Dear Mr Wheadon,

**Application by Medworth CHP Limited (“the Applicant”) for an Order granting Development Consent for the proposed Medworth Energy from Waste Combined Heat and Power Facility (“the Medworth EfW Facility”).**

Further to the invitation by the Secretary of State to make a comment on her letter of January 10<sup>th</sup>, I maintain my strong objections to the Medworth EfW Facility due to the detrimental impact the facility would have on residents in my constituency of South West Norfolk.

I believe the location is inappropriate being near to schools, housing and health care providers. There is also a considerable impact on the environment and on high value agricultural land. The location is adjacent to a railway site with a main drain beside it, with the majority of Wisbech drainage passing through the site. Traffic movements in the area are already near capacity and the additional HGV traffic that the EfW Facility would require, would only exacerbate this situation.

It is clear that the construction of the Medworth EfW Facility will have a detrimental impact on my constituents, and I therefore reaffirm my objections to the planning proposal.

Best wishes,

Liz Truss MP
