

Submission ID: 18412

As a neighbouring constituency MP to this proposal, I am opposed to the proposed incinerator in Wisbech. I am concerned about the impact the scale and nature of this development will have on the environment, traffic movements and health factors. The 300 plus lorry movements a day bringing household and commercial waste will have a detrimental impact on the residents of Wisbech. I am further concerned about the close proximity of this proposal to a secondary school.
