1 Introduction

1. Scira Extension Limited (SEL) and Dudgeon Extension Limited (DEL) submitted an application for development consent for the Sheringham Shoal Offshore Wind Farm Extension Project (SEP) and Dudgeon Offshore Wind Farm Extension Project (DEP) on 02 September 2022. On 17 April 2024 the Secretary of State (SoS) for the Department of Energy Security and Net Zero (DESNZ) granted the Sheringham Shoal and Dudgeon Extensions Offshore Wind Farm Order 2024 (the ‘Order’) for the development of offshore wind turbine generating stations with a gross electrical output capacity of more than 100 megawatts. The Order grants consent for SEP and DEP to be constructed, maintained and decommissioned under any of Scenarios 1(a), 1(b), 1(c), 1(d), 2, 3, or 4, as defined in the Order and set out in detail in the Scenarios Statement (document reference 9.28).
2. The SEP and DEP wind farm sites are located approximately 15.8 and 26.5 kilometres (km), respectively, from the North Norfolk coast. Offshore export cables transmitting power from the wind farm sites will make landfall at Weybourne in North Norfolk. From there, the onshore export cables will travel approximately 60km inland to a new high voltage alternating current (HVAC) onshore substation near to the existing Norwich Main substation.

1.1 Purpose of this Consultation and Publicity Statement

3. This Consultation and Publicity Statement has been prepared by Equinor New Energy Limited (the Applicant) on behalf of SEL and DEL in support of an application for a non-material change (NMC) to the Order.
4. The Applicant submitted their request for an NMC (the NMC Application) on 25 July 2024.
5. This document provides evidence of how the Applicant satisfied the consultation and publicity requirements for the NMC Application in accordance with the Infrastructure Planning (Changes to, and Revocation of, Development Consent Orders) Regulations 2011 (“the 2011 Regulations”).
6. The Applicant, in accordance with Regulation 7A, provides at Appendix A a copy of the notice required pursuant to Regulation 6 and the remainder of this statement provides the details of steps taken to comply with Regulations 6 and 7.

2 Compliance with the requirements of the 2011 Regulations

2.1 Regulation 6 of the 2011 Regulations

7. Regulation 6(1) requires notice of an NMC application (“the Notice”) to be published for at least two consecutive weeks in one or more local newspapers (in the vicinity in which the land is situated) and in any other publication necessary to ensure that notice of the NMC application is given in the vicinity of the land.
8. In accordance with Regulation 6(1), the Applicant published the Notice in the Eastern Daily Press and North Norfolk News on 25 July 2024 and 1 August 2024. Evidence of each publication of the Notice is provided in Appendix B.

9. The Applicant can confirm that the SoS did not deem it necessary to publish the notice in any additional publications to satisfy the requirements of Regulation 6(1).
10. The Applicant prepared the Notice as prescribed by Regulation 6(2). A copy of the Notice is provided in Appendix A.
11. The deadline specified in the Notice for representations to be submitted to the SoS was 11.59 pm on 02 September 2024. This provided 32 days from the publication of the second notice to submit responses, going beyond the 28 days required by Regulation 6(2)(h).

2.2 Regulation 7 of the 2011 Regulations

12. Regulation 7(1) requires the Applicant to consult each person specified in Regulation 7(2), being each person who has the benefit of the Order, each person who was notified of the application for the DCO (in accordance with section 56 of the Planning Act 2008) and any other person who may be directly affected by the changes proposed in the NMC application.
13. Regulation 7(3) allows for the list of consultees to be reduced with the consent of the SoS. On 26 April 2024, the Applicant wrote to the SoS to request the approval of a reduced consultee list. On 16 July 2024, the SoS confirmed their agreement to a reduced consultee list for the NMC application, with the inclusion of four additional consultees: the Maritime and Coastguard Agency, the Civil Aviation Authority, the Ministry of Defence and NATS (En Route) PLC.
14. The Applicant acknowledged that Total Energies took over from Shell as operator of the Shearwater to Bacton gas pipeline and, therefore, was included as a consultee.
15. Steffan Aquarone MP replaced the incumbent Duncan Baker as the member of parliament for North Norfolk at the General Election on 04 July 2024. Therefore, Steffan Aquarone MP was included as a consultee rather than Duncan Baker, who was originally included in the letter to the SoS on 26 April 2024.
16. Following the submission of the request for the reduced consultee list on 26 April 2024, the Applicant was informed that the Holderness Fishing Industry Group had ceased operating. Consequently, this organisation was not notified of the consultation. Additionally, the Eastern Inshore Fisheries and Conservation Authority previously operated under the names 'Eastern Fisheries Joint Committee' and 'Eastern Sea Fisheries JC'. These names were included in the request for a reduced consultee list. For clarity, the Applicant can confirm that The Eastern Inshore Fisheries and Conservation Authority was notified of the NMC Application and was included as a consultee.
17. Appendix C provides the resultant list of consultees notified of the consultation for the NMC application. In total 39 consultees were contacted.
18. In accordance with Regulation 7(1), the Applicant emailed the Notice with an accompanying cover letter to the consultees on 25 July 2024. A copy of the accompanying cover letter is provided in Appendix D. In addition, the Applicant resent the Notice and cover letter to the consultees on 05 August 2024.

19. The deadline specified in the Notice for representations to be submitted to the SoS was 11.59 p.m. on 02 September 2024. This provided consultees with more than the required 28 days to respond to the consultation.

Appendix A: Regulation 6 Notice

SECTION 153 OF THE PLANNING ACT 2008 AND REGULATION 6 OF THE INFRASTRUCTURE PLANNING (CHANGES TO, AND REVOCATION OF, DEVELOPMENT CONSENT ORDERS) REGULATIONS 2011

NOTICE OF APPLICATION TO MAKE A NON-MATERIAL CHANGE TO THE FOLLOWING DEVELOPMENT CONSENT ORDER: THE SHERINGHAM SHOAL AND DUDGEON EXTENSIONS OFFSHORE WIND FARM ORDER 2024 (SI 2024/564).

Notice is hereby given that an application has been made by Equinor New Energy Limited on behalf of Scira Extension Limited and Dudgeon Extension Limited ("The Applicant"), of 1 Kingdom Street, London W2 6BD, to the Secretary of State for Energy Security and Net Zero to make a non-material change to the Sheringham Shoal and Dudgeon Extensions Offshore Wind Farm Order 2024 ("the Order") under Section 153 of the Planning Act 2008 (the "NMC Application").

Summary of the Order, as made by the Secretary of State

On 17th April 2024, the Secretary of State for Energy Security and Net Zero granted development consent for the Sheringham Shoal Offshore Wind Farm Extension Project (SEP) and the Dudgeon Offshore Wind Farm Extension Project (DEP). The Order authorises the construction and operation of the offshore wind farms and associated development. The SEP and DEP wind farm sites are located approximately 15.8 and 26.5 km, respectively, from the North Norfolk coast.

SEP and DEP will be connected to shore by offshore export cables installed to the landfall at Weybourne on the North Norfolk coast. From there, the onshore export cables will travel approximately 60 km inland to a new high voltage alternating current (HVAC) onshore substation near the existing Norwich Main substation.

Summary of the NMC Application

The proposed NMC Application is intended to facilitate an increase in the maximum generating capacity that can be achieved by SEP and DEP. The projects have secured a Stage 2 Transmission Entry Capacity (TEC) from National Grid ESO, which increases the permitted grid connection capacity from 719 MW to 950 MW; to realise this increase in the maximum generating capacity achievable by the projects, the NMC Application seeks the following non-material changes to the Order:

- Increases to the maximum total rotor-swept area for SEP and DEP;
- Corresponding increases to the minimum air gap (that being the distance between the lowest point of the rotating blade of a wind turbine generator and highest astronomical tide);
- Increases to the maximum number and length of interlink cables and the maximum number of interlink cable crossings;
- Increases to the maximum area and volume of cable protection for the interlink cables and for the DEP infield cables; and
- A reduction to the maximum number of DEP infield cable crossings.

The NMC Application does not request any further changes to the upper limits of the wind turbine design envelope, including the number of wind turbines, rotor diameter, and blade tip height. Additionally, the NMC Application does not seek any amendments to the foundation parameters, such as pile diameter and hammer energy upper limits. Furthermore, there are no changes to the onshore elements of SEP and DEP, and no additional land is required.

NMC Application Documents

A copy of the NMC Application and its accompanying documents is available for inspection, free of charge, via the Planning Inspectorate's website at the below address until at least the end of the consultation period referred to below:

<https://national-infrastructure-consenting.planninginspectorate.gov.uk/projects/EN010109/documents>

A hard copy of the NMC Application and its accompanying documents is available on request by contacting the project team using the contact details below. There is a cost for the full suite of hard-copy NMC Application documents of £50.

By Email: info@sepanddep.co.uk

By Phone: 0808 1963 673

Representations in relation to the NMC Application

Any representation about the NMC Application must be made to the Planning Inspectorate by email at sadep@planninginspectorate.gov.uk, or in writing to: National Infrastructure Planning, the Planning Inspectorate, Temple Quay House, 2 The Square, Bristol, BS1 6PN.

Please quote reference EN010109 on any correspondence. Representations will be made public by the Planning Inspectorate.

Please note that representations must be received by the Planning Inspectorate by 11:59pm on 2nd September 2024.

SECTION 153 OF THE PLANNING ACT 2008 AND REGULATION 6 OF THE INFRASTRUCTURE PLANNING (CHANGES TO, AND REVOCATION OF, DEVELOPMENT CONSENT ORDERS) REGULATIONS 2011

NOTICE OF APPLICATION TO MAKE A NON-MATERIAL CHANGE TO THE FOLLOWING DEVELOPMENT CONSENT ORDER: THE SHERINGHAM SHOAL AND DUDGEON EXTENSIONS OFFSHORE WIND FARM ORDER 2024 (SI 2024/564).

Notice is hereby given that an application has been made by Equinor New Energy Limited on behalf of Scira Extension Limited and Dudgeon Extension Limited ("The Applicant"), of 1 Kingdon Street, London W2 6BD, to the Secretary of State for Energy Security and Net Zero to make a non-material change to the Sheringham Shoal and Dudgeon Extensions Offshore Wind Farm Order 2024 ("the Order") under Section 153 of the Planning Act 2008 (the "NMC Application").

Summary of the Order, as made by the Secretary of State

On 17th April 2024, the Secretary of State for Energy Security and Net Zero granted development consent for the Sheringham Shoal Offshore Wind Farm Extension Project (SEP) and the Dudgeon Offshore Wind Farm Extension Project (DEP). The Order authorises the construction and operation of the offshore wind farms and associated development. The SEP and DEP wind farm sites are located approximately 15.8 and 26.5 km, respectively, from the North Norfolk coast.

SEP and DEP will be connected to shore by offshore export cables installed to the landfall at Weybourne on the North Norfolk coast. From there, the onshore export cables will travel approximately 60 km inland to a new high voltage alternating current (HVAC) onshore substation near the existing Norwich Main substation.

Summary of the NMC Application

The proposed NMC Application is intended to facilitate an increase in the maximum generating capacity that can be achieved by SEP and DEP. The projects have secured a Stage 2 Transmission Entry Capacity (TEC) from National Grid ESO, which increases the permitted grid connection capacity from 719 MW to 950 MW, to realise this increase in the maximum generating capacity achievable by the projects, the NMC Application seeks the following non-material changes to the Order:

- Increases to the maximum number and length of interlink cables and the maximum number of interlink cable crossings;
- Increases to the maximum area and volume of cable protection for the interlink cables and for the DEP infield cables; and
- A reduction to the maximum number of DEP infield cable crossings.

The NMC Application does not request any further changes to the upper limits of the wind turbine design envelope, including the number of wind turbines, rotor diameter, and blade tip height. Additionally, the NMC Application does not seek any amendments to the foundation parameters, such as pile diameter and hammer energy upper limits. Furthermore, there are no changes to the onshore elements of SEP and DEP, and no additional land is required.

NMC Application Documents

A copy of the NMC Application and its accompanying documents is available for inspection, free of charge, via the Planning Inspectorate's website at the below address until at least the end of the consultation period referred to below:

SOUTH NORFOLK COUNCIL

TOWN AND COUNTRY PLANNING (DEVELOPMENT MANAGEMENT PROCEDURE) (ENGLAND) (ORDER 2015), NOTICE UNDER ARTICLE 15, PLANNING (LISTED BUILDING AND CONSERVATION AREAS) ACT 1990

The following applications have been submitted to the Council:

2024/1958 HARLETON, 38 London Road – Replace front four windows and front door for like for like materials and style but double-glazed. Reason: Listed Building and/or curtilage.

2024/1961 LONG STRATTON, Hugges Cafe, The Street – New external stair casement/interior stair/aggride wall (including floor insulation (Thermal & Acoustic) introducing of new sanitary facilities/form new internal door openings/clip up internal doors/ partial raising of floor/new secondary glazing to first floor. Reason(s): Affects a Conservation Area, Listed Building and/or curtilage.

2024/1980 DISS, Park Road Garage, Park Road – Demolition of the existing car showroom and garages that formed the John Green buildings. Reason: Affects a Conservation Area.

2024/1983 & 2024/1984 BROOKHOLE, Brooke Garage, 9 Norwich Road – New wall cladding to front and side elevations, new pitched roof covering, new signage to front elevation. Reason(s): Affects a Conservation Area, Listed Building and/or curtilage.

2024/1967 FORNCETT, Madrasahs Long Stratton Road – Demolition of existing dwelling and erection of self-build single storey dwelling. Reason: Listed Building and/or curtilage.

2024/1989 WYNDHAMTON, Land Off London Road – 7 New Dwellings Reason: Affects a Conservation Area.

2024/1955 COLNEY, Walled Garden, Colney Hall, Watton Road – Erection of office building & additional nursery building. Reason: Listed Building and/or curtilage.

2024/1986 HARLETON, Land West Of 15 Nesham Road – Reserved matters for the approval of appearance, landscaping, layout and scale following Outline permission 2023/1505. Reason: Does not accord with development plan.

2024/1945 ROYDON, Manor House, Manor Road – Repair and replace roof and windows. Point chimneys. Point flat roofs. Patio doors. Velux on roof and garden. Kitchen non structural wall removal, replacing wall with garage. Re-instate roof beside workshop. Move the toilet waste in roof nooks, connecting sewer to back of workshop. Reason: Listed Building and/or curtilage.

2024/1239 HARLETON, 3 Candlers Lane – Variation of condition 2 of 2022/1818 – re-design. Reason: Affects a Conservation Area, Listed Building and/or curtilage.

Applications can be viewed at The Horizon Centre Broadland Business Park, Peasmarsh Way Norwich NR7 0JF or online at www.southnorfolk.gov.uk. All comments must be received within 21 days of the notice (excluding Bank Holidays) and can be sent to planning@southnorfolk.gov.uk. Comments will be open to public inspection and available to view on the Council's website. They will be forwarded to the Planning Inspectorate in the case of an appeal. Please see our Privacy Policy on our website for further details.

SUFFOLK COUNTY COUNCIL

ROAD TRAFFIC REGULATION ACT 1984: SECTION 14

TEMPORARY CLOSURE OF PART OF THE U7121 HALL ROAD, CARLTON COLVILLE

Suffolk County Council intends to make an order closing the U7121 Hall Road, Carlton Colville from 60 metres north of the junction with The Street for 35 metres northbound to facilitate a new electrical connection. Other co-ordinated works may also take place during this period.

Access will be open for pedestrians and cyclists.

The diversion route will be The Street, Rectory Road, Church Lane and vice versa.

It is intended that the closure will operate from 05/08/2024 - 09/08/2024 but, if necessary, the order may remain in force for 18 months (or longer if extended by the Minister). Enquiries should be made to TMO Highways Limited. Tel: (01379) 676462.

TEMPORARY CLOSURE OF PART OF THE U4129 WINNEPEG ROAD, U4114 IPSWICH ROAD, U4127 BURTON STREET AND U4150 OXFORD ROAD, LOWESTOFT

Suffolk County Council intends to make an order closing the following roads:

- U4129 Winnepeg Road, Lowestoft from the junction with the B1074 for 20 metres southbound
- U4114 Ipswich Road, Lowestoft from the junction with the B1074 for 20 metres northbound
- U4127 Burton Street, Lowestoft from the junction with the B1074 for 20 metres southbound
- U4150 Oxford Road, Lowestoft from the junction with the B1074 for 20 metres northbound.

This is to facilitate a gas mains replacement. Other co-ordinated works may also take place during this period.

Access will be open for pedestrians and cyclists.

The diversion route will be the A1144, the B1074, St Margaret Road and vice versa.

It is intended that the closure will operate from 05/08/2024 - 30/08/2024 but, if necessary, the order may remain in force for 18 months (or longer if extended by the Minister). Enquiries should be made to Core Highways Ltd. Tel: 0203 043 3000.

Date: 25/07/2024

STONEY LA/24/1428 Erection of single-storey rear extension, installation of two dormer windows and new/replacement rooflights on rear roof slope, and internal alterations; Vale House, Hunworth Road, Stody, Melton Constable, Norfolk, NR24 2EG for Mr Stephen Fletcher. Reasons: (c)

WICKMERE PF/24/1420 Single-storey rear extension to the existing lean to rear porch & new rooflights; Keepers Cottage, Wollerton Hall, Wollerton Park, Wall Road, Wollerton, Norwich, Norfolk, NR11 7JY for Mr & Mrs Christabel & Edward Hart. Reasons: (c)

WICKMERE LA/24/1519 Internal & external works to facilitate extension and alterations to dwelling; Keepers Cottage Wollerton Hall, Wollerton Park, Wall Road, Wollerton, Norwich, Norfolk, NR11 7JY for Mr & Mrs Christabel & Edward Hart. Reasons: (c)

The reasons for the advertisement are: (a) is a major development (b) is contrary to the provisions of the Development Plan (c) affects the character and appearance of a Conservation Area (d) affects the setting of a Conservation Area (e) affects a Listed Building (f) affects the setting of a Listed Building (g) affects a Right of Way (h) accompanied by an Environmental Statement (i) affects a public right of way (j) affect setting of Ancient Monument (k) in the Public Interest

The applications and plans may be inspected during normal office hours at the offices of the Council, Holt Road, Cromer, NR27 3EN. Any representations should be submitted in writing to the Council within 21 days of the date of this Notice. If the application is for household development and permission is refused, there will be no further opportunity to comment at the appeal stage if it is dealt with on the basis of representations in writing.

Mr Martin Fitcher
 Director for Place and Climate Change Dated 25 July 2024

SECTION 153 OF THE PLANNING ACT 2008 AND REGULATION 6 OF THE INFRASTRUCTURE PLANNING (CHANGES TO, AND REVOCATION OF, DEVELOPMENT CONSENT ORDERS) REGULATIONS 2011

NOTICE OF APPLICATION TO MAKE A NON-MATERIAL CHANGE TO THE FOLLOWING DEVELOPMENT CONSENT ORDER: THE SHERINGHAM SHOAL AND DUDGEON EXTENSIONS OFFSHORE WIND FARM ORDER 2024 (SI 2024/564).

Notice is hereby given that an application has been made by Equinor New Energy Limited on behalf of Scira Extension Limited and Dudgeon Extension Limited ("The Applicant"), of 1 Kingdom Street, London W2 6BQ, to the Secretary of State for Energy Security and Net Zero to make a non-material change to the Sheringham Shoal and Dudgeon Extensions Offshore Wind Farm Order 2024 (the "Order") under Section 153 of the Planning Act 2008 (the "NMC Application").

Summary of the Order, as made by the Secretary of State

On 17th April 2024, the Secretary of State for Energy Security and Net Zero granted development consent for the Sheringham Shoal Offshore Wind Farm Extension Project (SEP) and the Dudgeon Offshore Wind Farm Extension Project (DEP). The Order authorises the construction and operation of the offshore wind farms and associated development. The SEP and DEP wind farm sites are located approximately 15.8 and 26.5 km, respectively, from the North Norfolk coast.

SEP and DEP will be connected to shore by offshore export cables installed to the landfill at Weybourne on the North Norfolk coast. From there, the onshore export cables will travel approximately 60 km inland to a new high voltage alternating current (HVAC) onshore substation near the existing Norwich Main substation.

Summary of the NMC Application

The proposed NMC Application is intended to facilitate an increase in the maximum generating capacity that can be achieved by SEP and DEP. The projects have secured a Stage 2 Transmission Entry Capacity (TEC) from National Grid ESO, which increases the permitted grid connection capacity from 719 MW to 950 MW to realise this increase in the maximum generating capacity achievable by the projects, the NMC Application seeks the following non-material changes to the Order:

- Increases to the maximum total rotor-swept area for SEP and DEP;
- Corresponding increases to the minimum air gap (that being the distance between the lowest point of the rotating blade of a wind turbine generator and highest astronomical tide);
- Increases to the maximum number and length of interlink cables and the maximum number of interlink cable crossings;
- Increases to the maximum area and volume of cable protection for the interlink cables and for the DEP infield cables; and
- A reduction to the maximum number of DEP infield cable crossings.

The NMC Application does not request any further changes to the upper limits of the wind turbine design envelope, including the number of wind turbines, rotor diameter, and blade tip height. Additionally, the NMC Application does not seek any amendments to the foundation parameters, such as pile diameter and hammer energy upper limits. Furthermore, there are no changes to the onshore elements of SEP and DEP, and no additional land is required.

NMC Application Documents

A copy of the NMC Application and its accompanying documents is available for inspection, free of charge, via the Planning Inspectorate's website at the below address until at least the end of the consultation period referred to below:

<https://national-infrastructure-consenting.planninginspectorate.gov.uk/projects/EN010109/documents>

A hard copy of the NMC Application and its accompanying documents is available on request by contacting the project team using the contact details below. There is a cost for the full suite of hard-copy NMC Application documents of £50.

SECTION 153 OF THE PLANNING ACT 2008 AND REGULATION 6 OF THE INFRASTRUCTURE PLANNING (CHANGES TO, AND REVOCATION OF, DEVELOPMENT CONSENT ORDERS) REGULATIONS 2011

NOTICE OF APPLICATION TO MAKE A NON-MATERIAL CHANGE TO THE FOLLOWING DEVELOPMENT CONSENT ORDER: THE SHERINGHAM SHOAL AND DUDGEON EXTENSIONS OFFSHORE WIND FARM ORDER 2024 (SI 2024/564).

Notice is hereby given that an application has been made by Equinor New Energy Limited on behalf of Scira Extension Limited and Dudgeon Extension Limited ("The Applicant"), of 1 Kingdom Street, London W2 6BD, to the Secretary of State for Energy Security and Net Zero to make a non-material change to the Sheringham Shoal and Dudgeon Extensions Offshore Wind Farm Order 2024 ("the Order") under Section 153 of the Planning Act 2008 (the "NMC Application").

Summary of the Order, as made by the Secretary of State

On 17th April 2024, the Secretary of State for Energy Security and Net Zero granted development consent for the Sheringham Shoal Offshore Wind Farm Extension Project (SEP) and the Dudgeon Offshore Wind Farm Extension Project (DEP). The Order authorises the construction and operation of the offshore wind farms and associated development. The SEP and DEP wind farm sites are located approximately 15.8 and 26.5 km, respectively, from the North Norfolk coast.

SEP and DEP will be connected to shore by offshore export cables installed to the landfall at Weybourne on the North Norfolk coast. From there, the onshore export cables will travel approximately 60 km inland to a new high voltage alternating current (HVAC) onshore substation near the existing Norwich Main substation.

Summary of the NMC Application

The proposed NMC Application is intended to facilitate an increase in the maximum generating capacity that can be achieved by SEP and DEP. The projects have secured a Stage 2 Transmission Entry Capacity (TEC) from National Grid ESO, which increases the permitted grid connection capacity from 719 MW to 950 MW; to realise this increase in the maximum generating capacity achievable by the projects, the NMC Application seeks the following non-material changes to the Order:

- Increases to the maximum total rotor-swept area for SEP and DEP;
- Corresponding increases to the minimum air gap (that being the distance between the lowest point of the rotating blade of a wind turbine generator and highest astronomical tide);
- Increases to the maximum number and length of interlink cables and the maximum number of interlink cable crossings;
- Increases to the maximum area and volume of cable protection for the interlink cables and for the DEP infield cables; and
- A reduction to the maximum number of DEP infield cable crossings.

The NMC Application does not request any further changes to the upper limits of the wind turbine design envelope, including the number of wind turbines, rotor diameter, and blade tip height. Additionally, the NMC Application does not seek any amendments to the foundation parameters, such as pile diameter and hammer energy upper limits. Furthermore, there are no changes to the onshore elements of SEP and DEP, and no additional land is required.

NMC Application Documents

A copy of the NMC Application and its accompanying documents is available for inspection, free of charge, via the Planning Inspectorate's website at the below address until at least the end of the consultation period referred to below:

<https://national-infrastructure-consenting.planninginspectorate.gov.uk/projects/EN010109/documents>

A hard copy of the NMC Application and its accompanying documents is available on request by contacting the project team using the contact details below. There is a cost for the full suite of hard-copy NMC Application documents of £50.

By Email: info@seandep.co.uk

SECTION 153 OF THE PLANNING ACT 2008 AND REGULATION 6 OF THE INFRASTRUCTURE PLANNING (CHANGES TO, AND REVOCATION OF, DEVELOPMENT CONSENT ORDERS) REGULATIONS 2011

NOTICE OF APPLICATION TO MAKE A NON-MATERIAL CHANGE TO THE FOLLOWING DEVELOPMENT CONSENT ORDER: THE SHERINGHAM SHOAL AND DUDGEON EXTENSIONS OFFSHORE WIND FARM ORDER 2024 (SI 2024/564).

Notice is hereby given that an application has been made by Equinor New Energy Limited on behalf of Scira Extension Limited and Dudgeon Extension Limited ("The Applicant"), of 1 Kingdom Street, London W2 6BD, to the Secretary of State for Energy Security and Net Zero to make a non-material change to the Sheringham Shoal and Dudgeon Extensions Offshore Wind Farm Order 2024 ("the Order") under Section 153 of the Planning Act 2008 (the "NMC Application").

Summary of the Order, as made by the Secretary of State

On 17th April 2024, the Secretary of State for Energy Security and Net Zero granted development consent for the Sheringham Shoal Offshore Wind Farm Extension Project (SEP) and the Dudgeon Offshore Wind Farm Extension Project (DEP). The Order authorises the construction and operation of the offshore wind farms and associated development. The SEP and DEP wind farm sites are located approximately 15.6 and 28.6 km, respectively, from the North Norfolk coast.

SEP and DEP will be connected to shore by offshore export cables installed to the landfill at Weybourne on the North Norfolk coast. From there, the onshore export cables will travel approximately 60 km inland to a new high voltage alternating current (HVAC) onshore substation near the existing Norwich Main substation.

Summary of the NMC Application

The proposed NMC Application is intended to facilitate an increase in the maximum generating capacity that can be achieved by SEP and DEP. The projects have secured a Stage 2 Transmission Entry Capacity (TEC) from National Grid ESO, which increases the permitted grid connection capacity from 719 MW to 950 MW; to realise this increase in the maximum generating capacity achievable by the projects, the NMC Application seeks the following non-material changes to the Order:

- Increases to the maximum total rotor-swept area for SEP and DEP;
- Corresponding increases to the minimum air gap (that being the distance between the lowest point of the rotating blade of a wind turbine generator and highest astronomical tide);
- Increases to the maximum number and length of interlink cables and the maximum number of interlink cable crossings;
- Increases to the maximum area and volume of cable protection for the interlink cables and for the DEP infield cables; and
- A reduction to the maximum number of DEP infield cable crossings.

The NMC Application does not request any further changes to the upper limits of the wind turbine design envelope, including the number of wind turbines, rotor diameter, and blade tip height. Additionally, the NMC Application does not seek any amendments to the foundation parameters, such as pile diameter and hammer energy upper limits. Furthermore, there are no changes to the onshore elements of SEP and DEP, and no additional land is required.

NMC Application Documents

A copy of the NMC Application and its accompanying documents is available for inspection, free of charge, via the Planning Inspectorate's website at the below address until at least the end of the consultation period referred to below:

<https://national-infrastructure-consenting.planninginspectorate.gov.uk/projects/EN010109/documents>

Appendix D: Accompanying Cover Letter Sent to Consultees

Dear Consultee,

Sheringham Shoal Extension Project and Dudgeon Extension Project Offshore Wind Farms

Consultation on a Non-Material Change application (“The NMC Application”)

Regulation 7 of The Infrastructure Planning (Changes to, and Revocation of, Development Consent Orders) Regulations 2011

I am writing with regards to the Sheringham Shoal Extension Project (SEP) and the Dudgeon Extension Project (DEP). Equinor New Energy Limited (“the Applicant”) submitted an application for the development of SEP and DEP on behalf of Scira Extension Limited and Dudgeon Extension Limited on 2 September 2022. On 17 April 2024, the Secretary of State for Energy Security and Net Zero granted development consent for SEP and DEP.

The Sheringham Shoal and Dudgeon Extensions Offshore Wind Farm Order 2024 (“the Order”) authorises the construction and operation of the SEP and DEP wind farm sites, which are located approximately 15.8 and 26.5 km, respectively, from the North Norfolk coast. SEP and DEP will be connected to shore by offshore export cables installed to the landfall at Weybourne on the North Norfolk coast. From there, the onshore export cables will travel approximately 60 km inland to a new high voltage alternating current (HVAC) onshore substation near the existing Norwich Main substation.

The Order enables SEP and DEP to double the capacity of the existing wind farms, providing enough renewable energy to power an additional 785,000 UK homes. This will be achieved through the deployment of up to 53 new turbines. Together, Equinor’s wind farms in Norfolk will power the equivalent of nearly 1.5 million households and make a significant contribution to the UK’s decarbonisation goals.

The NMC Application

The Applicant has been in discussion with The Crown Estate with respect to the potential for an increase in the generating capacity of the projects. The proposed NMC Application is intended to facilitate an increase in the maximum generating capacity that can be achieved by SEP and DEP. The projects have secured a Stage 2 Transmission Entry Capacity (TEC) from National Grid ESO, which increases the permitted grid connection capacity from 719 MW to 950 MW; to realise this increase in the maximum generating capacity achievable by the projects, the NMC Application seeks the following non-material changes to the Order:

- Increases to the maximum total rotor-swept area for SEP and DEP;
- Corresponding increases to the minimum air gap (that being the distance between the lowest point of the rotating blade of a wind turbine generator and the highest astronomical tide);
- Increases to the maximum number and length of interlink cables and the maximum number of interlink cable crossings;
- Increases to the maximum area and volume of cable protection for the interlink cables and for the DEP infield cables; and
- A reduction to the maximum number of DEP infield cable crossings.

Classification: Project Related

The NMC Application does not request any further changes to the upper limits of the wind turbine design envelope, including the number of wind turbines, rotor diameter, and blade tip height. Additionally, the NMC Application does not seek any amendments to the foundation parameters, such as pile diameter and hammer energy upper limits. Furthermore, there are no changes to the onshore elements of SEP and DEP, and no additional land is required.

The NMC Application is being submitted in accordance with Section 153 of the Planning Act 2008 and The Infrastructure Planning (Changes to, and Revocation of, Development Consent Orders) Regulations 2011 ("2011 Regulations").

Consultation on NMC Application

The Applicant must consult with various persons in accordance with the 2011 Regulations. You have been identified as a consultee for this application. Enclosed is a notice outlining the details of the NMC Application. The notice contains details of how you can access the application documents and how to respond to the consultation.

Any representation about the NMC Application must be made by email to: sadep@planninginspectorate.gov.uk or in writing to: National Infrastructure Planning, the Planning Inspectorate, Temple Quay House, 2 The Square, Bristol, BS1 6PN. Please quote reference EN010109 on any correspondence. Representations will be made public by the Planning Inspectorate.

As set out in the Notice, the deadline for submitting representations to the Planning Inspectorate is 11.59pm on 2nd September 2024.

Further information

If you would like further information about this letter, the consultation or SEP and DEP, please contact the project team by using one of the following contact methods:

Email: info@sepanddep.co.uk

Phone: 0808 1963 673

Yours faithfully,
