Thank you for the opportunity to further comment on this matter.

Despite all that has been put forward by the applicant the application remains devoid of any detail as to how the existing inadequate road infrastructure can cope with 300+ extra lorry movements per day. The reason for this is obvious- it can not do so.  
It is noted that the site is adjacent to a mothballed (not closed) railway line which appears to have no place in the application.

Sincerely,
