## Medworth Energy from Waste Combined Heat and Power Facility

PINS ref. EN010110 Document Reference: Vol 1.2 Revision 1.0 June 2022

## **Application Form - signed**

Regulation reference: The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 Regulation 5(1)

We inspire with energy.

Application for Development Consent for Nationally Significant Infrastructure Projects under the Planning Act 2008 For help contact nienquiries@planninginspectorate.gov.uk Telephone: 0303 444 5000

\* required information

## **Application Form**

Please read guidance documents relating to the submission of applications prior to completing this form including government guidance and the Planning Inspectorate's <u>Advice Note Six: Preparation and submission of application documents</u>.

\* Do you have a reference number?

• Yes	C No
* Reference number	EN010110
1. Applicant	
* Organisation	Medworth CHP Limited
Address	
* Building number or name	Devonport EfW CHP Facility
* Street	Creek Road
* City or town	Plymouth
County or administrative area	Devon
* Postcode	PL5 1FL
* Country	United Kingdom
* Name of contact	Paul Carey
* Telephone number	01945 232231
Fax number	
* Email	medworth@mvvuk.co.uk
2. Agent	
* Are you an agent acting or	behalf of the Applicant?
• Yes	C No
* Organisation	Wood Environment & Infrastructure Solutions UK Limited

0	Continued from previous	page
	ddress	
*	Building number or name	15
*	Street	Justice Mill Lane
*	City or town	Aberdeen
	ounty or administrative rea	
*	Postcode	AB11 6EQ
*	Country	United Kingdom
*	Name of contact	Hannah Nelson
* -	Telephone number	
Fa	ax number	
* E	Email	voodplc.com
3.	Fee	?
* 5	State the arrangement for the	ne application fee payment:
(	BACS	C CHAPS C Cheque
* F ref	Please provide payment erence details	Medworth: EfW CHP Facility/EN010110
4.	Confirming why the Plan	ning Inspectorate should receive the application
* B	rief statement to explain winsent is required under the	hy this application is, or is to be treated as a development for which develop
Ac	in the bacegones in S(14)	as described in Schedule 1 of the Draft DCO is an NSIP as it includes development of the Planning Act 2008. The development satisfies s14(1) and s15 of the Planning ruction of an onshore generating station in England, and it has a capacity of more
5. N	Ion-technical description	of the Proposed Development
* Br	ief non-technical description	on of the Proposed Development
1.03	e Proposed Development c ether with associated Grid nporary Construction Com	omprises an Energy from Waste (EfW) Combined Heat and Power (CHP) Facility Connection, CHP Connection, Water Connections, Access Improvements and bound (TCC).
The to th	Proposed Development ha	rould recover useful energy in the form of electricity and steam from up to 625,000 e (residual), non-hazardous municipal, commercial and industrial waste each year. as a generating capacity of over 50 megawatts and the electricity would be exported elopment would also have the capability to export steam and electricity to users on te.
Furt the	her details of the Proposed Proposed Development (Ve	Development are provided in Environmental Statement Chapter 3: Description of plume 6.2).
6. Lo	ocation or route of the Pr	oposed Development

Continued from	previous	page
----------------	----------	------

\* Description of location of application site(s), or route of development (reference to appropriate plans)

The EfW CHP Facility would be located on the industrial estate, Algores Way, Wisbech, within the administrative boundary of Cambridgeshire County Council. It is centred at National Grid Reference TF 45564 07955. The Grid Connection would run from the EfW CHP Facility north-east to the Walsoken substation within the administrative boundary of Norfolk County Council. The site location is illustrated on the Site Location Plan (Volume 2.1).

* Is the site a single site or a	a linear site?
<ul> <li>Single site</li> </ul>	C Linear site

Continued from previous page ...

The following other documents have been provided to support this application: - Volume 1.1 Covering Letter: introduces the application.

- Volume 1.4 Section 55 Checklist: sets out how the application complies with section 55 of the Planning Act 2008.

- Volume 1.5 Guide to the Application: provides an accessible guide to the Proposed Development and submitted documents and drawings to assist those reviewing the application documents.

- Volume 5.4 List of Other Consents and Licenses: sets out the consents and licenses required to construct and operate the Proposed Development which are not included in the DCO.

- Volume 7.1 Planning Statement: describes the relevant national and local planning policies relating to the Proposed Development and considers the planning balance.

- Volume 7.3 Waste Fuel Availability Assessment: describes how the Proposed Development conforms to the waste hierarchy and outlines the availability of waste fuel to power the Proposed Development.

- Volume 7.4 Project Benefits Report: describes the benefits of the Proposed Development in relation to relevant legislation and policies.

- Volume 7.5 Design and Access Statement: summarises the design evolution of the Proposed Development and the design principles used.

- Volume 7.6 Combined Heat and Power Assessment: describes how opportunities for CHP have been explored and incorporated into the Proposed Development.

- Volume 7.7 Outline Landscape and Ecology Management Plan: describes how landscape and ecological impacts would be managed.

- Volume 7.8 Outline Employment and Skills Strategy: sets out the strategy to encourage employment and develop skills during the construction and operation of the Proposed Development.

- Volume 7.9 Outline Flood Emergency Management Plan: describes the actions that would be taken during a flood emergency.

 Volume 7.10 Outline Fire Prevention Plan: describes the actions that would be taken to prevent fires on the site of the Proposed Development.

- Volume 7.11 Outline Odour Management Plan: describes how odours related to the Proposed Development would be managed.

- Volume 7.12 Outline Construction Environmental Management Plan: describes how environmental impacts would be managed during the construction of the Proposed Development.

- Volume 7.13 Tree Survey: presents the assessment of potential impacts on trees which may be affected by the Proposed Development.

- Volume 7.14 Outline Community Benefits Strategy: outlines a set of proposals to deliver community benefits.

- Volume 7.15 Outline Operation Traffic Management Plan: outlines the measures that would be in place to manage traffic during the operation of the Proposed Development.
