

**Transboundary screening undertaken by the Planning Inspectorate (the Inspectorate) on behalf of the Secretary of State (SoS) for the purposes of Regulation 32 of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (the 2017 EIA Regulations)**

<b>Project name:</b>	North Lincolnshire Green Energy Park
<b>Address/Location:</b>	The Proposed Development is located north of Scunthorpe, near Flixborough Port and adjacent to the River Trent and the Flixborough Industrial Estate, Flixborough DN15 8SF
<b>Planning Inspectorate Ref:</b>	EN010116

**TRANSBOUNDARY SCREENING**

<b>Document(s) used for transboundary screening:</b>	North Lincolnshire Green Energy Park Environmental Impact Assessment Scoping Report ('the Scoping Report')
--	--

The Inspectorate on behalf of the SoS has considered the Proposed Development which comprises an Energy Recovery Facility able to generate up to 100MWe, a waste treatment facility, feedstock storage for up to 13,000 tonnes of refuse derived fuel, an expansion of the existing riverside wharf, a new railhead and reinstatement of an existing 6km of railway, access roads, offices and business and tourist centres, a carbon dioxide facility and a polymer production facility.

The Inspectorate concludes that the Proposed Development **is unlikely to have a significant effect either alone or cumulatively on the environment in another European Economic Area State**. In reaching this conclusion the Inspectorate has identified and considered the Proposed Development's likely impacts including consideration of potential pathways and the extent, magnitude, probability, duration, frequency and reversibility of the impacts.

The Inspectorate considers that the likelihood of transboundary effects resulting from the Proposed Development is so low that it does not warrant the issue of a detailed transboundary screening. However, this position will remain under review and will have regard to any new or materially different information coming to light which may alter that decision.

**Action:** No further action required at this stage.

**Date:** 09 December 2020

**Note:** The SoS' duty under Regulation 32 of the 2017 EIA Regulations continues throughout the application process.

## TRANSBOUNDARY RE-SCREENING

<b>Document(s) used for transboundary screening:</b>	North Lincolnshire Green Energy Park Report to Inform Habitat Regulations Assessment (Document Reference 5.9) North Lincolnshire Green Energy Park Environmental Statement (Document Reference 6.2)
--	--

The Inspectorate has re-considered the likelihood of transboundary effects resulting from the Proposed Development, taking into account any changes that have been made to the Proposed Development since the previous transboundary screening process was undertaken.

The Inspectorate considers that the Proposed Development is **unlikely to have a significant effect either alone or cumulatively on the environment in a European Economic Area State**. This position will remain under review and will have regard to any new or materially different information coming to light which may alter that decision.

**Action:** No further action required at this stage.

**Date:** 6 July 2022

**Note:** The SoS' duty under Regulation 32 of the 2017 EIA Regulations continues throughout the application process.

### **Note:**

The Inspectorate's screening of transboundary issues is based on the relevant considerations specified in the Annex to its Advice Note Twelve, available on our website at <http://infrastructure.planninginspectorate.gov.uk/legislation-and-advice/advice-notes/>
