“Good morning, sir, yes you did. Thank you. Bron Curtis from Babergh District Council and I'll be speaking on agenda item 3.4 specifically effects on the landscape please.”

Recording Part 3

“Bron Curtis for Babergh District Council. Thanks, madam. Just to be very brief and not to repeat what colleagues from other authorities have already said, we have made a submission under relevant reps APP009 which sets out the concerns of Babergh District Council. We will be expanding on those in the LIR but just to make a couple of headline points and again to reiterate what County Council colleagues have said about inviting dialogue with the applicant. The concerns we have relate to a lack of information provided so far to demonstrate adequacy of cumulative effects assessment and visualisations in APP084 and APP180 to 196. We will also be pointing out concerns relating to the lack of response enhancements and compensation for landscape. Thank you.”

“Thank you, Sir. Bron Curtis, Babergh District Council. I’m just wanting to make the point that Babergh District Council have not been substantively engaged by the applicant on this project up to this date on this matter but would welcome that and would prefer to do that collectively with the other local authorities and the National Landscapes team, as we have used that model of collaborative working on other projects, which has worked well. Thank you.”

Kind regards,
