1 Introduction

1.1 Purpose of Statement of Commonality

- 1 This document provides the Examining Authority (ExA) with an overview of the position of each Statement of Common Ground (SoCG) between Awel y Môr Offshore Wind Farm Limited (the 'Applicant') and the Interested Parties (IPs) (see Annex H of Rule 6 Letter PD-007) in relation to Awel y Môr Offshore Wind Farm (hereafter referred to as 'AyM') at Deadline 8. This document shows the overview agreement between the Applicant and IPs at the close of examination (or the Applicant's best understanding of these agreements where the IP has been unable to provide a signed SoCG).

1.2 Structure of this Statement of Commonality

- 2 The Statement of Commonality is structured as follows:
 - ▲ Section 1: Introduction;
 - ▲ Section 2: Approach to capturing commonality – Outlines the approach to commonality with IPs;
 - ▲ Section 3: Status of commonality – Describes the status of commonality with each IP, to be updated at each deadline;
 - ▲ Section 4: Summary of Commonality – Identifies the commonality of topic areas of interest with each IP;
 - ▲ Section 5: Additional commentary – Provides additional information on the status of agreements and notable consultation activities undertaken through the Examination; and
 - ▲ Section 6: Final positions – Where final positions have been reached with IPs, this section outlines those final positions.

2 Approach to Capturing Commonality

2.1 List of Commonality

- 3 Table 1 provides the list of SoCGs that have been requested by the ExA in the Rule 6 letter issued on 23 August 2022 and the Applicant's approach to capturing commonality.

2.2 Letters of Comfort and Position Statements

- 4 In some instance, Letters of Comfort (LoC) and Position Statements (PS) are being prepared instead of a full formal SoCG, with agreement from the IPs. This is because the matters on which some IPs are interested in are limited in scope (e.g. substantive matters are either agreed or can be addressed post-consent through crossing and/or proximity agreements) and so the LoCs in these cases are considered to be more appropriate than a SoCG in order to capture status of discussions. Where a LoC or PS is being prepared instead of a SoCG, this is detailed in Table 1.
- 5 A PS is substantively the same as a SoCG but follows a simpler format to allow each party to identify the issues pertinent to (for example) their commercial interests and to determine the level of detail to put before the ExA pending the conclusion of commercial discussions, which are being progressed outside the DCO process and may pertain to commercially sensitive information. The PSs will be updated in the same way as a SoCG, with updates provided to the ExA at relevant deadlines.
- 6 Joint Statements have been submitted at Deadline 8 with the following parties, in addition to the Joint Statement with SP Manweb submitted at Deadline 7 (REP7-045):
 - ▲ The Applicant has submitted Joint Statements on the Landscape Enhancement Scheme with the NW LPAs at Document 8.74 of the Applicant's Deadline 8 submission.
 - ▲ Welsh Water/ Dŵr Cymru at Document 8.77 of the Applicant's Deadline 8 submission.

2.3 Statements of Common Ground

- 7 At Deadline 8, the Applicant has submitted the following SoCGs, in addition to those already submitted at previous deadlines:
- ▲ The North Wales Local Planning Authorities (NW LPAs) on matters concerning Seascape, Landscape and Visual Impact Assessment (SLVIA);
 - ▲ Conwy County Borough Council (CCBC);
 - ▲ Isle of Anglesey County Council (IoACC);
 - ▲ Natural Resources Wales (NRW) on matters relating to offshore and onshore environments, as well as SLVIA;
 - ▲ National Trust;
 - ▲ Isle of Man Government (IoM); and
 - ▲ The Royal Society for the Protection of Birds (RSPB).

Table 1: List of parties and the Applicant's approach to capturing commonality.

INTERESTED PARTY	APPROACH TO COMMONALITY
SoCGs requested by the ExA in Annex H of the Rule 6 Letter	
Denbighshire County Council (DCC)	<ul style="list-style-type: none"> ▲ Joint SoCG with the North Wales Local Planning Authorities (NW LPAs) on Seascape, Landscape and Visual Impact Assessment (SLVIA) (SoCG 01); and ▲ Standalone SoCG on non-SLVIA matters (SoCG 02).
Conwy County Borough Council (CCBC)	<ul style="list-style-type: none"> ▲ Joint SoCG with the NW LPAs on SLVIA (SoCG 01); and ▲ Standalone SoCG on non-SLVIA matters (SoCG 03).
Gwynedd Council	<ul style="list-style-type: none"> ▲ Joint SoCG with the NW LPAs on SLVIA (SoCG 01).
Isle of Anglesey County Council (IoACC)	<ul style="list-style-type: none"> ▲ Joint SoCG with the NW LPAs on SLVIA (SoCG 01); and ▲ Standalone SoCG on non-SLVIA matters (SoCG 04).
Flintshire District Council (FCC)	Following FCC's withdrawal from the examination process (REP2-051), the Applicant is no longer seeking to include FCC in the Joint SoCG with the NW LPAs on SLVIA.
Eryri National Park (ENP)	<ul style="list-style-type: none"> ▲ Joint SoCG with the NW LPAs on SLVIA (SoCG 01).

INTERESTED PARTY	APPROACH TO COMMONALITY
Llandudno Town Council	The Applicant notes the request from the ExA for a SoCG with Llandudno Town Council. However, the responses from Llandudno Town Council have been limited and a SoCG is not considered necessary.
Betws yn Rhos and Llanelian yn Rhos Community Council	The Applicant notes the request from the ExA for a SoCG with Betws yn Rhos and Llanelian yn Rhos Community Council. However, the responses from Betws yn Rhos and Llanelian yn Rhos Community Council have been limited and a SoCG is not considered necessary.
Llanddulas and Rhyd Y Foel Community Council	The Applicant notes the request from the ExA for a SoCG with Llanddulas and Rhyd Y Foel Community Council. However, the responses from Llanddulas and Rhyd Y Foel Community Council have been limited and a SoCG is not considered necessary.
Natural Resources Wales (NRW)	<ul style="list-style-type: none"> ▲ SoCG covering SLVIA and LVIA matters (SoCG 05); ▲ SoCG covering offshore topics (excluding Seascape, Landscape and Visual Impact Assessment (SLVIA) (SoCG 06); and ▲ SoCG covering onshore topics (excluding Landscape and Visual Impact Assessment (LVIA) (SoCG 07).
Cadw	▲ SoCG covering onshore and offshore archaeology and cultural heritage (SoCG 08).
National Trust	▲ SoCG covering the matters raised in the Relevant Representation (RR-029)– Archaeology and cultural heritage, SLVIA, tourism and recreation (SoCG 09).
Isle of Man Government	SoCG covering the matters raised in their Relevant Representation (RR-027) – Commercial fisheries, offshore ornithology and marine mammals (SoCG 10).

INTERESTED PARTY	APPROACH TO COMMONALITY
National Air Traffic Services Ltd (NATS)	The Applicant notes the request from the ExA for a SoCG with NATS. However, discussions with NATS have focused on aviation safeguarding and progression of a commercial agreement to secure radar blanking mitigation. The commercial agreement is completed and do not consider a SoCG is not necessary. The Applicant understands that NATS will be providing a letter confirming the status of agreement and their withdrawal of objection.
Maritime and Coastguard Agency (MCA)	▲ SoCG covering matters related to shipping and navigation (SoCG 11).
Trinity House	▲ SoCG covering matters related to shipping and navigation (SoCG 12).
UK Chamber of Shipping (CoS)	▲ SoCG covering matters related to shipping and navigation (SoCG 13).
Royal Society for the Protection of Birds (RSPB)	▲ SoCG covering offshore ornithology (SoCG 14).
Joint Nature Conservation Committee (JNCC)	▲ SoCG covering marine mammals (SoCG 15). The Applicant received correspondence from JNCC on 13 October 2022 indicating that JNCC was content to provide advice on marine mammals only.

INTERESTED PARTY	APPROACH TO COMMONALITY
Gwynedd Archaeological Planning Services (GAPS)	The Applicant notes the request for a SoCG with GAPS. However, the Applicant has engaged via correspondence with GAPS and received confirmation on 8 September 2022 indicating GAPS is content to provide advice via the relevant LPA in their advisory capacity, and therefore does not require a separate SoCG.
North Wales Wildlife Trust (NWWT)	SoCG covering offshore ecological matters (SoCG 16).
National Grid Electricity Transmission plc (National Grid)	The Applicant notes the ExA request for a SoCG with National Grid. The Applicant is continuing discussions with National Grid and will update the ExA via the Status of Landowner Negotiations Table (Document 8.15 of the Applicant's Deadline 8 submission) and therefore does not consider a SoCG necessary. The Applicant and NGET are continuing active discussions on Protective Provisions and have reached agreement on all material points. The Applicant is hopeful that an agreed position can be reached and reported to the ExA before the close of the Examination so that NGET's objection can be withdrawn.
SP Energy Networks (SPEN) on behalf of SP Manweb (SPM)	<p>The Applicant notes the ExA request for a SoCG with SPEN (on behalf of SPM). The Applicant is continuing discussions with SPEN and will update the ExA via the Status of Landowner Negotiations Table (Document 8.15 of the Applicant's Deadline 8 submission) and therefore does not consider a SoCG necessary.</p> <p>The Applicant submitted a Joint Statement (REP7-045) which confirms there are no outstanding matters of disagreement between the parties and confirms that SPEN (on behalf of SPM) intends to withdraw their objection prior to the close of the Examination.</p>

INTERESTED PARTY	APPROACH TO COMMONALITY
Diamond Transmission Corporation	The Applicant notes the ExA request for a SoCG with Diamond Transmission Corporation. The Applicant understands that Diamond Transmission Corporation is content to continue commercial discussions and therefore does not consider a SoCG necessary.
EirGrid	The Applicant notes the ExA request for a SoCG with EirGrid. The Applicant understands that EirGrid is content to continue commercial discussions outside of the DCO process and therefore does not consider a SoCG necessary.
Rhyl Flats Wind Farm Limited (Rhyl Flats)	<p>The Applicant notes the ExA request for a SoCG with Rhyl Flats. The Applicant is continuing discussions with Rhyl Flats and updated the ExA in response to Rhyl Flats' written representations (REP2-002) and therefore does not consider a SoCG necessary.</p> <p>The Applicant has provided an update on the status of agreements with Rhyl Flats in Document 8.29 of the Applicant's Deadline 8 submission.</p>
North Hoyle Wind Farm Limited (North Hoyle)	<p>The Applicant notes the ExA request for a SoCG with North Hoyle. The Applicant understands that North Hoyle is content to continue commercial discussions. The Applicant updated the ExA in response to North Hoyle's written representations (REP2-002) and therefore does not consider a SoCG necessary.</p> <p>The Applicant has provided an update on the status of agreements with North Hoyle in Document 8.29 of the Applicant's Deadline 8 submission.</p>

INTERESTED PARTY	APPROACH TO COMMONALITY
Network Rail Infrastructure Limited (Network Rail)	The Applicant notes the ExA request for a SoCG with Network Rail. The Applicant has provided an update the ExA via the Status of Landowner Negotiations Table (Document 8.15 of the Applicant's Deadline 8 submission) and therefore does not consider a SoCG necessary.
Dŵr Cymru Cyfyngedig (DC) / Welsh Water	The Applicant notes the ExA request for a SoCG with Welsh Water. The Applicant has submitted a Joint Statement with Welsh Water/ Dŵr Cymru at Document 8.77 of the Applicant's Deadline 8 submission.
Parties not requested by the ExA in Annex H of the Rule 6 Letter	
Civil Aviation Authority (CAA)	The Applicant notes that the ExA has not requested a SoCG with the CAA and has therefore not progressed a SoCG.
Ministry of Defence (MoD)	The Applicant notes that the ExA has not requested a SoCG with MoD. The Applicant has engaged with the MoD during the pre-application process (see the Evidence Plan Report and its supporting appendices (APP-301, APP-302 and APP-303, respectively)) and notes that the MoD does not consider the project will have significant effects on its operations and has therefore not deemed it necessary to progress a SoCG.
Natural England	The Applicant notes that Natural England has expressed its desire not to register an interest in the Application (AS-037), and therefore a SoCG with Natural England has not been deemed necessary. Natural England has been involved in the Evidence Plan process in relation to marine mammals and offshore ornithology (see the Evidence Plan Report and its supporting appendices (APP-301, APP-302 and APP-303, respectively)).

INTERESTED PARTY	APPROACH TO COMMONALITY
Gwynt y Môr Offshore Transmission Owner (Gwynt y Môr OFTO)	The Applicant notes that the ExA has not requested a SoCG with Gwynt y Môr OFTO, with whom a cable crossing and cable proximity agreement is required. The Applicant understands that Gwynt y Môr OFTO is content to continue commercial discussions and therefore does not consider a SoCG necessary.

3 Status of Commonality

- 8 Table 2 lists the individual SoCGs developed between the Applicant and IPs with a summary of the current status of the document as of Deadline 8.

Table 2: List of documents and their status at Deadline 8.

DOCUMENT	STATUS AT DEADLINE 8
SoCG 01: NW LPAs	<p>A final version of this SoCG has been submitted at Document 8.30 of the Applicant's Deadline 8 submission.</p> <p>It has been signed by all parties with the exception of DCC who have not responded, although this is understood to be due to resourcing constraints rather than outstanding disagreements. DCC have made representations (including through their Local Impact Report (LIR) that the Applicant provided commentary on at REP2-004) on this matter to date and do not have any major concerns associated with SLVIA.</p> <p>The North Wales Local Planning Authorities (NW LPAs) (comprising IoACC, Conwy County Borough Council and ENP) have also signed a Joint Statement in relation to the Landscape Enhancement Scheme at Document 8.74 of the Applicant's Deadline 8 submission. DCC have similarly not signed this Joint Statement, although it is noted that whilst DCC are a signatory to the Section 106 planning agreement, they are not a beneficiary of the fund (as explained in Document 8.78 of the Applicant's Deadline 8 submission).</p>
SoCG 02: Denbighshire County Council (DCC)	A final version of this SoCG has been submitted at REP7-049.
SoCG 03: Conwy County Borough Council (CCBC)	A final SoCG has been submitted at Document 8.31 of the Applicant's Deadline 8 submission.

DOCUMENT	STATUS AT DEADLINE 8
SoCG 04: Isle of Anglesey County Council (IoACC)	A final SoCG has been submitted at Document 8.32 of the Applicant's Deadline 8 submission.
SoCG 05: NRW - SLVIA	A final SoCG has been submitted at Document 8.33 of the Applicant's Deadline 8 submission.
SoCG 06: NRW - Offshore	A final SoCG has been submitted at Document 8.34 of the Applicant's Deadline 8 submission.
SoCG 07: NRW - Onshore	A final SoCG has been submitted at Document 8.35 of the Applicant's Deadline 8 submission.
SoCG 08: Cadw	The final version of this SoCG is within the Examination Library at REP4-028.
SoCG 09: National Trust	A final SoCG has been submitted at Document 8.36 of the Applicant's Deadline 8 submission.
SoCG 10: Isle of Man (IoM)	A final SoCG has been submitted at Document 8.37 of the Applicant's Deadline 8 submission.
SoCG 11: MCA	A final version of this SoCG has been submitted at REP7-048.
SoCG 12: Trinity House	The final version of this SoCG is within the Examination Library at REP4-030.

DOCUMENT	STATUS AT DEADLINE 8
SoCG 13: CoS	The final version of this SoCG is within the Examination Library at REP4-031.
SoCG 14: RSPB	A final SoCG has been submitted at Document 8.38 of the Applicant's Deadline 8 submission.
SoCG 15: JNCC	The final version of this SoCG is within the Examination Library at REP4-029.
SoCG 16: NWWT	A final version of this SoCG has been submitted at REP7-047.

4 Summary of Commonality

- 9 This section provides a summary of the topics covered in each of the SoCGs.
- 10 As the examination progresses, the Applicant will populate this table to show where there is a commonality in the topics or matters being discussed with the stakeholders.
- 11 Table 4 presents a summary of the topics covered in each of the stakeholder SoCGs, using the following colour coding in Table 3.

Table 3: Summary of commonality key.

	Topic not relevant to the stakeholder or deferred.
	Awaiting inputs from the IP.
	Topic agreed.
	Ongoing point of discussion.
	Topic not agreed – no material impact.
	Topic not agreed – material impact.

Table 4: Summary of Commonality with each stakeholder in relation to each topic covered at Deadline 8.

5 Additional commentary

5.1 Deadline 1

12 The Applicant has not been in a position to provide initial SoCGs to the ExA at Deadline 1. However, initial SoCGs have been issued to all parties (except where noted above in Table 2 and are actively engaging positively with all IPs identified). The ExA should be confident that, whilst the Applicant has not provided initial SoCGs at Deadline 1, that outstanding matters are being discussed with the relevant IPs, and an update will be provided at subsequent deadlines. As noted in Section 8 of the Preliminary Meeting Note (EV-008), the Applicant advised that submissions of SoCGs at Deadline 1 are not generally considered to be helpful unless it has been agreed with the IP. It is also noted that the LPAs present at the Preliminary Meeting were in agreement with this position.

5.2 Deadline 2

13 The Applicant has been progressing SoCGs with parties since Deadline 1. The Applicant has re-contacted all parties to progress SoCGs and hopes to be able to submit progressed SoCGs at Deadline 3.

14 The ExA should be confident that, whilst the Applicant has not provided a complete set of initial SoCGs at Deadline 2, outstanding matters are being discussed with the relevant IPs, and an update will be provided at subsequent deadlines.

5.3 Deadline 3

15 The Applicant is pleased to be progressing with the SoCGs and has submitted seven SoCGs into the Examination at this deadline, in addition to the SoCG with MCA submitted at Deadline 2. The Applicant is making good progress with other SoCGs yet to be submitted and is engaging with IPs to ensure these can be submitted as soon as practical for both parties. The Applicant is also continuing discussion in regard to topics under ongoing discussions and hopes to be able to submit updated SoCGs at subsequent deadlines once positions have been reached.

5.4 Deadline 3a

- 16 The Applicant has submitted two additional SoCGs into examination between Deadline 3 and Deadline 3a with DCC and Cadw (AS-046 and AS-047, accepted at the discretion of the Examining Authority).
- 17 The Applicant took actions from ISH2 to progress SoCGs and provide updates at Deadline 4. Since ISH2, the Applicant confirms that all parties where SoCGs are outstanding have been re-contacted with the aim of progressing discussions such that a meaningful update can be given to the ExA at Deadline 4. It is noted that it was stated by the Applicant in ISH2 that the SoCG with CoS had been provisionally agreed for submission at Deadline 3a, however further clarification is required and an update will be provided at Deadline 4.
- 18 The Applicant has issued its signed final versions of SoCGs to Cadw and JNCC and is awaiting their returned counter-signed versions. The Applicant hopes to be able to issue these two SoCGs as final signed versions at Deadline 4.

5.5 Deadline 4

- 19 In line with the discussions at ISH2 (Section 5 of REP3a-004) the Applicant has made progress on all SoCGs and submitted progressed SoCGs with the NW LPAs, CCBC, IoM Government and NWWT.
- 20 The Applicant has included final signed versions in its Deadline 4 submission for Cadw, JNCC, Trinity House and CoS.
- 21 The only outstanding SoCG yet to be submitted to the Examination is that with RSPB. The Applicant confirms that a meeting has been arranged with RSPB and it is hoped that a draft SoCG will be submitted at Deadline 6.
- 22 On all SoCGs not yet agreed as final, the Applicant will continue to liaise with the interested parties to progress discussions and will provide updates at the earliest opportunity.

5.6 Deadline 5

23 The Applicant has submitted an updated SoCG with both the National Trust and NRW (Onshore SoCG) at Deadline 5. The Applicant is continuing discussions with stakeholders and hopes to provide further updated SoCGs and final SoCGs at Deadline 6.

5.7 Deadline 6

24 The Applicant has submitted further iteration of SoCGs with NRW (offshore and SLVIA), and DCC. Recognising that the Examination is due to formally close in 4 weeks' time, the Applicant is continuing to liaise with stakeholders and will provide final SoCGs at a subsequent deadline.

5.8 Deadline 7

25 The Applicant has submitted final SoCGs with DCC, MCA and NWWT at Deadline 7.

26 The Applicant is continuing to liaise with other IPs in working towards final SoCGs at Deadline 8.

5.9 Deadline 8

27 With the final SoCGs submitted at Deadline 8, the Applicant has submitted final versions of all SoCGs.

28 The final positions of IPs are summarised in Section 6.

6 Final positions

6.1 North Wales LPAs

- 29 A final SoCG has been submitted to the Examination at Document 8.33 of the Applicant's Deadline 8 submission.
- 30 Whilst there are some non-material disagreements in relation to the SLVIA methodology, the NW LPAs are in broad agreement with the SLVIA and its conclusions.
- 31 Material disagreement remains over the extent to which the project has mitigated significant effects through iterative design changes to the offshore array. In order to offset these effects the Applicant has committed to delivering a Landscape Enhancement Scheme as summarised in Document 8.22 of the Applicant's Deadline 8 submission.

6.2 DCC

- 32 A final SoCG has been submitted to the Examination at REP7-049. All matters covered by the SocG are agreed. There are no outstanding areas of disagreement.

6.3 Conwy County Borough Council

- 33 A final SoCG has been submitted to the Examination at Document 8.31 of the Applicant's Deadline 8 submission.
- 34 Whilst there is broad agreement between the parties on the assessment of tourism, disagreements remain over the identification of the baseline due to the Covid-19 pandemic and uncertainties over the assessment of impacts to the tourism economy.
- 35 The Applicant is discussing the potential for a tourism fund to be provided to CCBC and an update on these discussions is provided in Document 8.22 of the Applicant's Deadline 8 submission.
- 36 There is broad agreement with the baseline and assessment undertaken with regard to noise. However, disagreement remains regarding the proposed 50 dB level.

6.4 Isle of Anglesey County Council

- 37 A final SoCG has been submitted to the Examination at Document 8.32 of the Applicant's Deadline 8 submission. All matters covered by the SoCG in relation to skills and employment are agreed. There are no outstanding areas of disagreement.

6.5 NRW – SLVIA

- 38 A final SoCG has been submitted to the Examination at Document 8.33 of the Applicant's Deadline 8 submission.
- 39 There is broad agreement with the SLVIA methodology, except in relation to the application of NRW's technical guidance 'the White Consultants' Report', and the definitions of sensitivity of some visual receptors, where there is material disagreement. NRW is in broad agreement with the conclusions of the SLVIA, except where material and non-material disagreements are highlighted.
- 40 Disagreement also remains over the extent to which reductions to the offshore array through iterative design have mitigated significant effects. NRW consider it necessary for enhancement measures to be developed in accordance with the Welsh National Marine Plan. Therefore the Applicant has committed to delivering a Landscape Enhancement Scheme as summarised in Document 8.22 of the Applicant's Deadline 8 submission.
- 41 All matters in relation to the onshore LVIA are agreed, with no outstanding areas of disagreement.

6.6 NRW – Offshore

- 42 A final SoCG has been submitted to the Examination at Document 8.34 of the Applicant's Deadline 8 submission. All matters covered by the SoCG are agreed. There are no outstanding areas of disagreement.

6.7 NRW – Onshore

43 A final SoCG has been submitted to the Examination at Document 8.35 of the Applicant's Deadline 8 submission. All matters covered by the SoCG are agreed. There are no outstanding areas of disagreement.

6.8 Cadw

44 A final SoCG has been submitted to the Examination (REP4-028). All matters covered by the SoCG in relation to both onshore and offshore archaeology are agreed. There are no outstanding areas of disagreement.

6.9 National Trust

45 A final SoCG has been submitted to the Examination at Document 8.36 of the Applicant's Deadline 8 submission.

46 In relation to SLVIA, there is broad agreement in terms of its methodology, though disagreement remains over the characterisation and assessment of Penrhyn Castle. Lighting also remains a concern for National Trust in the context of the totality of landscape and visual harm.

47 Similarly to the NW LPAs and NRW, National Trust also question the extent to which the reductions made to the offshore array mitigate significant effects and consider that enhancement measures are required to offset effects. As mentioned previously, the Applicant has committed to a Landscape Enhancement Scheme as set out in Document 8.22 of the Applicant's Deadline 8 submission.

48 The Applicant notes that National Trust have not specified in the SoCG whether they consider the outstanding disagreements to be material or not.

49 In relation to tourism, National Trust are in agreement with the assessment methodology and its conclusions. National Trust wished to highlight that discussions pertaining to the potential tourism fund with CCBC (as set out in Document 8.22 of the Applicant's Deadline 8 submission) remain ongoing.

6.10 Isle of Man Government

- 50 A final SoCG has been submitted to the Examination at Document 8.37 of the Applicant's Deadline 8 submission.
- 51 In relation to offshore ornithology, there is broad agreement between the parties. Disagreement remains over the exclusion of little tern migration from the assessment, as well as the exclusion of Manx shearwater from the assessment of collision risk. However, these disagreements are both agreed as not being material to the conclusions of the assessment.
- 52 With regard to marine mammals, all matters are agreed with no outstanding areas of disagreement.
- 53 In relation to commercial fisheries, there is broad agreement with the assessment and its conclusions. Disagreement remains over the extent to which IoM fishing interests are referred to in the assessment specifically, however this disagreement is agreed as being non-material to the conclusions of the assessment.

6.11 MCA

- 54 A final SoCG has been submitted to the Examination at REP7-048. All matters covered by the SoCG are agreed. There are no outstanding areas of disagreement.

6.12 Trinity House

- 55 A final SoCG has been submitted to the Examination (REP4-030). All matters covered by the SoCG in relation to shipping and navigation are agreed. There are no outstanding areas of disagreement.

6.13 Chamber of Shipping

- 56 A final SoCG has been submitted to the Examination (REP4-031). The majority of matters covered by the SoCG in relation to shipping and navigation are agreed.

57 Whilst there are outstanding areas of disagreement relating to consultation and the risks of allision, it is agreed between the parties that these disagreements have no material bearing on the outcomes of the shipping and navigation assessments, which are otherwise agreed.

6.14 RSPB

58 A final SoCG has been submitted to the Examination at Document 8.38 of the Applicant's Deadline 8 submission.

59 Disagreement remains in relation to the conclusion of the offshore ornithology assessment in the Report to Inform Appropriate Assessment (RIAA), specifically with regard to the red-throated diver feature of the Liverpool Bay SPA.

60 There is, however, broad agreement in relation to all other aspects of the assessment of offshore ornithological interests.

6.15 JNCC

61 A final SoCG has been submitted to the Examination (REP4-029). All matters covered by the SoCG in relation to marine mammals are agreed. There are no outstanding areas of disagreement.

6.16 NWWT

62 A final SoCG has been submitted to the Examination at REP7-047. All matters in relation to marine ecology (benthic, subtidal and intertidal ecology, fish and shellfish ecology, and marine mammals) are either agreed, or it is agreed that disagreements are not material to the outcomes of the EIA.

63 With regard to onshore biodiversity and nature conservation, it is noted that this SoCG was originally intended to also cover this topic. However, it has been confirmed between the parties that the terrestrial team at NWWT are not in a position to comment on this topic. It is further noted that they have not made representations in relation to this topic during the course of the examination. Therefore this agreements log was removed from the SoCG in agreement with NWWT.

- 64 The Applicant's response to ExQ3.2.7 (REP7-004) explains that NWWT were part of the onshore ecology Expert Topic Group (ETG) via the Evidence Plan process during the pre-application phase, and a record of consultation comments received from NWWT and the Wildlife Trusts, along with how the Applicant has addressed them is contained within the Summary of Consultation Relating to Onshore Biodiversity and Nature Conservation (APP-136). Further information about consultation activities with NWWT during this stage can be found in the Evidence Plan Report and its supporting appendices (APP-301, APP-302 and APP-303).
- 65 It is not considered that there are any major areas of concern or disagreement between the Applicant and NWWT in relation to onshore biodiversity and nature conservation, based on their comments to date in the pre-application phase, and the absence of inputs during the examination on this matter. It is further noted that agreement logs on this topic are fully agreed with both NRW (REP5-030) and DCC (REP6-044).
