Dear Examining Authority

EN010110 - Application by Medworth CHP Limited for an Order Granting Development Consent for the Medworth Energy from Waste Combined Heat and Power Facility (Medworth EfW CHP Facility)

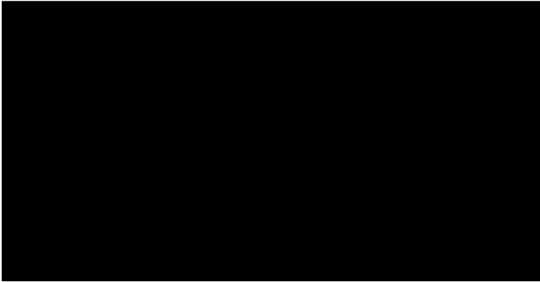

We confirm we are the parent company of Medworth CHP Limited, this company being the Applicant for the Development Consent Order (DCO) Application reference EN010110. We own 100% of the shares of the Applicant.

We are fully aware of the application for the DCO and give it our full support. For the reasons set out in the Funding Statement [APP-016] and the Explanatory Memorandum [APP-014], Article 9 of the draft DCO [REP3-007] provides that the compulsory acquisition powers in the draft DCO must not be exercised unless a guarantee (or alternative form of security) in respect of the liability of the undertaker to pay compensation in respect of the exercise of the relevant powers is in place. The form and amount of guarantee or alternative form of security must be approved by the Secretary of State.

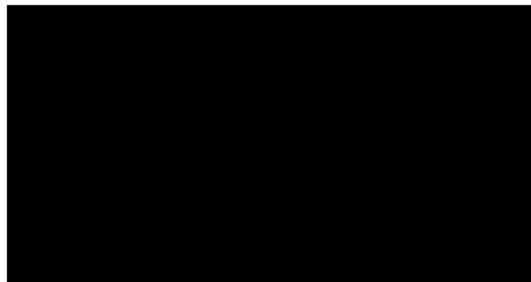

To the extent that the compulsory acquisition powers need to be exercised, and subject to approval by the Secretary of State, we are prepared to enter into guarantee agreements or an alternative form of security to ensure the performance of Medworth CHP Limited in accordance with the requirements of the draft DCO.

We trust this is sufficient for your immediate needs.

Yours sincerely

Paul Carey
Managing Director
