Dear Sir or Madam

We act for National Grid Electricity Transmission PLC (**NGET**). Please see below NGET's response to the Examining Authority's Third Written Questions.

I would be grateful if you could please confirm receipt of this submission.

Kind regards

Charlotte

ExQ3	Question to	Question	NGET Response
0.8	NGET	<p><b>Bodelwyddan Substation</b></p> <p>Your written representation submitted at Deadline 1 [REP1-071] states that "NGET are pursuing a planning application for the enabling works to facilitate the connection of the Proposed Development and other connected projects to the NGET Bodelwyddan substation. NGET is progressing the necessary consent applications, which it currently anticipates submitting in 2023."</p> <p>Please provide an update to the above in terms of programming and timing, and any further information/details on the proposed enabling works which may be relevant to this proposed project.</p>	<p>Further design work has been undertaken on the Bodelwyddan substation project (the Bodelwyddan Upgrade) since NGET's Deadline 1 response. The Bodelwyddan Upgrade is required to facilitate the connection of multiple projects at this location (including Awel Y Mor) and now comprises works to the existing substation, a physical extension to the substation and associated works and infrastructure (including new overhead line gantries and the related diversion of an existing gas pipeline to facilitate the extension).</p> <p>NGET intends to rely on its permitted development rights to carry out the required works to the existing substation but will need to apply for planning permission for the proposed extension to Bodelwyddan substation. Presently NGET anticipates that the relevant planning application will be submitted to Denbighshire County Council later this year (specifically by the summer). At the current time, based on the relative timings of the different projects, NGET anticipates that it should be possible to provide the Promoter's connection via the existing substation. As such, this connection is not expected to be dependent upon the planning consent required for the extension and associated infrastructure works.</p> <p>The proposed substation</p>

			extension and associated infrastructure works are, however, required for the other projects requiring a future connection to the Bodelwyddan substation. NGET remains confident that all requisite consents will be in place for the necessary works to be completed in time for the various future projects to connect as per their respective connection agreements with NGET.
