You don't often get email from [REDACTED] [Learn why this is important](#)

Dear sir or madam,

I really hope that this planning is refused, we live in a smallish town where we have taken a lot of refugees in and included them into our town as part of it we have always been as inclusive as its possible to be, but I am finding the possible inclusion of this awful set up a huge mistake we will be over run with so many lorries our roads are already jam packed and full of pot holes we have schools nearby with a lot of traffic. Many young students there and at our college. We do not want nor have we looked for this kind of business to come to our town. I have never thought of us as being a back yard type of people. I feel that this type of business has no place in a town, the affect on health both physical and mental health will be extreme and should not be allowed in any town there are without doubt many places that are not near to towns where such a business could be built. Kings Lynn didn't have to have it there and we should not have to have it here either. We are hopefully in your hands please do not allow this to mar our town or our [lives.it](#) should never be in a built up area. please give us and other towns the consideration we deserve and ask that this thing be built away from homes

Thank you
Mrs Georgina Martin
