Dear Ms Woods

I refer to your letter of 9th October, concerning the request by Bradwell Power Generation Company Ltd for the Planning inspectorate's opinion (a Scoping Option) on the information to be provided in an Environmental Statement relating to the Applicant's Proposed Development.

I confirm that the Office for Nuclear Regulation has no comments concerning the Environmental Statement.

Yours sincerely

N.C. Cooper
Nuclear Site Licensing Specialist

Dear Sir/Madam,

Town & Country Planning Act 1990 (as amended)

Site address: Bradwell B Nuclear Power Station Downhall Beach Bradwell-On-Sea Essex CM0 7HP

Proposal: Planning Inspectorate Scoping opinion: Application by Bradwell Power Generation Company Ltd for an Order granting Development Consent for the Bradwell B New Nuclear Power Development

Thank you for your consultation request which was received on 13th October 2020 and has been allocated the case reference 20/01685/NBC.

We understand that the Applicant has asked the Planning Inspectorate on behalf of the Secretary of State (SoS) for its opinion (a Scoping Opinion) as to the information to be provided in an Environmental Statement (ES) relating to the Proposal. We have reviewed the documents accompanying the request including the 'Volume 1: Scoping Report and Appendices', 'Volume 2: Figures' and the site plan.

Southend-on-Sea Borough Council considers that the information the Applicant intends to submit in relation to the transport, radiological and major accidents and disasters implications of the project would be proportionate to the project and sufficient to allow the assessment of the ES. No further comments are submitted for the scoping opinion request. Please inform us in the normal way for any future requests or applications in relation to this project.

Yours faithfully,

Spyros Mouratidis
Senior Planner
