

North Lincolnshire Green Energy Park Project – Examination of Development Consent Order

Further Representations on behalf of AB Agri Limited
12 January 2023

Planning Inspectorate Ref: EN010116
Interested Party Ref: 20032351

- 1.1 These Further Written Representations have been prepared on behalf of AB Agri Limited and provide our response to the information submitted at Deadline 2, and circulated in subsequent informal discussions between the Appellant and AB Agri.
- 1.2 AB Agri submitted Written Representations to Deadline 2, which expanded on the matters raised in our Relevant Representations, which collectively addressed the following matters relating to AB Agri's long-standing animal feed mill adjacent to the application proposals:
- Risks to Biosecurity
 - Flood Risk
 - Access to AB Agri's facility
 - Temporary Acquisition
- 1.3 These Further Written Representations do not seek to repeat the detailed points raised in these previous submissions, as these are all matters of public record.
- 1.4 AB Agri and its representatives have reviewed the additional documentation submitted, and had further informal discussions with the appellant relative to flood risk. However, none of the information that has been issued by the appellant addresses the concerns and objections raised by AB Agri. As such, the representations previously submitted are still relevant in their entirety.
