1. INTRODUCTION

1.1 Introduction

- 1.1.1 This document has been prepared to accompany an application by Five Estuaries Offshore Windfarm Limited ('the Applicant') for a Development Consent Order (DCO) under section 37 of the Planning Act 2008 for a new offshore windfarm 'Five Estuaries Offshore Windfarm' with an output in excess of 100MW.
- 1.1.2 The Project is a proposed extension project to the operational Galloper Offshore Wind Farm (Galloper) situated off the coast of Suffolk. The Project includes provision for the construction, operation, maintenance and decommissioning of an offshore wind farm located approximately 37 kilometres off the coast of Suffolk at its closest point in the southern North Sea; including up to 79 wind turbine generators and associated infrastructure making landfall at Sandy Point between Frinton-on-Sea and Holland-on-Sea, the installation of underground cables, and the construction of an electrical substation and associated infrastructure to the west of Little Bromley to connect the development to National Grid's proposed East Anglia Connection Node substation.
- 1.1.3 As the Project has a proposed generating capacity in excess of 100MW, it is a Nationally Significant Infrastructure Project under section 15(3) of the Planning Act 2008 ('the Act'). It therefore requires an application for a DCO to be submitted to the Planning Inspectorate under the Act.

1.2 Purpose of this document

- 1.2.1 This document provides a full list of all documents submitted with the Application. This includes the revisions numbers for each document and will be updated to include the Examination Library reference when available.
- 1.2.2 These documents are set out in Appendix 1
- 1.2.3 This is intended to be a live document and Appendix 1 will be updated whenever new documents or revisions are submitted after acceptance of the DCO application and during the examination period. The table will list the latest revision of each document and highlight when a new document was submitted.
- 1.2.4 This Guide to the Application provides an overview of the contents of the Application for the Five Estuaries DCO and signposts to the documents submitted to the Secretary of State (via the Planning Inspectorate), so that information can be easily found.
- 1.2.5 In addition, Appendix 2 contains a glossary of terms and common acronyms used throughout the DCO application.

1.3 Document categories

1.3.1 The application documents are split into eight volumes. The Environmental Statement contains seven individual parts. The designation 'Volume 7' is not used in the application. The designation 'Volume 10' will be used for documents added during Examination.

| Volume | Overview |
|--|--|
| 1. Application form | Provides details of the specific application information required by the Planning Inspectorate. |
| 2. Plans | Contains the plans which show where we propose to undertake work. |
| 3. Draft Development Consent Order | Outlines the legal powers sought by the Applicant to construct and maintain the Project. |
| 4. Compulsory Acquisition Information | Provides details of the powers of compulsory acquisition that are sought. |
| 5. Reports | Contains documents required to be submitted with the DCO application, including the consultation report. |
| 6. Environmental Statement | Contains information showing how the Applicant has assessed the potential impact on the environment. |
| 7. <i>Photographs (Not used in this application)</i> | <i>Contains photographs to support the application. (Not used in this application)</i> |
| 8. Additional Regulation 6 Information | Contains specified documents required to be submitted for an application for an offshore wind farm |
| 9. Other documents | Includes additional documents produced in support of the application. |
| 10. Examination documents | New documents submitted during the Pre-Examination and Examination period. |

APPENDIX 2: GLOSSARY

Table 2: Glossary of common terms used in application documents

| Term | Definition |
|-------------------------------------|---|
| 400 kV connection | 400 kV cable connection between the proposed VE substation (OnSS) and the grid connection point |
| Array boundary | Extent of the area where offshore wind turbines would be located |
| Array cables | Cables which connect the wind turbines to each other and to the offshore substation(s) |
| Cable Burial Risk Assessment (CBRA) | Risk assessment to determine suitable burial depths for cables, based upon hazards such as anchor strike, fishing gear interaction and seabed mobility. The CBRA is provided in Volume 9, Report 9: Outline Cable Burial Risk Assessment |
| Decommissioning | The period during which a development and its associated processes are removed from active operation. |
| Design Envelope | A description of the range of possible elements that make up the Five Estuaries design options under consideration, as set out in detail in the project description. This envelope is used to define Five Estuaries for Environmental Impact Assessment (EIA) purposes when the exact engineering parameters are not yet known. This is also often referred to as the “Rochdale Envelope” approach. |
| Development Consent Order | An order made under the Planning Act 2008 granting development consent for a Nationally Significant Infrastructure Project (NSIP) which would be approved by the relevant Secretary of State (SoS). |
| Environmental Impact Assessment | A statutory process by which certain planned projects must be assessed before a formal decision to proceed can be made. It involves the collection and consideration of environmental information, which fulfils the assessment requirements of the EIA Directive and EIA Regulations, including the publication of an Environmental Statement. |
| Environmental Statement | Environmental Statement (the documents that collate the processes and results of the EIA). |
| Export cable corridor (ECC) | The specific corridor of seabed (seaward of Mean High Water Springs (MHWS)) and land (landward of MHWS) from the Five Estuaries array area to the proposed substation areas, within which the export cables will be located. |
| Export Cables | Cables that transfer power from the offshore substation(s) or the converter station(s) to shore. |
| Grid Connection Point | The point at which the Onshore ECC connects to the National Grid. |
| Horizontal Direction Drill (HDD) | A trenchless crossing engineering technique using a drill steered underground without the requirement for open trenches. |
| Interconnector cables | Cables that may be required to interconnect the offshore substations in order to provide redundancy in the case of cable failure |

| | |
|---|---|
| | elsewhere, or to connect to the offshore accommodation platforms in order to provide power for operation. |
| Jointing Pit | An underground structure where sections of onshore cable are joined within cable ducts. |
| Landfall | The landfall denotes the location where the offshore export cables are brought ashore and jointed to the onshore cable circuits in TJBs. |
| Landfall Zone | Area considered for offshore cables coming ashore to be joined to the onshore cables |
| Maximum Design Scenario (MDS) | The maximum design parameters of the combined project assets that result in the greatest potential for change in relation to each impact assessed. |
| Mitigation | Mitigation measures, or commitments, are commitments made by the project to reduce and/or eliminate the potential for significant effects to arise as a result of the project. |
| Offshore substation | One or more offshore substations to convert the power to higher voltages and/or to HVDC and transmit this power to shore. |
| Onshore ECC | The Onshore ECC is the working area for the onshore cable construction. |
| OnSS | Where the power supplied from the wind farm is adjusted (including voltage, power quality and power factor as required) to meet the UK System-Operator Transmission-Owner Code for supply to the National Grid substation. |
| OnSS access zone | The area which will contain the final OnSS access route north of Ardleigh Road (both construction and operational). |
| OnSS construction zone | The area in which the final OnSS temporary construction compound (TCC) footprint will be located. |
| OnSS zone | The area in which the final operational OnSS footprint will be located. |
| Order Limits | The extent of development including all works, access routes, Temporary Construction Compounds (TCCs) and visibility splays. |
| Planning Inspectorate (PINS) | The agency responsible for operating the planning process for Nationally Significant Infrastructure Projects (NSIPs). |
| Pre-lay plough | Offshore cable laying construction equipment |
| Preliminary Environmental Information Report (PEIR) | The written output of the Environmental Impact Assessment undertaken for a proposed development. It is developed to support formal consultation and presents the preliminary findings of the assessment to allow an informed view to be developed of a proposed development, the assessment approach that has been undertaken, and the preliminary conclusions on the likely significant effects of a proposed development and environmental measures proposed. |
| Route section | A defined section of the onshore project. |
| Safety Zones | Legislated under the Energy Act 2004, safety zones are rolling buffer areas which protect construction activities by preventing unauthorised vessels from entering their boundary. |
| Scoping Opinion | A Scoping Opinion is adopted by the Secretary of State for a proposed development. |

| | |
|--|---|
| Scoping Report | A report that presents the findings of an initial stage in the Environmental Impact Assessment process. |
| Scour and Cable Protection | In order to prevent seabed scour around foundation structures and cables, cable protection may be placed on the seabed to protect from current and wave action. |
| Secretary of State | The authority who makes the decision to grant development consent. |
| Side Scan Sonar (SSS) | Side-imaging sonar used to create an image of the seafloor. |
| Single-beam and multi-beam echo sounders (SBES and MBES) | A type of sonar which transmits soundwaves, using the time taken between emission and return to establish a depth. This can be done using singular or multiple beams. |
| Subtidal | The region of shallow waters which are below the level of low tide. |
| The Applicant | The company Five Estuaries Offshore Wind Farm Ltd. |
| Transition Joint Bay | Transition Joint Bay is an underground concrete unit where the offshore cable is jointed to the onshore cable. |
| Trenchless crossing technique | In most instances where a crossing constraint is encountered a trenchless crossing technique, such as HDD (or another trenchless crossing techniques) will be used. |
| Wind turbine foundation | The wind turbines are attached to the seabed with a foundation structure typically fabricated from steel or concrete. |
| Wind Turbine Generator | All of the components of a wind turbine, including the tower, nacelle, and rotor. |

Table 3: List of common acronyms used in application documents

| Term | Definition |
|-------------|---|
| AEZ | Archaeological Exclusion Zones |
| AIL | Abnormal Indivisible Load |
| AIS | Automatic Identification System |
| AIS | Air Insulated Switchgear |
| AoNB | Area of Outstanding Natural Beauty |
| Array areas | The area where the WTGs will be located. |
| ASNW | Ancient and semi-natural woodlands |
| BEIS | Department for Business, Energy and Industrial Strategy |
| BNG | Biodiversity Net Gain |
| CAA | Civil Aviation Authority |
| CBRA | Cable Burial Risk Assessment |
| CBS | Cement Bound Sand |
| CEA | Cumulative Effects Assessment |
| Cefas | Centre for Environment, Fisheries and Aquaculture Science |
| CfD | Contract for Difference |
| CIEEM | Chartered Institute of Ecology and Environmental Management |
| CoCP | Code of Construction Practice |
| CoSHH | Control of substances hazardous to health |
| CPS | Cable Protection Systems |

| | |
|-------|--|
| CTMP | Construction Traffic Management Plan |
| CTVs | Crew Transfer Vessels |
| DCO | Development Consent Order |
| dDCO | draft Development Consent Order |
| DESNZ | Department for Energy Security and Net Zero |
| DOB | Depth of burial |
| DOE | Depth of Excavation |
| DP | Dynamic Positioning |
| EA | Environment Agency |
| EACN | East Anglia Connection Node (substation) |
| ECC | Essex County Council |
| ECC | Export Cable Corridor |
| EEA | European Economic Area |
| EIA | Environmental Impact Assessment |
| EMF | Electromagnetic Field |
| ES | Environmental Statement |
| ESC | East Suffolk Council |
| ETG | Expert Topic Group |
| FRA | Flood Risk Assessment |
| GBS | Gravity Based Structure |
| GIS | Gas Insulated Switchgear |
| HAT | Highest Astronomical Tide |
| HDD | Horizontal Directional Drilling |
| HDPE | High Density Polyethylene |
| HGV | Heavy Goods Vehicle |
| HHA | Harwich Harbour Authority |
| HRA | Habitats Regulation Assessment |
| HSC | Historic Seascape Character |
| HSE | Health and Safety Executive |
| HVAC | High Voltage Alternating Current |
| IEEM | Institute of Ecology and Environmental Management |
| IEMA | Institute of Environmental Management and Assessment |
| IPS | Intermediate Peripheral Structure |
| JUVs | Jack-up vessels |
| LAT | Lowest Astronomical Tide |
| LBBG | Lesser Black-backed Gull |
| LEMP | Landscape and Ecology Management Plan |
| LGV | Light Goods Vehicles |
| LLFA | Lead Local Flood Authority |
| LSE | Likely Significant Effect |
| LVIA | Landscape and Visual Impact Assessment |
| MAP | Main Access Platform |
| MCA | Maritime and Coastguard Agency |
| MCAA | Marine and Coastal Access Act 2009 |
| MDS | Maximum Design Scenario |
| MFE | Mass flow excavator |

| | |
|-------------|---|
| MHWS | Mean High Water Spring |
| MLWS | Mean Low Water Spring |
| MMMP | Marine Mammal Mitigation Protocol |
| MMO | Marine Management Organisation |
| MOT | Ministry of Transport |
| MSL | Mean Sea Level |
| MW | megawatts |
| NE | Natural England |
| NF | North Falls Offshore Wind Farm |
| NFFO | National Federation of Fishermen's Organisations |
| NG | National Grid |
| NGET | National Grid Electricity Transmission |
| NH | National Highways |
| North Falls | North Falls Offshore Wind Farm |
| NPS | National Policy Statement |
| NR | Network Rail |
| NRA | Navigation Risk Assessment |
| NSIP | Nationally Significant Infrastructure Project |
| NtMs | Notices to Mariners |
| O&M | Operations and Maintenance |
| OCSS | Offshore Coordination Support Scheme |
| OLEMP | Outline Landscape and Ecological Management Plan |
| OnSS | Onshore Substation |
| OSP | Offshore Substation Platform |
| OSPs | Offshore Substation Platforms |
| OTNR | Offshore Transmission Network Review |
| OWF | Offshore Wind Farm |
| PAMP | Public Access Management Plan |
| PD | Project Description |
| PEIR | Preliminary Environmental Information Report |
| PEIR | Preliminary Environmental Information Report |
| PIL | Persons with an interest in the land |
| PINS | The Planning Inspectorate |
| PLA | Port of Lond Authority |
| PLGR | Pre-Lay Grapnel Run |
| PRoW | Public Rights of Way |
| PVMs | Permanent vessel moorings |
| RIAA | Report to Inform Appropriate Assessment |
| RLB | Red Line Boundary |
| SAC | Special Areas of Conservation |
| SAR | Search and Rescue |
| SCADA | Supervisory Control and Data Acquisition |
| SCC | Suffolk County Council |
| SCHAONB | Suffolk Coast & Heaths Area of Outstanding Natural Beauty |
| SLVIA | Seascape, Landscape and Visual Impact Assessment |
| SMA | Stone Mastic Asphalt |

| | |
|---------|---|
| SoCC | Statement of Community Consultation |
| SoS | Secretary of State |
| SOVs | Service Operation Vessels |
| SPA | Special Protection Area |
| SPS | Significant Peripheral Structure |
| SSSI | Site of Special Scientific Interest |
| SuDS | Sustainable drainage system |
| TCC | Temporary Construction Compound |
| TDC | Tendring District Council |
| THLS | Trinity House Lighthouse Service |
| TJB | Transition Joint Bay |
| TJBs | Transition Joint Bays |
| TP | Transition Piece |
| UTROV | Utility Remotely Operated Vehicle |
| UXO | Unexploded Ordnance |
| VE | Five Estuaries (Offshore Wind Farm) |
| VE OWFL | Five Estuaries Offshore Wind Farm Limited |
| VTS | Vessel Traffic Services |
| WSI | Written Scheme of Investigation |
| WTG | Wind Turbine Generators |
| WTP | Workforce Travel Plan |
| ZOI | Zone of Influence |
| ZTV | Zone of Theoretical Visibility |
