Good Evening

This really is taking the Micky.

To expect anybody to read 148 sheets of applications to find out whether this will affect them or not is unreasonable and just gives **carte blanche for them to do whatever they like by default.**

Our Countryside is already being wrecked by allowing foreign companies to do as they like at the expense of the "way of life" of the local community for the benefit of providing large conurbations with electricity.

As you have contacted me, perhaps you could do me the courtesy of informing me whether your proposals will have any affect on the area where I live and have any impact on my quality of life or devalue my property?

Yours Sincerely

Paul Sutton
