Topic/Para	Representation	Applicant Comment
<b>Para 1</b>	Anglian Water notes the Procedural Decisions made by the Examining Authority in the Rule 8.3 and Rule 9 letter [PD-018] in respect of the Change Application. We confirm that we agree that the proposed changes aim to facilitate works that are already proposed as part of the application originally accepted for examination, and whilst additional land has been included within the Order limits, the impacts of the proposed works remain the same.	Comments noted.
<b>Para 2</b>	Whilst Anglian Water has water supply network assets within the proposed area, as identified in the utilities search within Appendix 3 of the Non Statutory Consultation Report [AS-034], we are satisfied that the Protective Provisions for Anglian Water, as set out in the draft DCO [REP6-004] Schedule 11 Part 7, ensure that the appropriate measures will be undertaken by the Applicant through any works that may impact on our assets.	Comments noted.
