

KEADBY 3 CARBON CAPTURE POWER STATION

A collaboration between **SSE Thermal** and **Equinor**

Document Ref: 10.9

Planning Inspectorate Ref: EN010114

The Keadby 3 (Carbon Capture Equipped Gas Fired Generating Station) Order

Land at and in the vicinity of the Keadby Power Station site, Trentside, Keadby, North Lincolnshire

**Proposed Development Changes:
Environmental Statement (ES) Addendum
– Volume III (ES Figures)**

The Planning Act 2008

The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017

Applicant: Keadby Generation Limited

Date: April 2022

Indicative Construction Laydown Areas

- Area 1
- Area 2a
- Area 2b
- Area 2c
- Area 3a
- Area 3b
- Area 3c

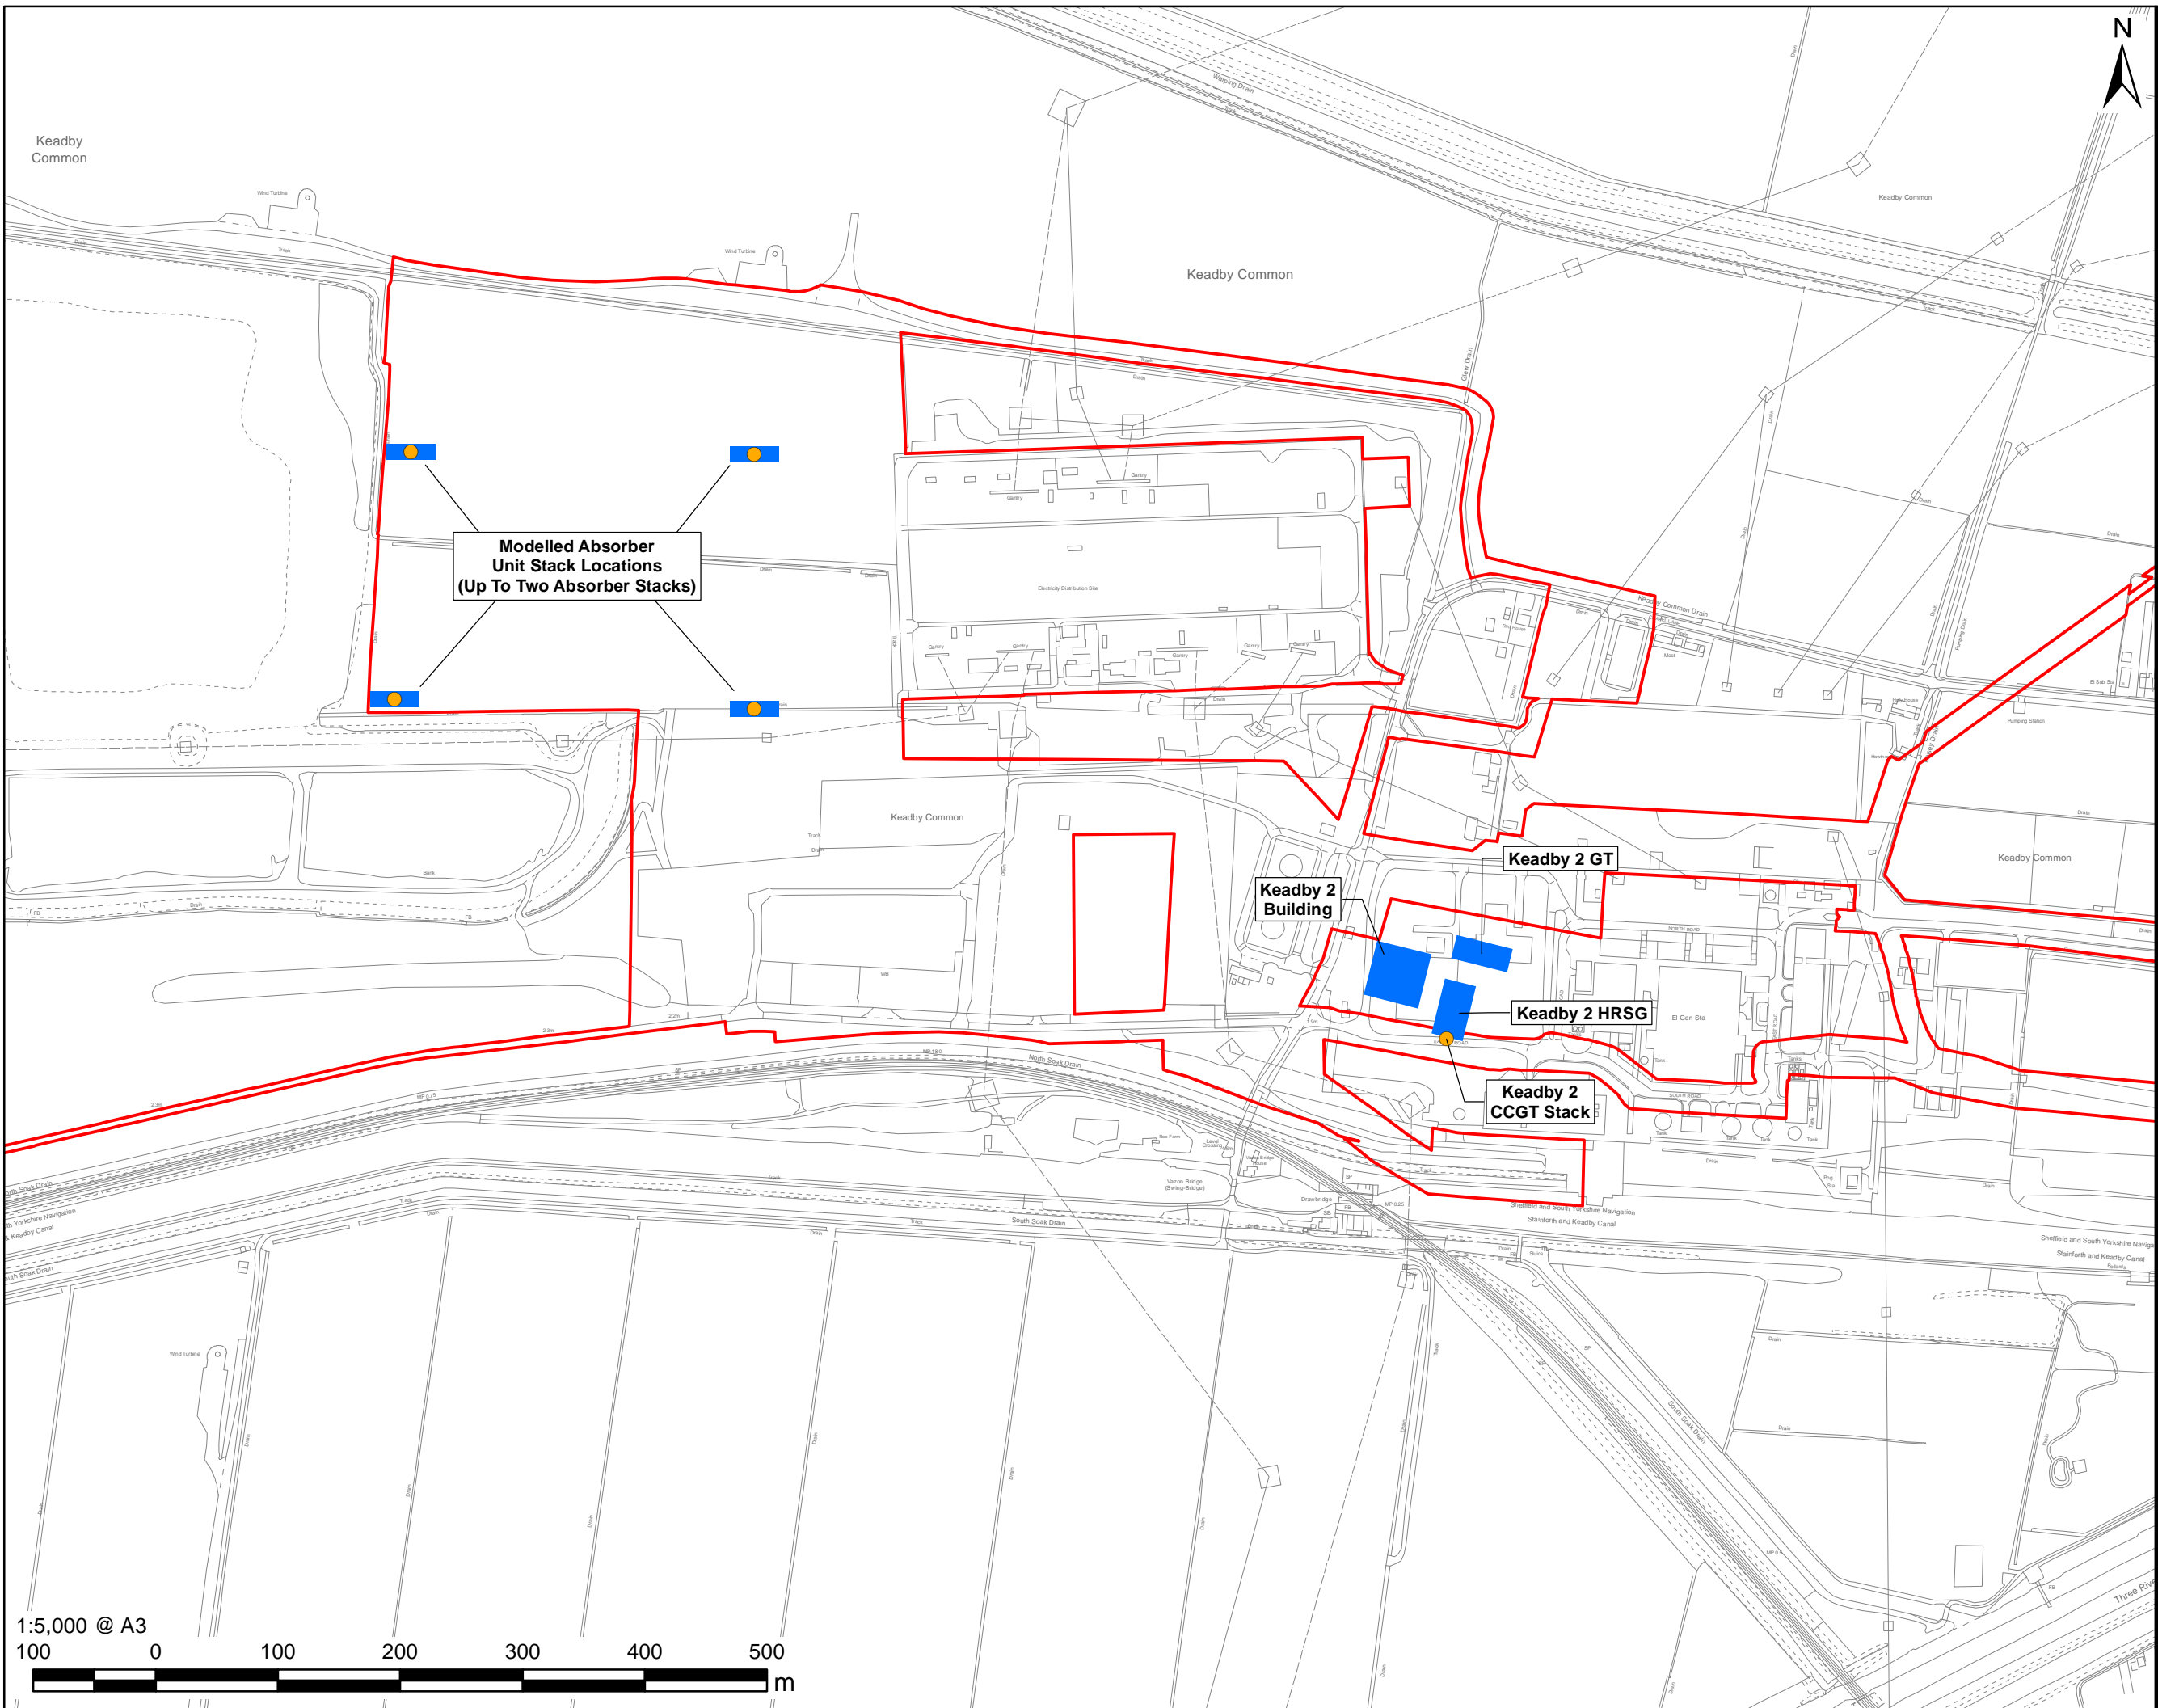

★ Construction/Operational Access to Proposed Development Site

Laydown Area (ha)	Anticipated Use	Approximate Duration and final restoration
Area 1 (0.44 ha)	Used for the Mabey Bridge replacement and A18 Junction Improvement works (Work 9C).	6 months then enhanced for biodiversity (refer to Application Document Ref. 5.10).
Area 2a (4 ha)	Area reserved primarily for equipment laydown, carpark and limited construction facilities. Single storey buildings may be installed in this location.	Restored to farmland at the end of the project
Area 2b (6.6 ha)	Area utilised for top soil and spoil management only.	Restored to farmland at the end of the project
Area 2c (2.6ha)	Area intended to be utilised for off-site parking, and equipment storage for construction.	Landscaped and used for biodiversity improvements once project construction is complete (refer to Application Document Ref. 4.15)
Area 3a (3.5 ha)	Area preserved during early project stages for fabrication and construction activities, prior to being utilised for construction of site services buildings for the operational life of the project.	This area is to be used for project support buildings for the life of the project (control building, demin water, warehouse and workshops, etc)
Area 3b (2.5)	Area primarily preserved for the Keadby 3 construction village and site services (Offices, Changing, mess, security and safety facilities). Carpark is anticipated to be also situated in this location	Will be restored once project is complete. Site will be utilised for outage facilities and for Keadby 2 Carbon Capture readiness requirements
Area 3c (1 ha)	Area utilised for spoil and material storage as part of the landscaping of the site.	For the life of the project. With the exception of land required for an emergency access/egress, the land will be landscaped for biodiversity gain once construction is complete. (Refer to Application Document Ref. 4.15)

Contains, or is based on, information supplied by the Forestry Commission. © Crown copyright and database right 2022. Ordnance Survey 100021242.

ZTV NOTE:
Zone of Theoretical Visibility (ZTV) has been generated using Ordnance Survey Terrain 5 digital terrain model which does not take account of the screening effects of vegetation, buildings or other structures. Buildings have been incorporated into the DTM from OS Open Map Local with an assumed height of 7.5m. Woodland from National Forest Inventory has also been incorporated into the DTM with an assumed height of 15m. ZTV is based upon a grid of points at 20m apart within the Main Site footprint at a height of 105m with an observer eye height of 1.6m. All heights mentioned are above ground level (AGL).

This drawing has been prepared for the use of AECOM's client. It may not be used, modified, reproduced or relied upon by third parties, except as agreed by AECOM or as required by law. AECOM accepts no responsibility and disclaims any liability whatsoever, to any party that uses or relies on this drawing without AECOM's express written consent. Do not scale this document.
