on the Land Plans (document reference 2.3).

15. By virtue of Article 27 (Temporary use of land for maintaining the authorised project) of the **draft DCO** (document reference 3.1), any land within the Order limits which is reasonably required for the purpose of maintaining the authorised development may be entered and/or temporarily possessed.

#### 2.1 Structure of Document

- 16. This BoR is comprised of five Parts, in accordance with Regulation 7(1) of the APFP Regulations, as follows:
  - Part 1 contains the names and addresses of those who own, lease, occupy or have another interest in the land that will be affected by the compulsory acquisition powers contained in the **draft DCO** (document reference 3.1);
  - Part 2 contains the names and addresses of those whose land, while not directly affected by the authorised development, may be entitled to claim compensation for loss resulting from the implementation of the **draft DCO** (document reference 3.1) and use of the authorised development;
  - Part 3 contains the names and addresses of those entitled to enjoy easements or other private rights which it is proposed may be extinguished, suspended or interfered with in connection with the authorised development, pursuant to the **draft DCO** (document reference 3.1);
  - Part 4 identifies plots in which there is a Crown interest that will be affected by the authorised development and the powers contained in the **draft DCO** (document reference 3.1) (please note that these plots will not be subject to powers of compulsory acquisition); and
  - Part 5 identifies plots which constitute "special category land" for the purposes of Section 132 of the PA 2008 that will be affected by the authorised development and the powers contained in the **draft DCO** (document reference 3.1).
- 17. The BoR provides the area in square metres of all land subject to compulsory acquisition powers pursuant to the **draft DCO** (document reference 3.1). Each measurement is rounded up to the nearest whole square metre.

#### **3 Project Description**

- 18. A description of the key components of the proposed SEP and DEP, as well as details of how the wind farms will be constructed, operated, maintained and decommissioned is provided in the **Project Description** (document reference 6.1.4).
- SEP and DEP will each have a maximum export capacity greater than 100 megawatts (MW). The SEP and DEP wind farm sites are 15.8 kilometres (km) and 26.5km from the coast for SEP and DEP respectively at their closest point.

- 20. SEP and DEP will be connected to shore by offshore export cables installed to the landfall at Weybourne, on the north Norfolk coast. From there, the onshore export cables travel approximately 60km inland to a new high voltage alternating current (HVAC) onshore substation near to the existing Norwich Main substation. The onshore substation will be constructed to accommodate the connection of both SEP and DEP to the transmission grid.
- 21. The key offshore components comprise:
  - Wind turbines;
  - Offshore substation platform/s (OSP);
  - Foundation structures for wind turbines and OSP/s;
  - Infield cables;
  - Interlink cables; and
  - Export cables from the wind farm sites to the landfall.
- 22. The key onshore components comprise:
  - Landfall and associated transition joint bay/s;
  - Onshore export cables installed underground from the landfall to the onshore substation and associated joint bays and link boxes;
  - Onshore substation and onward 400 kilovolt (kV) connection to the existing Norwich Main substation;
  - Trenchless crossing zones (e.g. Horizontal Directional Drilling (HDD));
  - Construction and operational accesses; and
  - Temporary construction compounds.
- 23. Further details of the key components of offshore and onshore infrastructure can be found in **Chapter 4 Project Description** of the ES (document reference 6.1.4).
- 24. The Applicant is seeking to coordinate the development of SEP and DEP as far as possible. The preferred option is a development scenario with an integrated transmission system, providing transmission infrastructure which serves both of the wind farms, where both projects are built concurrently. However, given the different commercial ownerships of each Project, alternative development scenarios such as a separated grid option (i.e. transmission infrastructure which allows each Project to transmit electricity entirely separately) will allow SEP and DEP to be constructed in a phased approach, if necessary. Therefore, the DCO application seeks to consent a range of development scenarios in the same overall corridors to allow for separate development if required, and to accommodate either sequential or concurrent build of the two projects.
- 25. Reasons for the requirement to retain separate and phased (sequential) development scenarios alongside more coordinated approaches are further described in the **Scenarios Statement** (document reference 9.28).

#### 4 Categories of New Rights

- 26. Article 20 (Compulsory acquisition of rights) and Schedule 7 (Land in which only new rights etc. may be acquired) of the **draft DCO** (**Revision F**) (document reference 3.1) authorise the compulsory acquisition of new rights over land.
- 27. The descriptions of the new rights sought by the Applicant set out in Table 1-1 below shall apply to the column headed "extent, description and situation of the land" in Part 1 of this BoR. For this purpose the letter in column 1 of Table 1-1 is used to indicate the new rights sought over each relevant plot of land. The details are described in column 2 of Table 1-1. The new rights are sought for the purposes of construction, operation, maintenance and decommissioning of SEP and DEP.
- 28. In **Table 1-1** the terms used shall have the meaning given to those terms within the **draft DCO (Revision F)** (document 3.1) unless stated below:
  - "adjoining land" means such other parts of the land within the Order limits as may be required for the authorised development;
  - "cables" means collectively underground electricity cables together with telemetry and fibre optic lines, structures, ducting, earthing measures, thermal protection, jointing bays and other apparatus, protection measures, cable marker posts, chambers and manholes, manhole covers and other equipment which is ancillary to the purposes of transmitting electricity along such electricity cables;
  - "Land" means the relevant plot shown on the Land Plans (Revision D) (document reference 2.3) and described in this BoR;

| Category            | Description of rights and restrictive covenants   |
|---------------------|---|
|                     | Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised development to:   |
|                     | <ul> <li>adjust, alter, remove, replace, and create tunnels under sea defences<br/>including walls and groynes;</li> </ul>  |
| A – Landfall        | <ul> <li>b) effect access to offshore apparatus and carry out works for the purposes<br/>of construction, installation, operation, maintenance and<br/>decommissioning of the parts of the authorised development that<br/>communicate between the onshore and offshore elements of the<br/>authorised development; and</li> </ul>  |
| Connection<br>Works | <ul> <li>c) lay down, install, retain, adjust, alter, construct, operate, erect, use, maintain, repair, renew, upgrade, inspect, remove and replace the electricity cables and ducts (including the removal of materials including spoil) in, under, over and/or on the Land, including by way of pull-through within the cable ducts and jointing bays, and in doing so, to use or resort to trenchless installation techniques including (but not limited to) directional drilling beneath sea defences and existing infrastructure.</li> </ul> |
|                     | A restrictive covenant over the Land for the benefit of the remainder of the Order land to:   |

Doc. No. C282-DM-Z-GA-00003 Rev. <u>G</u>₣

|  | <ul> <li>d) prevent anything to be done in or upon the Land or any part thereof for the purpose of the erection of any buildings or construction erection or works of any kind (including the foundations or footings thereto);</li> <li>e) prevent anything to be done by way of hard surfacing of the Land with concrete of any kind or with any other material or surface whatsoever without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed surfacing would not cause damage to relevant part of the authorised development nor make it materially more difficult or expensive to maintain the authorised development);</li> </ul>  |
|--|---|
|  | f) prevent anything to be done by way of mole draining or excavation of any<br>kind in the Land nor any activities which would alter, increase or decrease<br>ground cover or soil levels in any manner whatsoever without the consent<br>in writing of the undertaker save as are reasonably required for<br>agricultural activities (being ploughing to no deeper than 0.7m for the<br>purposes of arable farming) or are required to be carried out by National<br>Grid in order to exercise their statutory functions or rights in relation to<br>their apparatus (if any) within the Land;   |
|  | <ul> <li>g) prevent anything being done which may interfere with free flow and<br/>passage of electricity or telecommunications through the cables or<br/>support for the authorised development; and</li> </ul>  |
|  | <ul> <li>h) prevent carrying out operations or actions (including but not limited to<br/>blasting and piling) which may obstruct, interrupt, or interfere with the<br/>exercise of the rights or damage the authorised development.</li> </ul>  |
|  | Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised development to:   |
| B – Landfall and<br>Onshore<br>Connection<br>Works | <ul> <li>a) lay down, install, retain, adjust, alter, construct, operate, erect, use, maintain, repair, renew, upgrade, inspect, remove and replace the electricity cables and ducts (including the removal of materials including spoil) in, under, over and/or on the Land, including by way of pull-through within the cable ducts and jointing bays, and in doing so, to use or resort to trenchless installation techniques including (but not limited to) directional drilling beneath sea defences, watercourses, highways (including public rights of way) and railways, woodlands, solar energy generation facilities, existing infrastructure;</li> <li>b) enter, be on, and break open and break up the surface of the Land and remain with or without plant, vehicles, vessels, machinery, apparatus and equipment which is ancillary to the purposes of transmitting electricity along the cables, or use of the cables, cable ducts and jointing works;</li> <li>c) benefit from continuous vertical and lateral support for the authorised development;</li> </ul> |
|  | <ul> <li>d) pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials for the purposes of laying down, installing, adjusting, altering, constructing, using, maintaining, repairing, renewing, upgrading, inspecting, removing and replacing the authorised development;</li> <li>e) construct, lay down, use and remove temporary access roads including any necessary hard standing and other surface materials including (but not limited to) matting, aggregate, trackway, stone, tarmacadam, terram,</li> </ul>  |

|   | temporary bridging, culverting or diversion of water courses and drains<br>during any period during which construction, maintenance, repair,<br>renewal or decommissioning of the authorised development is being   |
|---|---|
| f)                                      | carried out;<br>place and use plant, machinery, structures and temporary structures<br>within the Land, and to erect temporary signage and provide measures<br>for the benefit of public and personnel sofety:  |
| g)                                      | for the benefit of public and personnel safety;<br>alter, fell, lop, cut, coppice, uproot and replant trees or hedges or other<br>vegetation which now or hereafter may be present on the Land for the<br>purpose of enabling the right to pass and re-pass to adjoining land;  |
| h)                                      | erect and remove temporary fencing, gates, walls, barriers or other means of enclosure;   |
| i)                                      | take access to the Land and to use it to effect access to and egress from<br>adjacent land, without or without vehicles and equipment, for the<br>purposes of exercising any right vested in the undertaker, maintaining,<br>replacing or altering for environmental or ecological mitigation or<br>enhancement works, or for the purposes of undertaking surveying or<br>monitoring activities required for the purposes of the authorised<br>development;                                   |
| j)                                      | construct and install the cables in, on or under the Land and thereafter<br>use the Land for all necessary purposes for the commissioning,<br>construction, repair, testing and maintenance of the cables;  |
| k)                                      | place and use plant, machinery, structures and temporary structures<br>within the Land for the purposes of the installation, construction,<br>maintenance, repairing, renewing, upgrading, inspecting, removal and<br>replacing of the cables, cable ducts and jointing works and to erect<br>temporary signage and provide measures for the benefit of public and<br>personnel safety;   |
| I)                                      | erect fencing, gates, walls, barriers or other means of enclosure, and<br>create secure working areas and compounds including trenchless<br>installation technique compounds and working areas;   |
|   | ) effect access to and from the highway;  |

|  | <ul> <li>install, alter, re-lay, maintain, protect, adjust or remove pipes, cables or<br/>conduits or apparatus including but not limited to electricity poles,<br/>electricity pylons, electricity masts, overhead electricity lines,<br/>telecommunications cables and any ancillary equipment and apparatus</li> </ul>  |

public and private drains, watercourses, sewers, ponds or culverts, service media (including the pipes, cables or conduits or apparatus of statutory undertakers);

- j) National Grid substation connection works to lay down, install, retain, adjust, alter, construct, operate, erect, use, maintain, repair, renew, upgrade, inspect, remove and replace the electricity cables and ducts (including the removal of materials including spoil) in, under, over and/or on the Land, including by way of pull-through within the cable ducts and jointing bays, together with such telemetry and fibre-optic lines, structures, ducting, jointing bays and other apparatus, protection measures, cable marker posts, chambers and manholes, manhole covers and other equipment which is ancillary to the purposes of transmitting electricity along such cables to the National Grid substation;
- k) pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials to access adjoining land for the purposes of the Works, the inspection, use, testing, maintenance, renewal, upgrading, replacement and removal of the cables, cable ducts and jointing works and connection into any adjacent cables and associated works and make such investigations in or on the Land which is ancillary for the purposes of exercise of the rights; and
- construct, use, maintain and improve a permanent means of access including visibility splays, and retain, maintain, straighten, widen, repair, alter, upgrade and use existing access routes for the purposes of accessing the Land, adjoining land and highway.

A restrictive covenant over the Land for the benefit of the remainder of the Order land to:

- m) prevent anything to be done in or upon the Land or any part thereof for the purpose of the erection of any buildings or construction erection or works of any kind (including the foundations or footings thereto);
- n) prevent anything to be done by way of hard surfacing of the Land with concrete of any kind or with any other material or surface whatsoever without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed if the proposed surfacing would not cause damage to relevant part of the authorised development nor make it materially more difficult or expensive to maintain the authorised development);
- o) prevent anything to be done by way of mole draining or excavation of any kind in the Land nor any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever without the consent in writing of the undertaker save as are reasonably required for agricultural activities (being ploughing to no deeper than 0.7m for the purposes of arable farming) or are required to be carried out by National Grid in order to exercise their statutory functions or rights in relation to their apparatus (if any) within the Land;
- p) prevent the planting or growing within the Land of any trees, shrubs or underwood without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed provided that the proposed trees, shrubs or underwood would not cause damage to the relevant part

|                           | <ul> <li>of the authorised development nor make it materially more difficult or expensive to access the relevant part of the authorised development);</li> <li>q) prevent anything being done which may interfere with free flow and passage of electricity or telecommunications through the cables or support for the authorised development; and</li> <li>r) prevent carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised development.</li> </ul>   |
|---------------------------|--|
|                           | Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised development to:  |
| G - Permanent<br>Accesses | <ul> <li>a) pass and re-pass with or without vehicles, plant, machinery, apparatus, equipment and materials to access adjoining land for the purposes of the Works, the inspection, use, testing, maintenance, renewal, upgrading, replacement and removal of the cables, cable ducts and jointing works and connection into any adjacent cables and associated works and make such investigations in or on the Land which is ancillary for the purposes of exercise of the rights;</li> <li>b) construct, use, maintain and improve a permanent means of access including visibility splays, and retain, maintain, straighten, widen, repair, alter, upgrade and use existing access routes for the purposes of accessing the Land, adjoining land and highway;</li> <li>c) place and use plant, machinery, structures and temporary structures within the Land, and to erect temporary signage and provide measures for the benefit of public and personnel safety;</li> <li>d) alter, fell, lop, cut, coppice, uproot and replant trees or hedges or other vegetation which now or hereafter may be present on the Land for the purpose of enabling the right to pass and re-pass to adjoining land; and</li> <li>e) repair, improve, renew, remove, relocate and plant trees, woodland, shrubs, hedgerows, seeding and other ecological measures together with the right to maintain, inspect and replant such trees, shrubs and landscaping.</li> </ul> |
|                           | A restrictive covenant over the Land for the benefit of the remainder of the Order land to:  |
|                           | <ul> <li>f) prevent anything to be done in or upon the Land or any part thereof for the purpose of the erection of any buildings or construction erection or works of any kind (including the foundations or footings thereto);</li> <li>g) prevent anything to be done by way of mole draining or excavation of any kind in the Land nor any activities which would alter, increase or decrease ground cover or soil levels in any manner whatsoever without the consent in writing of the undertaker save as are reasonably required for agricultural activities (being ploughing to no deeper than 0.7m for the purposes of arable farming) or are required to be carried out by National Grid in order to exercise their statutory functions or rights in relation to their apparatus (if any) within the Land;</li> <li>h) prevent the planting or growing within the Land of any trees, shrubs or underwood without the consent in writing of the undertaker (such consent not to be unreasonably withheld or delayed provided that the proposed trees, shrubs or underwood would not cause damage to the relevant part</li> </ul>   |

|  | of the authorised development nor make it materially more difficult or  |  |  |  |  |
|--|---|--|--|--|--|
|  | <ul> <li>expensive to access the relevant part of the authorised development); and</li> <li>i) prevent carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt, or interfere with the exercise of the rights or damage the authorised development.</li> </ul>   |  |  |  |  |
| н  | Not used  |  |  |  |  |
|  | Rights for the purposes of the construction, installation, operation, maintenance and decommissioning of the authorised development to:   |  |  |  |  |
| I - Permanent<br>landscape and<br>ecological<br>mitigation works | <ul> <li>a) install, execute, implement, retain, repair, improve, renew, remove, relocate and plant trees, woodland, shrubs, hedgerows, seedlings and other ecological measures together with the right to maintain, inspect and replant such trees, shrubs, landscaping for the period of aftercare and maintenance of such planting (as set out in the landscape and ecological management plan approved under this Order);</li> <li>b) install, execute, implement, retain, repair, improve, renew, relocate, maintain and carry out mitigation, maintenance, remediation works for environmental or ecological mitigation or enhancement works, including the creation of hibernacula and installation of bat boxes, temporary works and the installation of temporary barriers for the protection of fauna;</li> <li>c) carry out environmental mitigation, remediation and enhancement works;</li> <li>d) erect fencing, gates or other boundary features; and</li> <li>e) take access to the Land and to use it to effect access to or egress from adjacent land, without or without vehicles and equipment, for the purposes of exercising any right vested in the undertaker, maintaining, replacing or altering for environmental or ecological mitigation or enhancement works, or for the purposes of the authorised development.</li> </ul>  |  |  |  |  |
|  | A restrictive covenant over the Land for the benefit of the remainder of the Order land to:   |  |  |  |  |
|  | <ul> <li>f) prevent any activity which would in the reasonable opinion of the undertaker result in the disturbance of ecological mitigation areas or areas of habitat creation or areas of reinstatement where planting requires time to re-establish including any ploughing or grazing without the prior written consent of the undertaker;</li> <li>g) prevent the uprooting, removal, destruction or damaging of any plant, bush, shrub, sapling or tree planted on the Land by the undertaker during the period within which the undertaker is responsible for the aftercare and maintenance of planting (as set out in the landscape and ecological management plan approved under this Order); and</li> <li>h) control or restrict access and use where such control or restriction is necessary for ecological or environmental mitigation or enhancement works to establish, including preventing access by the public on foot during any period where planting required under this Order is establishing (set out in the landscape and ecological management plan approved under this Order is establishing (set out in the landscape and ecological management plan approved under this Order is establishing (set out in the landscape and ecological management plan approved under this Order is establishing (set out in the landscape and ecological management plan approved under this Order is establishing (set out in the landscape and ecological management plan approved under this Order is establishing (set out in the landscape and ecological management plan approved under this Order).</li> </ul> |  |  |  |  |
