

The draft itinerary for the ASI needs to include sites previously visited by the planning inspectorate during the unaccompanied site inspection in September 2022. The applicant in their draft have only proposed to visit places within the development boundary but have to not include areas which will be affected just outside of the site boundary. As I work I have- yet again- been excluded from taking part in the ASI. I would like co ordinates: 53.617506,-0.703477 (What three words ref: Tunes.lime.garden) to be visited during this. Visiting Trentside, Amcotts at this location, particularly during winter, will help the planning inspectorate see the impact the project will have on the village of Amcotts now there is no natural protection from the limited screening which helps reduce the impact of the wharf.
