

## ACCOMPANIED SITE INSPECTION ITINERARY

### Application by Keadby Generation Limited for an Order Granting Development Consent for the Keadby 3 Carbon Capture Power Station

Date	Timings	Meeting location
Tuesday 12 April 2022	Meeting time: 09:30am Start time: 10:00am	The layby on the Keadby 2 site access road off the A18 (480397, 410244 <sup>1</sup> ). <i>The site access road is located within a 40MPH section of the A18 travelling west from Althorpe, and is marked with blue welcome signs.<sup>2</sup></i>

The final itinerary for the Accompanied Site Inspection (ASI) can be found below. Please read this carefully. Ordnance Survey National Grid references in the form of "(Easting, Northing)" are provided for locations in the itinerary where possible. The Applicant will ensure that copies of the itinerary and a [route map](#) are available on the day to assist those present.

Please note that the ASI is **not** an opportunity to provide any oral representations on the project or discuss evidence. It is an opportunity for the Examining Authority (ExA) to look at the physical features that can be seen on, or from, the sites. Participants may be invited by the ExA to point out specific features or sites of interest.

### Joining the ASI

The deadline by which parties were asked to confirm attendance at the ASI was Monday 28 February 2022. Due to security requirements, the requirement to wear Personal Protective Equipment (PPE) whilst on the development site, and because capacity on the vehicles that will be used for the ASI is limited, only those who notified the ExA by Monday 28 February 2022 will be able to attend.

All attendees are asked to assemble promptly at 9:30am as the ExA will not wait for parties who are not present at the start time. Attendees will need to organise their own transport to the ASI, and parts of the ASI will require travel in attendees' own vehicles and on foot. There is an option to leave the ASI early at stage 16.

### Health and safety

The Applicant will provide a health and safety briefing at the start of the ASI. Attendees will be required to wear PPE, including a hi-visibility jacket or vest, safety boots with ankle support, safety gloves and glasses, helmet, and long sleeve clothing/ long trousers. Appropriate PPE will be provided by the Applicant to those who require it if this was confirmed in an attendance request by Monday 28 February 2022.

<sup>1</sup> These are Ordnance Survey National Grid references in the form: "(Easting, Northing)".

<sup>2</sup> Please see **Annex A** of this document for a map with directions to the meeting location.

## Transport arrangements

The Applicant will provide transport for parts of the ASI, however some walking and some travel in attendees' own vehicles will be necessary. For logistical and safety reasons, capacity on the transport provided by the Applicant may be limited.

## Sites on private land

Access onto private land is at all times by permission of the person controlling it; landowners may refuse to allow some persons accompanying the ExA onto their land. Under those circumstances, the ExA will decide whether or not to proceed with that part of the ASI.

## Refreshments

Please note refreshments will not be provided. We will stop for lunch, however all attendees are expected to provide their own lunch.

## Cancellations

Please note that in the unlikely event that the ASI is cancelled, we shall endeavour to contact attendees beforehand, but we ask that you regularly check the [project webpage of the Planning Inspectorate's National Infrastructure Planning website](#) for any updates. We would also encourage attendees to [sign up for email updates](#) on the project webpage.

## COVID-19 – lateral flow testing and other precautions

Attendees should consider completing a lateral flow test<sup>3</sup> before arriving at the ASI. If you are experiencing any COVID-19 symptoms, please do not attend.

Vehicles provided by the Applicant will be used to transport attendees during certain parts of the ASI. The use of face masks will be required on-board, as will the opening of windows to promote clean airflow.

During the ASI, all attendees are expected to follow current and relevant COVID-19 guidelines imposed by the Government and [the Planning Inspectorate](#).

## Contact details

The Case Team can be reached on the day of the ASI on 0303 444 5000. To ensure the smooth running of the ASI, attendees should provide contact details for the day; notify the Case Team if there are any changes in attendance; and ensure the Planning Inspectorate is made aware of any special access requirements for any participants.
