1. Viewpoint directory

1.1 Introduction

1.1.1 This Appendix provides a complete directory of all the viewpoints used to inform the Landscape and Visual Impact Assessment (LVIA) of the onshore elements of the Proposed Development.

1.2 Viewpoint directory

1.2.1 The viewpoint directory includes:

- Viewpoints selected for the onshore substation options, landfall and onshore cable corridor at the Scoping stage (Rampion Extension Development Limited (RED), 2020);
- Viewpoints selected for the onshore substation options, landfall and onshore cable corridor in the Preliminary Environmental Information Report (PEIR) (RED, 2021) published as part of the first Statutory Consultation exercise in 2021;
- Viewpoints recommended for inclusion through the consultation process (including both non-statutory and statutory consultation);
- Viewpoints selected for the ES related to the onshore substation at Oakendene;
- Viewpoints selected for the ES related to the existing National Grid Bolney substation extension; and
- Viewpoints selected for the ES related to the landfall and onshore cable corridor.

1.2.2 The viewpoint directory includes all those viewpoints which have been deleted / relocated and / or suggested as new or alternative viewpoint locations through the consultation, design and assessment process.

1.2.3 The viewpoint directory should be read in conjunction with **Figures 18.2 to 18.4a-c, Volume 3** of the ES (Document Reference: 6.3.18), which indicate the locations of all viewpoints included in the directory.

Page intentionally blank

Table 1-1 Viewpoint Directory

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
Oakendene substation viewpoints			
Figure 18.10, Volume 3 (Document Reference: 6.3.18)	SA1: Kent Street	523166, 122139	Illustrative – road users. Partial views are likely, subject to perimeter vegetation screening.
Figure 18.11, Volume 3 (Document Reference: 6.3.18)	SA2: A272	523191, 122767	Illustrative – road users. Partial views are likely, subject to perimeter vegetation screening.
Figure 18.12 Volume 3 (Document Reference: 6.3.18)	SA3: PRoW 1786, Taintfield Wood	522925, 122068	Illustrative – footpath users. Open views across Oakendene Substation are possible from elevated location to the south.
N/A	SA4: PRoW 1775 Eastlands Farm, Cowfold	521838, 122038	Representative – Residents, footpath users. Omitted, substation and cable corridor not visible due to vegetation screening.
N/A	SA5: PRoW 1730 between Dragons and Crateman's Farms	521640, 121178	Representative – residents, footpath users. Omitted, substation and cable corridor not visible due to vegetation screening. Note: viewpoint located on temporary construction access (A-58).

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
N/A	SA6: PRoW 1750 north of Aglands	522362, 124049	Illustrative – footpath users within High Weald AONB. Omitted, substation and cable corridor not visible due to vegetation screening.
Figure 18.13, Volume 3 (Document Reference: 6.3.18)	SA7: PRoW 1788 southwest of Site, west of Taintfield Wood	522569, 122111	Illustrative – footpath users. Open views across the onshore substation (and temporary construction compound) are possible from this elevated location to the south.
Figure 18.14, Volume 3 (Document Reference: 6.3.18)	SA8: PRoW 1789 north of Eastridge Farm	524012, 122108	Illustrative – footpath users. Little to no visibility of the onshore substation search area due to vegetation screening. However, there may be views during construction of the onshore cable corridor.
Existing National Grid Bolney substation extension viewpoints			
Figure 18.15, Volume 3 (Document Reference: 6.3.18)	SB1: PRoW 34Bo south of Coombe House	524836, 121321	Representative – footpath users on PRoW T1 and 34Bo. Partial views are likely, subject to perimeter vegetation screening. Location Re-photographed.
N/A	SB2: Bolney Chapel Road	525518, 121273	Representative – residents and road users. Omitted, substation option not taken forward and cable corridor not visible.
Figure 18.16, Volume 3 (Document Reference: 6.3.18)	SB3: Wineham Lane	523995, 121576	Representative – footpath users and road users. Open view of cable corridor and trenchless crossing construction compound.

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
N/A	SB4: PRoW 32B, Nyeshill Farm	524352, 121880	Representative – residents. Omitted, substation option not taken forward and cable corridor not visible.
N/A	SB5: Hickstead Lane	526278, 120215	Representative – residents and road users. Omitted, substation extension and cable corridor not visible.
Figure 18.17, Volume 3 (Document Reference: 6.3.18)	SB6: PRoW 8T	524712, 121151	Illustrative – footpath users. Open views into the substation extension and cable corridor.
Figure 18.18, Volume 3 (Document Reference: 6.3.18)	SB7: Bob Lane	524060, 120736	Illustrative of road users of Bob Lane.
N/A	SB8: Twineham Grange Farm	524568, 120636	Representative – residents and road users. Omitted, substation extension and cable corridor not visible.
Wineham Lane substation search area viewpoints			
N/A	SC1: Royal Oak, Wineham Lane	523562, 120524	Omitted; Relevant for substation search area option C which was not taken forward.
N/A	SC2: PRoW 14T between Wineham Lane and Grovelands Farm	523723, 120156	Omitted; Relevant for substation search area option C which was not taken forward.

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
N/A	SC3: Twineham Grange Cottages, Bob Lane	524592, 120633	Omitted; Relevant for substation search area option C which was not taken forward.
N/A	SC4: Twineham	524904, 119995	Omitted; Relevant for substation search area option C which was not taken forward.
N/A	SC5: PRoW 1775 Eastlands Farm, Cowfold	521821 122041	Omitted; Relevant for substation search area option C which was not taken forward.
N/A	SC6: PRoW 14T between Grovelands Farm and Twineham Grange	524149 120197	Omitted; Relevant for substation search area option C which was not taken forward.
N/A	SC7: Bob Lane, northwest of Site	523711 120916	Omitted; Relevant to substation search area option C which was not taken forward.
Onshore cable corridor viewpoints			
Figure 18.19, Volume 3 (Document Reference: 6.3.18)	A: PRoW 829 Climping Beach	500921, 100912	Representative – walkers, visitors, footpath users and residents. First opportunity to view onshore cable corridor from open coastal area with open views inland and out to sea.
Figure 18.20, Volume 3	B: PRoW 168, Climping Caravan Park	500973, 102254	Representative – walkers, local residents and caravan park users. Viewpoint located on open footpath and able to view across the Arundel Park

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
(Document Reference: 6.3.18)			valley in comparison to roadside and resident- based receptors which are screened by existing tree cover.
Figure 18.21, Volume 3 (Document Reference: 6.3.18)	B1: Church Lane, Climping	500371, 102214	Representative – road users, local residents and footpath users. Partial views of temporary construction compound. No visibility of onshore cable corridor.
Figure 18.22, Volume 3 (Document Reference: 6.3.18)	C: A259, Littlehampton	501582, 103044	Specific – road users. Specific viewpoint located on the A259 bridge over the railway providing a glimpsed, elevated view over the Arundel valley and the proposed river crossing point.
Figure 18.23, Volume 3 (Document Reference: 6.3.18)	C1: Benjamin Grey Drive, Littlehampton	501536, 103601	Illustrative – residents. Partial views of part of the onshore cable corridor along the River Arun.
Figure 18.24, Volume 3 (Document Reference: 6.3.18)	D: Ford Road, near Tortington	500574, 105380	Specific – road users. The viewpoint represents an open / glimpsed and relatively long-range view from the road across the Arundel valley, taking in Arundel Castle (not shown in the illustrated view) and the urban edge of Littlehampton as well as part of the onshore cable corridor. Other receptor locations along this road and at residential properties are screened. Views from the riverside although open are experienced by fewer receptors.
Figure 18.25, Volume 3	E: Arundel Castle (The Keep)	501836, 107371	Specific – visitors. Located within the South Downs National Park (SDNP). The viewpoint is at the highest, publicly accessible point on the

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
(Document Reference: 6.3.18)			castle (The Keep), viewing across the Arundel Valley and is a view that large numbers of tourists will experience.
Figure 18.26, Volume 3 (Document Reference: 6.3.18)	E1a: Arundel Park	501954, 109234	Specific – visitors and walkers. Located within the SDNP. The viewpoint is sited at the trig point within Arundel Park viewing across the Arundel Valley and into the South Downs hills above Wepham.
Figure 18.27, Volume 3 (Document Reference: 6.3.18)	E1b: PRoW 2266 near Offham Farm, Arundel	503069, 108625	Illustrative – walkers. Located within the SDNP. The Views across the Arundel Valley and into the South Downs hills above Wepham. There is no visibility of the onshore elements of the Proposed Development from this location, but it has been retained to illustrate the landscape character in this area.
N/A	F: Wepham Down PRoW 2191	506075, 110412	Specific – walkers. Located within the SDNP at a junction of PRoWs where walkers may pause to admire the view south and across the interior of the South Downs hills. Omitted relevant to a route option that was not taken forward, the viewpoint receptor type is represented by F1.
Figure 18.28, Volume 3 (Document Reference: 6.3.18)	F1: PRoW 2191_2, Barpham Hill	506341, 110057	Illustrative - walkers. Located within the SDNP to the south of the onshore cable corridor viewing north from the hill / hillside potentially able to view north and south as well as across the onshore cable corridor.
N/A	F2: North of Harrow Hill	508338, 110980	Omitted. Illustrative – walkers. Excluded viewpoint in favour of LD1 and F3 viewpoints.

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
Figure 18.29, Volume 3 (Document Reference: 6.3.18)	F3: PRow 2173 North of Blackpatch Hill	509053, 110741	<p>Illustrative – walkers. Located within the SDNP on PRow 2173 to the north of Blackpatch Hill approximately 1km south of the onshore cable corridor.</p> <p>Location Re-photographed.</p>
N/A	F4: Peppering Lane north of Burpham	504181, 109514	<p>Illustrative – road users. Located within the SDNP north of Burpham viewing east along Coombe Lane towards Perry Hill. Omitted; relevant route option not taken forward and outwith ZTV for Proposed Development.</p>
N/A	F5: PRow 2221 / 2226, southeast of Wepham	504753, 108265	<p>Illustrative – walkers. Located within the SDNP at a junction of two footpaths southeast of Wepham viewing northwest. Omitted; relevant to a route option that was not taken forward and Proposed Development not visible due to landform and vegetation screening.</p>
Figure 18.30, Volume 3 (Document Reference: 6.3.18)	G: Chantry Hill	508706, 111942	<p>Specific – walkers. Located on the South Downs Way (SDW) within the SDNP at a footpath junction with long views from the edge of the chalk escarpment. This location is also identified as a landmark viewpoint in the Land Use Consultants (2015) South Downs National Park View Characterisation and Analysis (Viewshed Study Report). Additional sequential views (Figure 18.76, Volume 3 (Document Reference: 6.3.18) along the route of the SDW include stakeholder requested viewpoints from Springhead Hill; Rackham Hill; and Amberly Mount. The assessment confirms Negligible-Zero visibility and they have been illustrated at a reduced A3 scale for that reason.</p>

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
Figure 18.31, Volume 3 (Document Reference: 6.3.18)	H: Washington	512207, 113133	Illustrative – residents. Located within the SDNP on London Road viewing west, north and east from the northeast of the settlement edge across open space with community uses.
Figure 18.32, Volume 3 (Document Reference: 6.3.18)	H1: Junction of The Pike and A283, Washington	512379, 113053	Specific – road users. Located on the edge of the SDNP at the junction of The Pike and the A283 with partial views towards the temporary construction compound along the onshore cable corridor.
Figure 18.33, Volume 3 (Document Reference: 6.3.18)	H1a. A248 Lyminster Road/ footpath northeast corner of Brookside Caravan Park	502536, 104511	Illustrative – walkers. Located at the junction of the A248 and footpath at the northeast corner of Brookside Caravan Park.
N/A	H1b. A248 Lyminster Road/ footpath east of Brookside Caravan Park	502574, 104422	Representative of open view experienced by walkers/residents. Omitted in preference of H1a and H1c.
Figure 18.34, Volume 3 (Document Reference: 6.3.18)	H1c. Footpath south of Lyminster Nursery Caravan & Motorhome Site	502792, 104638	Representative view experienced by road users/walkers.

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
N/A	H1d. Footpath south east of Lyminster Nursery Caravan & Motorhome Site	502818, 104670	Representative view experienced by walkers/residents. Omitted in preference of H1a.
Figure 18.35, Volume 3 (Document Reference: 6.3.18)	H1e. PRow 2202/1 north of Calceto Lane	502899, 105707	Representative view experienced by walkers / residents. A248 Lyminster Road on corner NE of Lyminster -- relocated to PRow 2202/1 north of Calceto Lane.
Figure 18.36, Volume 3 (Document Reference: 6.3.18)	H2a. PRow 2200 east of Poling Street	504618, 105483	Representative view experienced by road users/residents. Minor road off Poling Street leading to Westlands Copse -- relocated to top of footpath PRow 2200 as a result of consultation.
Figure 18.37, Volume 3 (Document Reference: 6.3.18)	H2b. Bridleway junction west of Poling	504064, 104739	Representative view experienced by walkers and horse riders. Footpath locations closer to the cable corridor were closed due to the Lyminster Bypass road construction.
Figure 18.38, Volume 3 (Document Reference: 6.3.18)	H2c. west of Decoy Wood	505558, 105235	Representative view experienced by walkers. Proposed Development would be screened by vegetation and is part of a series of viewpoints (H2c and WS3) used to illustrate the extent of visibility and the effect of hedgerow screening in the landscape – see preferred viewpoint WS3 (Figure 18.75).
N/A	H2d. Footpath east of Polling	N/A (not photographed)	Representative view experienced by walkers.

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
			Part of a series of viewpoints (H2c and WS3) used to illustrate the extent of visibility and the effect of hedgerow screening in the landscape. There would be no view from this location.
Figure 18.39, Volume 3 (Document Reference: 6.3.18)	H3a. Footpath near Newplace Farm	506289, 105487	Illustrative view experienced by walkers.
N/A	H4. Hammerpot	N/A (not photographed)	Note: locations at Hammerpot and public right of way (PRoW) north of Hammerpot screened by hedgerows / woodland and therefore scoped out.
Figure 18.40, Volume 3 (Document Reference: 6.3.18)	H5a. Footpath off Swillage Lane	507086, 105961	Representative view experienced by road users/walkers
N/A	H5b. Field gate on Swillage Lane	507158, 106044	Representative view experienced by road users/residents Omitted in preference for H5a.
Figure 18.41, Volume 3 (Document Reference: 6.3.18)	H6a. Footpath south of Angmering Park Stud Farm	506747, 106915	Illustrative view experienced by walkers.
N/A	H6b. Angmering Park Stud Farm	506671, 107334	Illustrative view from residents. Omitted in preference for H6a.

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
Figure 18.42, Volume 3 (Document Reference: 6.3.18)	H7a. Michelgrove on Monarch's Way	508345, 108537	Representative view experienced by walkers / residents.
Figure 18.43, Volume 3 (Document Reference: 6.3.18)	H7b. Harrow Hill bridleway	507782, 109498	Representative view experienced by walkers and horse riders. Location Re-photographed.
Figure 18.44, Volume 3 (Document Reference: 6.3.18)	H7c. Upper Barpham bridleway	506705, 108829	Representative view experienced by walkers/horse riders and residents.
Figure 18.45, Volume 3 (Document Reference: 6.3.18)	H7d. Blackpatch Hill bridleway	509569, 109653	Representative view experienced by walkers and horse riders.
N/A	H7e. Longfurlong Farm	509448, 108784	Representative view experienced by walkers and horse riders. Omitted, Proposed Development screened by vegetation / landform, although just within ZTV.
Figure 18.46, Volume 3 (Document Reference: 6.3.18)	H7f. New Barn/New Buildings	510 714, 110256	Illustrative view experienced by residents.

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
Figure 18.47, Volume 3 (Document Reference: 6.3.18)	H7g. Byway at Highden Beeches north of Cobden Farm	510238, 111191	Representative view experienced by walkers and horse riders/others on the Byway.
Figure 18.48, Volume 3 (Document Reference: 6.3.18)	H7h. Barnsfarm Hill, South Downs Way	510067, 111835	Specific view experienced by walkers. Location Re-photographed.
N/A	H8. Footpath east of Clay Lane, Warningcamp	504114, 106733	Representative view experienced by walkers/residents. Omitted; relevant route option not taken forward and viewpoint outwith ZTV for Proposed Development.
N/A	H9. Blakehurst Lane / Farm	504655, 106624	Representative view experienced by road users and residents. Omitted; relevant route option not taken forward and viewpoint outwith ZTV for Proposed Development.
N/A	H10a. Monarch's Way, east of Hill Barn	504833, 107546	Representative view experienced by walkers and horse riders. Omitted; relevant route option not taken forward and viewpoint screened by vegetation. Note viewpoint located on construction access route.
N/A	H10b. Monarch's Way, Upper Oldfield Copse	506088, 108087	Representative view experienced by walkers and horse riders. Omitted; relevant route option not taken forward and viewpoint screened by vegetation. Note viewpoint located on construction access route.
Figure 18.49, Volume 3 (Document Reference: 6.3.18)	I: Chanctonbury Ring / Hill	513431, 112055	Specific view experienced by walkers.

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
Figure 18.50, Volume 3 (Document Reference: 6.3.18)	J1: PRoW 2709 at All Saints Church, Wiston	514539, 113893	Specific view experienced by walkers
Figure 18.51, Volume 3 (Document Reference: 6.3.18)	J2: PRoW 2617 west of Abbots Farm	513961, 114212	Specific view experienced by walkers
N/A	J3	Not used.	
Figure 18.52, Volume 3 (Document Reference: 6.3.18)	J4: A283 at Lower Chancton Farm	513479, 113410	Illustrative view experienced by walkers and residents
Figure 18.53, Volume 3 (Document Reference: 6.3.18)	J5: PRoW 2604 Upper Chancton Farm	513051, 114384	Illustrative – footpath users. Located on a PRoW south of Upper Chancton Farm viewing south towards the temporary construction compound. No visibility of the onshore cable corridor.
N/A	J6: Chanctonbury Ring road	514388, 113421	Specific – Omitted; relevant route option (Windmill Quarry B) not taken forward and viewpoint screened by vegetation with no views from Chanctonbury Ring road.
Figure 18.54, Volume 3 (Document Reference: 6.3.18)	K: PRoW 2519 at Ashurst	518494, 116189	Representative – walkers and residents. Located on a PRoW east of the edge of Ashurst viewing back towards the settlement across the onshore cable corridor to the north and south.

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
Figure 18.55, Volume 3 (Document Reference: 6.3.18)	K1: PRow 2594 near College Wood	516563, 114605	Representative – walkers and residents. Located on a PRow south of Spithandle Lane towards College Wood Farm.
Figure 18.56, Volume 3 (Document Reference: 6.3.18)	L: Downs Link between Henfield and Partridge Green	519819, 117806	Illustrative – walkers. The viewpoint is located on an open stretch of the multi-use National Cycle Route 223 and Downs Link near Brightham's Farm, avoiding cuttings and well wooded sections of the onshore cable corridor.
Figure 18.57, Volume 3 (Document Reference: 6.3.18)	M: High Weald, Landscape Trail (near Bolney)	526172, 123940	Representative – walkers, visitors and cyclists. The aim of this viewpoint is to provide a location within the High Weald AONB to the northeast of the onshore elements of Proposed Development. Much of this area is well wooded and views tended to be short range and channelled along roads / PRow and the ZTV is also fragmented. The viewpoint is located at the gap in a hedge close to the junction of two PRows that allows an elevated view over the landscape to the southwest.
Figure 18.58, Volume 3 (Document Reference: 6.3.18)	N: Devil's Dyke	525855, 111102	<p>Specific – walkers and visitors. Located beyond 5km from the onshore cable corridor within the SDNP. This location is identified as a landmark viewpoint in the Land Use Consultants (2015) South Downs National Park View Characterisation and Analysis (Viewshed Study Report) with promoted views particularly to the north and northwest, as also indicated on OS maps.</p> <p>Edburton Hill and Beeding Hill, also located beyond 5km, are excluded from the viewpoint assessment as the views from these locations towards the onshore cable corridor will be similar to those from Devil's Dyke.</p>

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
			However, they are referred to in the assessment for sequential visibility along the SDW.
Figure 18.59, Volume 3 (Document Reference: 6.3.18)	O: Cissbury Ring	513988, 108197	Specific – walkers and visitors. The viewpoint is located beyond 5km distance from the onshore cable corridor and visibility from the northern side of the hill is limited. This location is also identified as a landmark viewpoint in the Land Use Consultants (2015) South Downs National Park View Characterisation and Analysis (Viewshed Study Report).
N/A	P: Low Weald (A24, Ashington)	514562, 117507	Omitted. Site visits indicate no views from this location (beyond 3km) all year round due to the roadside vegetation and limited ZTV coverage.
Figure 18.60, Volume 3 (Document Reference: 6.3.18)	Q: Ferry Road, Sustrans Cycle Route 2	501526, 101917	Representative – road users and cyclists. Northern prospect from the road is open, viewing across the Arundel Valley (southern views towards the coast are screened by trees).
N/A	R: PRow 2207, North of St Mary Magdalene's Church	502262, 104876	Representative – walkers and residents. Located on a PRow close to the settlement edge and church outwith the SDNP but with views north (towards the SDNP boundary). Omitted; relevant route option not taken forward and viewpoint outwith ZTV.
N/A	S: A27, Arundel	502637, 106364	Illustrative – road users Omitted; relevant route option (Warningcamp A) not taken forward and viewpoint outwith ZTV.
N/A	S1: Warningcamp	503107, 107077	Illustrative – road users. Omitted; relevant route option (Warningcamp A) not taken forward and viewpoint outwith ZTV.

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
N/A	S2: Blakehurst Lane, Warningcamp	504627, 107136	Illustrative – road users. Omitted; relevant route option not taken forward and viewpoint outwith ZTV.
N/A	S3: Junction of Clay Lane and Blakehurst Lane	503809, 106769	Representative – road users and residents. Omitted; relevant route option not taken forward and viewpoint outwith ZTV.
N/A	S4: PRow 2202 Crossbush Lane	503278, 105930	Representative – footpath users and residents. Viewing across Warningcamp B cable corridor option. Omitted; relevant route option not taken forward and viewpoint outwith ZTV.
N/A	S5: PRow 2202_1 near Westlands Copse	503775, 105658	Illustrative – footpath users. Omitted; relevant route option not taken forward and views from this location towards the onshore cable corridor would be screened by vegetation.
Figure 18.61, Volume 3 (Document Reference: 6.3.18)	T: B2116, Partridge Green	519926, 119415	Illustrative – road users. Located on the B2116 between Partridge Green and Shermanbury looking east / southeast towards the onshore cable corridor.
Figure 18.62, Volume 3 (Document Reference: 6.3.18)	T1: PRow 2373, Partridge Green	519454, 118569	Illustrative – footpath users. Located on a PRow near the sewage works looking southeast towards the onshore cable corridor.
Figure 18.63, Volume 3	U: Highdown Hill	509224, 104342	Specific – walkers and visitors. The viewpoint is located beyond 5km distance from the onshore cable corridor where views are promoted particularly to the south. This location is also identified as a landmark

Figure number	Viewpoint name and number	Easting and Northing reference	GLVIA 3 Viewpoint type / receptor
(Document Reference: 6.3.18)			viewpoint in the Land Use Consultants (2015) South Downs National Park View Characterisation and Analysis (Viewshed Study Report).
N/A	V1: PRow 2382 off Fryland Lane	522930, 119753	Illustrative – footpath users and residents. Omitted; relevant route option (Wineham Lane North / South 1B) not taken forward and viewpoint outwith ZTV.
N/A	V2: PRow 2384 between Springlands and Oaklands Farm	522799, 119984	Illustrative – footpath users. Omitted; relevant route option (Wineham Lane North / South 1A) not taken forward and viewpoint outwith ZTV.
Figure 18.64, Volume 3 (Document Reference: 6.3.18)	W: PRow 1774 north of The Hangers	520750, 120074	Illustrative – footpath users. Located on a PRow off the A281 north of the Hangers viewing south towards the onshore cable corridor.
Figure 18.65, Volume 3 (Document Reference: 6.3.18)	X: Long Furlong	511020, 108681	Representative – road users and footpath users. Located on a PRow slightly elevated ground off the A280 viewing north towards the onshore cable corridor.
N/A	Y: PRow 2380, Wineham Caravan Park	523409, 120825	Omitted. Illustrative – footpath users / tourists. Omitted; relevant route option not taken forward and viewpoint outwith ZTV.
Figure 18.66, Volume 3 (Document Reference: 6.3.18)	LD1; PRow 2173, south of Chanty Post	508940, 111321	Illustrative view experienced by walkers, to be considered as an alternative to LD2 and/or viewpoint F3 (PEIR). (Note: The Open Access Land to the west does not appear to be accessed via a PRow).

1.3 Glossary of terms and abbreviations

Table 1-2 Glossary of terms and abbreviations

Term	Definition
Development Consent Order (DCO) Application	An application for consent to undertake a Nationally Significant Infrastructure Project made to the Planning Inspectorate who will consider the application and make a recommendation to the Secretary of State for Business, Energy and Industrial Strategy, who will decide on whether development consent should be granted for the Proposed Development.
Development Consent Order (DCO) Limits	The limits of the land to which the Application for the DCO relates, within which the Authorised Development must be carried out and which is required for its construction and operation, as shown on the Land Plan including Order Limits.
Environmental Impact Assessment (EIA)	The process of evaluating the likely significant environmental effects of a proposed project or development over and above the existing circumstances (or 'baseline').
Environmental measures	Measures which are proposed to prevent, reduce and where possible offset any significant adverse effects (or to avoid, reduce and if possible, remedy identified effects).
Environmental Statement (ES)	The written output presenting the full findings of the Environmental Impact Assessment.
Horizontal Directional Drill (HDD)	HDD is a process whereby a tunnel is drilled under an obstacle and a cable duct is pulled through the drilled underground tunnel. It avoids the need for trenches, and enables minimal disruption to routing cables through rivers, roads, drains and other obstacles.
Nationally Significant Infrastructure Project (NSIP)	Nationally Significant Infrastructure Projects (NSIP) are major infrastructure developments in England and Wales which are consented by DCO. These include proposals for offshore wind farms with an installed capacity greater than 100MW.
Preliminary Environmental Information Report (PEIR)	The written output of the Preliminary Environmental Impact Assessment undertaken for the Proposed Development. It was developed to support the first Statutory Section 42 Consultation exercise in July to September 2021. The PEIR presented the preliminary findings of the assessment to allow an informed view to be developed of the Proposed Development, the assessment approach that had been undertaken, and the preliminary conclusions on the likely significant effects of the Proposed Development and environmental measures proposed.

Term	Definition
Rampion 1	The existing Rampion Offshore Wind Farm located in the English Channel off the south coast of England.
RED	Rampion Extension Development Limited
Scoping Opinion	A Scoping Opinion is adopted by the Secretary of State for a Proposed Development.
Scoping Report	A report that presents the findings of an initial stage in the Environmental Impact Assessment process.
Secretary of State	The Secretary of State of Department for Energy Security and Net Zero oversees the planning system and decision making with regards to development consent for offshore wind farms. This agent works within the relevant government department relating to the application.
The Planning Inspectorate	The Planning Inspectorate deals with planning appeals, national infrastructure planning applications, examinations of local plans and other planning-related and specialist casework in England and Wales.
The Proposed Development	The development that is subject to the application for development consent, as described in Chapter 4: The Proposed Development, Volume 2 of the ES (Document Reference: 6.2.4).
WTG	Wind turbine generators
