1 Purpose of this document

1. This is a joint position statement agreed between Orsted Hornsea Project Three (UK) Limited (“Hornsea Three”), Orsted Hornsea Project Four Limited (“Hornsea Four”) and Equinor New Energy Limited (the “Applicant”). Hornsea Three, Hornsea Four and the Applicant have been in constructive discussions with a view to reaching agreement to ensure successful co-existence between their respective projects. Discussions regarding a detailed Cooperation Agreement are at an advanced stage and Hornsea Three, Hornsea Four and the Applicant are confident that an agreement will be reached in time to inform the Secretary of State that either (a) Protective Provisions are no longer required for the benefit of Hornsea Three and/or Hornsea Four (as all matters have been covered in the Cooperation Agreement) or (b) that Protective Provisions have been agreed with each party and can be included in the final made development Consent Order (DCO). All parties are therefore committed to updating the Secretary of State as soon as practicable following the close of the Examination.
2. The submission of the respective Protective Provisions (submitted at Deadline 7 by Hornsea Three and Deadline 8 by Hornsea Four as well the protective provisions for the benefit of Hornsea Three included in the Applicant’s DCO (Part 10 of Schedule 14) submitted at Deadline 8) is to put the Examining Authority (ExA) in an informed position to determine which set of Protective Provisions they may wish to include within the recommended draft DCO in the event the parties fail to reach an agreed position on either mutually agree Protective Provisions, or a Cooperation Agreement, before the decision is issued by the Secretary of State.
