Subject: objections to planned incinerator in Wisbech
Date: 28 June 2023 17:46:42

I wish my objections to be noted to the proposed mega incinerator in Wisbech being built. I am unable to attend the meeting at the Boathouse on Thursday, 29th June so am emailing my objections. My reasons for objecting are many. Wisbech is a beautiful, historic Georgian town with such splendid architecture. The Fens are such a wonderful part of the country with such lovely, far reaching views. What a blot on the landscape said incinerator would be. The health of the town & surrounding areas would suffer greatly not just from the incinerator but from the extra traffic it would create. It can take at least an hour to get from surrounding villages through the town of Wisbech because of the heavy traffic that is already on the roads. The infrastructure just cannot support the extra traffic the incinerator would create. Already any incidents or accidents on the A47 cause chaos and long delays without the added heavy traffic of the lorries going in and out of the planned incinerator. The beauty of the area would be greatly affected by the building of such a massive incinerator.

I would like my objections to be passed on to the Planning Inspectorate. I would also like confirmation that they have received my objections and that they will be included.

Regards, Jo Barnard.
