

Rampion 2 Wind Farm Category 1: Application Form

Draft Section 55 Acceptance of Applications Checklist

Date: August 2023
Revision A

Application Reference: 1.3
Pursuant to: APFP Regulation 5(2) (q)
Ecodoc Reference: 004884990-01

Section 55 Acceptance of Applications Checklist

Section 55 of the Planning Act 2008 can be viewed at [legislation.gov.uk](http://www.legislation.gov.uk), here:

<http://www.legislation.gov.uk/ukpga/2008/29/section/55>

DISCLAIMER: This Checklist is for information only and is not a formal application document. It is a non-statutory checklist for the Planning Inspectorate to complete. Completion or self-assessment by the Applicant does not hold weight at the Acceptance stage. Unless specified, all references to the Planning Inspectorate are made in relation to functions being carried out on behalf of the Secretary of State for Housing, Communities and Local Government.

Section 55(2) Acceptance of Applications				
1	Within 28 days (starting day after receipt) the Planning Inspectorate must decide whether or not to accept the application for Examination.	Date received	28 day due date	Date of decision
Section 55(3) – the Planning Inspectorate may only accept an application if it concludes that:			Planning Inspectorate comments	
Section 55(3)(a) and s55(3)(c): It is an application for an order granting development consent				
2	Is the development a Nationally Significant Infrastructure Project ¹ (NSIP) (or does it form part of an NSIP); and does the application state on the face of it that it is an application for a Development Consent Order ² (DCO) under the Planning Act 2008 (the PA2008), or equivalent words? Does the application specify the development to which it relates (i.e. which category or categories in ss14 to 30 does the Proposed Development fall)?	<p>Yes</p> <p>The proposed development set out in the Application Form (document reference 1.2) and the draft Development Consent Order (document reference 3.1) is a Nationally Significant Infrastructure Project (NSIP), as a development falling within the categories in s14(1)(a) and s15(3) of the Planning Act 2008.</p> <p>This is consistent with the summary provided in the Application Form in Box 4 which states that the project will comprise a new offshore generating station with an installed capacity of over 100 megawatts and which therefore concludes that the</p>		

¹ NSIP is defined generally in s14 with the detailed thresholds for each of the specified categories being set out in ss15 to 30

² Development consent is required for development to the extent that the development is or forms part of an NSIP (s31 of the PA2008)

	If the development does not fall within the categories in ss14 to 30, has a direction been given by the Secretary of State under s35 of the PA2008 for the development to be treated as development for which development consent is required?	Application is for a NSIP as defined by sections 14(1)(a) and 15(3) of the Planning Act 2008.
3	Summary: Section 55(3)(a) and s55(3)(c)	The draft DCO (document reference 3.1) Schedule 1 and Section 4 of the Application Form (document reference 1.2) demonstrate that the application as submitted is an application for an order granting development consent under the PA 2008.
Section 55(3)(e): The Applicant in relation to the application made has complied with Chapter 2 of Part 5 (pre-application procedure)		
4	In accordance with the EIA Regulations ³ , did the Applicant (prior to carrying out consultation in accordance with s42) either (a) request the Planning Inspectorate adopt a Screening Opinion in respect of the development to which the application relates, or (b) notify the Planning Inspectorate in writing that it proposed to provide an Environmental Statement in respect of that development?	<p>a) The Applicant issued a Scoping Report to the Secretary of State on 2 July 2020 and requested a Scoping Opinion in accordance with Regulation 8 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009. A Scoping Opinion (document reference 6.4.5.1) for the project was adopted by the Secretary of State on 11 August 2020.</p> <p>See Appendix 5.2 of the Environmental Statement (document reference 6.4.5.2) for the Scoping Opinion.</p> <p>b) The Applicant confirmed that it would be submitting an Environmental Statement in respect of the development in a letter dated 2 June 2020 (document reference 5.1).</p>
5	Have any Adequacy of Consultation Representations ⁴ been received from 'A', 'B', 'C' and 'D' local authorities; and if so, do they confirm	The Planning Inspectorate (PINS) to complete

³ Regulation 8 of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (2017 EIA Regulations), or where Regulation 37 of the 2017 EIA Regulations applies, Regulation 6 of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2009 (2009 EIA Regulations)

⁴ Section 55(4) of the PA2008 provides that the Planning Inspectorate must have regard to the Consultation Report, and any Adequacy of Consultation Representations received

	that the Applicant has complied with the duties under s42, s47 and s48?	
Section 42: Duty to consult		
Did the Applicant consult the applicable persons set out in s42 of the PA2008 about the proposed application?		
6	Section 42(1)(a) persons prescribed ⁵ ?	<p>Yes</p> <p>The Applicant consulted all relevant persons prescribed under the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (see Appendices 4.2, 6.2 7.2 and 8.2 of the Consultation Report (document reference 5.1) for a full list of the addresses sent information under section 42 and a sample letter sent to notify those bodies of the consultation. Below is a list of the relevant section 42(1)(a) bodies identified for the Project wide statutory consultation and Onshore statutory consultation:</p> <ul style="list-style-type: none"> • High Weald Area of Outstanding Natural Beauty • The Chichester Harbour Conservancy • Isle of Wight Area of Outstanding Natural Beauty • Canal and River Trust • Civil Aviation Authority • The Coal Authority • The Crown Estate • The Environment Agency • The Forestry Commission • OFGEM • Health and Safety Executive • Historic England • The Joint Nature Conservation Committee

⁵ Statutory consultees set out in Schedule 1 of The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (APFP Regulations)

		<ul style="list-style-type: none"> • The Marine Management Organisation • The Marine Maritime and Coastguard Agency • National Air Traffic Services • NHS England – South East • NHS West Sussex CCG • Natural England • Office of Road and Rail • Network Rail Infrastructure Ltd • Highways England Historical Railways Estate • Public Health England • West Sussex Fire and Rescue Service • West Sussex County Council (as the relevant Highways Authority) • Highways England – South east • River Arun Internal Drainage District c/o Environment Agency • Sussex Police and Crime Commissioner • Ministry of Defence • Trinity House • Shoreham Port • Royal National Lifeboat Institute • Relevant Parish Councils
7	Section 42(1)(aa) the Marine Management Organisation ⁶ ?	<p>Yes</p> <p>The Applicant consulted with the Marine Management Organisation (see Appendix 4.2 of the Consultation Report (document reference 5.1)).</p>
8	Section 42(1)(b) each local authority within s43 ⁷ ?	<p>Yes</p>

⁶ In any case where the Proposed Development would affect, or would be likely to affect, any of the areas specified in s42(2) of the PA2008

⁷ Definition of 'local authority' in s43(3) of the PA2008: The 'B' authority where the application land is in the authority's area; the 'A' authority where any part of the boundary of A's area is also a part of the boundary of B's area; the 'C' authority (upper tier) where the application land is in that authority's area; the 'D' authority (upper tier) where such an authority shares a boundary with a 'C' authority

		<p>The Applicant consulted with each local authority identified under Section 43. See Appendices 4.2, 6.2 7.2 and 8.2 of the Consultation Report (document reference 5.1) for a full list of the addresses sent information under section 42 and a sample letter sent to notify those bodies of the consultation. Below is a list of the relevant section 42(1)(b) bodies identified for the Project wide statutory consultation and Onshore statutory consultation.</p> <ul style="list-style-type: none"> • Mid Sussex District Council • Horsham District Council • Arun District Council • West Sussex County Council • South Downs National Park Authority • Brighton and Hove City Council • Adur & Worthing District Council • Chichester District Council • Crawley Borough Council • Mole Valley District council • Tandridge District Council • Waverly Borough Council • Wealden District Council • Essex Sussex County Council • Hampshire County Council • Surrey County Council • Havant Borough Council • Isle of Wight Council • Portsmouth City Council
9	Section 42(1)(c) the Greater London Authority (if in Greater London area)?	<p>Not Applicable</p> <p>The duty to consult the Greater London Authority only arises if the land to which the development relates is in Greater London. The land for the project is within the county of West Sussex.</p>

10	Section 42(1)(d) each person in one or more of s44 categories ⁸ ?	<p>Yes</p> <p>The Applicant consulted all persons identified under Section 44, being persons with a relevant interest in land affected by the project (see the Book of Reference (document reference 4.3)) for the full list), by letter (examples included in Appendix 4.3, 6.3, 7.3, 8.3, 9.1 and 10.1 of the Consultation Report (document reference 5.1)). How the consultation was carried out is described in sections 6.3, 7.3, 8.3, 9.3, 10.3 and 11.3 of the Consultation Report (document reference 5.1).</p>
Section 45: Timetable for s42 consultation		
11	Did the Applicant notify s42 consultees of the deadline for receipt of consultation responses; and if so was the deadline notified by the Applicant 28 days or more starting with the day after receipt of the consultation documents?	<p>Yes</p> <p>The Applicant undertook a first round of Statutory Consultation pursuant to section 42 from 14 July 2021 to 16 September 2021. All consultees were notified of the consultation by letter sent on 13 July 2021 (and by email where possible). The consultees were advised of the date on which the consultation was to close, with a period of 63 days allowed for comment. Consultees therefore had in excess of 28 days from their receipt in which to respond. A copy of the letter sent to section 42 consultees can be found in Appendix 4.2 of the Consultation Report (document reference 5.1).</p> <p>The consultation ran in parallel to the consultation under sections 47 and 48 of the Planning Act 2008.</p> <p>A second round of Statutory Consultation was carried out from 18 October 2022 to 29 November 2022 with section 42 consultees notified by letter sent on 14 October 2022 (and by email where possible). The consultees were again notified of the date on which the consultation was to close, with a period of 42 days allowed for comment. Consultees therefore had in excess of 28 days from their receipt in which to respond. A copy of the letter sent to section 42 consultees can be found in Appendix 6.2 of the Consultation Report.</p>

⁸ Category 1: owner, lessee, tenant or occupier of land; Category 2: person interested in the land or has power to sell and convey the land or to release the land; Category 3: persons who would or might be entitled to make a relevant claim. There is no requirement on the Planning Inspectorate to check the accuracy of the list(s) provided or whether the Applicant has made diligent inquiry

		This consultation was again run in parallel to consultation under sections 47 and 48 of the Planning Act 2008.
Section 46: Duty to notify the Planning Inspectorate of proposed application		
12	Did the Applicant supply information to notify the Planning Inspectorate of the proposed application; and if so, was the information supplied to the Planning Inspectorate on or before the date it was sent to the s42 consultees? Was this done on or before commencing consultation under s42?	<p>Yes</p> <p>The Applicant notified the Planning Inspectorate of the proposed application on 14 July 2021 by way of a formal cover letter and package including the consultation documents made available as part of the Statutory Consultation. The package was sent to the Planning Inspectorate on 13 July 2021, before the date of commencement of the formal consultation on 14 July 2021. A copy of this letter and the acknowledgement of receipt can be found in Appendix 4.5 of the Consultation Report (document reference 5.1).</p> <p>The same exercise was undertaken in respect of the second round of Statutory Consultation with the relevant information sent to the Planning Inspectorate on 14 October 2022 before the consultation commenced. A copy of this letter and the acknowledgement of receipt can be found in Appendix 6.5 of the Consultation Report (document reference 5.1).</p>
Section 47: Duty to consult local community		
13	Did the Applicant prepare a Statement of Community Consultation (SoCC) on how it intended to consult people living in the vicinity of the land?	<p>Yes</p> <p>A copy of the final SoCC which informed the first round of Statutory Consultation is provided in Appendix 4.1 of the Consultation Report (document reference 5.1). An Updated SoCC was prepared in relation to the second round of Statutory Consultation, a copy of which is provided in Appendix 6.1 of the Consultation Report (document reference 5.1).</p>
14	Were 'B' and (where relevant) 'C' authorities consulted about the content of the SoCC; and if so, was the deadline for receipt of responses 28 days beginning with the day after the day that 'B' and (where applicable) 'C' authorities received the consultation documents?	<p>Yes</p> <p>The Applicant consulted with B and C Authorities on the contents of the SoCC. The draft SoCC was sent to the local authorities on 25 March 2021 and responses were requested by 28 April 2021 (34 days in total). See Section 6.5 of the Consultation Report (document reference 5.1) contained more information on this process. Appendix 4.1 includes the draft SoCC, the letter to local authorities:</p>

		<ul style="list-style-type: none"> • Arun District council • Horsham District Council • Mid Sussex District Council • South Downs National Park Authority • West Sussex County Council • East Sussex County Council • Adur District Council • Worthing Borough Council • Chichester District Council • Brighton and Hove City Council • Eastbourne Borough Council • Lewes District Council • Isle of Wight Council • Wealden District Council • Marine Management Organisation. <p>The Applicant consulted the same authorities as part of the second Statutory Consultation with the draft Updated SoCC issued on 23 March 2022 before being withdrawn due to resource availability and reissued on 20 April 2022 until 18 May 2022, 28 days in total. See Section 7.5 of the Consultation Report (document reference 5.1).</p>
15	Has the Applicant had regard to any responses received when preparing the SoCC?	<p>Yes</p> <p>Comments on the draft SoCC were received from the following Local Authorities:</p> <ul style="list-style-type: none"> • Arun District Council • Horsham District Council • Mid Sussex District Council • South Downs National Park Authority • West Sussex County Council <p>Comments on the draft Updated SoCC were received from the following Local Authorities:</p> <ul style="list-style-type: none"> • Horsham District Council • South Downs National Park Association

		<ul style="list-style-type: none"> • West Sussex County Council <p>Appendices 4.1 and 6.1 of the Consultation Report (document reference 5.1) summarises each set of responses to the two consultations and how each response was addressed in the Applicant's final SoCC and Updated SoCC respectively.</p>
16	<p>Has the SoCC been made available for inspection in a way that is reasonably convenient for people living in the vicinity of the land; and has a notice been published in a newspaper circulating in the vicinity of the land which states where and when the SoCC can be inspected?</p>	<p>Yes</p> <p>Notice for the SoCC was publicised in five local newspapers between 7 and 10 June 2021 (first round of Statutory Consultation), and for the Updated SoCC between 12 and 14 October 2022 (second round of Statutory Consultation) in accordance with section 47(6) of the 2008 Act.</p> <p>Copies of each of the SoCC notice and Updated SoCC notice as they appeared in each of these publications are included in Appendices 4.1 and 6.1 of the Consultation Report (document reference 5.1) respectively.</p> <p>The SoCC and Updated SoCC were each made available for inspection by the public in hard copy at the libraries listed in Appendices 4.1 and 6.1.</p> <p>Project wide statutory consultation – section 47 notices</p> <ul style="list-style-type: none"> • Mid Sussex Times - 10 June 2021 • Sussex Express - 11 June 2021 • The Argus - 7 and 8 June 2021 • West Sussex County Times - 10 June 2021 • West Sussex Gazette - 9 June 2021 <p>Project wide statutory consultation – SoCC deposit locations</p> <ul style="list-style-type: none"> • Seaford Library • Newhaven Library • Peacehaven Library • Jubilee Library • Hove Library • Portslade Library • Southwick Library • Shoreham-by-Sea Library • Worthing Library

		<ul style="list-style-type: none"> • Ferring Library • Rustington Library • Littlehampton Library • Bognor Regis Library • Selsey Library • Arundel Library • Storrington Library • Henfield Library <p>Onshore statutory consultation – section 47 notices</p> <ul style="list-style-type: none"> • Isle of Wight Press - 14 October 2022 • Mid Sussex Times - 13 October 2022 • Sussex Express - 14 October 2022 • The Argus - 12 October 2022 • West Sussex County Times - 13 October 2022 • West Sussex Gazette - 12 October 2022 <p>Onshore statutory consultation – SoCC deposit locations</p> <ul style="list-style-type: none"> • Ferring Library • Littlehampton Library • Bognor Regis Library • Arundel Library • Storrington Library • Henfield Library • Steyning Library.
17	Does the SoCC set out whether the development is EIA development ⁹ ; and does it set out how the Applicant intends to publicise and consult on the Preliminary Environmental Information?	<p>Yes</p> <p>The SoCC and Updated SoCC each state that the proposed development is EIA development.</p> <p>The SoCC outlines how the preliminary environmental information (PEI) would be made available and consulted on during the consultation period, with both statutory consultees and the wider community. The Updated SoCC outlines how the</p>

⁹ Regulation 12 of the 2017 EIA Regulations, or where Regulation 37 of the 2017 EIA Regulations applies, Regulation 10 of the 2009 EIA Regulations

		<p>Supplementary Information to the PEI would be made available and consulted on during the second period of Statutory Consultation</p> <p>Copies of each of the SoCC and the Updated SoCC are included in Appendix 4.1 and 6.1 of the Consultation Report (document reference 5.1) respectively.</p>
18	Has the Applicant carried out the consultation in accordance with the SoCC?	<p>Yes</p> <p>The Applicant undertook consultation under section 47 of the 2008 Act in accordance with the SoCC in respect of the first round of Statutory Consultation, save that following the conclusion of the consultation period the Applicant was notified that a number of persons living near the coast had not received a leaflet notifying them of the consultation exercise as planned. The first Statutory Consultation period was therefore re-opened between 7 February 2022 and 11 April 2022 to allow those persons to be served with a leaflet about the project, make available all of the consultation documentation which had been available originally and allow the recipients of the late served leaflets the opportunity to review and respond. An equivalent period of 63 days was allowed for responses.</p> <p>The Applicant undertook consultation under section 47 of the 2008 Act in accordance with the Updated SoCC in respect of the second round of Statutory Consultation</p> <p>See the sections 6.5 and 7.5 of the Consultation Report (document reference 5.1) for a summary of the actions undertaken by the Applicant to meet the obligations outlined in the SoCCs.</p>
Section 48: Duty to publicise the proposed application		
	Did the Applicant publicise the proposed application in the prescribed manner set out in Regulation 4(2) of the APFP Regulations?	<p>Yes</p> <p>The Applicant publicised the proposed application in the prescribed manner set out in the APFP Regulations 2009 and in accordance with section 48 of the 2008 Act and carried out consultation under sections 47 and 48 in parallel with the consultation on the PEIR and the Supplementary Information Report to the PEIR in respect of both the first and second rounds of Statutory Consultation Dated newspaper cuttings are supplied in Appendices 4.6 and 6.6 of the Consultation Report (document reference 5.1). Dates of these publications are included below.</p>

Information		Paragraph	
a)	the name and address of the Applicant.	1. "...Rampion Extension Development ("RED") ('the Applicant') of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB)..."	b)
		a statement that the Applicant intends to make an application for development consent to the Secretary of State	1. "... proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order ('DCO') for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2..."

c)	a statement as to whether the application is EIA development	8. "Rampion 2 is an EIA development for the purposes of the Infrastructure Planning (Environmental Assessment) Regulations 2017."	d)	a summary of the main proposals, specifying the location or route of the Proposed Development	7. Listed in detailed in bullet points.
e)	a statement that the documents, plans and maps showing the nature and location of the Proposed Development are available for inspection free of charge at the places (including at least one address in the vicinity of the Proposed Development) and times set out in the notice	9. "... Hard copies will be available to view and the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period ..." Libraries including addresses and opening hours are then included in a table.	f)	the latest date on which those documents, plans and maps will be available for inspection	9. "... during the consultation period..."
g)	whether a charge will be made for copies of any of the documents, plans or maps and the amount of any charge	12. "Hard copies of the consultation materials (which may be subject to a fee)..."	h)	details of how to respond to the publicity	13. "Responses to or other representations in respect of the proposed changes to Rampion 2 should be submitted to the Applicant via the consultation feedback on the project website www.rampion2.com/consultation . Consultation responses may also be received by email to rampion2@rwe.com or in writing to the Applicant at: "FREEPOST: Rampion 2" stating the grounds of the response or representation."

i)	a deadline for receipt of those responses by the Applicant, being not less than 28 days following the date when the notice is last published	14. "... Any response or representation in respect of of the proposed Development Consent Order must be received by the Applicant no later than 23:59 on 29 th November 2022."	
20	Are there any observations in respect of the s48 notice provided above?		
	No		
21	Has a copy of the s48 notice been sent to the EIA consultation bodies and to any person notified to the Applicant in accordance with the EIA Regulations ¹⁰ ?	<p>Yes</p> <p>A hard copy of the section 48 notice, as publicised in the prescribed manner, was included in the consultation materials sent to all section 42 consultees in accordance with the EIA Regulations as part of both stages of Statutory Consultation.</p> <p>See Appendix 4 and 6 of the Consultation Report Annex 1 (document reference 5.1).</p>	
s49: Duty to take account of responses to consultation and publicity			
22	Has the Applicant had regard to any relevant responses to the s42, s47 and s48 consultation?	<p>Yes</p> <p>A summary of the responses received to statutory consultations and how the Applicant has had regard to them are set out in the following Appendices of the Consultation Report (document reference 5.1).</p> <ul style="list-style-type: none"> • Project wide statutory consultation – Appendix 4.8 • Onshore statutory consultation – Appendix 6.8 • Targeted route consultation LACR 1D – Appendix 7.5 • Targeted Rampion 2 extension to the National Grid substation consultation – Appendix 8.5 • Targeted minor highways change consultation – Appendix 9.2 	

¹⁰ Regulation 13 of the 2017 EIA Regulations, or where Regulation 37 of the 2017 EIA Regulations applies, Regulation 11 of the 2009 EIA Regulations

		<ul style="list-style-type: none"> Project refresh consultation – Appendix 10.2. <p>This has been prepared following guidance set out in PINS Advice Note 14: Compiling the Consultation Report (v3).</p>
Guidance about pre-application procedure		
23	To what extent has the Applicant had regard to statutory guidance ‘Planning Act 2008: Guidance on the pre-application process’ ¹¹ ?	<p>Yes</p> <p>The Applicant has regard to the DCLG guidance both in terms of the consultation process undertaken and preparation of the Consultation Report. This is set out in Appendix 1 of the Consultation Report.</p> <p>The Applicant has also taken account of relevant legislation and guidance including:</p> <ul style="list-style-type: none"> - The Planning Inspectorate Advice Note Three: Environmental Impact Assessment consultation and notification (Planning Inspectorate, 2017); - The Planning Inspectorate Advice Note 14 on compiling the consultation report (Planning Inspectorate, 2021); and - The Planning Inspectorate Advice Note 6 on the preparation and submission of application documents (Planning Inspectorate, version 10).
24	Summary: Section 55(3)(e)	The Applicant has complied with Chapter 2 of Part 5 (pre-application procedure) of the PA 2008.
s55(3)(f) and s55(5A): The application (including accompaniments) achieves a satisfactory standard having regard to the extent to which it complies with section 37(3) (form and contents of application) and with any standards set under section 37(5) and follows any applicable guidance under section 37(4)		
25	Is it made in the prescribed form as set out in Schedule 2 of the APFP Regulations, and does it include:	<p>Boxes [4] and [5] of the Application Form (document reference 1.2) include a brief statement which explains why the Application falls within the remit of the Secretary of State and a brief non-technical description of the Project Proposal.</p> <p>Box [6] clearly identifies the location and route of the application site. Within the Project Description (document reference 1.2) the Application summarises the</p>

¹¹ The Planning Inspectorate must have regard to the extent to which the Applicant has had regard to guidance issued under s50

	<ul style="list-style-type: none"> • a brief statement which explains why it falls within the remit of the Planning Inspectorate; and • a brief statement that clearly identifies the location of the application site, or the route if it is a linear scheme? 	location and boundary of Rampion 2. A location plan (onshore) and location plan (offshore) have been provided
26	Is it accompanied by a Consultation Report?	<p>Yes</p> <p>A Consultation Report (document reference 5.1) is included with the application, with Appendices, as listed in the contents of the Consultation Report.</p>
27	Where a plan comprises three or more separate sheets, has a key plan been provided showing the relationship between the different sheets? ¹²	<p>Yes</p> <p>A key plan showing the relationship between different sheets is provided at the start of each of the following plans:</p> <p>EN010117/APP/2.1.2 Rampion 2 Land Plans Offshore</p> <p>EN010117/APP/2.2.1 Rampion 2 Works Plans Offshore</p> <p>EN010117/APP/2.2.2 Rampion 2 Works Plans Onshore</p> <p>EN010117/APP/2.3 Rampion 2 Crown Land Plan Offshore</p> <p>EN010117/APP/2.4 Rampion 2 Special Category Land Plan</p> <p>EN010117/APP/2.5 Rampion 2 Access, Rights of Way and Street Plans</p> <p>EN010117/APP/2.6 Rampion 2 Tree Preservation Order and Hedgerow Plan</p> <p>EN010117/APP/2.7 Rampion 2 Open Access Land Plan</p> <p>EN010117/APP/2.8 Rampion 2 Crown Land Plan Onshore</p>
28	Is it accompanied by the documents and information set out in APFP Regulation 5(2)?	<p>Yes</p> <p>The documents and information required by APFP regulation 5(2) are set out in the documents and locations within the application as listed below:</p>

Dino plan unveiled

New consortium sets out scheme for Sandown site

PLANS have been unveiled to make Sandown the dinosaur capital of Britain, with a rebranded Dinosaur Isle museum, dinosaur park and research facility on the seafront.

The British Dinosaur Museum attraction would be a partnership between a residents' association called Dinosaur Isle Group and Dinosaurier-Park International.

Dinosaurier-Park International is an established company, with extensive experience in developing, building and operating dinosaur parks and museums in Europe.

A statement from the partners said: "This new attraction will bring together a new museum, a dinosaur park and a science research facility to display and preserve the Island's heritage for fu-

By Alan Marriott
alanm@wcpmail.co.uk

ture generations. "The development will be both exciting and educational, perfectly suited to families, tourists, schools and universities."

Dr Jeremy Lockwood, chair of the Dinosaur Isle Group, said: "The IW is Europe's premier dinosaur hotspot, with amazing new discoveries regularly being found under our feet. We literally walk on dinosaurs."

"We can make our Cretaceous Coast as famous as the Jurassic Coast, protecting the Island's heritage, providing education and ensuring Sandown becomes a major national tourist destination."

Regulation 4 The Infrastructure Planning
(Applications: Prescribed Forms and Procedure) Regulations 2009
RAMPION 2 OFFSHORE WIND FARM NOTICE PUBLICISING
A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)**

Notice is hereby given that Rampion Extension Development Limited ("RED") ("the Applicant") of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ("Rampion 2").

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area of approximately 270 km². Export cables from the offshore array area will make landfall at Climping and will then connect to the National Grid via underground cables to a Project substation and then to the Electricity Transmission System at the National Grid Bolney Substation in Twineham, Mid Sussex.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 116 wind turbines with a maximum tip height of 325m above lowest astronomical tide and their foundations;
- Up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation on land in the vicinity of the existing National Grid Bolney Substation in Twineham, Mid Sussex;
- Underground cables between the new substation and the existing Bolney substation to connect the offshore wind farm to the National Grid;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement (ES). Accordingly, the Applicant will be making preliminary environmental information available as part of the consultation.

Consultation on the Rampion 2 Wind Farm will begin on **14 July 2021** and end on **16 September 2021**. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include consultation factsheets, the consultation response form, the Preliminary Environmental Information Report (PEIR) and a Non-Technical Summary (NTS) to the PEIR which will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Electronic copies of the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period:

Shocking state of dentistry revealed

Half of all Islanders struggle to get treatment

By Louise Hill

Local democracy reporter
louiseh@wcpmail.co.uk

ALMOST half of Islanders are finding difficulty getting dental treatment and one in four are being recommended to go to the mainland for treatment.

Those are two of the shocking statistics uncovered in a new investigation by watchdog Healthwatch Isle of Wight (HW).

And one former private practice dentist told the CP a lot of the problem was that NHS dental contracts were not profitable to dentists, so they did not sign up for them.

"There is no financial incentive to work as an NHS dentist and this has been the situation for some time now."

One respondent to the sur-

vey said: "Every single appointment has been cancelled an hour before.

"I desperately need multiple tooth extraction and dentures, unable to eat properly.

"My teenage son has not seen a dentist for almost five years since we moved to the Island."

And when the IW council health and social care scrutiny committee received the report on Monday, Cllr Karen Lucioni said she had had terrible toothache for over a year before she was forced to get the issue sorted privately.

Regulation 4 The Infrastructure Planning
(Applications: Prescribed Forms and Procedure) Regulations 2009
RAMPION 2 OFFSHORE WIND FARM NOTICE PUBLICISING
A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)**

Notice is hereby given that Rampion Extension Development Limited ("RED") (the Applicant) of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ('Rampion 2').

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area of approximately 270 km². Export cables from the offshore array area will make landfall at Climping and will then connect to the National Grid via underground cables to a Project substation and then to the Electricity Transmission System at the National Grid Bolney Substation in Twineham, Mid Sussex.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 116 wind turbines with a maximum tip height of 325m above lowest astronomical tide and their foundations;
- Up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation on land in the vicinity of the existing National Grid Bolney Substation in Twineham, Mid Sussex;
- Underground cables between the new substation and the existing Bolney substation to connect the offshore wind farm to the National Grid;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement (ES). Accordingly, the Applicant will be making preliminary environmental information available as part of the consultation.

Consultation on the Rampion 2 Wind Farm will begin on **14 July 2021** and end on **16 September 2021**. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include consultation factsheets, the consultation response form, the Preliminary Environmental Information Report (PEIR) and a Non-Technical Summary (NTS) to the PEIR which will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. PUBLIC NOTICES

GENERAL NOTICES

**Section 48 Planning Act 2008
Regulation 4 The Infrastructure Planning (Applications: Prescribed Forms and Procedure)
Regulations 2009
RAMPION 2 OFFSHORE WIND FARM**

NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)

Notice is hereby given that Rampion Extension Development Limited ("RED") ('the Applicant') of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ('Rampion 2').

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area of approximately 270 km². Export cables from the offshore array area will make landfall at Climping and will then connect to the National Grid via underground cables to a Project substation and then to the Electricity Transmission System at the National Grid Bolney Substation in Twineham, Mid Sussex.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 116 wind turbines with a maximum tip height of 325m above lowest astronomical tide and their foundations;
- Up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation on land in the vicinity of the existing National Grid Bolney Substation in Twineham, Mid Sussex;
- Underground cables between the new substation and the existing Bolney substation to connect the offshore wind farm to the National Grid;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement (ES). Accordingly, the Applicant will be making preliminary environmental information available as part of the consultation.

Consultation on the Rampion 2 Wind Farm will begin on **14 July 2021** and end on **16 September 2021**. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include consultation factsheets, the consultation response form, the Preliminary Environmental Information Report (PEIR) and a Non-Technical Summary (NTS) to the PEIR which will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Electronic copies of the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period:

Responses to or other representations in respect of Rampion 2 should be submitted to the Applicant via the consultation feedback form on the project website www.rampion2.com/consultation. Consultation responses may also be received by email to rampion2@rwe.com or in writing to the Applicant at: Rampion 2 – Consultation Response, Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB stating the grounds of the response or representation. Any response or representation in respect of the proposed Development Consent Order must be received by the Applicant **no later than 23:59 on 16 September 2021**, indicating who is making the response or representation, and giving a postal or email address to which correspondence relating to the response or representation may be sent.

Details of responses and other representations will be made public at a later date, however any personal details or comments will not be attributed to any individual.

LICENCE APPLICATIONS

Licensing Application - Licensing Act 2003

An application has been made by My Diamond Catering Ltd to the Licensing Authority for Mid Sussex District Council for the grant of a Premises Licence at Mio Gusto 25-27 Station Road, Burgess Hill, RH15 9DE. The application includes proposals for the following: i) Sale of Alcohol for consumption on and off the premises everyday ii) Late Night Refreshment everyday.

The register for the Licensing Authority for Mid Sussex District Council is kept at Mid Sussex District Council, Oaklands Road, Haywards Heath RH 16 1SS. The application may be viewed by appointment, by contacting www.midsussex.gov.uk – Licensing Team or by visiting the web site www.midsussex.gov.uk and searching for 'Licensing Applications Received'. Responsible Authorities or other persons may make representations during the period up to and including 2nd August 2021. All representations shall be made in writing to The Licensing Officer at Mid Sussex District Council.

It is an offence knowingly or recklessly to make a false statement in connection with an application. The maximum fine for which a person is liable on summary conviction for the offence is unlimited.

PUBLIC NOTICES

GENERAL NOTICES

**Section 48 Planning Act 2008
Regulation 4 The Infrastructure Planning (Applications: Prescribed Forms and Procedure)
Regulations 2009**

**RAMPION 2 OFFSHORE WIND FARM
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)**

Notice is hereby given that Rampion Extension Development Limited ("RED") ('the Applicant') of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ('Rampion 2').

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area of approximately 270 km². Export cables from the offshore array area will make landfall at Climping and will then connect to the National Grid via underground cables to a Project substation and then to the Electricity Transmission System at the National Grid Bolney Substation in Twineham, Mid Sussex.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 116 wind turbines with a maximum tip height of 325m above lowest astronomical tide and their foundations;
- Up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation on land in the vicinity of the existing National Grid Bolney Substation in Twineham, Mid Sussex;
- Underground cables between the new substation and the existing Bolney substation to connect the offshore wind farm to the National Grid;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement (ES). Accordingly, the Applicant will be making preliminary environmental information available as part of the consultation.

Consultation on the Rampion 2 Wind Farm will begin on **14 July 2021** and end on **16 September 2021**. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include consultation factsheets, the consultation response form, the Preliminary Environmental Information Report (PEIR) and a Non-Technical Summary (NTS) to the PEIR which will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Electronic copies of the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period:

BRIGHTON AND HOVE CITY COUNCIL ROAD TRAFFIC REGULATION ACT 1984 TEMPORARY TRAFFIC ORDER – Mill Road – LIFE Festival

1. NOTICE is hereby given that Brighton & Hove City Council intend not less than seven days from the date of this notice to make an Order pursuant to powers in Section 14 of the Road Traffic Regulation Act 1984 as amended which when it comes into force will have the following effect:-

(a) No person shall cause or permit any vehicle that is not participating in, or connected with the LIFE Festival to proceed in, exit from, or turn into Mill Road from its junction with Waterhall Road to its junction with the roundabout at Dyke Road Avenue, except upon the direction or with the permission of a Police Constable in uniform or that of a uniformed marshal or access for residents.

(b) During the event, under direction of event officials, these measures may be lifted to enable vehicular access for residents.

2. The Order is necessary for the safe egress of people leaving LIFE Festival.

3. This Order comes into force for the following dates and times:

25th July 2021 – 19:30 to 21:30
31st July 2021 – 21:30 to 23:30
1st August 2021 – 19:30 to 21:30
7th August 2021 – 21:30 to 23:30
8th August 2021 – 19:30 to 21:30
14th August 2021 – 21:30 to 23:30
15th August 2021 – 19:30 to 21:30
21st August 2021 – 21:30 to 23:30
22nd August 2021 – 19:30 to 21:30

Dated 14th July 2021.

Section 48 Planning Act 2008 Regulation 4 The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 RAMPION 2 OFFSHORE WIND FARM NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)

Notice is hereby given that Rampion Extension Development Limited ("RED") ("the Applicant") of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ("Rampion 2").

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area of approximately 270 km². Export cables from the offshore array area will make landfall at Climping and will then connect to the National Grid via underground cables to a Project substation and then to the Electricity Transmission System at the National Grid Bolney Substation in Twineham, Mid Sussex.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 116 wind turbines with a maximum tip height of 325m above lowest astronomical tide and their foundations;
- Up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation on land in the vicinity of the existing National Grid Bolney Substation in Twineham, Mid Sussex;
- Underground cables between the new substation and the existing Bolney substation to connect the offshore wind farm to the National Grid;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement (ES). Accordingly, the Applicant will be making preliminary environmental information available as part of the consultation.

Consultation on the Rampion 2 Wind Farm will begin on **14 July 2021** and end on **16 September 2021**. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include consultation factsheets, the consultation response form, the Preliminary Environmental Information Report (PEIR) and a Non-Technical Summary (NTS) to the PEIR which will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Electronic copies of the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period:

YOUR STARS WITH

ARIES (21 MARCH - 20 APRIL)
Key aspects involving Neptune, suggest a part of you may feel like retreating from the world and doing things at your own pace. This might not be possible though, if you have responsibilities to attend to. Another restless link suggests a temptation to seek out excitement. Call for more...

FOR WEEKLY READINGS CALL **09065 856 084** 60p PER MINUTE + ACCESS CHARGE

TAURUS (21 APRIL - 21 MAY)
You may be ready to believe someone when they tell you something of interest, and yet your sixth sense might tell you not to. Mercury's tie with ethereal Neptune, could be a call not to take them at face value, but to look more deeply into their motives, Taurus. Call for more astral advice...

FOR WEEKLY READINGS CALL **09065 856 085** 60p PER MINUTE + ACCESS CHARGE

GEMINI (22 MAY - 21 JUNE)
You likely won't lack opportunities to make your mark, but it might help if you have a definite plan. While it could be easier to leave things to chance today and over coming days, you may accomplish so much more if you make a list and work through it step by step. Call for more...

FOR WEEKLY READINGS CALL **09065 856 086** 60p PER MINUTE + ACCESS CHARGE

CANCER (22 JUNE - 23 JULY)
With the Moon making some powerful ties, you could feel emotional about an issue that it's been difficult to talk about. If you were to discuss it with someone you trust, you might notice an immediate sense of relief. This is the best time to resolve anything that's hanging over you. Call for more...

FOR WEEKLY READINGS CALL **09065 856 087** 60p PER MINUTE + ACCESS CHARGE

LEO (24 JULY - 23 AUGUST)
If any of your relationships, whether romantic or platonic, require attention or even a decision, this can be an opportunity to work on them. Key factors suggest you may be more sensitive to others' feelings, which could pave the way for a heart-to-heart. Call for more astral advice...

FOR WEEKLY READINGS CALL **09065 856 088** 60p PER MINUTE + ACCESS CHARGE

VIRGO (24 AUGUST - 23 SEPTEMBER)
With an expansive influence presently on the cards, new ideas and opportunities can show up when you make a point of linking with kindred spirits. And with Saturn rewinding in your lifestyle zone, this is the time to adjust your routines to make the most of new options. Call for more...

FOR WEEKLY READINGS CALL **09065 856 089** 60p PER MINUTE + ACCESS CHARGE

LIBRA (24 SEPTEMBER - 23 OCTOBER)
The presence of Saturn in innovative Aquarius, may encourage you to tap into your creative side and to experiment with new ideas. As it makes a leading aspect, you might spot an opportunity to earn extra money from a hobby, which could be very useful in so many ways. Call for more...

FOR WEEKLY READINGS CALL **09065 856 090** 60p PER MINUTE + ACCESS CHARGE

SCORPIO (24 OCTOBER - 22 NOVEMBER)
Potent lunar aspects in a private sector, can encourage you to trust your instincts regarding a key relationship. If you're collaborating on a project or keen to get to know someone better, then your feelings could give valuable guidance as you proceed. Call for more news and astral advice...

FOR WEEKLY READINGS CALL **09065 856 091** 60p PER MINUTE + ACCESS CHARGE

SAGITTARIUS (23 NOVEMBER - 21 DECEMBER)
You may need to resolve one or more issues that have come to a head recently. With uncomfortable angles showing up, you might also need to make some decisions. The key to improving matters can be to stay in communication and to negotiate with those involved. Call for more advice...

FOR WEEKLY READINGS CALL **09065 856 092** 60p PER MINUTE + ACCESS CHARGE

CAPRICORN (22 DECEMBER - 20 JANUARY)
An upbeat conversation could move you, and might encourage you to explore the possibilities in an idea or opportunity. While this can be a time of gathering information and making new connections, a deeper pulse could also encourage healing discussions when needed. Call for more...

FOR WEEKLY READINGS CALL **09065 856 093** 60p PER MINUTE + ACCESS CHARGE

AQUARIUS (21 JANUARY - 19 FEBRUARY)
If something doesn't go as planned, it isn't because you've lost your touch, but more to do with the stellar backdrop which can make things rather hit and miss. Instead of giving yourself too much to do, it may be wiser to limit yourself to one or two tasks that are easily accomplished. Call for more...

FOR WEEKLY READINGS CALL **09065 856 094** 60p PER MINUTE + ACCESS CHARGE

PISCES (20 FEBRUARY - 20 MARCH)
Jupiter and visionary Neptune may find you keen to explore options that might have a mystical bias, or that could expand your horizons in more ways than one. Your open mind may find you fascinated by a range of ideas. If you can commit, life could change for the better. Call for more...

Water firm had 'shocking' disregard for environment

BEN FISHWICK
ws.letters@jpmmedia.co.uk

Southern Water has been fined £90million after pumping 16billion-21billion litres of untreated sewage into delicate ecosystems, including Chichester Harbour.

The company was handed the fine for a 'shocking and wholesale disregard for the environment' at 16 of its treatment sites over a six-year period from 2010.

Southern Water, which has 168 previous convictions and cautions, admitted 51 charges relating to discharges of untreated sewage.

The volume of the 6,971 separate discharges across the six years equated to 7,400 Olympic-sized swimming pools.

Sentencing, Mr Justice Adam Johnson said the crimes were carried out 'deliberately' with an 'intentional breach of or flagrant disregard of the law, or failure to put in systems to prevent them.'

He said it was 'inconceivable' that senior board directors were unaware. They, he said, 'deliberately failed' to put in systems to stop the spills.

Southern Water would have been fined £99million for the charges with an extra £36million on top for the money it saved by not carrying out remedial work, the judge said.

But a £135million fine was reduced as it pleaded guilty at the first chance in March last year.

The judge said he was aware the fine could mean the company's 'continued viability' may be reviewed but this was 'an acceptable consequence of the seriousness of those failings'.

During the sentencing hearing, Canterbury Crown Court heard members of the Havant Sea Angling Club in the Solent saw condoms and sanitary towels on their mooring lines in early 2016, with a 'strong smell of sewage'.

So bad was the pollution that the boats had to be jet washed and the ropes replaced.

"Dog walkers have been seen having to walk through the sewage," the sentencing

Chichester Harbour, which bore the brunt of huge sewage dumps

judge said. "There are reports of dogs being violently ill after swimming."

There were 674 discharges lasting 4,938 hours in duration at Budds Farm Waste Water Treatment Works in Langstone Harbour.

Those discharges took place between January 2010 and December 2015.

Between April 2010 and December 2012 there were 49 discharges totalling 335 hours at Bosham, West Sussex, and 226 discharges totalling 9,890 hours at Chichester.

Across all 51 charges admitted by Southern Water there were 6,971 discharges lasting 2,571 days - or 7.04 years - in total.

Mr Justice Johnson said each of the 51 offences show a 'shocking and wholesale disregard for the environment'.

He said scientists agreed oyster numbers in the Solent had reduced, in part due to water quality.

When the Environment Agency investigated, staff at the firm were under instruction not to speak with them 'under any circumstances,' the judge said. Southern Water had a £213million operating profit in 2019/20.

Richard Matthews QC, defending, said he could not guarantee there would never be another spill.

But he said: "I can give this guarantee: that the company is utterly committed to a top-to-bottom transformation in its

transparency. That's what the chair and the CEO have set out to achieve."

The firm said its actions were due to negligence, and were not deliberate.

Mr Justice Johnson said the company's co-operation with investigators was 'grudging, partial, inadequate'.

Significant steps have since been taken to improve, the judge said.

The CEO of Southern Water has said he is 'deeply sorry' for the 'completely unacceptable' incidents, which led to a record-breaking fine last week.

CEO Ian McAulay said: "I am deeply sorry for the historic incidents which have led to today's sentencing and fine."

"I know that the people who rely on us to be custodians of the precious environment in southern England must be able to trust us. What happened historically was completely unacceptable and Southern Water pleaded guilty to the charges in recognition of that fact."

Mr McAulay said the company will 'reflect closely' on the sentence and remarks made by the judge.

"He has rightly put the environment front and centre which is what matters to all of us," he added.

"These events happened between 2010 and 2015."

"I joined Southern Water in 2017 and am passionately committed to the environment. We have changed the way we operate."

"My expectation is that Southern Water is fully transparent and operates in the right way. We continue to transform across the areas of risk and compliance, measurement and self-reporting."

"We have made much progress and are continuing to invest to protect the environment and deliver our services safely and at a fair price for our customers."

Mr McAulay confirmed the fine 'will not impact customers' bills' and investment in its transformation 'will not be reduced', adding: "Our shareholders are bearing the cost of the fine."

Center Parcs for Sussex Plans unveiled for new site

Center Parcs has revealed it has identified a site in West Sussex to build a £350m holiday park. The popular holiday company has secured an option agreement to acquire privately owned woodland at Oldhouse Warren off Balcombe Road, Worth, a spokesman said. This means it will carry out detailed surveys and plans before a formal planning application and consultation process begins with the local community.

A mortgage with the ability to access tax-free cash

A lifetime mortgage is a loan secured against your home, but there is no requirement for an affordability check. It can reduce the value of your estate and requires paying off any existing mortgage. The money released, plus interest, would be repaid upon death or moving into long-term care. It may affect entitlement to means-tested benefits now or in the future. A personalised illustration will explain features and risks.

PUBLIC NOTICES

GENERAL NOTICES

Section 48 Planning Act 2008
Regulation 4 The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009
RAMPION 2 OFFSHORE WIND FARM
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)

Notice is hereby given that Rampion Extension Development Limited ("RED") ("the Applicant") of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ("Rampion 2").

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area of approximately 270 km². Export cables from the offshore array area will make landfall at Climping and will then connect to the National Grid via underground cables to a Project substation and then to the Electricity Transmission System at the National Grid Bolney Substation in Twineham, Mid Sussex.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 116 wind turbines with a maximum tip height of 325m above lowest astronomical tide and their foundations;
- Up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation on land in the vicinity of the existing National Grid Bolney Substation in Twineham, Mid Sussex;
- Underground cables between the new substation and the existing Bolney substation to connect the offshore wind farm to the National Grid;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement (ES). Accordingly, the Applicant will be making preliminary environmental information available as part of the consultation.

Consultation on the Rampion 2 Wind Farm will begin on **14 July 2021** and end on **16 September 2021**. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include consultation factsheets, the consultation response form, the Preliminary Environmental Information Report (PEIR) and a Non-Technical Summary (NTS) to the PEIR which will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Electronic copies of the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period:

Sussex wines and weather 'better than US', says Truss

STAFF REPORTER
ws.letters@jpmmedia.co.uk

Liz Truss at the Wiston Estate

Secretary of State for International Trade Liz Truss flew in from the United States to the heart of rural West Sussex to raise a glass to the supreme quality of the county's wines and to encourage local businesses to make the most of the rapidly growing export opportunities in a post-Brexit world.

Mrs Truss was the keynote speaker at SussExport on Friday, held at the Wiston Estate near Steyning, where world renowned wines of the same name are produced.

She told the audience of Sussex business owners and leaders: "I've just flown in from North California but I can tell you two things. The weather is better here - and the wine is better here!"

"Wiston Estate, where we are today, produces world-beating wine which regularly wins against champagne in taste tests."

But her main message was for all businesses to seize the exporting opportunity and make the most of the Made In Britain brand which was respected across the globe.

"The United Kingdom is an independent trading nation for the first time in almost 50 years and we are getting back our 'trade muscle' as I call it - and we are seeing businesses lean into those opportunities, we are seeing government lean into those opportunities and we are seeing our international partners lean into those opportunities."

"Fundamentally trade is a win-win. We sell more, it helps us to become more innovative, more competitive and the wine trade is a classic example of where we have learned from other countries and they have learned from us. That is what trade is all about."

"We have now got agreement with 68 countries - the most recent being Australia where we achieved agreement in principle only last month. Those agreements cover £744 billion pounds of trade. Almost 65 per

cent of the trade the UK does is now subject to a preferential free-trade agreement.

"Bear in mind we have only been out of the [EU] customs union and the single market for six months and I think that is huge progress. It shows not only the hard work of the department of trade officials but it also shows that people want to do business with the UK."

"I've just told you about the deals we have done already but there is a huge pipeline of countries who want to do deals with us. We are currently negotiating to enter a comprehensive and progressive trans-Pacific partnership which covers 11 Pacific nations - it's a total GDP of nine trillion and that is where some of the huge opportunities lie for Britain."

"By 2030, 66 per cent of the world's middle classes will live in Asia - and what kind of things do they want to buy? Well they want to buy things like English sparkling wine and Scotch whisky; they want to buy nice cars which we produce in huge numbers in this country; and they want to buy our services - our data and digital services, our computer games, our financial services, our legal services."

"And the British brand is one of the most trusted. People understand that we have high standards."

"This autumn we want to negotiate with India. India is a tech superpower as are we and there are going to be huge opportunities there. There's also the Gulf states again where there are big opportunities, not just for British lamb but for all kinds of products particularly in services."

The event opened with a speech by George Brandis QC Australian High Commissioner who spoke in detail and with enormous enthusiasm about the new trade agreement and the importance of the relationship between Australia and the UK.

Other sessions featured detailed Q&A sessions with experts on how to set up your business for export success and some of the grants that were available to facilitate that.

Selling your business story and the importance of place and provenance was identified as a key feature of success.

To that end Kirsty Goring, the marketing director of Wiston Estate Winery shared their story of success and Gary Shipton, the Director and Editor In Chief of this title and its sister newspapers, spoke about trusted news and information.

The day was spearheaded by the MP for Arundel and the South Downs Andrew Griffith who was a former Business Adviser to the Prime Minister.

'Freedom' Heatwave as Covid rules lifted

Monday marked a significant day in the Covid-19 pandemic, with the lifting of the majority of restrictions, including the requirement for social distancing. But despite this, many have still urged caution. Director of public health for West Sussex Alison Challenger, in a joint statement with Sussex's other public health directors, urged people to continue to wear face coverings when in close contact with others, practice good hygiene and consider social distancing when possible. She said: "Restrictions are being lifted but the pandemic is not over yet. Together, we must all play our part and help keep Sussex safe." Lifting of the restrictions coincided with a period of hot weather. Pictured above is Worthing seafront on Sunday, photographed by Eddie Mitchell.

GENERAL NOTICES

Section 48 Planning Act 2008
Regulation 4 The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009
RAMPION 2 OFFSHORE WIND FARM
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)

Notice is hereby given that Rampion Extension Development Limited ("RED") ("the Applicant") of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ("Rampion 2").

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area of approximately 270 km². Export cables from the offshore array area will make landfall at Climping and will then connect to the National Grid via underground cables to a Project substation and then to the Electricity Transmission System at the National Grid Bolney Substation in Twineham, Mid Sussex.

- The proposed development consent order will, amongst other things, licence and authorise:
- The construction, operation and maintenance of up to 116 wind turbines with a maximum tip height of 325m above lowest astronomical tide and their foundations;
 - Up to three offshore substations;
 - Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
 - Export cables to transmit electricity from the offshore substations to the shore;
 - A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
 - Onshore underground cables with jointing pits to transmit electricity to a new onshore substation. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
 - The construction and operation of an onshore substation on land in the vicinity of the existing National Grid Bolney Substation in Twineham, Mid Sussex;
 - Underground cables between the new substation and the existing Bolney substation to connect the offshore wind farm to the National Grid;
 - The permanent compulsory acquisition of land and/or rights for the Project, where required;
 - Overriding of easements and other rights over or affecting land as required for the Project;
 - The application and/or discontinuation of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
 - If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis;
 - Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement (ES). Accordingly, the Applicant will be making preliminary environmental information available as part of the consultation.

Consultation on the Rampion 2 Wind Farm will begin on 14 July 2021 and end on 16 September 2021. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include consultation factsheets, the consultation response form, the Preliminary Environmental Information Report (PEIR) and a Non-Technical Summary (NTS) to the PEIR which will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. *Responses to or other representations in respect of Rampion 2 should be submitted to the Applicant via the consultation feedback form on the project website www.rampion2.com/consultation. Consultation responses may also be received by email to rampion2@rwe.com or in writing to the Applicant at: Rampion 2 - Consultation Response, Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB stating the grounds of the response or representation. Any response or representation in respect of the proposed Development Consent Order must be received by the Applicant no later than 23:59 on 16 September 2021, indicating who is making the response or representation, and giving a postal or email address to which correspondence relating to the response or representation may be sent.

Details of responses and other representations will be made public at a later date, however any personal details or comments will not be attributed to any individual.

PLANNING NOTICES

ARUN DISTRICT COUNCIL WEEKLY PLANNING LIST
Advertised in the West Sussex Gazette on the 22nd July 2021

Due to the current exceptional circumstances, the application, plans and documents may only be inspected on line at: www.arun.gov.uk/weekly-lists

Until further notice only electronic comments can be accepted as staff will be working from home and will not have access to any paper representations.

Comments on applications should be made before 12th August 2021 and it may not be possible to take into account any comments received after 12th August 2021.

All representations including names and addresses are published on the website so please make sure your views are clear and only include information that you are happy for the public to view. Do not include personal information or information from third parties unless you have their permission to do so. If a complaint is received that permission has not been given for comments included about a third party, the Council reserves the right to redact/remove all relevant information. Do not include information which is defamatory or breaches equality or any other legislation. The Council will aim to redact signatures, telephone numbers and email addresses but please help us by not including this information within the comments section if you are submitting through the website or in the main body of your letter. For details of what we do with your personal information, please refer to our privacy statement comments on planning applications which is available on our website www.arun.gov.uk/planning-privacy-statements. Unfortunately it is not possible for the Council to respond to each letter individually but your comments will be carefully considered before the application is determined. Unless you comment using the online facility, your representation will not be acknowledged, but you will be advised if the application is to be determined by the Planning Committee and you will be informed of the decision. The progress of the application can be followed on the website.

Should the application, subsequently go to an appeal the Planning Inspectorate will publish any comments made to the Council on their website: <https://acp.planninginspectorate.gov.uk/> but they will protect personal details. Please note that where an appeal relates to a refusal of a household, advert or minor commercial application, there is no further opportunity to make comments on the application. The only comments they will consider are those submitted on the original planning application.

To register to receive notification of planning applications in your area please go to <https://www.arun.gov.uk/planning> and click into Local Planning Application Finder.

**Section 48 Planning Act 2008
Regulation 4 The Infrastructure Planning (Applications: Prescribed Forms and Procedure)
Regulations 2009**

**RAMPION 2 OFFSHORE WIND FARM
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)**

Notice is hereby given that Rampion Extension Development Limited ("RED") ("the Applicant") of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ("Rampion 2").

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area of approximately 270 km2. Export cables from the offshore array area will make landfall at Climping and will then connect to the National Grid via underground cables to a Project substation and then to the Electricity Transmission System at the National Grid Boleyn Substation in Twineham, Mid Sussex.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 116 wind turbines with a maximum tip height of 325m above lowest astronomical tide and their foundations;
- Up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation on land in the vicinity of the existing National Grid Boleyn Substation in Twineham, Mid Sussex;
- Underground cables between the new substation and the existing Boleyn substation to connect the offshore wind farm to the National Grid;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement (ES). Accordingly, the Applicant will be making preliminary environmental information available as part of the consultation.

Consultation on the Rampion 2 Wind Farm will begin on 14 July 2021 and end on 16 September 2021. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include consultation factsheets, the consultation response form, the Preliminary Environmental Information Report (PEIR) and a Non-Technical Summary (NTS) to the PEIR which will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Electronic copies of the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period:

SECTION 48 PLANNING ACT 2008

REGULATION 4 THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009

RAMPION 2 OFFSHORE WIND FARM NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)

Notice is hereby given that Rampion Extension Development Limited ("RED") ('the Applicant') of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ('Rampion 2').

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point . The proposed wind turbines and offshore substations will be constructed within an offshore array area of approximately 270 km2 Export cables from the offshore array area will make landfall at Climping and will then connect to the National Grid via underground cables to a Project substation and then to the Electricity Transmission System at the National Grid Bolney Substation in Twineham, Mid Sussex.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 116 wind turbines with a maximum tip height of 325m above lowest astronomical tide and their foundations;
- Up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation on land in the vicinity of the existing National Grid Bolney Substation in Twineham, Mid Sussex;
- Underground cables between the new substation and the existing Bolney substation to connect the offshore wind farm to the National Grid;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;

- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement (ES). Accordingly, the Applicant will be making preliminary environmental information available as part of the consultation.

Consultation on the Rampion 2 Wind Farm will begin on 14 July 2021 and end on 16 September 2021. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include consultation factsheets, the consultation response form, the Preliminary Environmental Information Report (PEIR) and a Non-Technical Summary (NTS) to the PEIR which will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Electronic copies of the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period:

Two cheers for EC shipping decarbonisation package

EUROPE'S WORST FLOODING in living memory has caused unimaginable devastation in recent days, with houses flattened, roads destroyed and bridges and vehicles swept away as rivers burst their banks in Belgium and Germany.

The body count had topped 120 at the time of writing, and may well have risen considerably by the time most people read these words

European Commission president Ursula von der Leyen has no doubt that the chaos has been caused by climate change, arguing that the flooding “really shows the urgency to act”.

By pure coincidence, her words come just as the commission unveiled radical proposals to ensure our industry does just that, by making it the subject of four of the 10 elements of its Fit for 55 scheme.

The programme covers everything from emissions and bunker taxation to new fuel requirements and the rapid roll-out of LNG fuel in EU ports.

Frankly, a European Union-only scheme is not ideal, and risks putting burdens on European owners that rivals in other parts of the world do not have to take on. That is always the flaw when regions act unilaterally.

It would have been better had the International Maritime Organization come up with a more convincing decarbonisation package than its non-binding target of merely halving greenhouse gas emissions by 2050.

**Section 48 Planning Act 2008
Regulation 4 The Infrastructure Planning (Applications: Prescribed Forms and Procedure)
Regulations 2009**

**RAMPION 2 OFFSHORE WIND FARM
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)**

Notice is hereby given that Rampion Extension Development Limited (“RED”) (**‘the Applicant’**) of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 (**‘Rampion 2’**).

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area of approximately 270 km². Export cables from the offshore array area will make landfall at Climping and will then connect to the National Grid via underground cables to a Project substation and then to the Electricity Transmission System at the National Grid Bolney Substation in Twineham, Mid Sussex.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 116 wind turbines with a maximum tip height of 325m above lowest astronomical tide and their foundations;
- Up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation on land in the vicinity of the existing National Grid Bolney Substation in Twineham, Mid Sussex;
- Underground cables between the new substation and the existing Bolney substation to connect the offshore wind farm to the National Grid;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement (ES). Accordingly, the Applicant will be making preliminary environmental information available as part of the consultation.

Consultation on the Rampion 2 Wind Farm will begin on **14 July 2021** and end on **16 September 2021**. During this time copies of the consultation materials comprising documents, plans and maps showing the

nature and location of the proposal will be made available. These include consultation factsheets, the consultation response form, the Preliminary Environmental Information Report (PEIR) and a Non-Technical Summary (NTS) to the PEIR which will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Electronic copies of the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period:

Responses to or other representations in respect of Rampion 2 should be submitted to the Applicant via the consultation feedback form on the project website www.rampion2.com/consultation. Consultation responses may also be received by email to rampion2@rwe.com or in writing to the Applicant at: Rampion 2 – Consultation Response, Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB stating the grounds of the response or representation. Any response or representation in respect of the proposed Development Consent Order must be received by the Applicant **no later than 23:59 on 16 September 2021**, indicating who is making the response or representation, and giving a postal or email address to which correspondence relating to the response or representation may be sent.

Details of responses and other representations will be made public at a later date, however any personal details or comments will not be attributed to any individual.

SHELLFISH BOILING BAN THREAT

TURN TO PAGE 2 FOR THE FULL REPORT

Orkney Westra Fjord completes trials off Danish coast

▲ Westra Fjord returns to Hvide Sande after completing engine trials.

After running successful engine trials at the end of June off Hvide Sande, the new 28m twin-rig whitefish stern ramp trawler Westra Fjord K 193 is expected to cross the North Sea later this month to begin her fishing career.

At the start of July, Orkney skippers Peter and Paul Harcus

and crew took their new command north to Thyboron for final painting and to rig out for fishing trials, which were completed last week.

With a beam of 9.5m and a moulded depth to shelterdeck of 6.77m, the new Westra Fjord was lifted into the water at the

Stal-Rem shipyard in Gdansk, Poland last November and towed to Hvide Sande for engine/machinery installation and fitting out by Vestværftet ApS.

The new vessel was designed by Ove Kristiansen of Vestværftet ApS. The shipyard has designed three vessels for Orkney in the

past five years – the Keila, the Aalskere and now the Westra Fjord, which make up the entire Orkney whitefish fleet.

Westra Fjord will work twin-rig whitefish trawls from three sets of split sweepline winches (2 x 13t) located at the fore end of the full-length trawl deck. Three 21t split trawl winches are mounted midway along the shelterdeck. The hydraulic deck machinery package, which also includes two bagging drums (11t) and two codend Gilsons, was manufactured by Bopp.

Catches on Westra Fjord will be hauled up the stern ramp on the vessel's centreline, before being delivered to a VCU automated fish-handling/washing system on the main deck.

Westra Fjord features a Mitsubishi S6U main engine, Hundested gearbox and matching 3,000mm-diameter CP propeller in a high-efficiency nozzle. Two 195kVA Mitsubishi auxiliaries supply electrical power.

Built for Peter, Paul and Tom Harcus of the Harcus Fishing Company, in partnership with Don Fishing, Westra Fjord was built to replace Caspian K (ex Russia Taign), which recently crossed the Atlantic to be delivered to new owners in St John's in Newfoundland.

▲ Shooting away the single-rig hopper net during fishing trials off Thyboron last week.

The 24m Caspian K was built by Macduff Shipyards as Caspian BF 38 for local skipper Colin West and partners in 1997. Caspian was sold to Orkney in 2012 and renamed Russa Taign K 193, before becoming Caspian K K 148 in 2020.

▲ An aerial view of Westra Fjord, showing the full-length boat deck sidewalks.

PUBLIC NOTICES

PLANNING NOTICES

**Section 48 Planning Act 2008
Regulation 4 The Infrastructure Planning (Applications: Prescribed Forms and Procedure)
Regulations 2009**

RAMPION 2 OFFSHORE WIND FARM

NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)

Notice was given in 14th July 2021 that Rampion Extension Development Limited ("RED") ("the Applicant") of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order ("DCO") for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ("Rampion 2").

Following the notice, the Applicant undertook consultation in accordance with the Planning Act 2008 and the Infrastructure Planning (Applications: Prescribed forms and Procedure) Regulations 2009 ('Statutory Consultation') between 14 July and 16 September 2021 which was then re-opened for a period between 7 February and 11 April 2022.

In considering the responses to the Statutory Consultation, and its further environmental assessment and engineering works, the Applicant has identified a number of alternative and modified cable route and additional access options and potential locations for new working areas and methods which are located beyond or within the previously identified onshore cable corridor. The proposed changes can be seen on plans that can be found at www.rampion2.com/consultation from 18th October to 29th November 2022. To ensure that all parties with an interest in the works and/or land affected are consulted on the proposals the Applicant is now undertaking further Statutory Consultation informed by a Preliminary Environmental Supplementary Information Report (PEIR SIR). The Applicant proposes to make an application for a DCO for Rampion 2 once it has finalised its proposals, having regard to the responses to this further Statutory Consultation.

The Project

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area adjacent to the existing Rampion Offshore Wind Farm. Export cables from the offshore array area will make landfall at Climping, West Sussex. The onshore elements of the proposal comprise a transmission cable route running from the landfall at Climping to a new project substation at the Oakendene site, near Cowfold, Horsham District. The cable route then connects to the existing National Grid Bolney Substation in Twineham, Mid Sussex where the project will be connected to the national electricity transmission system.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 90 offshore wind turbines and associated foundations
- Construction of up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation at the Oakendene site, near Cowfold, West Sussex. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation at the Oakendene site;
- Underground cables between the new Oakendene substation and the existing Bolney substation to connect the offshore wind farm to the national electricity transmission network;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis; and
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement. Accordingly, the Applicant made preliminary environmental information available as part of the initial Statutory Consultation and is also making available supplementary environmental information as part of this further Statutory Consultation.

This further Statutory Consultation on the Rampion 2 Wind Farm will begin on **18th October 2022** and end on **29th November 2022**. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include the Consultation Booklet, the consultation response form, the previously published Preliminary Environmental Information Report (PEIR) and a Supplementary Information Report to the PEIR that has been produced for the new proposals. These documents will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Hard copies will be available to view and the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period (subject to any changes to library opening hours: please check with libraries directly or via their website in case of changes to normal opening times):

Location	Address	Opening hours
Ferring Library	The Street, Ferring, BN12 5HL	Monday, Tuesday, Thursday & Saturday - 9am-1pm Wednesday & Friday 1pm-5pm
Littlehampton Library	Maltravers Road, Littlehampton, BN17 5NA	Monday - Friday 10am-6pm Saturday 10am-4pm
Bognor Regis Library	London Road, Bognor Regis, PO21 1DE	Monday - Friday 9.30am-6pm Saturday 9.30-5pm
Storrington Library	Ryecroft Lane, Storrington, RH20 4PA	Monday-Friday - 9am-5pm Saturday 10am-4pm
Henfield Library	Off High Street, Henfield, BN5 9HN	Monday - Friday 10am-5pm Saturday - 10am-2pm
Arundel Library	Surrey Street, Arundel, BN18 9DT	Monday - Wednesday 1pm-5pm Thursday - Saturday 9am-1pm
Steyning Library	Church Street, Steyning, BN44 3YB	Monday-Friday - 10am-5pm Saturday 10am - 2pm

Copies of the consultation documents on a USB drive will be provided free of charge on request at these libraries, subject to availability. Requests for reproduction of any of these consultation materials in a hardcopy paper format may be subject to a fee based on the number of pages required, and subject to the specifications of the request.

The consultation documents will also be available for inspection free of charge at community drop-in events during the consultation period. Members of the project team will be available to discuss the project and answer questions about the potential alterations and modifications to the onshore proposals and the further Statutory Consultation. Events are taking place at the following locations and times:

Venue	Date	Time
Arundel Town Hall Atherley Chamber Maltravers St, Arundel BN18 9AP	Tuesday, 1 st November 2022	1:00pm – 8:00pm
Arun Yacht Club Riverside West, Rope Walk, Littlehampton BN17 5DL	Wednesday, 2 nd November 2022	1:00pm – 8:00 pm
Ashurst Village Hall The Street Ashurst, Steyning BN44 3AP	Friday 11 th November 2022	1:00pm – 8:00pm
Washington Village Memorial Hall School Lane, Washington, RH20 4AP	Saturday 12 th November 2022	1:00pm – 8:00pm

Hard copies of the consultation materials (which may be subject to a fee), or translation of materials to another language, large print, audio or braille format may be requested, and other enquiries in respect of these materials may be raised, during the consultation period using the email address, telephone number or 'Contact us' form on the project website provided below:

- Email: rampion2@rwe.com
- Freephone number: 0800 2800 886
- Project website: www.rampion2.com

Responses to or other representations in respect of the proposed changes to Rampion 2 should be submitted to the Applicant via the consultation feedback form on the project website www.rampion2.com/consultation. Consultation responses may also be received by email to rampion2@rwe.com or in writing to the Applicant at: "FREEPOST: Rampion 2" stating the grounds of the response or representation. Any response or representation in respect of the proposed Development Consent Order must be received by the Applicant **no later than 23:59 on 29th November 2022**. We cannot guarantee that responses sent to any other addresses will be considered.

Details of responses and other representations will be made public at a later date, however details or comments will not be attributed to any individual.

RAMPION 2 OFFSHORE WIND FARM

NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)

Notice was given in 14th July 2021 that Rampion Extension Development Limited ("RED") ("the Applicant") of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order ("DCO") for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ("Rampion 2").

Following the notice, the Applicant undertook consultation in accordance with the Planning Act 2008 and the Infrastructure Planning (Applications: Prescribed forms and Procedure) Regulations 2009 ('Statutory Consultation') between 14 July and 16 September 2021 which was then re-opened for a period between 7 February and 11 April 2022.

In considering the responses to the Statutory Consultation, and its further environmental assessment and engineering works, the Applicant has identified a number of alternative and modified cable route and additional access options and potential locations for new working areas and methods which are located beyond or within the previously identified onshore cable corridor. The proposed changes can be seen on plans that can be found at www.rampion2.com/consultation from 18th October to 29th November 2022. To ensure that all parties with an interest in the works and/or land affected are consulted on the proposals the Applicant is now undertaking further Statutory Consultation informed by a Preliminary Environmental Supplementary Information Report (PEIR SIR). The Applicant proposes to make an application for a DCO for Rampion 2 once it has finalised its proposals, having regard to the responses to this further Statutory Consultation.

The Project

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area adjacent to the existing Rampion Offshore Wind Farm. Export cables from the offshore array area will make landfall at Climping, West Sussex. The onshore elements of the proposal comprise a transmission cable route running from the landfall at Climping to a new project substation at the Oakendene site, near Cowfold, Horsham District. The cable route then connects to the existing National Grid Bolney Substation in Twineham, Mid Sussex where the project will be connected to the national electricity transmission system.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 90 offshore wind turbines and associated foundations
- Construction of up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation at the Oakendene site, near Cowfold, West Sussex. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation at the Oakendene site;
- Underground cables between the new Oakendene substation and the existing Bolney substation to connect the offshore wind farm to the national electricity transmission network;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis; and
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement. Accordingly, the Applicant made preliminary environmental information available as part of the initial Statutory Consultation and is also making available supplementary environmental information as part of this further Statutory Consultation.

This further Statutory Consultation on the Rampion 2 Wind Farm will begin on **18th October 2022** and end on **29th November 2022**. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include the Consultation Booklet, the consultation response form, the previously published Preliminary Environmental Information Report (PEIR) and a Supplementary Information Report to the PEIR that has been produced for the new proposals. These documents will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Hard copies will be available to view and the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period (subject to any changes to library opening hours: please check with libraries directly or via their website in case of changes to normal opening times):

Location	Address	Opening hours

**Section 48 Planning Act 2008
Regulation 4 The Infrastructure Planning (Applications: Prescribed Forms and Procedure)
Regulations 2009**

RAMPTION 2 OFFSHORE WIND FARM

NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)

Notice was given in 14th July 2021 that Rampion Extension Development Limited ("RED") ("the Applicant") of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order ("DCO") for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ("Rampion 2").

Following the notice, the Applicant undertook consultation in accordance with the Planning Act 2008 and the Infrastructure Planning (Applications: Prescribed forms and Procedure) Regulations 2009 ('Statutory Consultation') between 14 July and 16 September 2021 which was then re-opened for a period between 7 February and 11 April 2022.

In considering the responses to the Statutory Consultation, and its further environmental assessment and engineering works, the Applicant has identified a number of alternative and modified cable route and additional access options and potential locations for new working areas and methods which are located beyond or within the previously identified onshore cable corridor. The proposed changes can be seen on plans that can be found at www.rampion2.com/consultation from 18th October to 29th November 2022. To ensure that all parties with an interest in the works and/or land affected are consulted on the proposals the Applicant is now undertaking further Statutory Consultation informed by a Preliminary Environmental Supplementary Information Report (PEIR SIR). The Applicant proposes to make an application for a DCO for Rampion 2 once it has finalised its proposals, having regard to the responses to this further Statutory Consultation.

The Project

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area adjacent to the existing Rampion Offshore Wind Farm. Export cables from the offshore array area will make landfall at Climping, West Sussex. The onshore elements of the proposal comprise a transmission cable route running from the landfall at Climping to a new project substation at the Oakendene site, near Cowfold, Horsham District. The cable route then connects to the existing National Grid Bolney Substation in Twineham, Mid Sussex where the project will be connected to the national electricity transmission system.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 90 offshore wind turbines and associated foundations
- Construction of up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation at the Oakendene site, near Cowfold, West Sussex. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation at the Oakendene site;
- Underground cables between the new Oakendene substation and the existing Bolney substation to connect the offshore wind farm to the national electricity transmission network;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis; and
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement. Accordingly, the Applicant made preliminary environmental information available as part of the initial Statutory Consultation and is also making available supplementary environmental information as part of this further Statutory Consultation.

This further Statutory Consultation on the Rampion 2 Wind Farm will begin on **18th October 2022** and end on **29th November 2022**. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include the Consultation Booklet, the consultation response form, the previously published Preliminary Environmental Information Report (PEIR) and a Supplementary Information Report to the PEIR that has been produced for the new proposals. These documents will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Hard copies will be available to view and the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period (subject to any changes to library opening hours: please check with libraries directly or via their website in case of changes to normal opening times):

Location	Address	Opening hours
Ferring Library	The Street, Ferring, BN12 5HL	Monday, Tuesday, Thursday & Saturday - 9am-1pm Wednesday & Friday 1pm-5pm
Littlehampton Library	Maltravers Road, Littlehampton, BN17 5NA	Monday - Friday 10am-6pm Saturday 10am-4pm
Bognor Regis Library	London Road, Bognor Regis, PO21 1DE	Monday - Friday 9.30am-6pm Saturday 9.30-5pm
Storrington Library	Ryecroft Lane, Storrington, RH20 4PA	Monday-Friday - 9am-5pm Saturday 10am-4pm
Henfield Library	Off High Street, Henfield, BN5 9HN	Monday - Friday 10am-5pm Saturday - 10am-2pm
Arundel Library	Surrey Street, Arundel, BN18 9DT	Monday - Wednesday 1pm-5pm Thursday - Saturday 9am-1pm
Steyning Library	Church Street, Steyning, BN44 3YB	Monday-Friday - 10am-5pm Saturday 10am - 2pm

Copies of the consultation documents on a USB drive will be provided free of charge on request at these libraries, subject to availability. Requests for reproduction of any of these consultation materials in a hardcopy paper format may be subject to a fee based on the number of pages required, and subject to the specifications of the request.

The consultation documents will also be available for inspection free of charge at community drop-in events during the consultation period. Members of the project team will be available to discuss the project and answer questions about the potential alterations and modifications to the onshore proposals and the further Statutory Consultation. Events are taking place at the following locations and times:

Venue	Date	Time
Arundel Town Hall Atherley Chamber Maltravers St, Arundel BN18 9AP	Tuesday, 1 st November 2022	1:00pm – 8:00pm
Arun Yacht Club Riverside West, Rope Walk, Littlehampton BN17 5DL	Wednesday, 2 nd November 2022	1:00pm – 8:00 pm
Ashurst Village Hall The Street Ashurst, Steyning BN44 3AP	Friday 11 th November 2022	1:00pm – 8:00pm
Washington Village Memorial Hall School Lane, Washington, RH20 4AP	Saturday 12 th November 2022	1:00pm – 8:00pm

Hard copies of the consultation materials (which may be subject to a fee), or translation of materials to another language, large print, audio or braille format may be requested, and other enquiries in respect of these materials may be raised, during the consultation period using the email address, telephone number or 'Contact us' form on the project website provided below:

- Email: rampion2@rwe.com
- Freephone number: 0800 2800 886
- Project website: www.rampion2.com

Responses to or other representations in respect of the proposed changes to Rampion 2 should be submitted to the Applicant via the consultation feedback form on the project website www.rampion2.com/consultation. Consultation responses may also be received by email to rampion2@rwe.com or in writing to the Applicant at: "FREEPOST: Rampion 2" stating the grounds of the response or representation. Any response or representation in respect of the proposed Development Consent Order must be received by the Applicant **no later than 23:59 on 29th November 2022**. We cannot guarantee that responses sent to any other addresses will be considered.

Details of responses and other representations will be made public at a later date, however details or comments will not be attributed to any individual.

Section 48 Planning Act 2008
Regulation 4 The Infrastructure Planning (Applications: Prescribed Forms and Procedure)
Regulations 2009

RAMPION 2 OFFSHORE WIND FARM
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)

Notice was given in 14th July 2021 that Rampion Extension Development Limited ("RED") ("the Applicant") of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order ("DCO") for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ("Rampion 2").

Following the notice, the Applicant undertook consultation in accordance with the Planning Act 2008 and the Infrastructure Planning (Applications: Prescribed forms and Procedure) Regulations 2009 ("Statutory Consultation") between 14 July and 16 September 2021 which was then re-opened for a period between 7 February and 11 April 2022.

In considering the responses to the Statutory Consultation, and its further environmental assessment and engineering works, the Applicant has identified a number of alternative and modified cable route and additional access options and potential locations for new working areas and methods which are located beyond or within the previously identified onshore cable corridor. The proposed changes can be seen on plans that can be found at www.rampion2.com/consultation from 18th October to 29th November 2022. To ensure that all parties with an interest in the works and/or land affected are consulted on the proposals the Applicant is now undertaking further Statutory Consultation informed by a Preliminary Environmental Supplementary Information Report (PEIR SIR). The Applicant proposes to make an application for a DCO for Rampion 2 once it has finalised its proposals, having regard to the responses to this further Statutory Consultation.

The Project

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area adjacent to the existing Rampion Offshore Wind Farm. Export cables from the offshore array area will make landfall at Climping, West Sussex. The onshore elements of the proposal comprise a transmission cable route running from the landfall at Climping to a new project substation at the Oakendene site, near Cowfold, Horsham District. The cable route then connects to the existing National Grid Bolney Substation in Twineham, Mid Sussex where the project will be connected to the national electricity transmission system.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 90 offshore wind turbines and associated foundations
- Construction of up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation at the Oakendene site, near Cowfold, West Sussex. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation at the Oakendene site;
- Underground cables between the new Oakendene substation and the existing Bolney substation to connect the offshore wind farm to the national electricity transmission network;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis; and
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement. Accordingly, the Applicant made preliminary environmental information available as part of the initial Statutory Consultation and is also making available supplementary environmental information as part of this further Statutory Consultation.

This further Statutory Consultation on the Rampion 2 Wind Farm will begin on **18th October 2022** and end on **29th November 2022**. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include the Consultation Booklet, the consultation response form, the previously published Preliminary Environmental Information Report (PEIR) and a Supplementary Information Report to the PEIR that has been produced for the new proposals. These documents will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Hard copies will be available to view and the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period (subject to any changes to library opening hours: please check with libraries directly or via their website in case of changes to normal opening times):

Location	Address	Opening hours
Ferring Library	The Street, Ferring, BN12 5HL	Monday, Tuesday, Thursday & Saturday - 9am-1pm Wednesday & Friday 1pm-5pm
Littlehampton Library	Maltravers Road, Littlehampton, BN17 5NA	Monday - Friday 10am-6pm Saturday 10am-4pm
Bognor Regis Library	London Road, Bognor Regis, PO21 1DE	Monday - Friday 9.30am-6pm Saturday 9.30-5pm
Storrington Library	Ryecroft Lane, Storrington, RH20 4PA	Monday-Friday - 9am-5pm Saturday 10am-4pm
Henfield Library	Off High Street, Henfield, BN5 9HN	Monday - Friday 10am-5pm Saturday - 10am-2pm
Arundel Library	Surrey Street, Arundel, BN18 9DT	Monday - Wednesday 1pm-5pm Thursday - Saturday 9am-1pm
Steyning Library	Church Street, Steyning, BN44 3YB	Monday-Friday - 10am-5pm Saturday 10am - 2pm

Copies of the consultation documents on a USB drive will be provided free of charge on request at these libraries, subject to availability. Requests for reproduction of any of these consultation materials in a hardcopy paper format may be subject to a fee based on the number of pages required, and subject to the specifications of the request.

The consultation documents will also be available for inspection free of charge at community drop-in events during the consultation period. Members of the project team will be available to discuss the project and answer questions about the potential alterations and modifications to the onshore proposals and the further Statutory Consultation. Events are taking place at the following locations and times:

Venue	Date	Time
Arundel Town Hall Atherley Chamber Maltravers St, Arundel BN18 9AP	Tuesday, 1 st November 2022	1:00pm – 8:00pm
Arun Yacht Club Riverside West, Rope Walk, Littlehampton BN17 5DL	Wednesday, 2 nd November 2022	1:00pm – 8:00 pm
Ashurst Village Hall The Street Ashurst, Steyning BN44 3AP	Friday 11 th November 2022	1:00pm – 8:00pm
Washington Village Memorial Hall School Lane, Washington, RH20 4AP	Saturday 12 th November 2022	1:00pm – 8:00pm

Hard copies of the consultation materials (which may be subject to a fee), or translation of materials to another language, large print, audio or braille format may be requested, and other enquiries in respect of these materials may be raised, during the consultation period using the email address, telephone number or 'Contact us' form on the project website provided below:

- Email: rampion2@rwe.com
- Freephone number: 0800 2800 886
- Project website: www.rampion2.com

Responses to or other representations in respect of the proposed changes to Rampion 2 should be submitted to the Applicant via the consultation feedback form on the project website www.rampion2.com/consultation. Consultation responses may also be received by email to rampion2@rwe.com or in writing to the Applicant at: "FREEPOST: Rampion 2" stating the grounds of the response or representation. Any response or representation in respect of the proposed Development Consent Order must be received by the Applicant **no later than 23:59 on 29th November 2022**. We cannot guarantee that responses sent to any other addresses will be considered.

Details of responses and other representations will be made public at a later date, however details or comments will not be attributed to any individual.

PLANNING

**Section 48 Planning Act 2008
Regulation 4 The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009
RAMPION 2 OFFSHORE WIND FARM
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)**

Notice was given in 14th July 2021 that Rampion Extension Development Limited ("RED") ("the Applicant") of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order ('DCO') for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ('Rampion 2').

Following the notice, the Applicant undertook consultation in accordance with the Planning Act 2008 and the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 ('Statutory Consultation') between 14 July and 16 September 2021 which was then re-opened for a period between 7 February and 11 April 2022.

In considering the responses to the Statutory Consultation, and its further environmental assessment and engineering works, the Applicant has identified a number of alternative and modified cable route and additional access options and potential locations for new working areas and methods which are located beyond or within the previously identified onshore cable corridor. The proposed changes can be seen on plans that can be found at www.rampion2.com/consultation from 18th October to 29th November 2022. To ensure that all parties with an interest in the works and/or land affected are consulted on the proposals the Applicant is now undertaking further Statutory Consultation informed by a Preliminary Environmental Supplementary Information Report (PEIR SIR). The Applicant proposes to make an application for a DCO for Rampion 2 once it has finalised its proposals, having regard to the responses to this further Statutory Consultation.

The Project

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area adjacent to the existing Rampion Offshore Wind Farm. Export cables from the offshore array area will make landfall at Climping, West Sussex. The onshore elements of the proposal comprise a transmission cable route running from the landfall at Climping to a new project substation at the Oakendene site, near Cowfold, Horsham District. The cable route then connects to the existing National Grid Bolney Substation in Twineham, Mid Sussex where the project will be connected to the national electricity transmission system.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 90 offshore wind turbines and associated foundations
- Construction of up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation at the Oakendene site, near Cowfold, West Sussex. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation at the Oakendene site;
- Underground cables between the new Oakendene substation and the existing Bolney substation to connect the offshore wind farm to the national electricity transmission network;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis; and
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement. Accordingly, the Applicant made preliminary environmental information available as part of the initial Statutory Consultation and is also making available supplementary environmental information as part of this further Statutory Consultation.

This further Statutory Consultation on the Rampion 2 Wind Farm will begin on **18th October 2022** and end on **29th November 2022**. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include the Consultation Booklet, the consultation response form, the previously published Preliminary Environmental Information Report (PEIR) and a Supplementary Information Report to the PEIR that has been produced for the new proposals. These documents will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Hard copies will be available to view and the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period (subject to any changes to library opening hours: please check with libraries directly or via their website in case of changes to normal opening times):

Regulations 2009

RAMPTION 2 OFFSHORE WIND FARM

NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)

Notice was given in 14th July 2021 that Rampion Extension Development Limited ("RED") ("the Applicant") of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order ("DCO") for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ("Rampion 2").

Following the notice, the Applicant undertook consultation in accordance with the Planning Act 2008 and the Infrastructure Planning (Applications: Prescribed forms and Procedure) Regulations 2009 ("Statutory Consultation") between 14 July and 16 September 2021 which was then re-opened for a period between 7 February and 11 April 2022.

In considering the responses to the Statutory Consultation, and its further environmental assessment and engineering works, the Applicant has identified a number of alternative and modified cable route and additional access options and potential locations for new working areas and methods which are located beyond or within the previously identified onshore cable corridor. The proposed changes can be seen on plans that can be found at www.rampion2.com/consultation from 18th October to 29th November 2022. To ensure that all parties with an interest in the works and/or land affected are consulted on the proposals the Applicant is now undertaking further Statutory Consultation informed by a Preliminary Environmental Supplementary Information Report (PEIR SIR). The Applicant proposes to make an application for a DCO for Rampion 2 once it has finalised its proposals, having regard to the responses to this further Statutory Consultation.

The Project

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area adjacent to the existing Rampion Offshore Wind Farm. Export cables from the offshore array area will make landfall at Climping, West Sussex. The onshore elements of the proposal comprise a transmission cable route running from the landfall at Climping to a new project substation at the Oakendene site, near Cowfold, Horsham District. The cable route then connects to the existing National Grid Bolney Substation in Twineham, Mid Sussex where the project will be connected to the national electricity transmission system.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 90 offshore wind turbines and associated foundations
- Construction of up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation at the Oakendene site, near Cowfold, West Sussex. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation at the Oakendene site;
- Underground cables between the new Oakendene substation and the existing Bolney substation to connect the offshore wind farm to the national electricity transmission network;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis; and
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement. Accordingly, the Applicant made preliminary environmental information available as part of the initial Statutory Consultation and is also making available supplementary environmental information as part of this further Statutory Consultation.

This further Statutory Consultation on the Rampion 2 Wind Farm will begin on **18th October 2022** and end on **29th November 2022**. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include the Consultation Booklet, the consultation response form, the previously published Preliminary Environmental Information Report (PEIR) and a Supplementary Information Report to the PEIR that has been produced for the new proposals. These documents will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Hard copies will be available to view and the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period (subject to any changes to library opening hours: please check with libraries directly or via their website in case of changes to normal opening times):

Location	Address	Opening hours
Ferring Library	The Street, Ferring, BN12 5HL	Monday, Tuesday, Thursday & Saturday - 9am-1pm Wednesday & Friday 1pm-5pm
Littlehampton Library	Maltrovers Road, Littlehampton, BN17 5NA	Monday - Friday 10am-6pm Saturday 10am-4pm
Bognor Regis Library	London Road, Bognor Regis, PO21 1DE	Monday - Friday 9.30am-6pm Saturday 9.30-5pm
Storrington Library	Ryecroft Lane, Storrington, RH20 4PA	Monday-Friday - 9am-5pm Saturday 10am-4pm
Henfield Library	Off High Street, Henfield, BN5 9HN	Monday - Friday 10am-5pm Saturday - 10am-2pm
Arundel Library	Surrey Street, Arundel, BN18 9DT	Monday - Wednesday 1pm-5pm Thursday - Saturday 9am-1pm
Steyning Library	Church Street, Steyning, BN44 3YB	Monday-Friday - 10am-5pm Saturday 10am - 2pm

Copies of the consultation documents on a USB drive will be provided free of charge on request at these libraries, subject to availability. Requests for reproduction of any of these consultation materials in a hardcopy paper format may be subject to a fee based on the number of pages required, and subject to the specifications of the request.

The consultation documents will also be available for inspection free of charge at community drop-in events during the consultation period. Members of the project team will be available to discuss the project and answer questions about the potential alterations and modifications to the onshore proposals and the further Statutory Consultation. Events are taking place at the following locations and times:

Venue	Date	Time
Arundel Town Hall Atherley Chamber Maltrovers St, Arundel BN18 9AP	Tuesday, 1 st November 2022	1:00pm – 8:00pm
Arun Yacht Club Riverside West, Rope Walk, Littlehampton BN17 5DL	Wednesday, 2 nd November 2022	1:00pm – 8:00 pm
Ashurst Village Hall The Street Ashurst, Steyning BN44 3AP	Friday 11 th November 2022	1:00pm – 8:00pm
Washington Village Memorial Hall School Lane, Washington, RH20 4AP	Saturday 12 th November 2022	1:00pm – 8:00pm

Hard copies of the consultation materials (which may be subject to a fee), or translation of materials to another language, large print, audio or braille format may be requested, and other enquiries in respect of these materials may be raised, during the consultation period using the email address, telephone number or 'Contact us' form on the project website provided below:

- Email: rampion2@rwe.com
- Freephone number: 0800 2800 886
- Project website: www.rampion2.com

Responses to or other representations in respect of the proposed changes to Rampion 2 should be submitted to the Applicant via the consultation feedback form on the project website www.rampion2.com/consultation. Consultation responses may also be received by email to rampion2@rwe.com or in writing to the Applicant at: "FREEPOST: Rampion 2" stating the grounds of the response or representation. Any response or representation in respect of the proposed Development Consent Order must be received by the Applicant **no later than 23:59 on 29th November 2022**. We cannot guarantee that responses sent to any other addresses will be considered.

Details of responses and other representations will be made public at a later date, however details or comments will not be attributed to any individual.

Section 48 Planning Act 2008
Regulation 4 The Infrastructure Planning (Applications: Prescribed Forms and Procedure)
Regulations 2009

RAMPION 2 OFFSHORE WIND FARM

NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)

Notice was given in 14th July 2021 that Rampion Extension Development Limited ("RED") ("the Applicant") of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order ("DCO") for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ("Rampion 2").

Following the notice, the Applicant undertook consultation in accordance with the Planning Act 2008 and the Infrastructure Planning (Applications: Prescribed forms and Procedure) Regulations 2009 ('Statutory Consultation') between 14 July and 16 September 2021 which was then re-opened for a period between 7 February and 11 April 2022.

In considering the responses to the Statutory Consultation, and its further environmental assessment and engineering works, the Applicant has identified a number of alternative and modified cable route and additional access options and potential locations for new working areas and methods which are located beyond or within the previously identified onshore cable corridor. The proposed changes can be seen on plans that can be found at www.rampion2.com/consultation from 18th October to 29th November 2022. To ensure that all parties with an interest in the works and/or land affected are consulted on the proposals the Applicant is now undertaking further Statutory Consultation informed by a Preliminary Environmental Supplementary Information Report (PEIR SIR). The Applicant proposes to make an application for a DCO for Rampion 2 once it has finalised its proposals, having regard to the responses to this further Statutory Consultation.

The Project

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area adjacent to the existing Rampion Offshore Wind Farm. Export cables from the offshore array area will make landfall at Climping, West Sussex. The onshore elements of the proposal comprise a transmission cable route running from the landfall at Climping to a new project substation at the Oakendene site, near Cowfold, Horsham District. The cable route then connects to the existing National Grid Bolney Substation in Twineham, Mid Sussex where the project will be connected to the national electricity transmission system.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 90 offshore wind turbines and associated foundations
- Construction of up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation at the Oakendene site, near Cowfold, West Sussex. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation at the Oakendene site;
- Underground cables between the new Oakendene substation and the existing Bolney substation to connect the offshore wind farm to the national electricity transmission network;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis; and
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement. Accordingly, the Applicant made preliminary environmental information available as part of the initial Statutory Consultation and is also making available supplementary environmental information as part of this further Statutory Consultation.

This further Statutory Consultation on the Rampion 2 Wind Farm will begin on **18th October 2022** and end on **29th November 2022**. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include the Consultation Booklet, the consultation response form, the previously published Preliminary Environmental Information Report (PEIR) and a Supplementary Information Report to the PEIR that has been produced for the new proposals. These documents will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Hard copies will be available to view and the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period (subject to any changes to library opening hours: please check with libraries directly or via their website in case of changes to normal opening times):

Location	Address	Opening hours
Ferring Library	The Street, Ferring, BN12 5HL	Monday, Tuesday, Thursday & Saturday - 9am-1pm Wednesday & Friday 1pm-5pm
Littlehampton Library	Maltravers Road, Littlehampton, BN17 5NA	Monday - Friday 10am-6pm Saturday 10am-4pm
Bognor Regis Library	London Road, Bognor Regis, PO21 1DE	Monday - Friday 9.30am-6pm Saturday 9.30-5pm
Storrington Library	Ryecroft Lane, Storrington, RH20 4PA	Monday-Friday - 9am-5pm Saturday 10am-4pm
Henfield Library	Off High Street, Henfield, BN5 9HN	Monday - Friday 10am-5pm Saturday - 10am-2pm
Arundel Library	Surrey Street, Arundel, BN18 9DT	Monday - Wednesday 1pm-5pm Thursday - Saturday 9am-1pm
Steyning Library	Church Street, Steyning, BN44 3YB	Monday-Friday - 10am-5pm Saturday 10am - 2pm

Copies of the consultation documents on a USB drive will be provided free of charge on request at these libraries, subject to availability. Requests for reproduction of any of these consultation materials in a hardcopy paper format may be subject to a fee based on the number of pages required, and subject to the specifications of the request.

The consultation documents will also be available for inspection free of charge at community drop-in events during the consultation period. Members of the project team will be available to discuss the project and answer questions about the potential alterations and modifications to the onshore proposals and the further Statutory Consultation. Events are taking place at the following locations and times:

Venue	Date	Time
Arundel Town Hall Atherley Chamber Maltravers St, Arundel BN18 9AP	Tuesday, 1 st November 2022	1:00pm – 8:00pm
Arun Yacht Club Riverside West, Rope Walk, Littlehampton BN17 5DL	Wednesday, 2 nd November 2022	1:00pm – 8:00 pm
Ashurst Village Hall The Street Ashurst, Steyning BN44 3AP	Friday 11 th November 2022	1:00pm – 8:00pm
Washington Village Memorial Hall School Lane, Washington, RH20 4AP	Saturday 12 th November 2022	1:00pm – 8:00pm

Hard copies of the consultation materials (which may be subject to a fee), or translation of materials to another language, large print, audio or braille format may be requested, and other enquiries in respect of these materials may be raised, during the consultation period using the email address, telephone number or 'Contact us' form on the project website provided below:

- Email: rampion2@rwe.com
- Freephone number: 0800 2800 886
- Project website: www.rampion2.com

Responses to or other representations in respect of the proposed changes to Rampion 2 should be submitted to the Applicant via the consultation feedback form on the project website www.rampion2.com/consultation. Consultation responses may also be received by email to rampion2@rwe.com or in writing to the Applicant at: "FREEPOST: Rampion 2" stating the grounds of the response or representation. Any response or representation in respect of the proposed Development Consent Order must be received by the Applicant **no later than 23:59 on 29th November 2022**. We cannot guarantee that responses sent to any other addresses will be considered.

Details of responses and other representations will be made public at a later date, however details or comments will not be attributed to any individual.

The King visits The Repair Shop & Sussex museum

King Charles will feature on a special episode of The Repair Shop alongside Jay Blades.

Sam Puls
sam.puls@nationalworld.com

King Charles is to guest star in a special episode of TV's Repair Shop as part of the BBC's centenary celebrations.

In the programme the King will meet with the show's host Jay Blades and his expert team at the Weald and Downland Museum to discuss the Monarch's love of preserving heritage craft skills.

The team will also mend two precious items chosen by the monarch - a piece of pottery made for Queen Victoria's Diamond Jubilee and a 18th century clock.

The special was announced during The One Show on Tuesday, October 11, with the episode airing on October 26 at 8pm on BBC One.

In August 2021, Blades' team, ceramics expert Kirsten Ramsay, horologist Steve Fletcher and furniture restorer Will Kirk were invited to Dumfries House in Scotland to meet the King, then the Prince of Wales, and learn about The Prince's Foundation's work in training the next generation of craft people. The episode will see Charles

The King, then Prince of Wales and Jay Blades (left) who will appear in a special episode of The Repair Shop as part of the BBC's centenary celebrations.

give Blades a tour of the estate as well as meeting some of the students on the Building Craft Programme set up by The Prince's Foundation which teaches traditional skills such as blacksmithing, stonemasonry and wood carving.

Within the episode, the Repair Shop team also pledge to restore two historic pieces: an 18th century bracket clock and a piece of pottery made for Queen Victoria's Diamond Jubilee.

A skills swap also ensues as the Building Craft Programme lends its graduate Jeremy Cash

to the Repair Shop to work alongside metalwork expert Dom Chinea on a special third item - a fire set in the shape of a soldier which has a poignant story behind its existence.

Jay Blades said: "You've got someone from a council estate and someone from a Royal estate that have the same interests about apprenticeships and heritage crafts."

"It is unbelievable to see that two people from so far apart, from different ends of the spectrum, actually have the same interests."

Support for renewable energy production

Renewable energy

Karen Dunn
Local Democracy Reporter

West Sussex councillors have reaffirmed their belief that renewable energy production is the way forward for the county – not gas or oil.

During a meeting of the county council on October 14, members supported unanimously a notice of motion on the subject which was tabled by Liberal Democrat leader Kirsty Lord.

The motion was brought forward after the government decided to lift its ban on fracking in the UK.

Mrs Lord shared her fears that the government could 'start tinkering with the regulations' when it came to oil and gas production – and even the definition of what constitutes fracking.

She said: "This council's planning team reviews national policy regularly.

"It may be time for us to review whether the National Infrastructure Act's definition of fracking is still sufficient to protect our environment, given the use of liquids below that level

could be allowed even in the National Park and AONBs [Area of Outstanding Natural Beauty]."

Hydraulic fracturing, or fracking, is a technique for recovering gas and oil from shale rock. It involves drilling into the earth and directing a high-pressure mixture of water, sand and chemicals at a rock layer in order to release the gas inside.

It was halted in the UK in 2019 following concerns about earth tremors – but that ban was lifted last month. Deborah Urquhart, cabinet member for environment & climate change, amended the motion to include mention of a British Geological Survey which confirmed that the geology of the Weald Basin – which includes West Sussex – means that there is no significant shale gas potential.

But the same report does state that there could be an estimated 4.4 billion barrels of oil in the rock. Mrs Urquhart said: "We won't support anything that is tearing up the environmental protections here in West Sussex. But we are the strategic planning authority – we have to, by law, abide by national planning regulations. But we will do all we can to make sure that

environmental protections are enhanced, not reduced."

Exploratory drilling has taken place at Balcombe in Mid Sussex and at Broadford Bridge near Billingshurst in the Horsham district, though the companies involved stated these were for conventional energy deposits and not for shale oil or gas.

Work has ground to a halt at the Billingshurst site until the evaluation of the Horse Hill site near Horley is completed. Meanwhile, Angus Energy's most recent application to continue oil testing at Balcombe was rejected by the council in March 2021, although the company is appealing that decision.

No matter the council's stance on fracking or oil/gas extraction, its hands would be tied if the government declared a site to be Nationally Significant Infrastructure.

Such a move would bypass normal local planning requirements.

The council has made great strides when it comes to renewable energy, opening solar farms at Tanbridge and Westhampnett, a wind farm a few miles off the Sussex coast, and a battery storage farm due to open next year in Sompting.

Super Sussex Autumn's wonderful colours

Regulation 4 The Infrastructure Planning (Applications: Prescribed Forms and Procedure)
Regulations 2009**

RAMPION 2 OFFSHORE WIND FARM

NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)

Notice was given in 14th July 2021 that Rampion Extension Development Limited ("RED") ("the Applicant") of Greenwood House, Westwood Way, Westwood Business Park, Coveentry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order ("DCO") for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ("Rampion 2"). Following the notice, the Applicant undertook consultation in accordance with the Planning Act 2008 and the Infrastructure Planning (Applications: Prescribed forms and Procedure) Regulations 2009 ("Statutory Consultation") between 14 July and 16 September 2021 which was then re-opened for a period between 7 February and 11 April 2022.

In considering the responses to the Statutory Consultation, and its further environmental assessment and engineering works, the Applicant has identified a number of alternative and modified cable route and additional access options and potential locations for new working areas and methods which are located beyond or within the previously identified onshore cable corridor. The proposed changes can be seen on plans that can be found at www.rampion2.com/consultation from 18th October to 29th November 2022. To ensure that all parties with an interest in the works and/or land affected are consulted on the proposals the Applicant is now undertaking further Statutory Consultation informed by a Preliminary Environmental Supplementary Information Report (PEIR SIR). The Applicant proposes to make an application for a DCO for Rampion 2 once it has finalised its proposals, having regard to the responses to this further Statutory Consultation.

The Project

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area adjacent to the existing Rampion Offshore Wind Farm. Export cables from the offshore array area will make landfall at Climping, West Sussex. The onshore elements of the proposal comprise a transmission cable route running from the landfall at Climping to a new project substation at the Oakendene site, near Cowfold, Horsham District. The cable route then connects to the existing National Grid Bolehy Substation in Tineham, Mid Sussex where the project will be connected to the national electricity transmission system.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 90 offshore wind turbines and associated foundations
- Construction of up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation at the Oakendene site, near Cowfold, West Sussex. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation at the Oakendene site;
- Underground cables between the new Oakendene substation and the existing Bolehy substation to connect the offshore wind farm to the national electricity transmission network;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or discontinuation of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis; and
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement. Accordingly, the Applicant made preliminary environmental information available as part of the initial Statutory Consultation and is also making available supplementary environmental information as part of this further Statutory Consultation.

This further Statutory Consultation on the Rampion 2 Wind Farm will begin on 18th October 2022 and end on 29th November 2022. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include the Consultation Booklet, the consultation response form, the previously published Preliminary Environmental Information Report (PEIR) and a Supplementary Information Report to the PEIR that has been produced for the new proposals. These documents will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Hard copies will be available to view and the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period (subject to any changes to library opening hours: please check with libraries directly or via their website in case of changes to normal opening times):

Sleynig Library	Church Street, Sleynig, BN44 3YB	Monday-Friday - 10am-5pm Saturday 10am - 2pm

Copies of the consultation documents on a USB drive will be provided free of charge on request at these libraries, subject to availability. Requests for reproduction of any of these consultation materials in a hardcopy paper format may be subject to a fee based on the number of pages required, and subject to the specifications of the request.

The consultation documents will also be available for inspection free of charge at community drop-in events during the consultation period. Members of the project team will be available to discuss the project and answer questions about the potential alterations and modifications to the onshore proposals and the further Statutory Consultation. Events are taking place at the following locations and times:

Venue	Date	Time
Arundel Town Hall Atherley Chamber Maltravers St, Arundel BN18 9AP	Tuesday, 1 st November 2022	1.00pm - 8.00pm
Arun Yacht Club Riverside West, Rope Walk, Littlehampton BN17 5DL	Wednesday, 2 nd November 2022	1.00pm - 8.00 pm
Ashurst Village Hall The Street Ashurst, Steyning BN44 3AP	Friday 11 th November 2022	1.00pm - 8.00pm
Washington Village Memorial Hall School Lane, Washington, RH20 4AP	Saturday 12 th November 2022	1.00pm - 8.00pm

Hard copies of the consultation materials (which may be subject to a fee), or translation of materials to another language, large print, audio or braille format may be requested, and other enquiries in respect of these materials may be raised, during the consultation period using the email address, telephone number or Contact us form on the project website provided below:

- Email: rampion2@rwe.com
- Freephone number: 0800 2800 886
- Project website: www.rampion2.com

Responses to or other representations in respect of the proposed changes to Rampion 2 should be submitted to the Applicant via the consultation feedback form on the project website www.rampion2.com/consultation. Consultation responses may also be received by email to rampion2@rwe.com or in writing to the Applicant at: "FREEPOST: Rampion 2" stating the grounds of the response or representation. Any response or representation in respect of the proposed Development Consent Order must be received by the Applicant no later than 23:59 on 29th November 2022. We cannot guarantee that responses sent to any other addresses will be considered. Details of responses and other representations will be made public at a later date, however details or comments will not be attributed to any individual.

**Section 48 Planning Act 2008
Regulation 4 The Infrastructure Planning (Applications: Prescribed Forms and Procedure)
Regulations 2009**

**NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)
RAMPTION 2 OFFSHORE WIND FARM**

Notice was given in 14th July 2021 that Ramption Extension Development Limited ("RED") (the Applicant) of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PS proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order ("DCO") for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Ramption 2 ("Ramption 2"). Following the notice, the Applicant undertook consultation in accordance with the Planning Act 2008 and the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 ("Statutory Consultation") between 14 July and 16 September 2021 which was then approved for a period between 7 February and 11 April 2022.

In considering the responses to the Statutory Consultation, and its further environmental assessment and engineering works, the Applicant has identified a number of alternative and modified cable routing and additional access options and potential locations for new working areas and methods which are located beyond or within the previously identified offshore cable corridor. The proposed changes can be seen on plans that can be found at www.ramption2.com/consultation from 18th October to 29th November 2022. To ensure that all parties with an interest in the works and/or land affected are consulted on the proposals the Applicant is now undertaking further Statutory Consultation informed by a Preliminary Environmental Supplementary Information Report (PEIR/SIR). The Applicant proposes to make an application for a DCO for Ramption 2 once it has finalised its proposals, having regard to the responses to this further Statutory Consultation.

The Project
Ramption 2 will have a proposed generating capacity in excess of 100 MW and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area adjacent to the existing Ramption Offshore Wind Farm. Export cables from the offshore array area will make landfall at Climping, West Sussex. The onshore elements of the proposal comprise a transmission cable route running from the landfall at Climping to a new project substation at the Oakendene site, near Cowfold, Horsham District. The cable route then connects to the existing National Grid Boleyn Substation in Twickenham, Mid Sussex where the project will be connected to the national electricity transmission system.

- The proposed development consent order will, amongst other things, licence and authorise:
- The construction, operation and maintenance of up to 90 offshore wind turbines and associated foundation
 - Construction of up to three offshore substations
 - Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves
 - Export cables to transmit electricity from the offshore substations to the shore
 - A trench, located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables
 - Onshore underground cables with jointing pits to transmit electricity to a new onshore substation at the Oakendene site, near Cowfold, West Sussex. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m
 - The construction and operation of an onshore substation at the Oakendene site
 - Underground cables between the new Oakendene substation and the existing Boleyn substation to connect the offshore wind farm to the national electricity transmission network
 - The permanent compulsory acquisition of land and/or rights for the Project, where required
 - Overriding of easements and other rights over or affecting land as required for the Project
 - The application and/or discontinuance of legislation relevant to the Project including inter alia legislation relating to compulsory purchase
 - If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis, and
 - Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Ramption 2 is an EIA development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement. Accordingly, the Applicant made preliminary environmental information available as part of the initial Statutory Consultation and is also making available supplementary environmental information as part of this further Statutory Consultation.

This further Statutory Consultation on the Ramption 2 Wind Farm will begin on 18th October 2022 and end on 29th November 2022. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include the Consultation Booklet, the consultation response form, the previously published Preliminary Environmental Information Report (PEIR) and a Supplementary Information Report to the PEIR that has been produced for the new proposals. These documents will be available for inspection, free of charge, on the project website www.ramption2.com/consultation. Hard copies will be available to view and the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period (subject to any changes to library opening hours; please check with libraries directly or via their website in case of changes to normal opening times).

LOCATION	ADDRESS	OPENING HOURS
Ferring Library	The Street, Ferring, BN12 5HL	Monday, Tuesday, Thursday & Saturday 9am-1pm Wednesday & Friday 1pm-5pm
Littlehampton Library	Maitravers Road, Littlehampton, BN17 5NA	Monday - Friday 10am-6pm Saturday 10am-4pm
Bognor Regis Library	London Road, Bognor Regis, PO21 1DE	Monday - Friday 9.30am-6pm Saturday 9.30-5pm
Storrington Library	Ryecroft Lane, Storrington, RH20 4PA	Monday-Friday 9am-5pm Saturday 10am-4pm
Hanfield Library	Off High Street, Hanfield, BN9 9HN	Monday - Friday 10am-5pm Saturday 10am-2pm
Arundel Library	Surrey Street, Arundel, BN18 9DT	Monday - Wednesday 1pm-5pm Thursday - Saturday 9am-1pm
Steyning Library	Church Street, Steyning, BN44 3YB	Monday-Friday - 10am-5pm Saturday 10am - 2pm

of the consultation documents on a USB drive will be provided free of charge on request at these libraries, subject to availability. Requests for reproduction of any of these consultation materials in a hardcopy paper format subject to a fee based on the number of pages required, and subject to the specifications of the request.

consultation documents will also be available for inspection free of charge at community drop-in events during the consultation period. Members of the project team will be available to discuss the project and answer questions on potential alterations and modifications to the onshore proposals and the further Statutory Consultation. Events are taking place at the following locations and times:

VENUE	DATE	TIME
Arundel Town Hall Atherley Chamber Maitravers St, Arundel BN18 9AP	Tuesday, 1st November 2022	1:00pm - 8:00pm
Arun Yacht Club Riverside West, Rope Walk, Littlehampton BN17 5DL	Wednesday, 2nd November 2022	1:00pm - 8:00 pm

Washington Village Memorial Hall School Lane, Washington RH20 4AP	Saturday 12th November 2022	1:00pm - 8:00pm

the consultation materials (which may be subject to a fee), or translation of materials to another language, large print, audio or braille format may be requested, and other enquiries in respect of these materials may be made during the consultation period using the email address, telephone number or 'Contact us' form on the project website provided below.

Email: ramption2@rws.com
Freephone number: 0800 2800 886
Project website: www.ramption2.com

other representations in respect of the proposed changes to Ramption 2 should be submitted to the Applicant via the consultation feedback form on the project website www.ramption2.com/consultation or by email to ramption2@rws.com or in writing to the Applicant at: "FREEPOST: Ramption 2" stating the grounds of the response or representation. Any response or representation proposed Development Consent Order must be received by the Applicant no later than **23:59 on 29th November 2022**. We cannot guarantee that responses sent to any other addresses will be considered and other representations will be made public at a later date, however details or comments will not be attributed to any individual.

DNA test gives more accurate forecast of cervical cancer risk

Andrew Gregory
Health editor

Scientists have developed a more accurate test for cell changes that can lead to cervical cancer.

The revolutionary test can also pick up DNA markers for some other

common cancers, so could in future be used as a predictive test for breast, womb, cervical and ovarian cancer.

The scientists behind the test had previously shown that by using cervical cells from a routine smear test they might be able to spot ovarian and breast cancer or predict the likelihood of those conditions developing.

Now the expert team says that when testing for cervical cancer the new test performs better than current methods for identifying women with advanced cell changes who need treatment. For women without cell changes but who had human papillomavirus (HPV), which causes most cases of cervical cancer, the test detected 55% of those who would have cell changes in the next four years. The results were published in the journal *Genome Medicine*.

Athena Lammios, the chief executive of the Eve Appeal charity, said:

"This new method is more specific and doesn't lead to overtreatment... We know with cervical cancer that we can intervene at an early stage."

In the UK there are about 3,200 new cervical cancer cases a year and 850 deaths.

In their latest study the experts, led by the University of Innsbruck and University College London, looked at DNA methylation. DNA contains all the genes people inherit from both parents, while DNA methylation tells cells which bits of DNA to read. Factors such as smoking, pollution,

poor diet after the age of 50, and alcohol consumption, can lead to cell changes that increase the risk of cancer.

Judiciary 'institutionally racist' across England and Wales, finds report

Haroon Siddique
Legal affairs correspondent

The judiciary in England and Wales is "institutionally racist", with more than half of legal professionals surveyed claiming to have witnessed a judge acting in a racially biased way, according to a report.

The study by the University of Manchester and the barrister Keir Monteith KC found judicial discrimination to be directed particularly towards black court users - from lawyers to witnesses to defendants.

Of 373 legal professionals surveyed, 56% stated they had witnessed at least one judge acting in a racially biased way towards a defendant, while 52% had witnessed discrimination in judicial decision-making.

Examples ranged from hostility towards black defendants, including use of the term "you people", to harsher sentences.

The study also criticised the current five-year strategy to boost judicial diversity for failing to mention racial bias or racism.

Prof Leslie Thomas KC, who wrote the report's foreword, said: "Judges need to sit up and listen, because it is a myth that Lady Justice is blind to colour. Our judiciary as an institution is just as racist as our police forces, our education system and our health service - this is something that cannot be ignored for any longer."

Since 2020, there had been only one published Judicial Conduct Investigations Office decision where racism was found against a judge (a

magistrate), the report said. It also noted the Judicial Executive Board had not published a report it commissioned into bullying and racism.

Responses to the survey indicated racial discrimination by judges was most frequently directed towards Asian and black people, with the latter the most affected, and the most frequently mentioned sub-group was young black male defendants.

One respondent also said that every black parent they represented had been described as "aggressive".

Prof Eithne Quinn, the report's academic lead author, said the findings showed "judges often play a role in fuelling and normalising the terrible disparities in our legal system".

The overwhelming majority (95%) of respondents said racial bias played some role in the processes or outcomes of the justice system.

The report, published yesterday, recommended that the lord chief justice should publicly acknowledge the justice system was institutionally racist, and should organise compulsory, ongoing racial bias and anti-racist training for all judges and overhaul the process of judicial appointments.

Just 1% of the judiciary are black, none of whom sit in the court of appeal, and there has never been a supreme court justice of colour.

Monteith said: "Racism in the justice system has to be acknowledged and fought by those at the highest level, but at the moment there is complete and utter silence - and as a consequence, there is no action to combat racial bias."

Lord Burnett of Maldon, the lord chief justice, said he had been "working hard to deal with problems of the sort that have been identified, where they exist". He added: "The judiciary will look carefully at this report and take it into account when considering how to focus our efforts in the future. Any incidents of racism, harassment, bullying or discrimination are unacceptable and will be dealt with in accordance with the relevant grievance or conduct procedure."

In a separate study it was revealed that just 90 of more than 13,000 partners at major law firms in England and Wales were black. The 1% study said the sector could learn from other industries to attract, retain and progress diverse talent to senior levels.

Many legal professionals have witnessed judges acting in a racially biased way when dealing with people in the court system

SECTION 48 PLANNING ACT 2008

REGULATION 4 THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE)

REGULATIONS 2009

RAMPION 2 OFFSHORE WIND FARM

NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)

Notice was given in 14th July 2021 that Rampion Extension Development Limited ("RED") (**the Applicant**) of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order (**'DCO'**) for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 (**'Rampion 2'**).

Following the notice, the Applicant undertook consultation in accordance with the Planning Act 2008 and the Infrastructure Planning (Applications: Prescribed forms and Procedure) Regulations 2009 ("Statutory Consultation") between 14 July and 16 September 2021 which was then re-opened for a period between 7 February and 11 April 2022.

In considering the responses to the Statutory Consultation, and its further environmental assessment and engineering works, the Applicant has identified a number of alternative and modified cable route and additional access options and potential locations for new working areas and methods which are located beyond or within the previously identified onshore cable corridor. The proposed changes can be seen on plans that can be found at www.rampion2.com/ consultation from 18th October to 29th November 2022. To ensure that all parties with an interest in the works and/or land affected are consulted on the proposals the Applicant is now undertaking further Statutory Consultation informed by a Preliminary Environmental Supplementary Information Report (PEIR SIR). The Applicant proposes to make an application for a DCO for Rampion 2 once it has finalised its proposals, having regard to the responses to this further Statutory Consultation.

The Project

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area adjacent to the existing Rampion Offshore Wind Farm. Export cables from the offshore array area will make landfall at Climping, West Sussex. The onshore elements of the proposal comprise a transmission cable route running from the landfall at Climping to a new project substation at the Oakendene site, near Cowfold, Horsham District. The cable route then connects to the existing National Grid Bolney Substation in Twineham, Mid Sussex where the project will be connected to the national electricity transmission system.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 90 offshore wind turbines and associated foundations
- Construction of up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation at the Oakendene site, near Cowfold, West Sussex. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation at the Oakendene site;
- Underground cables between the new Oakendene substation and the existing Bolney substation to connect the offshore wind farm to the national electricity transmission network;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis; and
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement. Accordingly, the Applicant made preliminary environmental information available as part of the initial Statutory Consultation and is also making available supplementary environmental information as part of this further Statutory Consultation.

This further Statutory Consultation on the Rampion 2 Wind Farm will begin on **18th October 2022** and end on **29th November 2022**. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include the Consultation Booklet, the consultation response form, the previously published Preliminary Environmental Information Report (PEIR) and a Supplementary Information Report to the PEIR that has been produced for the new proposals. These documents will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Hard copies will be available to view and the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period (subject to any changes to library opening hours: please check with libraries directly or via their website in case of changes to normal opening times):

EU taxonomy rules sweep shipping into their wake

EUROPEAN SHIPPING REGULATORS are being asked to reconsider barring vessels carrying fossil fuels from qualifying with the bloc's taxonomy regulation, with shipowners arguing that it could exclude the region's banks from financing their assets.

Banks, financial services and some shipowners must report to national authorities whether their investments and businesses align with the European Union's sustainability goals under taxonomy rules, which entered into force in July 2020.

For banks, this includes gathering technical data and other disclosures from the shipping companies they finance, with additional screening from July 2023.

Bigger shipowners with more than 250 employees also must disclose how their turnover, capital expenditure and operating expenses align to the framework and how they aim to improve over 10 years.

The classification system for sustainable economic activities covers 13 sectors including maritime transport, and will soon sweep shipping into its wake, a Maritime Cyprus panel heard.

"Give us the tools to make investments and seek financing," said Konstantinos Adamopoulos, the chief investment officer of Safe Bulk, whose fleet of bulk carriers does not qualify as a sustainable investment under the taxonomy. "If you make it harder for EU-based shipping companies get the [money] for their transitional investment then they will seek finance elsewhere," he added.

Fotini Ionannidou, from the European Commission's directorate general for transport (DG-MOVE), was on the panel and listened to

Nakilat pledges secure energy transport as profit increases

NAKILAT, the Qatari company that owns world's largest liquefied natural gas fleet, has boosted profit by way of strategic expansion of its fleet and the improved performance of its shipyard joint ventures.

Third-quarter net profit was QR1.1bn (\$311.9m), a 13.2% increase year on year, according to a statement.

"High European Union LNG demand and consequent investments in LNG exports and imports projects are expected to boost vessel requirements," the

company said in an investor presentation. It was positive on the market outlook.

Total revenue in the three months ending September 30 rose 6.3% to QR3.26bn, while earnings before interest, taxes, depreciation and amortisation increased 7.5% to QR2.64bn.

Section 48 Planning Act 2008
Regulation 4 The Infrastructure Planning (Applications: Prescribed Forms and Procedure)
Regulations 2009

RAMPION 2 OFFSHORE WIND FARM
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)

Notice was given in 14th July 2021 that Rampion Extension Development Limited (“RED”) (**‘the Applicant’**) of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order (**‘DCO’**) for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 (**‘Rampion 2’**).

Following the notice, the Applicant undertook consultation in accordance with the Planning Act 2008 and the Infrastructure Planning (Applications: Prescribed forms and Procedure) Regulations 2009 (‘Statutory Consultation’) between 14 July and 16 September 2021 which was then re-opened for a period between 7 February and 11 April 2022.

In considering the responses to the Statutory Consultation, and its further environmental assessment and engineering works, the Applicant has identified a number of alternative and modified cable route and additional access options and potential locations for new working areas and methods which are located beyond or within the previously identified onshore cable corridor. The proposed changes can be seen on plans that can be found at www.rampion2.com/consultation from 18th October to 29th November 2022. To ensure that all parties with an interest in the works and/or land affected are consulted on the proposals the Applicant is now undertaking further Statutory Consultation informed by a Preliminary Environmental Supplementary Information Report (PEIR SIR). The Applicant proposes to make an application for a DCO for Rampion 2 once it has finalised its proposals, having regard to the responses to this further Statutory Consultation.

The Project

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area adjacent to the existing Rampion Offshore Wind Farm. Export cables from the offshore array area will make landfall at Climping, West Sussex. The onshore elements of the proposal comprise a transmission cable route running from the landfall at Climping to a new project substation at the Oakendene site, near Cowfold, Horsham District. The cable route then connects to the existing National Grid Bolney Substation in Twineham, Mid Sussex where the project will be connected to the national electricity transmission system.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 90 offshore wind turbines and associated foundations
- Construction of up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation at the Oakendene site, near Cowfold, West Sussex. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;

- The construction and operation of an onshore substation at the Oakendene site;
- Underground cables between the new Oakendene substation and the existing Bolney substation to connect the offshore wind farm to the national electricity transmission network;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis; and
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement. Accordingly, the Applicant made preliminary environmental information available as part of the initial Statutory Consultation and is also making available supplementary environmental information as part of this further Statutory Consultation.

This further Statutory Consultation on the Rampion 2 Wind Farm will begin on **18th October 2022** and end on **29th November 2022**. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include the Consultation Booklet, the consultation response form, the previously published Preliminary Environmental Information Report (PEIR) and a Supplementary Information Report to the PEIR that has been produced for the new proposals. These documents will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Hard copies will be available to view and the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period (subject to any changes to library opening hours: please check with libraries directly or via their website in case of changes to normal opening times):

Location	Address	Opening hours
Ferring Library	The Street, Ferring, BN12 5HL	Monday, Tuesday, Thursday & Saturday - 9am-1pm Wednesday & Friday 1pm-5pm
Littlehampton Library	Maltravers Road, Littlehampton, BN17 5NA	Monday - Friday 10am-6pm Saturday 10am-4pm
Bognor Regis Library	London Road, Bognor Regis, PO21 1DE	Monday - Friday 9.30am-6pm Saturday 9.30-5pm
Storrington Library	Ryecroft Lane, Storrington, RH20 4PA	Monday-Friday - 9am-5pm Saturday 10am-4pm
Henfield Library	Off High Street, Henfield, BN5 9HN	Monday - Friday 10am-5pm Saturday - 10am-2pm
Arundel Library	Surrey Street, Arundel, BN18 9DT	Monday - Wednesday 1pm- 5pm Thursday - Saturday 9am- 1pm
Steyning Library	Church Street, Steyning, BN44 3YB	Monday-Friday - 10am-5pm Saturday 10am – 2pm

Copies of the consultation documents on a USB drive will be provided free of charge on request at these libraries, subject to availability. Requests for reproduction of any of these consultation materials in a hardcopy paper format may be subject to a fee based on the number of pages required, and subject to the specifications of the request.

The consultation documents will also be available for inspection free of charge at community drop-in events during the consultation period. Members of the project team will be available to discuss the project and answer questions about the potential alterations and modifications to the onshore proposals and the further Statutory Consultation. Events are taking place at the following locations and times:

Venue	Date	Time
Arundel Town Hall Atherley Chamber Maltravers St, Arundel BN18 9AP	Tuesday, 1 st November 2022	1:00pm – 8:00pm
Arun Yacht Club Riverside West, Rope Walk, Littlehampton BN17 5DL	Wednesday, 2 nd November 2022	1:00pm – 8:00 pm
Ashurst Village Hall The Street Ashurst, Steyning BN44 3AP	Friday 11 th November 2022	1:00pm – 8:00pm
Washington Village Memorial Hall School Lane, Washington, RH20 4AP	Saturday 12 th November 2022	1:00pm – 8:00pm

Hard copies of the consultation materials (which may be subject to a fee), or translation of materials to another language, large print, audio or braille format may be requested, and other enquiries in respect of these materials may be raised, during the consultation period using the email address, telephone number or 'Contact us' form on the project website provided below:

- Email: rampion2@rwe.com
- Freephone number: 0800 2800 886
- Project website: www.rampion2.com

Responses to or other representations in respect of the proposed changes to Rampion 2 should be submitted to the Applicant via the consultation feedback form on the project website www.rampion2.com/consultation. Consultation responses may also be received by email to

rampion2@rwe.com or in writing to the Applicant at: "FREEPOST: Rampion 2" stating the grounds of the response or representation. Any response or representation in respect of the proposed Development Consent Order must be received by the Applicant **no later than 23:59 on 29th November 2022**. We cannot guarantee that responses sent to any other addresses will be considered.

Details of responses and other representations will be made public at a later date, however details or comments will not be attributed to any individual.

PUBLIC NOTICES

ENVIRONMENT AGENCY
SALMON AND FRESHWATER FISHERIES ACT 1975
LIMITATION OF LICENCES IN THE YORKSHIRE AND NORTH EAST COASTAL SEA TROUT NET FISHERY

Notice is hereby given that it is the intention of the Secretary of State for Environment, Food and Rural Affairs to confirm an Order made by the Environment Agency under section 26 of the above Act.

The Order will limit the number of licences to be allocated in any year for fishing for migratory (sea) trout with T or J nets in the specified area.

A copy of the Order may be obtained, free of charge, on application to the Environment Agency from the address given below, or from <https://consult.environment-agency.gov.uk/north-east/north-east-coast-limitation-of-net-licences-order> [consult.environment-agency.gov.uk]

Any objection to the confirmation of the Order should be made in writing and addressed to Migratory & Freshwater Fisheries, Department for Environment, Food and Rural Affairs, 1st Floor, 2 Marsham Street, London, SW1P 4DF or made by email to freshwater.fish@defra.gov.uk to be received not later than Friday 25 October 2022.

Copies of any responses may be made public. The information contained may also be published in a summary of responses. If you do not consent to this, you must clearly request that your response be treated confidentially. Any confidentiality disclaimer generated by your IT system in e-mail responses will not be treated as such a request. You should also be aware that there may be circumstances in which Defra will be required to communicate information to third parties on request, in order to comply with its obligations under the Freedom of Information Act 2000 and the Environmental Information Regulations 2004.

NOTIFICATION AND PUBLICATION OF AN EIA DECISION AND REGULATORY DECISION
EIA CONSENT DECISION AREA 481 AGGREGATE EXTRACTION

The Marine Management Organisation (MMO) has carried out an Environment Impact Assessment (EIA) under the Marine Works (EIA) Regulations 2007 (as amended) ("the Regulations") in relation to the Aggregate Dredge Area 481 (case references MLA/2020/00517 and MLA/2020/00519), to be carried out by Van Oord UK Limited and Tarmac Marine Limited. In accordance with Regulation 22 of the Regulations, the MMO has decided to grant EIA consent for the project on 30 September 2022 subject to certain conditions being imposed. Full details of the decision, including the environmental information taken into consideration, the main reasons and considerations on which the EIA consent decision was based, and the conditions attached to the consent can be found at https://marinelicensing.marinemanagement.org.uk/mmofox5/fox/live/MMO_PUBLIC_REGISTER

This information may also be inspected free of charge during normal working hours at the MMO's office (a charge may be made for copies of data provided). Requests to inspect such information should be directed to: Marine Licensing Team, Marine Management Organisation, Lancaster House, Hampshire Court, Newcastle upon Tyne, NE4 7YH
 Tel: 0300 123 1032 Email: marine.consents@marinemanagement.org.uk

The Marine Works (EIA) Regulations 2007 (as amended) transposed, in relation to marine works, the EIA Directive 2011/92/EU ("the Directive").

Effect of EIA Decision on the Regulatory Decision

Following the above EIA consent decision in accordance with Regulation 24 of the Regulations, the MMO has decided to grant marine licences for Aggregate Dredging at Area 481 under the Marine and Coastal Access Act 2009 on 30 September 2022, subject to certain conditions being imposed. Full details of the decision, including the environmental information taken into consideration, the main reasons and considerations on which the Regulatory Decision was based and the conditions attached to the consent can be found at https://marinelicensing.marinemanagement.org.uk/mmofox5/fox/live/MMO_PUBLIC_REGISTER

This information may also be inspected free of charge during normal working hours at the MMO's office (a charge may be made for copies of data provided). Requests to inspect such information should be directed to: Marine Licensing Team Marine Management Organisation Lancaster House Hampshire Court Newcastle upon Tyne NE4 7YH

PUBLIC NOTICE

SECTION 48 PLANNING ACT 2008 REGULATION 4 THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009

RAMPION 2 OFFSHORE WIND FARM NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO)

Notice was given in 14th July 2021 that Rampion Extension Development Limited ("RED") ('the Applicant') of Greenwood House, Westwood Way, Westwood Business Park, Coventry, CV4 8PB proposes to apply to the Secretary of State under Section 37 of the Planning Act 2008 for a Development Consent Order ('DCO') for the construction, maintenance, operation and decommissioning of an offshore wind farm known as Rampion 2 ('Rampion 2').

Following the notice, the Applicant undertook consultation in accordance with the Planning Act 2008 and the Infrastructure Planning (Applications: Prescribed forms and Procedure) Regulations 2009 ('Statutory Consultation') between 14 July and 16 September 2021 which was then re-opened for a period between 7 February and 11 April 2022.

In considering the responses to the Statutory Consultation, and its further environmental assessment and engineering works, the Applicant has identified a number of alternative and modified cable route and additional access options and potential locations for new working areas and methods which are located beyond or within the previously identified onshore cable corridor. The proposed changes can be seen on plans that can be found at www.rampion2.com/consultation from 18th October to 29th November 2022. To ensure that all parties with an interest in the works and/or land affected are consulted on the proposals the Applicant is now undertaking further Statutory Consultation informed by a Preliminary Environmental Supplementary Information Report (PEIR SIR). The Applicant proposes to make an application for a DCO for Rampion 2 once it has finalised its proposals, having regard to the responses to this further Statutory Consultation.

The Project

Rampion 2 will have a proposed generating capacity in excess of 100 MW, and will be located around 13km from the Sussex coast at its nearest point. The proposed wind turbines and offshore substations will be constructed within an offshore array area adjacent to the existing Rampion Offshore Wind Farm. Export cables from the offshore array area will make landfall at Climping, West Sussex. The onshore elements of the proposal comprise a transmission cable route running from the landfall at Climping to a new project substation at the Oakendene site, near Cowfold, Horsham District. The cable route then connects to the existing National Grid Bolney Substation in Twineham, Mid Sussex where the project will be connected to the national electricity transmission system.

The proposed development consent order will, amongst other things, licence and authorise:

- The construction, operation and maintenance of up to 90 offshore wind turbines and associated foundations
- Construction of up to three offshore substations;
- Cables laid on or beneath the seabed between the wind turbines and offshore substations and between the substations themselves;
- Export cables to transmit electricity from the offshore substations to the shore;
- A landfall located at Climping Beach using Horizontal Directional Drilling installation, with transition joint bays to connect the offshore and onshore cables;
- Onshore underground cables with jointing pits to transmit electricity to a new onshore substation at the Oakendene site, near Cowfold, West Sussex. It is expected that the onshore cables will be laid within a corridor, the majority of which shall have a temporary working width of up to 50m;
- The construction and operation of an onshore substation at the Oakendene site;
- Underground cables between the new Oakendene substation and the existing Bolney substation to connect the offshore wind farm to the national electricity transmission network;
- The permanent compulsory acquisition of land and/or rights for the Project, where required;
- Overriding of easements and other rights over or affecting land as required for the Project;
- The application and/or disapplication of legislation relevant to the Project including inter alia legislation relating to compulsory purchase;
- If required, the closure and diversion of public rights of way and streets on a temporary and permanent basis; and
- Such ancillary, incidental and consequential provisions, permits or consents as are necessary and/or convenient.

Rampion 2 is an EIA development for the purposes of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed development requires an Environmental Impact Assessment and the proposed application for a DCO will therefore be accompanied by an Environmental Statement. Accordingly, the Applicant made preliminary environmental information available as part of the initial Statutory Consultation and is also making available supplementary environmental information as part of this further Statutory Consultation.

This further Statutory Consultation on the Rampion 2 Wind Farm will begin on **18th October 2022** and end on **29th November 2022**. During this time copies of the consultation materials comprising documents, plans and maps showing the nature and location of the proposal will be made available. These include the Consultation Booklet, the consultation response form, the previously published Preliminary Environmental Information Report (PEIR) and a Supplementary Information Report to the PEIR that has been produced for the new proposals. These documents will be available for inspection, free of charge, on the project website www.Rampion2.com/consultation. Hard copies will be available to view and the materials may also be inspected on computers accessible to the public at the following libraries during the consultation period (subject to any changes to library opening hours: please check with libraries directly or via their website in case of changes to normal opening times):

Location	Address	Opening hours
Ferring Library	The Street, Ferring, BN12 5HL	Monday, Tuesday, Thursday & Saturday 9:00am-1:00pm Wednesday & Friday 1:00pm-5:00pm

Bognor Regis Library	London Road, Bognor Regis, PO21 1DE	Monday - Friday 9:30am-6:00pm Saturday 9:30-5:00pm
Storrington Library	Ryecroft Lane, Storrington, RH20 4PA	Monday-Friday 9:00am-5:00pm Saturday 10:00am-4:00pm
Henfield Library	Off High Street, Henfield, BN5 9HN	Monday - Friday 10:00am-5:00pm
Arundel Library	Surrey Street, Arundel, BN18 9DT	Monday - Wednesday 1pm-5pm Thursday - Saturday 9am-1pm
Steyning Library	Church Street, Steyning, BN44 3YB	Monday-Friday - 10am-5pm Saturday 10am - 2pm

Copies of the consultation documents on a USB drive will be provided free of charge on request at these libraries, subject to availability. Requests for reproduction of any of these consultation materials in a hardcopy paper format may be subject to a fee based on the number of pages required, and subject to the specifications of the request.

The consultation documents will also be available for inspection free of charge at community drop-in events during the consultation period. Members of the project team will be available to discuss the project and answer questions about the potential alterations and modifications to the onshore proposals and the further Statutory Consultation. Events are taking place at the following locations and times:

Venue	Date	Time
Arundel Town Hall Atherley Chamber Maltravers St, Arundel BN18 9AP	Tuesday, 1st November 2022	1:00pm - 8:00pm
Arun Yacht Club Rope Walk Riverside West Littlehampton BN17 5DL	Wednesday, 2nd November 2022	1:00pm - 8:00 pm
Ashurst Village Hall The Street Ashurst, Steyning BN44 3AP	Friday 11th November 2022	1:00pm - 8:00pm
Washington Village Memorial Hall School Lane, Washington, RH20 4AP	Saturday 12th November 2022	1:00pm - 8:00pm

Hard copies of the consultation materials (which may be subject to a fee), or translation of materials to another language, large print, audio or braille format may be requested, and other enquiries in respect of these materials may be raised, during the consultation period using the email address, telephone number or 'Contact us' form on the project website provided below:

- Email: rampion2@rwe.com
- Freephone number: 0800 2800 886
- Project website: www.rampion2.com

Responses to or other representations in respect of the proposed changes to Rampion 2 should be submitted to the Applicant via the consultation feedback form on the project website www.rampion2.com/consultation. Consultation responses may also be received by email to rampion2@rwe.com or in writing to the Applicant at: "FREEPOST: Rampion 2" stating the grounds of the response or representation. Any response or representation in respect of the proposed Development Consent Order must be received by the Applicant **no later than 23:59 on 29th November 2022**. We cannot guarantee that responses sent to any other addresses will be considered.

Details of responses and other representations will be made public at a later date, however details or comments will not be attributed to any individual.
