Subject: Wisbech Mega Incinerator Application. Interested Party Reference No. 20032977

You don't often get email from [REDACTED] [Learn why this is important](#)

We remain strongly opposed to the proposed Wisbech incinerator. The Wisbech site, which is very close to three local schools and residential areas, is the wrong location for such a facility which will release poisonous particle pollutants over Wisbech and its environs. The further disruption by Medworth of over 300 lorry movements per day, 7 days a week to access this site will, of course, clog up the local roads and produce their own injurious levels of pollution.

We also question the need for further waste incineration capacity. We should focus on reducing waste and recycling to help meet important nature and climate goals.

We do hope the health and well-being of Wisbech and surrounding villages will not be ignored in the Secretary of State's decision.

on behalf of

Robert and Phyllis Sugden
