

Comments on responses to the ExA's ExQ2 at deadline 6

Operational Noise: the applicant says that the noise assessment will be 'submitted at a later deadline'. There are only 3 deadlines left so when does the applicant intend to do this so it is clear to residents of the surrounding villages just how they will be affected by noise from the proposed project? IPs need time to see the documents and be able to comment on them. The applicant also states they have updated ES Chapter 19 "mitigation and have submitted this at deadline 6. An updated ES Chapter 19 does not appear to be in the applicant's submitted documents.

Setting of Listed Buildings: the applicant acknowledged that the Flixborough Nunnery Scheduled Monument will be impacted by the development and the impact will have an 'overall moderate adverse effect'. Can the applicant explain how this impact could be mitigated, if at all? Having an impact on a listed building/site would affect the areas' heritage assets.

Outstanding Reports on the Historic Environment: the fact the applicant cannot make these reports available before deadline 9 does not allow myself, as an interested party, to look at these reports and enable me to make a submission relating to these.
